***The Angels
of
Air***

Also known as

***The Angels
of
Kagaros***

Beloved,

***The longing within the heart of each being,
to flow with divine ecstatic emotions of living in
Paradise,
are fulfilled
as a person goes deep within***

*to his or her original purity, unity, and innocence
and
from there daydreams beautiful dreams
of perfection for all.*

**We help you shine lights of
creative thoughts and imaginations,
to generate living waters of tangible feelings in the
body of divine emotions,
in the Web of Life,
the Unified Field.**

**Emotional states are magnetic,
they are like zip files,
compressed information.**

**By flowing with emotional states of rapture and
ecstasy,
heavenly manifestations occur on the physical plane.**

Beautiful thoughts create beautiful emotions.

Thoughts are the element of air.

Therefore, we inspire purity of divine mind.

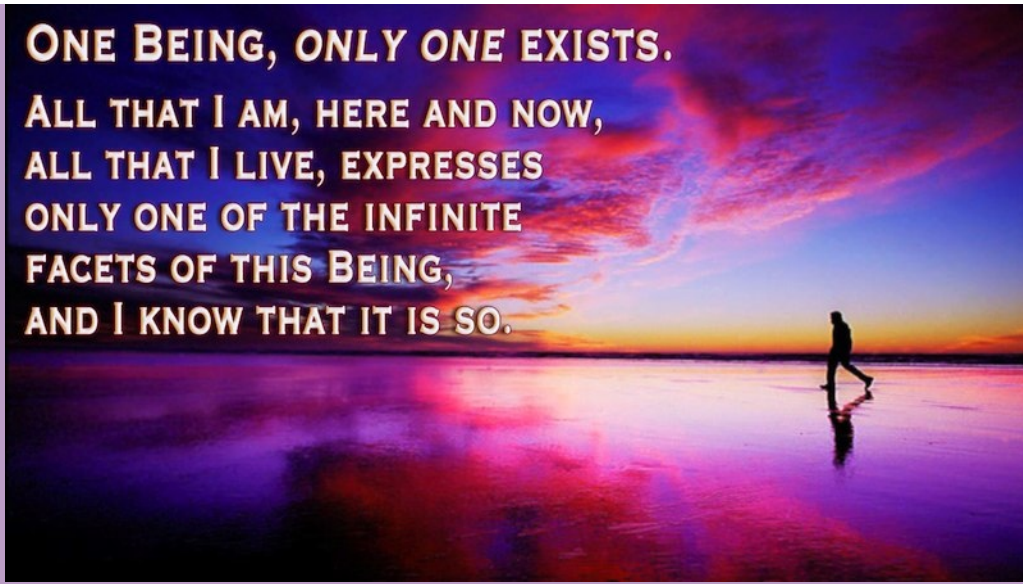

**Remember, by experiencing self as ONE with Divine
Being and all
creation,
in meditation,
original identification with divine omnipotence,
or divine intention,
which is divine will,
is
regained.**

Omnipotence and faith are the fire element.

Fire creates thoughts.

ONE BEING, ONLY ONE EXISTS.

**ALL THAT I AM, HERE AND NOW,
ALL THAT I LIVE, EXPRESSES
ONLY ONE OF THE INFINITE
FACETS OF THIS BEING,
AND I KNOW THAT IT IS SO.**

**Omnipotence is original infinite Divine Faith,
the faith that makes all things possible.**

**Because Divine Being is in all as all,
it is Divine Will that only the highest good of all,
for everyone,
and everything,
in every situation,
in every moment,
manifest
in all the ways and means of infinite diversity on every
level.**

**Because Earth is primarily a water planet,
it is most important that the emotional realm,
which codes the element of water,
be blissful for all.**

**The emotional realm is actually compressed
information from the mental realm.
We inspire thoughts and ideas of peacefulness of
the spirit and abundance for all.**

We are Angels of Air and of Mind.

Mind is the air element.

**Air is a step down transformer of the element of fire,
or intention.**

**Identification with Divine Being, that is omnipresent,
is experienced in
the deep Delta brainwave state of pure being.**

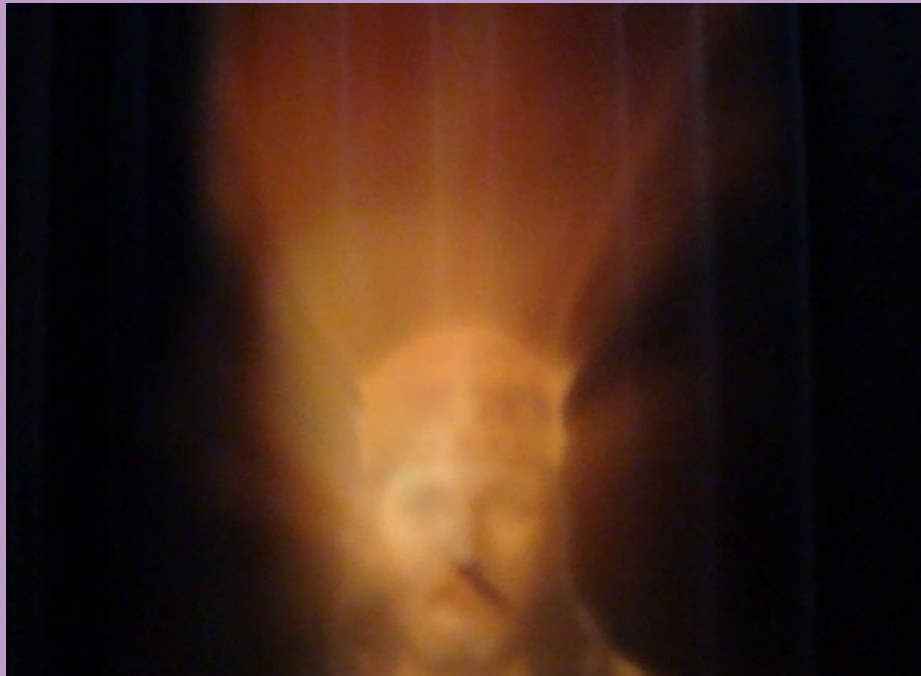

This is the fifth element, the element of akasha.

**From that state of pure being and omnipresence,
intention, or fire,
is generated for the highest good of all.**

**This brainwave state is dominant in infancy and in
deep dreamless sleep
each night.**

**It is during this deep Delta brainwave state that the
body heals.**

**To remember your original divine being that is "*made
in the image and
likeness of God*" ,
we help seekers reclaim the ability to enter the deep
delta brainwave
state at will.**

It is helpful to remember infancy.

**Remember how you were as a pure and holy infant
to accomplish this brainwave state in meditation.**

**In mediation, ask your cellular memory to access and
reveal
this pure infant self,
and reveal to your inner vision and sensations
pure and holy memories of being a divine and pure
infant.**

Ask to remember yourself at this age.

Realize that you are always this pure being at core.

"Ye must be as little children to enter the kingdom of heaven."

This awareness of pure being opens the center at the top of the head so that cosmic energy floods in, constantly washing through and healing the etheric or energy body.

The etheric body is an energy matrix which enlivens the physical body.

This is the first step.

So, in deep inward meditation, when you will not be interrupted, ask your cellular memory to let you remember yourself as you were as an infant, ask your cellular memory to allow you to remember who you were, what you were like, how it felt, and go deep into a state of pure being, and experience yourself in your original Divine Purity and Unity with Divine Being and all that is.

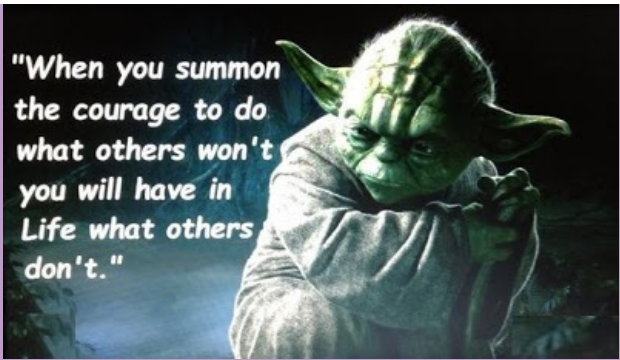

Remember that when you were originally conceived, you were, as an infinite being, tied to only one cell.

This cell divided over and over, trillions of times, in your Mother's womb, to form your physical body.

Every cell in your body comes from this original cell and has the original memory of your divine spark of infinite being joining with it.

When you go into meditation and ask your cellular memory to let you re-experience yourself as an infant, trust whatever sensations and experiences unfold.

If there are painful memories, in trust and love embrace them, for they are compressed information about difficult conditions.

A close-up of Yoda's head and shoulders. He is looking slightly to the right with a serious expression, and his right hand is raised with his index finger pointing upwards. The background is dark and out of focus.

**"When you summon
the courage to do
what others won't
you will have in
Life what others
don't."**

**By healing these conditions in a state of unity with
divine being
which is the normal state of infants,
these difficult conditions reveal to you that they
helped you develop strength
and accelerated your development through the power
of intention to survive.**

**The resulting attitude of gratitude for survival,
and the realization that these difficulties taught you
strength to survive,
awakens compassion for all who suffer.**

**Giving thanks and greater appreciation and love for
the mysteries of being alive in form.
causes chemical changes in the body,
which activate amazing insights.**

**These moments of healing insights arouses other
beautiful emotions.**

What was once a deep soul wound heals.

**If only a few people heal from early trauma and
stress,
the hundredth monkey phenomena occurs,
and the collective goes through an evolutionary leap.**

***"One good man can save a city of ten thousand,
and ten can save the world."***

**When you heal yourself deeply within, from the
moment of conception,
all others pick up on this in their super conscious and
sub conscious minds.**

**Then it becomes easier for all others to heal
themselves deeply within.**

Trust.

**As you regain your memory of original omnipotent
divine being
and the will for the highest good of all,
through inner guidance create healing,
and new realities of love for creation,
both for yourself and for all life.**

**At this point, the next necessary step in the process of
creating unfolds.**

**This step is visualizing images clearly in your mind
of what you wish to manifest for yourself and all others
on all levels.**

**By including in your imagination visual images of self
and others
constantly flowing and living in divine joy,
encode frequencies that cause cohesion.**

**These information frequencies are impregnated into
the element of earth, of form.**

**This cohesion of happiness awakens solutions to all
problems.**

**Divine intentions, expressed through visions or
blueprints,
are contemplated, which is our province.**

**Because you are experiencing yourself as ONE with
everything, and are
willing the highest good of all,
everything necessary for perfect visions and thoughts
of manifestation
now join with you in your creations.**

**Forming a visual image in the minds eye is the sine
qua non,
i.e., the key intermediary step,
in the process of manifestation
via mind power
because the language of the brain is visual images.**

**In contrast, attempting to influence the mind in words
is like talking
to it in a foreign language.**

For example, telling the hand to Get warm in words
will not cause a
change in its temperature, whereas picturing vividly
the same hand being
inflamed by a blazing sun or immersed in a bucket of
hot water will cause
the temperature of that hand to rise.

If one hand is visualized in a bucket of ice and the
other is seen being heated, the temperature of one will
rise while the
other drops.

Without visual images that the brain understands,
no amount of verbal repetitions commanding the hand
to get hot will
make any difference,
no matter how forceful the commands.

That is the reason why positive affirmations have very
limited efficacy
in creating new realities unless concurrently
accompanied by vividly picturing the new intended
reality being already manifest.

Transcendent visual imagery is truly the way to use
mind in bringing
Heaven to Earth.

The old adage, *Be careful what you wish for* should be
amended to
emphasize
Be careful what you VISUALIZE
for, truly, consciously utilizing
visual imagery is the primary secret to unleashing the
co-creative power
of higher mind.

The electrical energy of WILLPOWER in this way takes
form as visual
images in the mind.

By CONTEMPLATING these beautiful desired images
already manifest,
flowing magnetic EMOTIONS of joy are
generated.

Flowing tangible feelings in the body of beautiful
emotions of joy,
of these images manifesting,
create powerful attractions in the quantum field of
infinite
possibilities.

These magnetic emotional energies attract gravity
and weight to
images and clothe them in three dimensional forms.

Every desire or will impulse from spirit manifests
through visual
images created in will and contemplated in mind.

Mind is the element of air, and it is the principle of
mind and air
that we help people understand and master.

We help the children of love,
especially,
through meditations on the divine virtues
of the letters of our name, Kagaros.

Divine Mind is inherited from the Father within,
in the divine spirits of all children,
from one generation to the next.

For ye are made in the image and likeness of God.

It is the power of mind that takes the spiritual energy
of intention
with visualizations, to contemplate them within the
realm of imagination,
and in doing so generate flowing emotions.

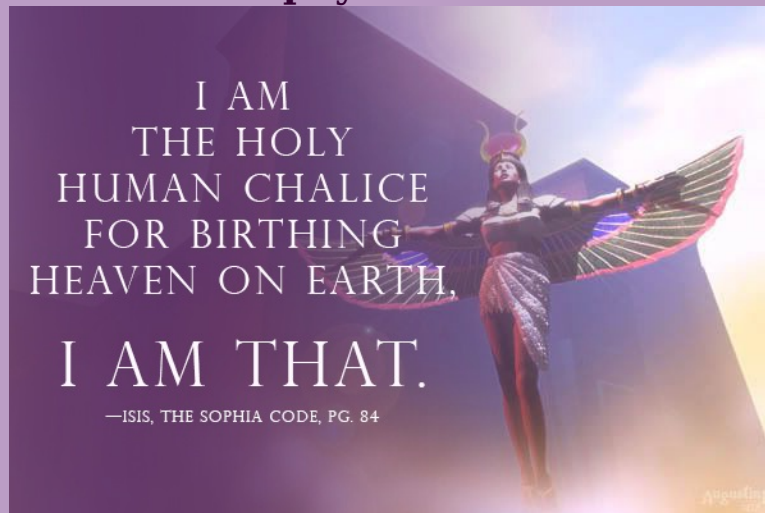

Emotions determine which realities manifest
out of the quantum field of infinite possibilities.

This is how to use the quantum field to create
beautiful creative
realities that are outpourings of joy.

*"For I have not given you the spirit of fear,
but of joy and life everlasting."*

Flowing emotions create magnetism.

**This magnetism then ATTRACTS visualized images
into physical forms.**

**Therefore, it is of utmost necessity that emotions of
happiness are generated.**

**In this way, children are conceived, gestated, born,
and raised
in happiness.**

**Images of great beauty, images of beauty that
accurately
reflect Divine Perfection and Will for joy,
are contemplated in the mind,
and become beautiful divine flowing emotions.**

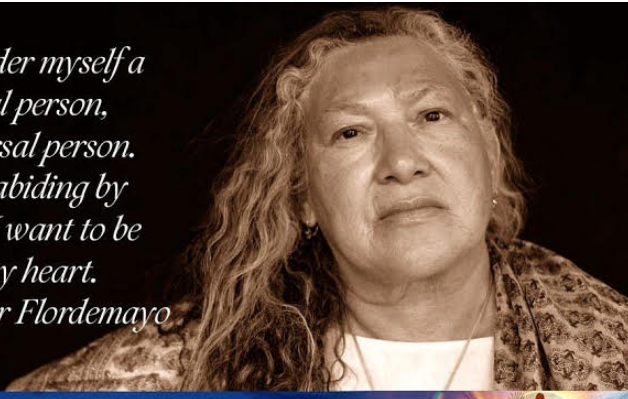

**Divine Minds,
expressing within the children of light,
take the visualizations of New Creations of joy,
and through Divine Contemplation,
create powerful faith filled
ideas and beliefs.**

**This stage of manifestation,
of contemplation of visual images of joy,
is the Theta brainwave state that is dominant in
childhood.**

***"Ye must be as little children to enter the kingdom of
heaven."***

**Become again as the trusting and joyful and creative
little child and
contemplate visual images of Divine Perfection that
arise from your heart.**

*I don't consider myself a
traditional person,
but a universal person.
Instead of abiding by
rigid rules, I want to be
free in my heart.
-Grandmother Flordemayo*

**The heart is the first organ to develop in the womb,
and it has a tube torus field over 5000 times stronger
than the brain.**

**Ideas that anchor in the heart of love,
generate flowing emotions of highest
rapture, love, blessing, happiness, clarity and purity,
and unification.**

**States of strong flowing tangible feelings in the body,
are Alpha brainwave states,
which are dominant in adolescence.**

**Now that you are again the divine infant,
and the divine child,
become again also the divine adolescent.**

Flowing emotions are the agents of change.

**Flowing with powerful divine emotions changes
realities to greater
perfection and wholeness.**

**Therefore, as you can see, the process of
contemplation is most
important for generating powerful magnetism of
strong flowing emotions
that attract visual images into physical form.**

***Contemplation is our expertise, and this
is what we inspire.***

Remember that Nature is called the Book of Life.

**By looking at forms that have been created from
original visual**

images of Divine Will for the highest good of all in
nature,
a person remembers and feel original divine emotions.

We inspire the contemplation of
the divine ideas expressed in nature,
which help remembrance of different qualities of
original Divine Being.

*The longing within the heart of each being, to flow
with divine ecstatic
emotions of living in Paradise, are fulfilled as a person
goes deep
within to his or her original purity, unity, and
innocence and
daydreams beautiful dreams of perfection for all.*

We, the Angels of Air and of Mind, are inspired by
Divine Guidance to
help you shine the light of creative imagination
to generate living waters of divine emotions in the Web
of Life, the
Unified Field.

The stars in the firmament are teachers of the power
of light to
illuminate and make beautiful the darkness of the
night.

The sun in the sky is a teacher of the power of light to
sustain life.

Likewise, the power of spirit flowing through visual
images, thoughts
and emotions illuminates and changes darkness to
light,

and brings new days and life to the world.

**Divine Being has placed the stars in the firmament as
physical
manifestations of the lights of Divine Ideas.**

**These starpoints of light represent enlightened ideas
inherent in
Infinite Divine Mind.**

As above, so below.

**These points of light represent divine ideas in all
forms of existence.**

**Just as there are infinite numbers of stars in the sky,
so also are
there infinite Divine Ideas that are remembered and
given expression by
imagination within each child of light.**

**Look inwardly to inner guidance for help and
inspiration so that all
visualization, imagination,
and contemplation reflects the highest will of Divine
Providence in
life for all.**

**Dance the dances of creativity- remember that
together with Divine
Providence we are co-creators in infinite beauty.**

**With atunement to Wisdom and control over mind,
comes dominion over
all the beings of the air,
the Sylphs.**

**The understanding and mastery of air as mediator
between will and
emotion, and the role of air beings in nature, are
gained
through atunement to the divine virtues of the Angels
of Kagaros.**

***Ye must be as little children to enter the Kingdom of
Heaven.***

Air is the element of the divine child self within.

**With a mind attuned to divine mind,
which is one with all,
communication with sentient beings,
other than humankind,
is as simple
as holding and contemplating a flower.**

Footnotes:

The names and meaning of angel groups come from Quaballah, which is
a
very ancient set of teachings which together form a common precursor,
or
root,
of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host
in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name. This name is a key to
their powers and influence.

Names, phrases, or sections in the angel messages are quoted or
paraphrased from the books of Franz Bardon.

The Law of One is the original law of Creation, and is the supreme Law over all laws in all dimensions.

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM,

and I AM one with all there is;

I ask that only THE HIGHEST GOOD OF ALL concerned happen.

I give thanks that this is done.

**SO BE IT!
So it is.**
