## The Moon Angels of Water also known as

The Angels of

***E-M-Z-H-E-R***

28th Day of Lunar Cycle

Beloved,  
Tangible feelings and emotions in the body flow like water,  
and when emotions of the astral body become dense and manifest in physical experience,  
they manifest as water.

The human body is over 80 percent water, and on a microcosmic level, it is ninety nine percent water.

Water is intelligent, and regardless of how toxic and polluted it may become  
when it is loved, respected and thanked, surface tension changes on the water droplets  
so that toxins fall away, and the water crystals return to purity, beauty, and symmetry.

The same is true of flowing tangible feelings and emotions.

Flowing emotions have intelligence, and regardless  
of how wounded and negative they may have become,

they, like water itself, with input of love, respect and gratitude  
return to their natural divine state of beauty and harmony.

We teach how to control all water and water beings  
in the physical world through the mastery of FLOWING feelings and EMOTIONS,  
especially the flowing emotions of the divine virtues of 'E-M-Z-H-E-R'.

Not only water, but also all water animals that live in water,  
obey a person whose FLOWING tangible feelings in the body and emotions are of the divine virtues  
combined with clear inner guidance, intent, and high intellect.

*Temperature also comes under control,  
so that even very hot water does not burn.*

By meditating on the divine virtues associated with the letters  
of our name, and calling on our help, the following is gained:

## E-M-Z-H-E-R

E

This letter in the ancient language represents the divine virtue of omnipresence.

In flowing emotions, omnipresence gives control over the emotions of oneself and others, and the ability to understand the language of all beings, including animals.

We teach how to understand the languages and communication of all levels of beings on earth.

The letter E has the frequency of the musical note of D, shines with dark violet color, and is meditated on with the emotions of God Consciousness- penetrating- all.

Imagine yourself as a small dot in your solar plexus and visualize your body as a giant Creation, a fractal of the outer macrocosm, all around you.

Because omnipresence is the akasha and is everywhere, see the dark violet light shining everywhere, forming your spine and intone the letter E to the musical note of D while flowing with emotions of omnipresence.

Experience Pure Being and Oneness with all, and with Divine Consciousness and Emotion everywhere present, penetrating all, filling all life, space, and time.

Realize through the law of correspondences that as you meditate on omnipresence in your physical body you create frequencies of consciousness and emotion that simultaneously enliven these emotions in the larger universe.

The letter M has the musical note of D, the color of blue-green, and the sensation of coolness, like water.

The abdomen, seen as a hollow space of every child of God, is created with this virtue of flowing emotions.

Use the same meditation for M as you did for E, except see the blue-green light shining from a tiny sun in the abdomen, use the sensation of coolness.

Meditate on flowing emotions, on their power of attraction, and how they flow and create magnetism.  
-----

The letter Z represents the higher faculties of divine intelligence, and the ability to remember everything ever learned throughout all lifetimes.

When meditating on this in the emotional realm, all kinds of artistic faculties arise.

The ability to put all abstract ideas into words develops.

The right arm is formed from it.

Visualize it as a tiny sun shining silvery violet light in the head region.

Answers to the questions of sovereignty and dominion of  
the Earth are gained through meditation and attunement to the  
all-pervading Consciousness and Flowing Emotions of Divine Being.

As people meditate and gain mastery over their own physical bodies,  
their flowing feelings and emotions, their intellects, and their wills, they attain  
mastery over the inner and the outer universes.

*"As above, so below."*

Every 28th day of each 28-Day Moon Cycle we flood the  
feelings of Earth with the ecstasy of flowing emotions of divine virtues,  
so that the children of God unite in consciousness and flowing emotion
