Angels of Divine Love and Legality of Virtues

Also known as

The Angels

of

Ysquiron

Beloved,

**The cycles and rhythms of life,
based on omnipotent, omnipresent, and omniscient divine awareness,
propel people and all creation to change in perfect harmony.**

**Through beneficial Divine Love that constantly flows through all of
space,**

**lessons of harmlessness grow within hearts over time,
so that harsh teachings of negative karmic return
are finally understood,
and mastery of cause and effect leads to
good causes and good effects.**

"Ye reap what you sow."

Through understanding cause and effect,
and listening to inner guidance,
divine love opens the eyes to transform and transmute imperfections
into supreme happiness.

We inspire the children of divine being
with awareness that unhappy fates
are supposed to be changed,
by changing causes,
to manifest supreme divine happiness.

Divine Mercy allows the power of love to heal Earth and bring forth
the Kingdom of Heaven without additional suffering.

Love creates mercy and its parallel virtues.

Divine Love in its manifestations as mercy fulfills the Laws of Justice
and Karma.

We answer when a child of light asks, *"How does Divine Love operate in
the spheres and planes of spirit, mind, emotion, and form?"*

Remember that the Created Worlds are part of one Web of Life,
one Unified Field.

As people seek Love, unity with Divine Light,
and the highest good of all concerned,
in the rhythms and cycles of life,
we inspire unity with omnipotent divine will and cognition
brought about by seeing through the eyes of love.

If one of you sows or creates harm,
according to the Laws of Karma and Justice,
this same energy must be reaped, it must return to you so that
the importance and desirability of harmlessness is
learned through personal experience.

By experiencing the same harm that one has caused another,
lessons of cause and effect are learned through trial and error on the
path to spiritual maturity.

Through cause and effect, the lesson that what
"goes around comes around"
is learned.

To manifest supreme happiness and cohesion in the Unified Field,
harmlessness and harmony of all participants,
both self and others,
all sentient beings,
human and animal, must be enlivened,
to the point of overriding certain situations of negative karma,
through divine grace.

*Over the next 28 days, we discover that to create beauty in our lives,
we must ask.*

*Ask for faith, ask for enlightenment, ask for miracles of love to heal any
situation.*

"Ye must be as little children to enter the kingdom of God."

***This month finds us recognizing and asking for divine assistance,
both individually and collectively,
so that we, together, manifest the kingdom of heaven on earth.***

***Because this new moon beginning has a north node in the sign of Cancer,
we realize that we have the ability,
as divine beings,
to materialize or dematerialize current realities whenever necessary,
to nurture the precious creation of Earth.***

We are entering the ancient future, the time of flowering,

"on earth as it is in heaven".

The 28 Angels of the Moon Sphere

Divine Emotional Magnetic Rhythm

***'The Moon in its planetary function
influences everything liquid on our earth.***

The Moon sphere is analogous to flowing emotions and feelings.

***The emotional awareness of each child of God,
is known in ancient terms as the astral body.***

**Emotions of happiness are necessary for all timelines to manifest divine harmony in
the quantum field.**

**Healing of the Divine Feminine, the awesome realm of flowing emotions and magnetism,
the water element, is necessary for Heaven to manifest on Earth.**

The healing of emotional flowing of each child of God on Earth is therefore of major importance.

**The Angels of the Moon Sphere
are commissioned with great responsibility in this regard.**

Angels of the Moon work with mankind in the realm of flowing emotions,
in contrast to the Angels of the 360 degrees of the zodiac
surrounding the Earth who work with the children of God in the realm of vitality.

There are 28 angel groups, one for each day of the moon cycle.

New Moon 1st Day of Lunar Cycle

Beloved,

We inspire perfect use of OMNIPOTENT SACRED WILL
FOR THE HIGHEST GOOD OF ALL
and SACRED FLOWING EMOTIONS
in the meditation of the divine virtues so that all things are
possible.

We have been given the responsibility by Divine Providence to control not only the tides of earth,
but also the tides of water in the bodies of all living things.
These tides correspond to flowing emotions of omnipresent,
omnipotent, and omniscient Divine Love and Life.

*When the children of God call on us for our help,
we teach them how to use omnipotent
will and intent for the highest good of all in combination
with strong flowing emotions of unconditional Divine Love
to heal the emotional reality of Earth.*

In this way we teach how to control the physical reality of Earth,
because the physical reality of each person,
and of the Earth as a whole,
is determined by flowing emotions.

Just as we control the tides of earth,
we teach the children of God to attune themselves emotionally to the rhythms of Divine Life,
so that they may flow with the sea of unconditional all encompassing Love,
that ebbs and flows with the expression of polarity in Universal Consciousness.

*We particularly attune the child of God to the use of the Sacred Dream,
the blueprint for perfection on the Earth
This blueprint is the Prime Will for the highest good of all for Earth.*

This is the Prime Will for bringing about a perfect kingdom,
a home of pristine beauty and harmony for all living creatures.

Miracles are created by combining OMNIPOTENT WILL FOR THE HIGHEST GOOD of the Earth,
the electric-masculine power,
with the FLOWING EMOTIONS of unconditional love and flowing feelings of the Sacred Dream of the Moon,
the magnetic-feminine power.

Just like the miracles of the tides, FLOWING EMOTIONS of the Sacred Dream and Divine Love of the Moon,
manifest perfect power,
rhythm, harmony, and cycles of flow in the emotional life
for all the children of God and for all sentient creatures.

*By studying the tides, and flowing with emotions of their healing effects,
perfect understanding of this is attained.*

By studying the scientific effects of the tides,
the influence of a rhythmic emotional life on the well being of the physical bodies
of the children of God and on the creatures of the world is understood.

Attune to the divine virtues represented by the letters of our name,

and call on our help to receive the following:

'E-B-V-A-P

B

to produce miraculous phenomena, change the course of fate,

We inspire perfect use of OMNIPOTENT SACRED WILL

*FOR THE HIGHEST GOOD OF ALL and SACRED FLOWING EMOTIONS
in the meditation of the divine virtues so that all things are possible.*

On the first day of every 28-Day Moon Cycle we flood the Earth with deep rhythmic flowing emotions that control the tides,
so that all life may attune to the rhythms of the Heart Divine that pulsates throughout the Web of Life.

"All that I do ye shall do and more."
