The Angels of Ecstasy and Trance

Also known as

The Angels of

Ahahbon

Beloved,

Trance states of divine ecstasy and bliss cause amazing changes in reality.

On paths of spiritual perfection, deep meditation and flowing divine trance states

### activate the pineal and other glands to produce powerful consciousness altering chemicals of bliss to enter the bloodstream.

"I have not given you the spirit of fear, but of joy, and life everlasting."

These naturally produced chemicals are the long sought elixers of youth and enlightenment.

Trance states of joy, love's rapture and meditations of divine being make
life worth living,
so that death is no longer welcomed to relieve suffering.

"The last enemy to be overcome is death."

By maintaining ecstasies and trances, in meditations of union with the ONE BEING OF DIVINE LOVE, the physical body produces exactly what it needs to be happy, to be forever young.

In this way, consciousness is already in heaven, and no longer needs to leave earth to experience the divine light.

"On Earth as it is in Heaven."

We help bring forth The Kingdom of Heaven through deep ecstatic trance.

Powerful flowing emotions of raptures of divine love attract new heavenly realities into physical form.

Powerful trance states of love's bliss and ecstasy attract the highest perfections into form with maximum efficiency and minimum effort.

The heart has a tube torus field that is thousands of times more powerful than the brain.

The heart is actually a brain, in fact the whole body is.

By staying centered in the heart, flowing love, all is healed. Whatever is imperfect and causing pain has become so through lack of love.

By supplying ecstasies of love to everything that has laked love, all is perfected.

The superconscious mind deals with the future, and processes 400 billion bits of information a second.

The subconscious mind deals with the past, and also processes 400 billion bits of information a second.

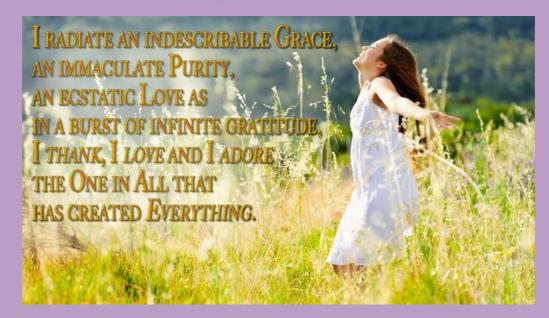

The conscious mind, deals with the present, and processes 4 to 40 bits of information a second.

By keeping conscious focus on divine love in the heart, the conscious mind in the now and here guides the future, and heals the past with prana, lifeforce, love.

This is how the Creator designed the Kingdom to function.

"Know ye not that ye are Gods?"

These states of the rapture of love in the heart, flowing on all that is, cause dramatic healing changes in glands and blood, regenerating life on every level, resulting in supreme happiness.

Here are the virtues of the letters of our name.

AThrough the virtue of wisdom and enlightenment, we teach you to tap the highest truths of the enlightened mind and enlightened states of consciousness.

We help you recognize and release all imperfections to Divine Being for transformation into other states that are determined by divine love divine. [umlaut A, ae]

HThrough the power of the word, we help you translate the work of universal consciousness and receive and send out spiritual impressions symbolically in terms of pictures.

In other words, we help you develop and use clairvoyance to create with the divine virtues.

AWith the virtue of enlightenment, we inspire in you eloquence, poetic and artistic talents as well as clairvoyance and higher states of

#### consciousness, and the transformation of imperfection through love in the heart.[umlaut A, ae]

HWe bring through the power of the word in order to give each letter dynamic creative power.

Each letter represents a divine virtue, and is uttered with sound, color, meaning, sensation, and emotion.

We help bring this trance like experience of virtues into consciousness with ease and relaxation.

BThrough the virtue of universal consciousness, which includes the understanding of polarity, we help you learn to charge physical objects with great power and transformative energies.

Umlaut O, euWe help you see through the eyes of Love Divine, and visualize and flow love to indwelling Divine Perfections in others.

OWith the divine virtue of justice that results from seeing through the eyes of love,

we teach you to evoke contentment, poise, and a sense of impeccable justice that yields satisfaction, confidence, and infallibility.

NThrough the virtue of supreme happiness, which is the seventh heaven of delight, we connect all levels of consciousness to ecstatic states and empower seekers to facilitate enlightenment of others.

Remember that in a world of harmony, in a Mother's womb there are times of naturally occurring spiritual ecstasies and divine bliss.

In the first trimester of fetal development, in this bliss, all of the bodys physical parts are developed, even though they must still mature.

The second trimester is the time of development of spiritual aspects of the inner self.

Psychological or ego aspects develop in the third trimester.

It is in the second trimester that the soul rests before the advent of the ego.

During this time the developing child experiences loving union with spirit.

This loving union with divine spirit is a pure and true self that is rediscovered in spiritual enlightenment.

Traumas that occur to the mother, and therefore to the child, during this second trimester stage of development, leave a painful imprint in cellular memory within the developing child.

Trauma to mother or child at this stage creates emotions of alienation from Divine Being.

These painful emotions also result ultimately in emotions of separation from the larger macrocosm.

Therefore, as emotions of alienation from Divine Being are healed

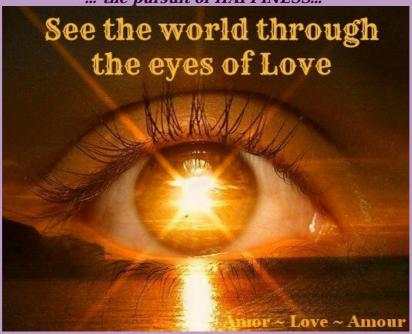

later, in life through meditation and unconditional love from the mature self and from other people and

the heavenly host,

natural trance states of union with Divine Being again spontaneously arise again naturally without effort.

These states of supreme happiness easily reveal solutions to problems in self and others.

..."the pursuit of HAPPINESS..."

"For I have not given you the spirit of fear, but of joy, and life everlasting."

In divine states of bliss, natural atunements with Divine Mind reveal the original purity of all ideas in Divine Mind in every situation, both inner and outer.

Imperfections are easily recognized, flooded with love, released for transformations.

Then, as people master paths of enlightenment such as The Power of the Word, attuning personal will with omnipotent Divine Will with mental clarity and flowing emotions of love and sensations of bliss, miracles happen easily and naturally, manifesting Heaven on Earth.

Now let us do an experiment:

Close the eyes.

Ask your cellular memory of early gestation, to remember immense loving unity of self with Divine Being.

If there is any frustration, sense of alienation, blocks, tension, disbelief, rage, or fear when you do this, try this:

After allowing yourself to experience these negative emotions with deep empathy and compassion for the inner self, and all involved in earlier trauma,

go into the heart and radiate love to all.

Because all of these traumas were caused by lack of love, when they receive your love from your heart, they heal.

Now embark on a self-guided visualization of what it would have been like,

if in your second trimester of development, in your Mother's womb, your and her experience of being was beautiful and happy, giving and receiving love continuously.

Because the subconscious mind does not distinguish between an imagined happening and a real happening cellular memory will begin the change to the loving states.

# Imagine what it would have been like if your mother had been happy, safe, healthy, loved and loving, and well.

You are safely nestled inside her womb, merging in beautiful ecstatic and harmonious emotions and trance.

Imagine your father as strong, happy, enlightened, and deeply loving and loved.

Imagine both of them are excited and thankful to have you, and they are deeply and wonderfully connected to themselves, and each other, omnipresent divine being, and the earth.

Imagine that they daily flow with deep states of bliss, enlightenment and divine happiness.

As in meditation you are filled with these wonderful feelings in your body

of this beautiful loving reality, merge these beautiful feelings and happy visual images with the original painful emotions and visual images.

In deep meditation, watch how the beautiful new emotions and images merge with and transform the old ones.

A third image develops, a resolution image.

This is how you will remember it from now on.

Your cellular memory has been upgraded.

This can be repeated whenever you wish to heal imprints of the past.

This exercise is useful as your adult self remembers many other lifetimes of separation and pain.

A transformation takes place each time.

The chemical changes in cellular memories, of the entire body, are astounding.

Great is the transformative power of intent, visualization, and corresponding tangible feelings in the body of value of peace, bliss, love and happiness.

Our hearts know that harmony and love are more important than all the other treasures, powers, or desires put together.

Without harmony and love, all else is useless in the long run.

With deep satisfaction that comes from healing previous traumas, gratitude for having survived each of the previous painful experiences, creates even deeper inner healing.

Forgiveness flows as deep understand grows.

Deep inside comes the realization that you and everyone involved did the best they could under the circumstances during times of previous harm.

Oh how grateful the heart feels for having chosen to incarnate again at this time.

"When one is helped, all are helped."

"One good man can save a city, and ten can same the world."

By healing the heart to flow with joy again, all are blessed and strengthened, for the purpose of appreciating and seeking divine bliss and love above all else.

This type of inner exercise reprograms cellular memory.

Remember that the subconscious mind does not distinguish between an imagined happening and a real one.

If you dwell deeply on the wonderful emotions generated by this exercise, amazing physical and psychological changes are attracted into manifestation.

When you reprogram the subconscious this way, your coherent state of focus on a divine quality - in being, will, thought, emotion and sensation will be much more easily and naturally experienced.

Now, when you breathe a divine virtue into any situation or person, miracles seem much more natural and easy.

Imagine flowing waves of unconditional love and happiness and bliss pouring in and call forth heavenly hosts of inspiration to guide your meditations and visualizations.

Flow with emotions of the most perfect ecstasies for yourself and for those you bless.

Go often into meditation; on inhalation, ask for and attune to ecstatic visions and flow with emotions of greatest rapture and supreme happiness.

Then as you breathe out, will, visualize, and feel your breath filled with this rapture surrounding and filling the people whom you are blessing.

Try this and be surprised at the results that you see before you!

Using the channel of my own consciousness,

I enter into the Hollest of the Hollest,

at the heart of the Infinite, Immortal and Timeless Being that I Am.

"Ye must be as little children to enter the kingdom of Heaven."

"The kingdom of Heaven is found within."

These are the two very important things that we wish to emphasize.

One is that you must be as a little child to enter the kingdom of heaven.

When you attune to your inner child self, any traumas that you experienced in your past will come up to be healed.

These traumas were caused by a lack of love.

As you hold these painful feelings, thoughts, and memories in your

#### heart, flow love to them. This is the essence of therapy.

Love is natural and transforms all.

This healing is done by attuning to these hurts and asking Divine Love flowing through your heart to flow to them.

All heals in the presence of lifegiving divine love.

With love heal you and everyone concerned.

As you do this, meditate with clear vivid imagination and beautiful emotions of love to reprogram cellular memory.

The other important point that we wish to emphasize is that whatever previous spiritual Masters have done, you may do also.

"All that I do, ye shall do and more."

These great works MUST be so simple that a little child can do them!

"Ye must be as little children to enter the kingdom of heaven."

"The kingdom of heaven is found within."

The Theta brainwave state of deep inner thought is dominant in childhood.

In this state of deep relaxation, ease, and contemplation of divine qualities, magnetic flowing emotions are generated that attract changes in reality.

It is in this state that trance is entered, and as that trance is joyful, the heavens themselves rejoice, along with all the cells in the body.

This is a basis for psychosomatic healing, and spontaneous remissions.

With the trust, enthusiasm, wonder, and persistence of a little child that is healthy and whole, try this, and see.

We rejoice when a person desires to bring enlightenment, transmutation, justice, and happiness to others.

Often this desire wells up in response to seeing suffering in the eyes and bodies of people and other sentient beings.

The suffering in the world is oftentimes considerable.

By understanding the original purity of all ideas in Divine Mind and using The Power of the Word to create new realities, releasing imperfections for change, by controlling will and emotions and seeing through the eyes of love divine in the heart, this suffering is transmuted in self and others.

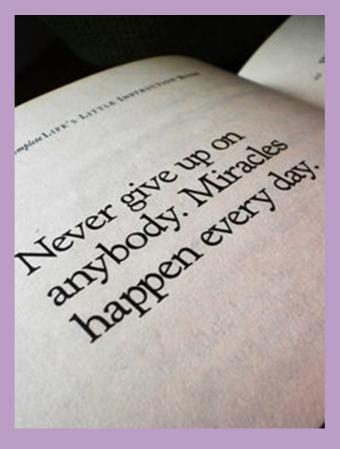

Through transmutation, the Flower of Divine Perfection grows and harmony is restored, bringing success and satisfaction to all.

Give thanks for all things.
All things work for good for those who believe.

In deep trance states of ecstasy and rapture transmutation is uplifted to heights of beauty and power that words cannot describe.

Here is an ancient practice that is a perfect example of changing reality of self and others through oneness and love.

#### HO'OPONOPONO

#### by Joe Vitale

"Two years ago, I heard about a therapist in Hawaiiwho cured a complete ward of criminally insane patients--without ever seeing any of them.

The psychologist would study an inmate's chart and then look within himself to see how he created that person's illness. As he improved himself, the patient improved.

"When I first heard this story, I thought it was an urban legend. How could anyone heal anyone else by healing himself? How could even the best self-improvement master cure the criminally insane?

It didn't make any sense. It wasn't logical, so I dismissed the story.

"However, I heard it again a year later. I heard that the therapist had used a Hawaiian healing process called ho 'oponopono. I had never heard of it, yet I couldn't let it leave my mind.

If the story was at all true, I had to know more. I had always understood "total responsibility" to mean that I am responsible for what I think and do.

Beyond that, it's out of my hands. I think that most people think of total responsibility that way. We're responsible for what we do, not what anyone else does--but that's wrong.

"The Hawaiian therapist who healed those mentally ill people would

teach me an advanced new perspective about total responsibility. His name is Dr. Ihaleakala Hew Len.

We probably spent an hour talking on our first phone call. I asked him to tell me the complete story of his work as a therapist.

He explained that he worked at Hawaii State Hospital for four years.

That ward where they kept the criminally insane was dangerous.

Psychologists quit on a monthly basis. The staff called in sick a lot or simply quit. People would walk through that ward with their backs against the wall, afraid of being attacked by patients.

It was not a pleasant place to live, work, or visit.

"Dr. Len told me that he never saw patients. He agreed to have an office and to review their files. While he looked at those files, he would work on himself. As he worked on himself, patients began to heal.

'After a few months, patients that had to be shackled were being allowed to walk freely,' he told me. 'Others who had to be heavily medicated were getting off their medications.

And those who had no chance of ever being released were being freed.' I was in awe.'Not only that,' he went on, 'but the staff began to enjoy coming to work.

Absenteeism and turnover disappeared. We ended up with more staff than we needed because patients were being released, and all the staff was showing up to work. Today, that ward is closed.'

"This is where I had to ask the million dollar question: 'What were you doing within yourself that caused those people to change?'

'I was simply healing the part of me that created them,' he said. I didn't understand. Dr. Len explained that total responsibility for your life means that everything in your life- simply because it is in your life--is your responsibility.

In a literal sense the entire world is your creation.

"Whew. This is tough to swallow. Being responsible for what I say or do is one thing. Being responsible for what everyone in my life says or does is quite another.

Yet, the truth is this: if you take complete responsibility for your life, then everything you see, hear, taste, touch, or in any way experience is your responsibility because it is in your life.

This means that terrorist activity, the president, the economy or anything you experience and don't like--is up for you to heal.

They don't exist, in a manner of speaking, except as projections from inside you. The problem isn't with them, it's with you, and to change them, you have to change you.

"I know this is tough to grasp, let alone accept or actually live.

Blame is far easier than total responsibility, but as I spoke with Dr. Len, I began to realize that healing for him and in ho 'oponopono means loving yourself.

"If you want to improve your life, you have to heal your life. If you want to cure anyone, even a mentally ill criminal you do it by healing you.

"I asked Dr. Len how he went about healing himself. What was he doing, exactly, when he looked at those patients' files?

'I just kept saying, 'I'm sorry' and 'I love you' over and over again,' he explained.

"Turns out that loving yourself is the greatest way to improve yourself, and as you improve yourself, you improve your world.

"Let me give you a quick example of how this works: one day, someone sent me an email that upset me. In the past I would have handled it by working on my emotional hot buttons

or by trying to reason with the person who sent the nasty message.

"This time, I decided to try Dr. Len's method. I kept silently saying, 'I'm sorry' and 'I love you,' I didn't say it to anyone in particular.

I was simply evoking the spirit of love to heal within me what was creating the outer circumstance.

"Within an hour I got an e-mail from the same person. He apologized for his previous message. Keep in mind that I didn't take any outward action to get that apology. I didn't even write him back.

Yet, by saying 'I love you,' I somehow healed within me what was creating him.

"I later attended a ho 'oponopono workshop run by Dr. Len. He's now 70 years old, considered a grandfatherly shaman, and is somewhat reclusive.

He praised my book, The Attractor Factor. He told me that as I improve myself, my book's vibration will raise, and everyone will feel it when they read it. In short, as I improve, my readers will improve.

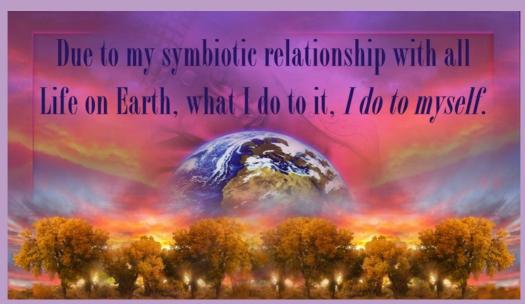

'What about the books that are already sold and out there?' I asked.

'They aren't out there,' he explained, once again blowing my mind with his mystic wisdom. 'They are still in you.' In short, there is no out there.

It would take a whole book to explain this advanced technique with the depth it deserves.

"Suffice It to say that whenever you want to improve anything in your life, there's only one place to look: inside you. When you look, do it with love."

#### Footnote:

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root,

of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name. This name is a key to their powers and influence.

Names, phrases, or sections, in Italics or single quotation marks in the angel messages are quoted or paraphrased from the books of Franz Bardon.
