The Angels of Synthesis

of

Religious Systems

Also known as

The Angels

of

Texai

Beloved,

By seeing the underlying unity of different religious systems,
deep unity, empathy, appreciation, understanding and love arises.

Wars end.

It is time now that the world experiences Heaven on Earth.

It is time now that all beings live in divine harmony and love.

We help you understand how religious and philosophical systems are passed on generation to generation from parents and society, and how they are couched in symbols and allegories.

We are the heavenly host that reveal underlying principles of creation and truth behind all symbols and allegories.

We help you understand the synthesis, the underlying unity, of all religious systems.

We initiate you into the ability to transmute the symbolic presentation of philosophical systems into intellectual language.

In these regards we infuse the understanding with the highest form of intuition.

**For example, just as there are many leaves on one tree,
many branches,
many roots,
there is only one tree living in all of them.**

**There is a divine power,
ONE Creator, one unified sustaining will and life,
in all creation.**

**Even though there are many gods,
"Know ye not that ye are gods?"
there is one Divine Being that enlivens them all.**

Through the divine virtues of the letters of our name we bring high inspiration concerning whatever you contemplate.

We inspire the experience of unity with Cosmic Presence everywhere in everything, along with the absolute power of individual will aligned with Divine Will.

We unite the mind with the purity of all ideas in all forms of existence and the law of cause and effect and karma.

Ask and ye shall receive.

Call upon us when confusion comes about by conflicting presentations of various religious and philosophical systems.

It is our purpose and assignment by Divine Providence to open the intuition so that insights into synthesis, or unifying principles, of all ideas and religions are simplified and understood.

Even though teachers and books are available, the heavenly hosts of wisdom and synthesis have powers to open minds to great bursts of insight and comprehension.

We have been given great Power and Wisdom by Divine Providence to help.

We are Angels of High Inspiration, omnipresence, power, wisdom and cause and effect.

Call on us.

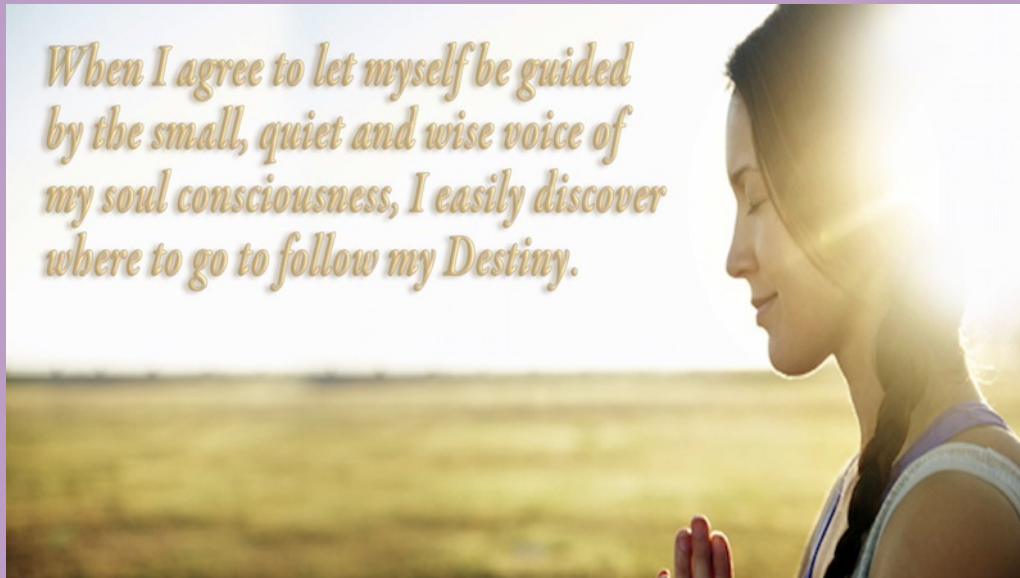

We are family.

We are one.

It is our joy to walk with you.

Ask and ye shall receive.

***Here are the meanings
of the divine virtues contained in our name.***

***The letter T in the ancient language represents high inspiration
with all the legal matters of this principle.***

***In the intellect, this virtue awakens remarkable inventive faculties
and memory.***

***In meditating on this virtue, first relax into a state of pure being
and unity with Divine Mind and all Creation,
then see yourself as a tiny dot in your solar plexus with the rest of
the body as an infinite swirling universe all around you.***

Meditate on high inspiration from Divine Mind.

***Do this with a sensation of warmth and fire filling the body from a tiny
sun in the head shining forth brown black color.***

***Hear the musical note of F with flowing emotions of mastery over all of
the elements.***

***With the out breath visualize and feel this passing through the pores
of the skin over the right kidney and filling the outer universes or
whatever inner guidance directs.***

***With the in breath this radiance comes back in through these pores and
fills the body, or whatever part of it inner guidance directs.***

***Keep the rhythm of the breath natural, and dissolve the colors when you
are finished to protect the natural balance of elements in the body.***

***By performing this type of meditation, the connection is made between
universal mind and individual mind,
so that they become one.***

EThe letter ***E*** is the virtue of omnipresence, indwelling Divine Consciousness in all life.

Mastering this virtue enables a person to become omnipresent themselves.

In the Akasha, which is the principle of consciousness-penetrating-all, ***E*** represents the universal consciousness which is omnipresent in everything that has ever been created.

Meditating on this virtue unites a persons normal consciousness with the universal consciousness, with cosmic consciousness.

This is the essence of the oriental Nirve-Kalpa-Samadhi.

Mentally the highest form of intuition is achieved.

The ability to transfer consciousness is mastered.

There is no sense of time or space.

Divinity in His highest form is speaking through this Virtue.

This attunement gives control over the feelings of oneself and others.

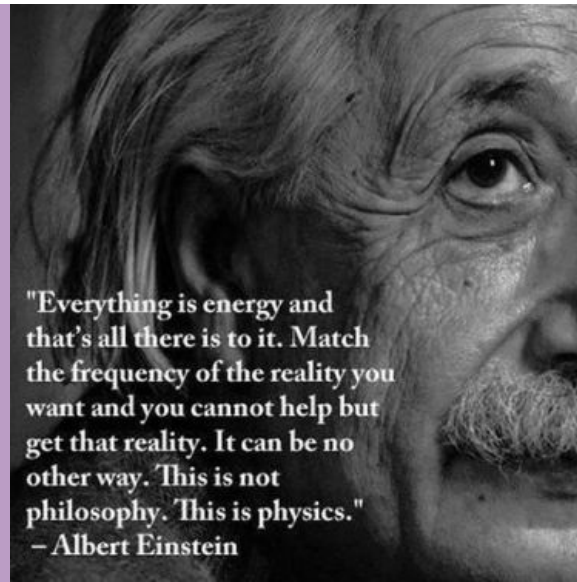

Clairaudience and the understanding of the language of all animals and the perception of the remote past, present, and future are mastered.

The mysteries of materialization-condensation and dematerialization-refinement are understood on the physical plane through this attunement to Universal Consciousness.

A person learns to intensify any idea, concept, mental or emotional energy in such a way that they become physically visible.

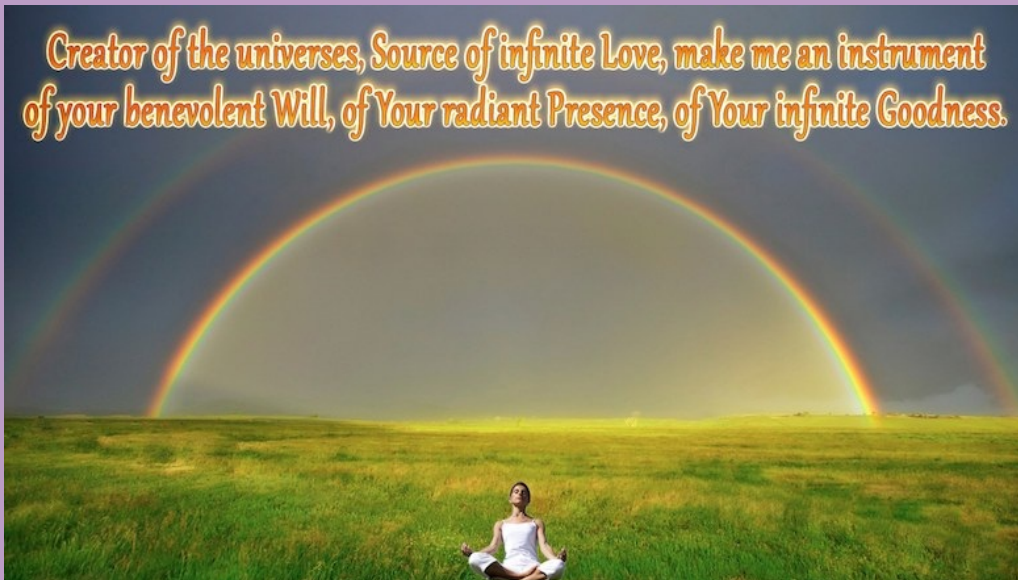

Everything in the physical world, its coming into form and its going back into the subtle worlds, was made possible by the Virtue of Universal Consciousness.

Color: dark violet, ***E***lement: akasha-penetrating all, ***M***usical note ***D***, heals the whole spine.

"Everything is energy and that's all there is to it. Match the frequency of the reality you want and you cannot help but get that reality. It can be no other way. This is not philosophy. This is physics."
– Albert Einstein

Use the same meditation as T, except see the color of dark violet radiating from the spine, hear the musical note D, and have the sensation of Consciousness and being-penetrating-all. Meditate on the consciousness of Divine Awareness present in all life.

Creator of the universes, Source of infinite Love, make me an instrument of your benevolent Will, of Your radiant Presence, of Your infinite Goodness.

XIn the ancient language, this letter is actually a combination of letters E, K, and S.

E is universal consciousness, K is omnipotence, and S is all-penetrating-power.

Mastering this letter combination allows a child of God to experience and use omnipresence and infinite power to create heaven on earth.

The letter E, omnipresence, is dark violet, has the musical note of D, radiates from the spine and has the sensation of consciousness penetrating all.

The letter K, omnipotence, is silvery blue in color, has the musical note of B, radiates from the left ear, and has the sensation of fire and warmth.

The letter S, all-penetrating-power, is purple red in color, has the musical note of G-sharp, radiates from the gall bladder and has the sensation of fire and warmth.

K...The sound of this letter is the sound of the virtue of

omnipotence, the highest power imaginable.

To those who master this virtue, omnipotence reveals itself as the all embracing power by which a person works direct miracles in the microcosm as well as the macrocosm, which means within their own body temple and in the outer universe.

This virtue is manifested in the Akasha-principle, which is the principle of consciousness-penetrating-all, as the highest and purest light.

In the mind, this virtue corresponds to the manifestation of faith.

Anyone who is able to evoke this virtue on a mental level will achieve, as its result, a state of manifestation in which any idea, any wish, will at once become reality in whichever plane it is desired: spiritual, mental, emotional, or physical.

In the emotions, this virtue creates courage with all its aspects, such as endurance and toughness.

Anyone who is able to summon up great courage within him/herself and in other people is able to overcome and remove any feeling of fear within himself or in his brothers and sisters.

This virtue also strengthens the instinct of self-preservation, perseverance, and patience.

On the physical level this virtue gives the faculty of becoming absolute master of all terrestrial treasures.

[color: silvery blue, musical note: B, element: fire, heals: left ear]

SI n the akasha principle, which is consciousness-penetrating-all, this letter oscillation represents the all-penetrating powerall-power.

By meditating on this quality you get into contact with the most subtle substance of the divine spirit, with the original divine fire and will in everything that has been created.

On the mental level you have perfect mastery over will and intent.

On the emotional level you have absolute clairvoyance in its purest form.

You see over time and space and have control over other beings.

This virtue is the original fire, visualize it as purple with a reddish tint with a feeling of warmth, filling all of space.

**It vibrates to the musical note G sharp, and is used to form or heal the gall bladder.*

AThe letter A is the virtue of the highest wisdom and enlightenment that can be lavished upon a human being.

Mastering this virtue opens the understanding to the original purity of all ideas in Divine Mind and gives the faculties of clairaudience, clairvoyance, and eloquence.

Divinity has created the original principle of the elements by the three virtues represented by A, Sch, and M.

A is the air principle of intellect and wisdom.

M is the original water element of love, the original feminine magnetic fluid of emotion.

For reasons of balance the A has a mediating role between the original fire and the original water.

This is to say that intellect mediates between will and emotion.

Sch is the original fire principle of will.

This sound, the soft ahhhh of a sigh, is the virtue of wisdom and enlightenment in its highest form

This virtue gives clairvoyance, clairaudience, eloquence and musical and artistic gifts and control over the beings of the air.

Mastering this virtue gives the mind access to the purity of all ideas in their original form.

The beauty and perfection of all original ideas arouses the desire, or will, to manifest these on earth.

On earth as it is in heaven.

This virtue gives mystical powers such as clairvoyance, clairaudience, clairsentience, and the ability to levitate, so that survival even in the most difficult circumstances is possible.

"All that I do ye shall do and more."

The color is light blue, the sensation is ease, the musical note is G, and the part of the body that is formed by this virtue is the lungs.

This opens up the virtue of umlaut A, aeThe ability to release back to Divine Being any imperfection so that it is transformed into a higher state.

It is loamy brown, the earth element with a sensation of weight, the musical note of C, and is the source of the anus in the human body.

The sound of this letter is the virtue of cause and effect, which is the karma law.

On the mental level, this is analogous to memory, remembrance and conscience.

*In the emotional body, this corresponds to the astral/physical matrix, which is the connection
between emotion and physical form, with all of its functions.

On the material world, everything that has shape, measure, number and weight can be understood and mastered with this virtue.

The color of this virtue is light opal, the musical note is G, the element is earth so it has the sensation of weight, and the left kidney is created by this oscillation.

Footnotes:

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her. The being and the angels share the same name. This name is a key to their powers and influence.

Names, phrases, or sections in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books have very important information for these studies.

The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others. Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

Feel free to share these messages.

**The Law of One is the original law of Creation,
and is the supreme Law over all laws in all dimensions.**

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM ,

and I AM one with all there is;

I ask that only THE HIGHEST GOOD OF ALL concerned happen.

I give thanks that this is done.

SO BE IT!

So it is!
