PDF version

Leo is spiritual will,  
that expresses desire and faith and enthusiasm  
for the highest good of all.

The 15th degree of each sign is a most pure and perfect expression of  
the purpose and meaning of that sign,  
because it is in the middle between the sign before it and the sign  
after it.

Therefore, balance between Cancer, the sign preceding it, and Virgo,  
the sign following it,  
expresses the most perfect and pure expression of divine will for the  
highest good of all.

Cancer is strong flowing tangible feelings in the body of divine faith and  
purpose,  
while Virgo is divine wisdom manifesting in practical ways in day to  
day earthly matters.

15 degrees Leo

Beloved,

We initiate people to understand the connections  
between the desire,  
mental,  
emotional  
and physical worlds.

We impart understanding of the correlative  
action of the desire body,  
mental body,  
emotional body  
and physical body,  
and of their fluids in the body and nature,  
and furthermore,  
in the disharmonies caused by these fluids,  
and in the restoration of harmonies.

We help with mastery of balance in the four levels of manifestation,  
frequently known in antiquity  
as the "quadrupolar magnet".

Underneath these four levels is unity.

Unity is foundation of all four levels, and is awareness of pure being

**and unity  
with Divine Being and all creation.**

**This foundation is referred to as the fifth element of akasha or ether.**

**Unity awareness is a very slow brainwave, around 0 to 3 oscillations per second,  
called deep Delta Waves in science.**

**Unity awareness is dominant in infancy and in deep dreamless sleep each night.**

**The brainwave pattern speeds up whenever a desire or intent is created out of this field of pure being and oneness.**

**When consciousness generates a desire or intent, the other four elements  
come in to being.**

**A desire or intent generates in higher frequencies of the Delta brainwave state, up to 4 oscillations per second, occur.**

**This first level is the fire element.**

**So the first of the four levels of the quadrapolar magnet is the fire element of desire, visualization, and intent.**

**Intent is the level of electricity.**

**It is a creative outgoing masculine energy.**

**Remember that the Delta brainwave levels are dominant in infancy.**

**In the first trimester of prenatal development, the physical body is primarily created.**

**In the second trimester the spiritual connection between the individual self and the omnipresent divine consciousness is established.**

**In the second trimester of prenatal development this level of connection of pure being and oneness with omnipresent, omnipotent, omniscient divine being  
is deeply and bodily experienced and imprinted in cellular memory.**

**During this stage of development it is important that mother and child live in security, harmony, peace, love and quiet.**

**Both mother and child will, intend, and desire this harmony and love, and  
research has shown that any physical or emotional stress to the prenaté during this time may manifest later in life as either rage toward or disbelief in Divine Being, or as a fearful or narrow relationship with intention or spirit,  
so that a person has little or no faith in their desires, intentions, or will.**

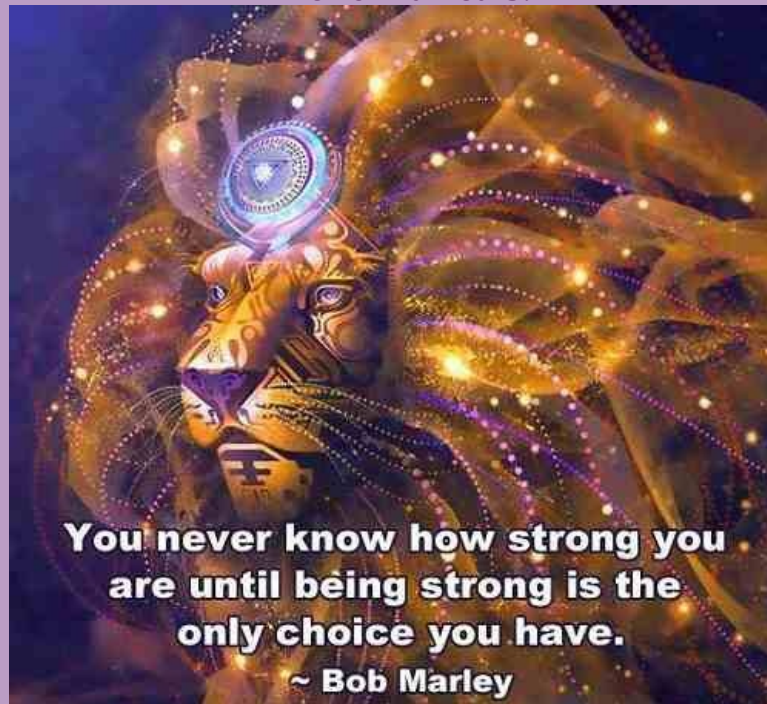

**When a person desires to connect with and master this level of pure being and intention, any emotional and physical traumas from the second trimester and resulting traumas during infancy, are restimulated by the higher self for the purpose of being healed.**

**This is where we help a child of divine being shine!**

**We help each person on the journey of enlightenment heal and awaken  
this part of the self,  
to bring the fire element of faith and enthusiasm into divine perfection.**

**This can best be done through allowing painful emotions about faith  
and  
will, in present time, flow safely and nondestructively,  
with validation for the wounded inner child within,  
and with empathy and love and gratitude that the child survived.**

**Empathy and love from the present time adult self to the wounded inner  
child self within allows these emotions to be felt and validated so the  
inner child heals.**

**Praise and thank the inner wounded child self for being brave,  
for being strong,  
for having survived.**

**In meditation, speak the Law of One with empathy, asking for Divine  
Love to heal both the mother and yourself and the traumatic situation in  
the past.**

**It is important to trust the psyche, the subconscious mind, as these  
emotions erupt through cellular remembrance of visual images and  
emotions.**

**Trust the emotions and experience how quickly they change through  
letting them finally flow freely and release.**

**Remember that the subconscious mind speaks through visual images  
and  
symbols.**

**Once the painful visual images that arise in the imagination of the  
earlier conditions that created stress in the second trimester are  
accepted,  
and the painful emotions are validated by the present time adult  
conscious mind and allowed to heal by being expressed safely in  
meditation,  
then using The Law of One creates deep changes in meditation.**

**As these painful emotional experiences heal through flowing in a field  
of love and validation,**

**happy visual images and emotions arise.**

**These new visual perceptions permanently replace the original painful visual images and emotions in cellular memory.**

**In meditation a person is inspired to imagine what it would have been like if he or she and the mother had lived in a peaceful, loving, spiritual environment during this time of growth in the womb.**

**This is how healing takes place in the imagination, and a new cellular memory replaces the visual memory of the previous trauma.**

**The imagination is the inner eye.**

**Visual images seen in the imagination stimulate the pineal gland to produce corresponding frequency chemicals into the bloodstream.**

**Many years of scientific study have revealed that the subconscious mind does not distinguish between imagined happenings and actual ones.**

**These imagined healing images and emotions are most important, and affect the DNA.**

**The new healed loving memory becomes the new ground of beingness.**

**Now, when you wish to experience this level of your being as divine unity, will, intention, thought and emotion, your automatic connection with Divine Being and all creation happens much more naturally and easily.**

**Here are descriptions of the levels of fire, air, water, and earth.**

**Fire, as explained above, is the element of pure being and will, or intention.**

**The second part of the quadrapolar magnet is the level of mind, which is the level of thought, ideas and understanding.**

**This level is the air element.**

**Mind also is a masculine energy that forms a bridge or connection to the next and opposite feminine polarities of flowing emotions and physical form, which are water and earth, the final two parts of the quadrapolar magnet.**

**Mind, or air, is the Theta brainwave that is dominant in childhood.**  
*"Ye must be as little children to enter the kingdom of Heaven."*

**When you wish to connect with this deep inner level of thought,**

any traumas that occurred during  
the third trimester of development in the womb,  
will be restimulated from cellular memories for the purpose of healing.

Physical or emotional stress to the child and mother during the third  
trimester  
of prenatal development in the womb  
manifests later in life as fearful inner visualizations and thoughts,  
and as fearful or narrow relationships with the use of the imagination.

If you have intrusive painful fearful thoughts, then in meditation on  
these emotions, allow painful emotions to flow with deep empathy for  
them  
and the inner wounded child self that still lives within you.

This inner child self subconsciously still keeps the adult self in fear  
even in the present time, many years later.

Ask Divine Love to heal yourself and all others concerned by saying  
the Law of One to the inner child  
and everyone else involved in the earlier traumatic events.

Now imagine and feel what it would have been like if you had had a  
wonderful happy loving spiritual third trimester.

Take your time and dwell at length on the beautiful imagined images  
and  
emotions and feelings that arise from this meditation.

Now we address the third level of the quadrapolar magnet.

The third level is the level of flowing emotions, the level of heart  
and emotion.

This level is the water element.

It is magnetism.

It is feminine energy.

It is soul.

This energy ATTRACTS reality into form at the next level, the physical.

Emotions are the Alpha brainwave level that becomes dominant in  
adolescence.

When you wish to experience this level, emotional traumas at birth will  
be restimulated for the purpose of healing.

Physical or emotional stress to a baby and mother at birth manifests  
later in  
life as fearful paranoia,  
as hopelessness, upsetness, and not feeling safe.

The same technique used for spirit and mind works at this level.

In meditation connect with and go through any memories that your  
subconscious mind presents,  
flow with empathy for any part of you that experienced stress or  
discomfort  
in birth.

**Validate your deepest emotions as you remember intuitively and reexperience all the painful events, and ask for the Law of One to reconstruct all timelines.**

**The fourth level is the level of form, which includes sensation in the physical world of the five senses.**

**Form is the Beta brainwave level and includes memory and linear thought or logic.**

**This is the element of earth.**

**This is also a feminine magnetic energy.**

**Beta becomes dominant at puberty and throughout adulthood.**

**When you wish to operate masterfully at this level, emotional and physical traumas from childhood will be restimulated for the purpose of healing.**

**Physical or emotional stress in childhood manifests later in life as destructive behavior toward self, others and the environment.**

**Use the same techniques as before.**

**Allow painful emotions and memories to flow with deep empathy and love**

**for the wounded and disappointed child self within, then ask for healing from Divine Love and say The Law of One to all.**

**Now imagine what it would have been like if these painful times in childhood had been times of love, happiness, and spiritual peace.**

**We help you heal all of these levels.**

**Whenever any level is out of balance, the entire flow of energy, of creativity and manifestation is out of balance too.**

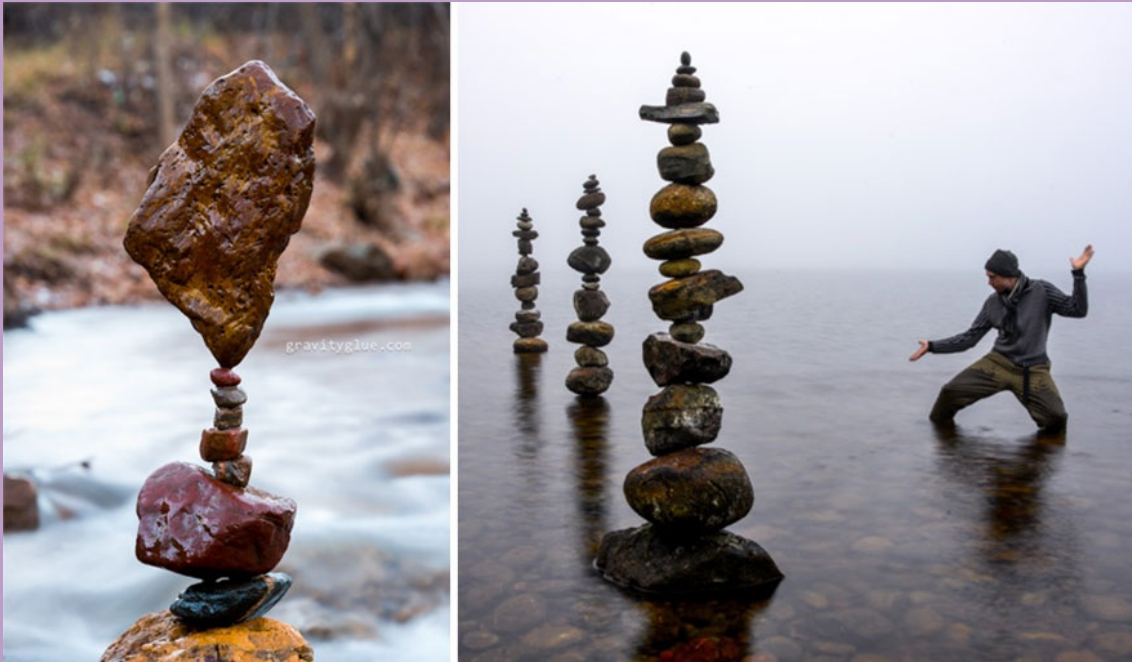

**Imbalance of the four elements results in spiritual, mental, emotional, and/or physical diseases.**

**If a person is cut off from their emotions, and is either always in their heads, or always in their bodily senses, or experiencing any other imbalance of the elements, harm is caused to self and others.**

**The fullness of time has now come for everyone to be enlightened and happy, to manifest Heaven on Earth.**

*"On Earth as it is in Heaven."*

**Our specific assignment, by Divine Providence, therefore, is to instruct the children of Light to understand how these levels affect each other and to heal them and keep these levels in balance, purity and harmony.**

**The most important concept to grasp is The Law of One.**

**This is the Original Law.**

**It is the Law of Laws.**

**All other laws in all dimensions come from this Original Law.**

**When The Law of One is invoked,  
all lesser laws are overridden.**

**Here is**

***The Law of One:***

***We are all One.***

***When one is harmed, all are harmed.***

***When one is helped, all are helped.***

***Therefore, in the name of who I AM,  
and I AM one with all there is,***

***I ask that only THE HIGHEST GOOD  
of  
ALL concerned,***

***happen.***

***And I give thanks that this is done.***

***So be it.***

***So it is.***

**The Law of One works even if you just say the words, however, it is even more beautiful if it is grasped (understood in its entirety) and invoked with conscious intention and visualization and emotions.**

**Apply its power during any process or situation, especially meditations of manifestation, with balance between the levels described above: pure being, will, thought, emotion, and form.**

**However, The Law of One has built in protection, so that even if you have inadvertently become unbalanced on any of the levels in the process of manifestation omnipresent consciousness and the heavenly hosts fill in the gaps.**

**When working to manifest new realities, BE AWARE of unity with Divine Being and listen carefully to inner guidance that inspires a desire (intent) to manifest a divine situation or virtue.**

**CLEARLY visualize a perfect outcome of this desire IN ITS PUREST FORM, then understand and contemplate the meaning of this desire.**

**This will generate flowing emotions of the desired new situation or divine virtue.**

**Finally, in this meditation at the physical level, sensations of this image manifesting as physical reality, as form, occurs in meditation, sensations with shape, measure, number and weight.**

**The act and the physical forms that the manifestation is to take depends entirely on the divine inspiration received from inner guidance, the visual images that are formed, and the emotions with which it is imbued.**

**Sensing it with weight, shape, number, and measure gives form to an**

**emerging new reality on the physical level, a miracle, that is,  
it finally takes on physical dimensions as a result.**

**Sometimes all levels may not get exactly equal time because of any  
individuals (co-creators) natural propensity to emphasize one level  
over the others,  
however the key is to strive for balance, making sure that all levels,  
the state of pure being and oneness with all, the desire, the visual  
image and thoughts,  
the emotions, and the sensations, are at least adequately expressed.**

**As much as possible, maintaining BALANCE, clarity and purity of the  
four levels is the ideal to be striven for.**

**Remember to always pay enough attention to all four levels.**

**To those whose natural strength is at the level of will and desire,  
care must be taken to purify these through healing any woundedness  
or disconnection with Divine Being.**

**Emphasize the other levels to achieve better balance.**

**Enrich your inherently strong desires with more vivid visualizations,  
clearer mental understandings, clear and pure emotions, more detailed  
sensations to bring them into balanced manifestation on the physical  
level.**

**To those who have strong intellects, care must be taken to attune to  
pure being and unity with Divine Being, spiritual will,  
clarify and purify emotions and heal any wounded emotions, and any  
wounded sensations, to bring your great ideas into more balanced  
forms.**

**To those who already have strong emotions , care must be taken to keep  
these pure and beautiful, and then balance them  
with stronger development of the other levels.**

**To those who live primarily in the physical world of actions and the  
five senses, work on developing the other levels.**

**Of course, some attention must be given to clarify and purify the  
behavioral level, but, at least initially, proportionately greater time  
and emphasis  
needs to be put on pure being and unity with Divine Being, with will,  
intellect, and emotions.**

**Inner guidance may guide you to be creative on the physical level as  
well,  
such as acts of painting a portrait, or creatively building  
something, playing music, or writing a poem or book.**

**You may be guided to contact someone, or start a new project.**

**It could be making an important plan or conducting a business meeting,  
etc.**

**Overall, the physical level can inspire any creative act.**

**We teach each person on a spiritual path especially how to perform the  
most powerful creative acts of manifesting new realities  
by using the art of The Power of the Word, the ancient way of  
understanding and uniting and using the divine virtues of Divine Being.**

**This fourfold process of pure-being and intent, imagination, emotions,  
and sensations in bringing into form  
a new reality is the true utterance of manifestation.**

**Remember, in the ancient teachings, this fourfold process is referred to as the quadrapolar magnet.**

***The WORD, Let it be, MUST BE carried forth from the high vibrations of spirit through the will, the mind and emotions and sensations into form with complete and balanced consciousness on all four levels for Heaven to perfectly and safely manifest on Earth.***

***To be successful, each step of this process is carefully and precisely mastered.***

**Through the divine virtues of the letters of our name, we help you diagnose and balance your beingness, intentions, your visualizations, understanding, thoughts, with your emotions, feelings, and sensations.**

**We call in whatever orders of heavenly hosts are necessary to help remedy whatever imbalances, oversights, or confusions that could be interfering with your ability to manifest new realities at any level of the creative process.**

**THERE ARE MANY HEAVENLY HOSTS WHO HELP WITH THESE STEPS.**

**The key is to have deep and true spiritual unity with pure being and Divine Awareness and with all Creation, desire, then make a clear visual image, with clear concepts of the idea flowing with the deepest, most profound emotions.**

**Flowing emotion is the magnetic energy that attracts what happens.**

**Finally, elaborate the sensations, to bring the manifestation into form.**

**As long you intend that everything manifest in the way that is the highest good of all concerned, Omnipresent Being and the heavenly host join in to help.**

**Through the divine virtues of the letters of our name, balance, purity and clarity on all levels of creation is achieved.**

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her. The being and the angels share the same name. This name is a key to their powers and influence.

Names, phrases, or sections in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books have very important information for these studies.

**The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others. Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.**

**To understand Universal Consciousness, and immortality, it is very helpful to read the first three volumes of The Life and Teachings of the Masters of The Far East by Baird Spalding  
The first three volumes are field notes taken on a scientific expedition to Nepal in the late 1800's.**

**The Law of One is the original law of Creation,  
and is the supreme Law over all laws in all dimensions.**

### **THE LAW OF ONE**

**We are all one.**

**When one is harmed, all are harmed.**

**When one is helped, all are helped.**

**Therefore, in the name of who I AM,**

**and I AM one with all there is;**

**I ask that only THE HIGHEST GOOD OF ALL concerned happen.**

I give thanks that this is done.
