19 degrees Leo

The Angels *of* *Sacred Objects*

Also known as

The Angels *of*

Paschan

Beloved,

**Deep within our hearts we long to experience ever flowing
ecstatic divine union.**

**We long to flow with tangible feelings in the body of emotions
of perfect beingness and unity with divine being,
with divine omnipotent will,
enlightened intellect,
blissful loving happiness and love,
and beautiful sensations.**

**When the atomic space of physical objects, places, and forms
are charged and impregnated with these and other divine virtues,
they become holders of these blessings,
and radiate them to all in time and space.**

**Because they are holders of these vibrations of holiness,
these objects, places, and forms become valued in deep reverence and
gratitude.**

**Through the divine virtues of the letters of our name,
we teach how to divinely charge the atomic structures of objects.**

**We teach how to impregnate holy objects and places with electric
frequencies of beauty,
of divine visual images,
and energies of the purity of all ideas in their highest forms.
We charge objects and places with magnetic tangible feelings of
emotions
of highest joy, love, grace, splendor and faith.**

*"For I have not given you the spirit of fear,
but of joy,
and life everlasting."*

**We inspire children of light and love to endow objects, forms, and
places
with powers of holiness that endure!**

**We awaken inspiration within the sons and daughters of divine being
to charge all matter with divine qualities,
so that every possession, place and every object radiates divine
blessings to all.**

**We inspire clarity and perfect purity of divine emotions,
so that physical matter is charged with heavenly flowing tangible
feelings.**

**The highest forms of expression of the law of evolution come from
desires for spiritual perfection and pure unity with Divine Light.**

**Attunements with the original blueprints of creation and with
omnipotent
will for the highest good of all,
awaken abilities to recognize and release imperfections for
transformations into other states that are the highest good of all,
thereby creating ongoing healing on every level and supreme happiness.**

Longings for spiritual progress, spiritual perfection, beauty on all

levels,
and higher spiritualization in general,
burns in the core of every human being and all sentient life.

In fact, this longing for spiritual perfection exists in everything in
creation on every level.

From this longing comes the will to live and for beauty.

As the ability for all physical matter to hold frequencies of holiness is
increasingly and
consciously understood,
and matter of all kinds are impregnated with divine virtues,
all matter is used with reverence.

We help people remember that Divine Being is omnipresent.

We help them remember that everything in creation is made of this
divine energy,
and that all energy is, at its core, expressing the flowing life of Divine
Love.

As it was written, *Step on a blade of grass and the universe trembles.*

With this remembrance,
matter is seen in a divine light.

Waste and garbage ceases.

Nothing is allowed to be wasted as the omnipresence of divine life is
seen
and felt to be in everything,
and people experience their own personal divine empowerment,
with open hearts of flowing ecstasy and peace.

Deep spirituality combined with childlike creativity and joyful
innocence then flows in day to day living.

"Ye must be as little children to enter the kingdom of heaven."

We reveal that the power of divine energy holding together atoms in
even a grain of sand is immense.

If this energy were released all at once, a large explosion would result.

Now, through deep research, scientist are proving
that the electric power of intent and the
attracting power of flowing emotions
have a dramatic effect on the quantum field.

Emotions are compressed information.

The most powerful emotions for influencing the quantum field in
positive ways reveal the laws of the ecstasies of love.

The tube torus field of energy around an open flowing heart is
thousands of times
more powerful than emissions from the brain alone.

We reveal that divine energy is, at its core, primarily powerful flowing
cosmic love.

Love conquers all.

Whether matter is most ethereal, such as in states of simply being,
or more dense,
as in electric powers of desires,
or more dense in powers of thoughts,
or even more dense,
as flowing tangible feelings,
or the most dense,
as material objects
with length, width, depth and weight,
all densities respond to love in beneficial and beautiful ways.

Love is plasma,
and is the flowing life sustenance of all in existence.

Charging matter with pure emotions of love and other divine virtues,
releases imperfections for transformation,
and causes transmutation back into original divine purities.

The Alpha and the Omega,
the beginning and the end,
in this way meet
and become ONE
in never ending expanding spirals of eternity.

So you see, longings for unification with Divine Light and Spiritual
Perfection lead people to charge spiritual objects with divine attributes
that thereby generate flowing emotions of faith, love and divine
supreme happiness.

Happiness is necessary for cohesion to exist.

"For I have not given you the spirit of fear, but of joy, and life everlasting."

We have inspired the sons and daughters of divine being
to bless many religions with sacred objects.

Statues, talismans, kivas, scriptures, vestments, sacraments, buildings,
trees, stones, places and relics in this way hold powerful and sacred
vibrations.

Remember, through the divine virtues of the letters of our name,
we teach how to divinely charge the atomic structures of objects.

We teach how to take emotions of highest joy, love, splendor and faith,
the energy of the purity of all ideas in their highest forms,
and impregnate any holy object or place.

Endow objects with powers of holiness that endure!

We ask you how many times has a weary soul passed by a sacred
talisman or place,
and felt refreshing currents of Divine Remembrance
whisper and awaken remembrance from the depths of their soul?

How many times has a pilgrim, weary and saddened by the world,
found the strength and inspiration to endure,
when they grasped to
their breast a holy talisman
that had been blessed
by one who had touched the heights of Glorious
Perfection?

How many souls have been uplifted and renewed by touching their lips
to
waters blessed by flowing love divine?

Oh children of light!

**Transmute even the least of Earths stones and material forms into
chalices of Divine Remembrance.**

**We inspire charging jewelry with powers of spiritual renewal,
with vibrations of the sacred and the divine.**

**Whisper within your soul,
Oh come to me, Angels of The Holy Objects and Holy Places."**

**Guide my meditation
so that this object and place is filled with energies of
Wisdom and Enlightenment,
of Supreme Happiness,
of emotions of divine perfect Purity and Clarity,
and most importantly,
with divine cosmic love.**

**Fill this earthly object with powers of purity and loveliness of Divine
Perfection,
so that whosoever touches or gazes upon it may be blessed and
restored.**

**When you call upon us in this way with your free will,
within the mystical laws of free will,
we respond.**

"Ask and ye shall receive."

**It is our joy to inspire each person in bringing divine energies of the
Kingdom of Heaven into whatever is desired.**

"On Earth as it is in Heaven."

**From a small stone to a beautiful sacred glade, from a desire, an
idea, or an emotion,
whatever objects that you desire to sanctify on any level,
you may call on us
and we guide your meditation
with the following divine virtues for success.**

P

This letter is the virtue of the longing for perfection and the highest spiritual realization.

By meditating on this virtue, a child of God awakens increased longing for unification with the basic divine virtues.

The deeper and the more frequent the seeker is penetrated by this virtue, the deeper will be the feeling of humility, and it is in this state that is found the greatest and most powerful proximity of divine majesty, of Divine Providence.

This virtue is dark grey, and has the musical note of B.

Since it is the earth element, it has sensations of weight.

The right side of the nose is formed from this virtue.

The desire for perfection is the cause behind charging talismans with divine virtues, and it is this longing which attracts the divine beings who accompany such talismans.

A

This sound, the soft ahhhh of a sigh, is the sound of wisdom and enlightenment in its highest form.

Individual mind unites with Divine Mind, with the original purity of all ideas in Divine Mind.

This virtue gives clairvoyance, clairaudience, eloquence and musical and artistic gifts.

The color is light blue, the sensation is ease, the musical note is G, and the part of the body that is formed by this virtue is the lungs.

When charging talismans, their energy is impregnated with enlightenment and wisdom, which inspires awareness of the purity of all ideas in their original form.

Then pronounced umlaut A, ae

This sound is the divine virtue of transformation.

This virtue gives control over imperfect passions and control over negative beings.

This is done by releasing the imperfect condition so that it may change into another state that is the highest good of all.

It also gives freedom from clinging to any imperfect possession, belief or feeling.

The color is loamy brown, the musical note is C, it is the earth element and has a sensation of weight.

The anus is formed from it.

S

This sound is the sound of all-penetrating-power.

This power is used to completely awaken omnipresent divine will, which is omnipresent in all creation, and charge molecular structures of physical objects to hold frequencies of this divine will that embody the highest good of all and energies of divine virtues.

The color of this virtue is purple red, its musical note is G-sharp, it is the fire element of will and so it has the sensation of warmth, and the gall bladder is the part of the body that is formed by it.

Ch

This sound is the virtue of perfect clarity and purity of divine emotions.

In charging talismans and other material forms, this virtue is necessary to keep energies in the highest and purest vibrations.

In this way, the forms will only bless and heal those who use them over time.

The color of this virtue is light violet, the musical note is D-sharp, and it is the water element of emotions and feeling so it has the sensation of coolness, and the left leg is formed by it.

Remember in using these meditations to envision yourself as a tiny dot in your solar plexus with your material body a living universe all around you.

"Ye are made in the image and likeness of God."

Hear the musical notes, feel the sensations, meditate on the meanings of the virtues and see the colors radiating from tiny suns in the parts of the body of their elements.

Akashic virtues are sensed as being everywhere present.

Fire virtues are sensed as being in the head.

Air virtues are sensed in the lungs.

Water virtues are sensed in the abdomen.

Earth virtues are sensed in the legs.

As you do this in your inner universe, know that simultaneously, through the law of sympathetic resonance and correspondence, that the outer universe, the macrocosm, is also experiencing the same changes through your breath and intent.

Keep the rhythms of the breath natural and dematerialize the colors in the body when you are finished to protect the natural balance of elements in the body.

For the purpose of making talismans, focus these virtues particularly into a sacred object.

A

This virtue of wisdom and enlightenment gives control over the spirits of the air.

You may ask these spirits to associate themselves with talismans and material forms in ways so that whenever you or someone else interacts with them, they are connected with wisdom and enlightenment.

Umlaut A,ae

Charge material forms with abilities to release imperfections for transformations into higher states.

NThis sound is the sound of supreme happiness and fulfillment.

Happiness creates cohesion, and is similar to gravity, the letter M.

All matter should promote this virtue of divine happiness, so that heaven may manifest and find cohesion on earth.

Happiness awakens instincts for survival.

The color is dark red, the musical note is A, it is of the water element of feeling so it has a cool sensation.

The liver is formed from this virtue.

MIRACLES

Footnotes:

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her. The being and the angels share the same name. This name is a key to their powers and influence.

Names, phrases, or sections in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4J.

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books have very important information for these studies.

The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others. Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

If you have these, it might be helpful to read Frabato the Magician first, with appendixes, and then read appendixes from the other three for background.

What lies behind us and what lies before us are tiny matters, compared to what lies within us.

- Ralph Waldo Emerson

Feel free to share these messages.

**The Law of One is the original law of Creation,
and is the supreme Law over all laws in all dimensions.**

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM ,

And I am one with all there is;

I ask that ONLY HIGHEST GOOD OF ALL CONCERNED happen.

I give thanks that this is done.

SO BE IT!

So it is.
