BELOVED

**We protect the world server so that wealth, fame and power do no harm,  
but help,  
with enlightenment  
and progress on the spiritual path.**

**To enjoy divinely perfect high esteem, power, and wealth,**

it is necessary to master consciousness.

All four levels of awareness:  
being, will, visualization, intellect, emotions, and sensations,  
must stay focused  
on whatever is the highest good of all concerned,  
both in self and in outer worlds.

This requires clear inner guidance and high inspiration,  
the virtues of letters R and T in our name.

By understanding the four levels of consciousness in ones self  
and in others,  
and by following inner guidance and high inspiration,  
a child of light out pictures  
original divine blueprints of perfection  
concerning abundance on every level.

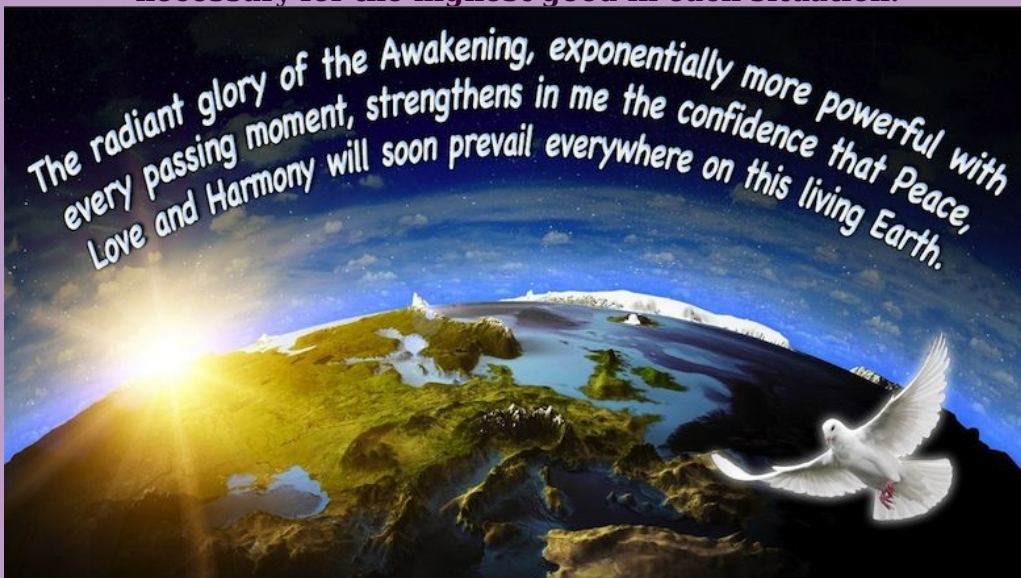

Once this is understood in the context of the unity of all life,  
whatever fame, high esteem and power are necessary for the highest  
good  
of all, in any situation, manifests naturally through divine high  
inspiration.

We inspire understanding and enlightenment, especially concerning  
awareness  
that Heaven and Earth are ONE.

There are times, on the path of world service, when wealth,  
high esteem, and power are necessary to carry out the works  
that must be done through inner guidance and divine inspiration  
from Divine Providence  
for the highest good of all,  
and manifest the original divine blueprints of creation.

*"On earth as it is in heaven."*

We inspire whatever forms of Wealth, Power and High Esteem are  
necessary for the highest good in each situation.

This is accomplished through the Divine virtues of the letters of our  
name.

A

This sound, the soft ahhhh of a sigh, is the sound of the highest  
wisdom and enlightenment.

This virtue gives clairvoyance, clairaudience, eloquence, musical and artistic  
gifts.

When a child of God unites in meditation with this virtue, the mind becomes impregnated with the purity of all ideas in their original form.

The color is light blue, the sensation is ease, the musical note is G, and the part of the body temple that is formed by this virtue is the lungs.

Then pronounced umlaut A, ae, the power of transformation is mastered.

Now we look at umlaut A, ae, [long A].

The realization of wishes regarding physical matter is subjected to this virtue.

The sound of this letter, the long A, {ae}, in the cosmic language is the virtue of the origin and mystery of life and death regarding their transformation.

By meditating on this virtue, a child of God becomes convinced that in reality death does not exist, for the so-called death is only a transformation from one state into another.

Also will come enlightenment on the cause of this transformation.

With this comes the ability to master all negative spiritual beings in all spheres and planes with regard to their scope of action.

The purpose for which negative beings have been created becomes clear.

Since, in the original principle all beings are alike, each having been created by Divine Providence to fulfill a certain task, there is no dissimulation of negative beings, for from the enlightened persons point of view everything is pure.

Here the saying: "*to the pure one everything is pure*" becomes plain.

If there were no negative beings, it would be impossible to distinguish between good and evil; and if there were no passions, there would also be no virtues.

This virtue confirms the words contained in the Bible: "*through night to light*", the deep symbolic meaning of which now becomes clear.

In the intellect the ability is gained to see through all thoughts, actions and wishes concerning matter, and of becoming their absolute master.

In the emotions, this virtue represents desires, passions, and the inclination to self-satisfaction etc.

A person who masters this virtue in their emotions becomes absolute master and ruler of all desires and passions.

Also, a person is able to not cling to mental, emotional, and material virtues and objects when it is no longer the highest good to do so.

This means complete independence and freedom and fulfills the saying "*bind yourself and you will be free*".

On the material level this virtue is one of the most materialized.

No matter whether you evoke it in the mind, the emotions, the akasha, or the material world, the earth is influenced by it to a larger extent.

The ability to infuse matter with divine virtues is heightened.

The color of this virtue is loamy brown.

The musical note is C.

The element is earth so it has sensations of weight.

The anus is formed from this virtue.

## B

The sound of letter B is the sound of universal life with all of its many polarities.

Mastering the virtues of this letter through meditation gives perfect control over polarity in all its forms, including will and emotion, life and death and awakens powers to change fate.

This virtue has a light violet color, the musical note of A, and has sensations of weight since it is the earth element.

The right eye is created from this virtue.

## B

The understanding and mastery of polarity gives the most profound wisdom and intuition regarding the truth of Divine Consciousness in everything that exists.

This virtue gives a child of God complete comprehension of the truth that nothing has been made in vain, and of the necessity for the positive and the negative, the plus and the minus.

Complete control over electro-magnetic energy, which means complete control over will and emotions and is gained.

From this comes perfect mastery over the physical world.

## E

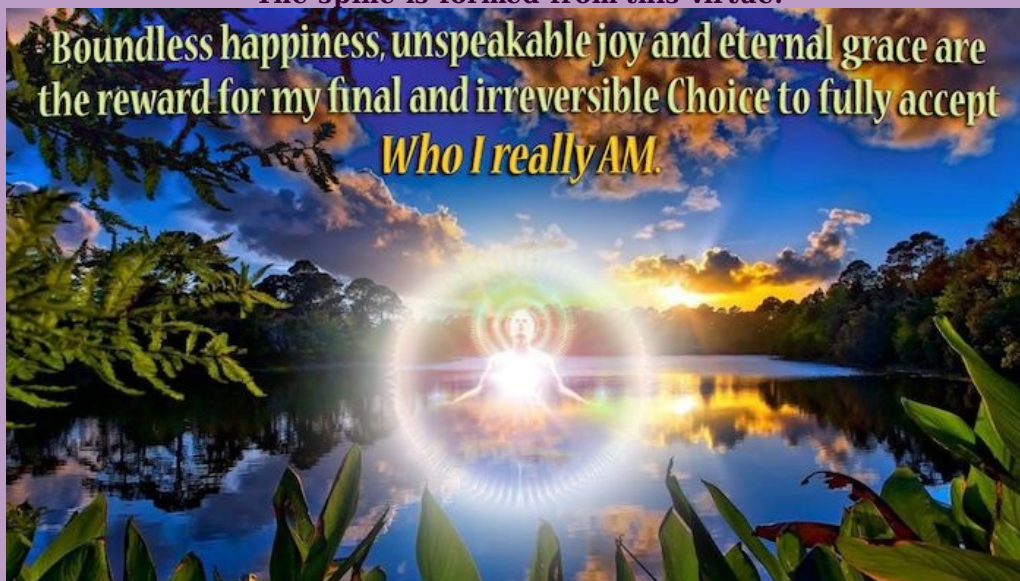

The sound of this letter is the sound of omnipresence, or the unification in awareness of the indwelling consciousness of God in all life.

By meditating on this virtue, a child of God unites their individual consciousness with Cosmic consciousness and becomes one with all life.

Use this meditation in transferring higher states of consciousness onto others.

The color of this virtue is dark violet, the musical note is D, it is the akasha element which has sensations of God-penetrating-all.

The spine is formed from this virtue.

## T

The letter T in the ancient language represents high inspiration with all the lawful matters of this principle.

In the intellect, this virtue awakens remarkable inventive faculties and

memory.

**In meditating on this virtue, see yourself as a tiny dot in your solar plexus with the rest of the body as an infinite swirling universe all around you.**

**Meditate with focus on high inspiration from Divine Mind, a sensation of warmth and fire filling the body from a tiny sun of a brown black color shining forth from the head region.**

**Direct the rays of this brown black light to any part of the body, awakening high inspiration to the cells, the emotions, the mind, and the spirit.**

**With the out breath, direct this light and quality to penetrate and awaken high inspiration to wherever or whomever your inner guidance directs.**

**Bring the light back into the body with the in breath.**

**Keep the rhythms of the breath natural and dissolve the brown black light in the body when you are finished, to protect the natural balance of elements in the body.**

**During your meditation, hear the musical note of F and feel yourself having mastery over all the elements.**

**By performing this ancient meditation, a connection is made between universal mind and individual mind, so that they become one.**

**I**

**The letter I represents the Law of Cause and Effect in the ancient language.**

**By mastering this virtue, the faculty of a perfect memory and conscience is gained.**

**The Law of Evolution of everything that has been created is expressed by it.**

**Divine Providence in His most subtle form is manifested in this virtue.**

**In the mind, a child of God who masters the laws of cause and effect is able to enliven everything as he or she pleases.**

**Also the ability to control both the breath and the connection between emotion and the physical body is gained.**

**The mastery of this virtue allows a person to understand the ongoing effects of every cause through time.**

**It has a light opal color, the musical note of G, radiates from the left kidney, and has sensations of earth and weight.**

**R**

**This sound is the sound of freedom and independence.**

**The mastery of this virtue gives clear inner guidance that is in complete harmony with Divine Providence, so no mistake is ever made.**

**Because the divine virtue of free will is an extension of Divine Mind operating within each being, a high state of maturity and ingenuity is gained that allows quick understanding of all knowledge.**

**It has a golden color, the note of C, and primarily is the earth element, so it is felt with a sensation of weight.**

**The left nostril is formed from this virtue.**

**A**

**The virtue of enlightenment and wisdom gives complete control over thoughts and the element of air, the spirits of the air, and the ability to heal the lungs.**

**Clairvoyance, clairaudience, eloquence, artistic talents, and other faculties are aroused by enlightenment.**

**Umlaut A, ae**

**Once the original divine thoughts of enlightenment are awakened with soft A above, then imperfections are recognized and released for transformations into the highest good of all, in self and others, and given back to Divine Being for changes into higher states.**

**Therefore, as you can see, we specialize in awakening the original purity of all ideas in Divine Mind in world servers and thereby help awaken this in others.**

**We enliven artistic talents, eloquence, clairvoyance and other mystical powers.**

**We inspire ongoing release of imperfections in self and others for transformations into higher states.**

**We harmonize this virtue with the understanding of the necessity for polarity.**

**We inspire control of will and emotions so that fates can be created in meditation which out picture the original divine blueprints of perfection.**

**We help with unconditional all encompassing love and mastery of the natural polarities required for creation to exist, and for free will.**

**Gods love is like the sun, it shines equally on the good and bad alike.**

**Because we are all one unified field:  
*harm done to others to help self,  
or harm done to self to help others,  
harms all.***

**We inspire the transforming of all imperfections that have been recognized and released for change into whatever is the highest good of all concerned.**

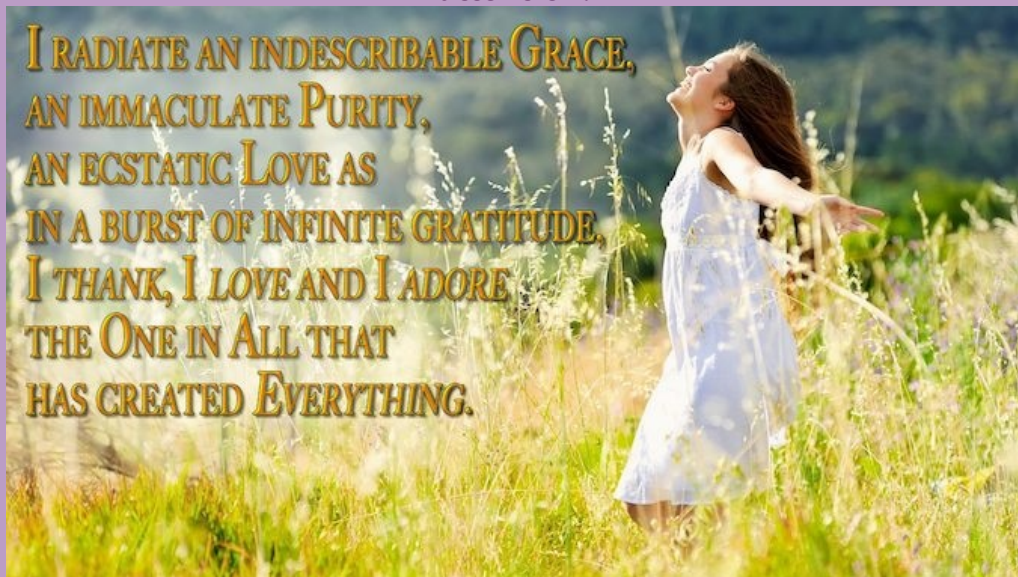

**This is done through seeing all through the eyes of love.**

***Love conquers all.***

***Love seeks help for all concerned.***

**We help each person experience the omnipresence of Divine Consciousness in everything that is created**

and attune to divine high inspiration on whatever comes to their attention.

We help with the understanding and mastery of cause and effect, and having control over memory, remembrance and conscience in self and others.

Clear inner guidance is combined with absolute focus of the highest purity of divine ideals and vision along with divine powers of clairvoyance, clairaudience, eloquence and artistic talent, so that only the effects are created which are the highest good of all concerned.

To enjoy divinely perfect high esteem, power, and wealth, understand consciousness and how it functions through being, will, intellect, emotions, and sensations in ones self and in others.

Once this is understood in the context of the unity of all life, whatever fame, high esteem and power are necessary for the highest good of all in any situation manifests so that Heaven and Earth are ONE.

### MIRACLES

Refer to other angel messages, such as the Angels of Abundance, 18 Aries, for instructions on how consciousness functions through the five elements of aether, fire, water, and earth.

In science these are known as the Delta brainwaves of Pure Being and Will-aether and fire, the Theta brainwaves of deep inner thought- air, Alpha brainwaves of flowing feelings-water, and finally Beta brainwaves of the five senses, memory and linear logical thought- earth.

### Footnotes:

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her. The being and the angels share the same name. This name is a key to their powers and influence.

Names, phrases, or sections in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and Information of the divine virtues and the letters are referenced from

**THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].  
Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.  
These books have very important information for these studies.**

**The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others. Franz Bardons last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardons.**
