The Angels of Miraculous Powers

Also known as

The
Angels
of

Ichdison

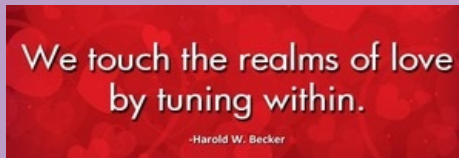

Beloved,

Emotions and tangible feelings of flowing Divine Love are the greatest
powers
for manifesting new realities.

Through laws of cause and effect,
life plasma from loving hearts
transmute whatever comes within their radius.

Through burning flames of omnipresent, omnipotent, omniscient divine

love,
generated from states of pure being,
new creations rise up from old ones
like the phoenix.

We teach how emotions of flowing Cosmic Divine Love
MANIFEST
ANY DESIRE
that is in accord with the highest good of all concerned.

Please note that these manifestations of DIVINE LOVE
result in supreme happiness for everyone concerned.

Miracles performed by teachers of old are examples meant to be
followed.

"All that I do, ye shall do and more."

Therefore, we, like other heavenly hosts, help people,
at appropriate points on paths to Perfection,
understand and perform divine miracles through blazing hearts of
divine love.

Ask, and ye shall receive.

Have you ever wondered why magical or miraculous occurrences are
rarely
recognized in contemporary society?
Other emotions, such as greed, fear, lust, despair, confusion, and
misuse of power attract deadening of the heart chakra.

Open hearts of flowing love create tube torus fields of energy.

The fields surround the human body.

This field of plasma, or life energy, scientifically catalyzes dramatic
changes in reality that are
beneficial to all.

An open heart of flowing love is the most important quality to encourage
in self and others.

Societies are beginning to emphasize educational development in
children of
this intelligence of loving hearts.

In the past, only a small part of awareness was emphasized in
education.

It was the five senses, logic, and memory.

This skill is produced by Beta brainwaves,
which correspond to logic, memory, and the five senses.

Ideally, this part of the brain comes to maturity only after puberty.

Emphasis during earlier years on beta brainwave functions, instead of
natural ones,
damages conscious awareness of functioning of deeper levels of Delta,
Theta, and Alpha brainwaves.

What a beautiful and unique expression of the universe you are....

**In infancy the Delta brainwave is dominant, this is the state of pure being and oneness with all there is.
This brainwave pattern is necessary for samadhi, or union with Divine Being,
omnipresent, omnipotent, and omniscient.**

**In childhood, the theta brainwave state is dominant, this is the state of deep inner fantasy and imagination.
This state is necessary for visualization and thought for the pineal gland to secrete corresponding powerful consciousness altering chemicals.**

**In adolescence, the alpha brainwave state is dominant.
This is the state of flowing tangible feelings and emotions,
of psychic reception.**

Emotions are compressed information from the delta and theta states.

Emotions are magnetic, and attract corresponding realities out of the quantum field of infinite possibilities.

**When all four develop and mature naturally,
meditation and states of enlightenment occur naturally.**

**As blazing hearts of flowing love enliven tangible feelings of rapture in the body during adolescence,
the pure beingness and oneness of Delta,
the dreams and hopes of Theta,
are attracted into realities on the physical plane.**

It is joyful to experience these physical manifestations in Beta brainwaves, which are the five senses, memory and logic and are dominant from puberty on.

**As strong blazing hearts of unconditional love find peak expression emotionally during adolescence,
later dominance of Beta brainwaves after puberty work in tandem with the heart.**

"The greatest of these is love."

**Deeper brainwave levels build upon each other,
and are absolutely necessary to the creation of and manifestation of**

miracles.

Fortunately, parallel with the development of societies where miracles are considered the rare exception rather than the rule, are ancient secret and carefully protected spiritual schools.

**These old schools teach the presence and the technology of the heavenly hosts,
the divine virtues,
and the fourfold use of brain and heart consciousness.**

**Divine Providence has ordained that now in the fullness of time,
which is the Alpha and the Omega,
that these two,
the patterns of society and sacred technologies,
form new educational realities that are the highest good of all,
as they merge and emerge into ancient future
paradigms of heaven on earth.**

Sacred technology teaches whole-brain thinking, using both hemispheres of the brain together with the heart to combine being, will, intellect, emotions, and sensations.

Divine education studies the beauty in nature through the eyes of a loving heart intelligence.

**By meditating on divine virtues in whole brain manners,
neurotransmitters and glandular secretions of the human body alter
consciousness
so that the natural divinity of humanity is experienced and
manifest fully.**

"All that I do, ye shall do and more."

**Through the Law of Correspondences, the as above, so below law,
when people create realities in meditation, inside their own beings,
wills, mind, emotions, and sensations,
then corresponding realities are created in the outer universe.**

This is known as "The Power of the Word."

That is why it was spoken that:

When one is harmed, all are harmed.

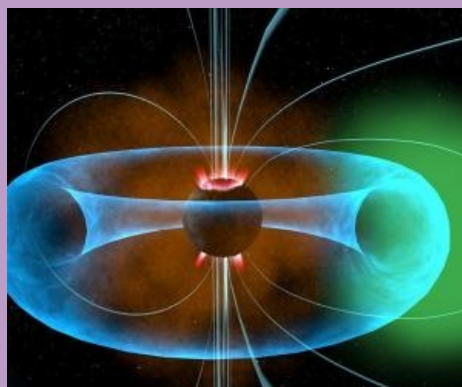

When one is helped, all are helped.

**Therefore, it is of utmost importance, to the well being of the whole,
that each individual is happy and inspired from within with clarity and
perfect purity.**

**New realities attracted into manifestation from successful
states of inner meditation producing flowing emotions of DIVINE LOVE
are happy ones.**

**Existing in states of supreme happiness is the natural order of the
universe.**

"Make a joyful noise unto the Lord all ye lands."

Happiness creates cohesion in creation.

**Perhaps this is why, in The Declaration of Independence, it states that
the
the pursuit of happiness is of prime importance.**

**Sacred Law demands that only the highest good of all concerned
happen
in any and all instances.**

**Inner guidance, that still small voice within,
gently guides you to create new realities of love.**

**Most importantly, seeing through the eyes of emotional LOVE DIVINE,
reveals DIVINE BEINGNESS indwelling whatever is seen.**

This brings about divine justice and harmony for all.

**Inner guidance is a direct link with Divine Providence,
which knows exactly what the highest good is in each and every
situation.**

**Unlike civil and social laws, sacred law cannot be written,
because it is given in the moment through inner guidance
to create LOVING REALITIES
and bring supreme happiness to all.**

**What is right at one time may not be right at another, what is good for
one situation or person may not be appropriate for another.**

**Therefore, sacred law is given through inner guidance, so that the heart
expresses love that is best for each person, time and place.**

Sacred Law is accessible within the heart.

**The magnetic energy field of the heart is 5,000 times stronger
and the electrical field is much stronger than that,
than the energy field of the brain.**

**By seeing through eyes of emotions of love divine,
the energy fields of head and the heart are connected and miracles
happen.**

**Keep in mind that as the heart opens after a long while of being closed,
old emotional wounding comes back into awareness to be healed.**

**Heal painful emotions by being present with them with attitudes of
deep empathy for the emotions themselves
and for those parts of you deep inside that generated these emotions
during times of previous emotional traumas.**

**Letting emotions flow with empathy heals them quickly and
permanently,
especially if you allow the flowing to go all the way back to the first
times you ever felt them.**

Ask DIVINE LOVE to heal them and everyone and everything concerned.

**Ask for this DIVINE LOVE to heal ancestors back through times, and
future generations forward through times.**

**Imagine this happening in your theta brainwave state of deep inner
fantasy!**

"You must be as little children to enter the kingdom of heaven."

"The kingdom of heaven is found within."

"Seek ye first the kingdom of heaven and all else shall be opened up for you."

Miracles require whole brain awareness of Divine virtues;
the ability to simultaneously experience pure being and unity with
Divine Being and all Creation- THE ONE,
deep inner imagination and thoughts, strong flowing emotions,
and corresponding sensations, memory and logic.

Meditate each day.

"Pray unceasingly."

"Keep your eye single, and the body shall be filled with light."

Meditate with one letter and its virtue until it is mastered in being,
will, thought, emotions, and sensations,
starting with the beginning of the alphabet and working through to the
end.

The first letter of our name Ichdison,
the letter I, is the virtue of cause and effect.

*The sound of this letter is the virtue of cause and effect,
which is the karma law.*

*On the mental level, this is analogous to memory, remembrance and
conscience.*

*In the emotional body, this corresponds to the astral matrix
with all of its functions.*

*As you know, the astral matrix is the connecting link between the
material body and the soul, or emotional body.*

Meditations on Divine virtues download original software from Divine
Being that bloom into understanding and mastery.

As you practice the exercises with the letters,
ask to remember and unite with Divine virtues in your being;
visualize their colors,
ponder their meanings so that you create flowing Divine Emotions.
Enliven these emotions with toning musical notes, and imagine
sensations of these virtues.

Meditate and this heals the parts of the body formed by these virtues.

Do this according to the meditation of The Power of The
Word revealed by the letter H.

By doing so, awareness becomes whole brain and whole body
and, as this happens, miracles spontaneously happen
through the sacred and mystical magic of your breath.

This four level awareness is more natural to learn than learning any
language.

This skill is built in and simply must be remembered.
Old programming that limits consciousness to only the five senses,
memory and logic is released.

With control and mastery of being, will, thought, emotions and
sensations,
in meditation,
nothing is impossible.

With the addition of networking with the heavenly hosts,
even the greatest of miracles are easily possible.

Be patient, and take your time.
As you remember previous lifetimes of spiritual seeking,

which is the virtue of letter Z in the alphabet,
skills of previously learned powerful meditations effortlessly arise.

Remember that the journey of a thousand miles begins with the first step.

*"Nothing shall be impossible to you."
"With faith all things are possible."*

"All that I do, ye shall do and more."

MIRACLES

I-Ch-D-I-S-O-N

The sound of this letter is the virtue of cause and effect, which is the karma law.

On the mental level, this is analogous to memory, remembrance and conscience.

*In the emotional body,
this corresponds to the astral matrix with all of its functions.*

As you know, the astral matrix is the connecting link between the material body and the soul, or emotional body.

It is a known fact that the astral matrix, and with it the whole body, is kept alive by breathing.

With the initiation into karma law, the knowledge of cause and effect, you are in the position to get under your perfect control the breath with all of its aspects and ways of application.

All magical abilities are subject to the mastery of breath.

On the material world, everything that has shape, measure, number and weight can be understood and mastered with this virtue.

The color of this virtue is light opal, the musical note is G, the element is earth so it has the sensation of weight, and the left kidney is created by this oscillation.

As with all the letters and their virtues, first relax into a state of pure being and unity with Divine Being and all Creation.

Now locate yourself in time and space by seeing yourself as a tiny dot in your solar plexus with the rest of the body as an infinite swirling universe

all around you.

Meditate on a tiny sun radiating from the area of the body that corresponds to the element of the virtue you are studying.

In this case, see light opal shining from the leg region.

Meditate on the meaning of the virtue with your intellect, in a Theta brainwave state of deep inward thought.

In this case, meditate on the virtue of cause and effect.

Flow with emotions of this virtue. Intone inwardly the musical note, in this case G, while feeling mastery over the law of cause and effect.

Do this with a sensation of the element, in this case a sensation of weight, filling the body.

By performing this meditation with a vivid imagination, a connection is made between universal mind and individual mind, so that they become one.

While chaos ensues on the planet, small changes can be made to ensure that we do not continue to live like robots as we change our routines.

As the consciousness of the planet rises in frequency, all that live on her do as well.

This seems to be slowly changing our reality on an individual level right now, and eventually the individuals combined will change the whole.

ChThis sound is the virtue of clarity and perfect purity.

With this ability, it is possible for you to eliminate any obscurities and to perceive and understand everything in its purest form.

/Mentally/you will be able to understand all spiritual beings, men and animals, and they will understand you.

On the emotional level, the understanding and practical application of rhythm/in the macro- and microcosm in all phases is grasped.

The power over life and death is revealed.

Even the Bible mentions such an event as a miracle by which Christ made Lazarus rise from the dead and made a tree wither within a few moments to demonstrate this power.

The color is light violet, the musical note is D-sharp, it is the element of water so it has the sensation of coolness that increases to iciness.

The left leg is created from this virtue.

DThe sound of this letter is the virtue of creation, or the mysteries of emotions of Divine LOVE to create.

All mysteries of creation, especially the mysteries of the art of creation in the micro-and macrocosm, and all knowledge is revealed by mastering this oscillation.

In the intellect, the profoundest wisdom of the elements and the ego is revealed.

Emotionally the mastery of LOVE in all of its phases is gained.

The color is dark blue, the musical note is C, the element is fire so it has the sensation of warmth, and the right ear is formed from it.

IThe virtue of Cause and Effect explains the Law of the Evolution of everything.

Divine Providence in His most subtle form is manifested in this virtue.

SThis sound is the sound of all-penetrating-POWER.

***This will power is used to become one in consciousness
with the original all penetrating divine will.***

***In the akasha principle, which is consciousness-penetrating-all,
this letter oscillation represents the all-penetrating power, all-power.***

***By meditating on this quality you get into contact with the most subtle
substance of the Divine spirit,
the original divine fire and will in everything that has been created.***

On the mental/level you have perfect mastery over will and intent.

On the /emotional level you have absolute clairvoyance in its purest form.

You see over time and space and have control over other beings.

***This virtue is the original fire, visualize it as purple with a
reddish tint with a feeling of warmth, filling all of space.***

***It vibrates to the musical note G sharp, and is used to form or heal the gall
bladder.***

Umlaut O, eu

***Akasha: In the principle of consciousness penetrating all, the
umlaut O oscillation evokes
the most profound cognition which can only be brought about by emotions
of
LOVE DIVINE.***

***By the help of this a person gets to know all the possibilities of
transformation of the spirit,
all the systems and ways serving this end, and all knowledge
concerning transformation in all other fields.***

***He/she is informed about everything that, deriving from the act of
creation, had to pass through all the mode of transformation to be reunited.***

***A person must attain all the faculties that are offered by this
profound cognition made possible by LOVE DIVINE,
in the principle of consciousness-penetrating-all, and must make use
of all possibilities,
in order to get convinced that they cannot be described by words, by
must be experienced, lived through.***

***I have mentioned the letters umlaut A and umlaut O as the last
ones in this series of exercises,
because by the help of their virtues one is able to comprehend, from
the principle of consciousness-penetrating-all, the crown of all wisdom
in the micro- and macrocosms, from the act of creation to the present
state of evolution, and even to the final development.***

***Mental: Evoked in the intellect, the virtue of profound
cognition brought about by flowing emotions of LOVE DIVINE
gives the understanding of the transformation of ideas, virtues, etc.
by the quabbalistically pronounced word, which is a very great and
comprehensive field.***

***Astral / emotional level: In the emotions, the virtue of
profound cognition brought about by flowing emotions of LOVE DIVINE
develops the faculty of perfect astral projection and the mastery of
all occult and magical phenomena that have reference to transformation,
so that a person may, for instance, assume any desired vibration in
the emotional body without being recognized by other beings
and with only Divine Providence seeing through him/her.***

***Apart from this, a person is able to transform any emotional
oscillation into the oscillation he wants and to do the same with any element.***

***Material: When mastered in the physical body, the profound
cognition brought about by flowing emotions of LOVE DIVINE
leads to perfect knowledge of quabbalistic [the mastery of will,
thought, emotions, and sensation] alchemy in the material world.***

A person is taught the true preparation and charging of the philosophers stone in the physical sense.

*He/she can influence,
at will, any oscillationatomic, oscillation, electronic oscillation-
by quabbalah, and he/she is able to transform it into the oscillation desired by
him/her.*

*Therefore he/she perfectly masters the Laws of Transmutation and is
able to transform any metal into gold, any stone into a precious stone, etc. if
desired.*

*By the help of this virtue a person is furnished with many other
faculties of which he/she cannot even dream now and which non-initiates
would regard as absolutely impossible.*

*Umlaut O is dark orange, has the musical note of D-sharp, is the
element of akashic-earth which has the sensation of weight penetrating
everything.*

*The ovaries and testicles are formed from this virtue of the profound
cognition brought about by flowing emotions of LOVE DIVINE.*

In healing, heal the left ovary first and then the right one.

*OThis sound is the virtue of divine justice. This virtue gives
expression to the absolute legality of harmony.*

*According to the adherence to this virtue, fate is determined.
Meditating on and becoming one with the virtue of Divine Justice and
Harmony, a child of God can create a perfect fate in all future incarnations.*

*This virtue has an ultramarine blue color, the musical note of C,
and is the earth element so it has the sensation of weight. It forms the throat
and windpipe.*

NThis sound is the sound of supreme happiness and fulfillment.

*Flowing emotions of supreme happiness is the process of heaven
manifesting successfully into earth expression.*

*This virtue gives control over the mental matrix, which is the
spiritual bonding material which connects the emotional body to the mental
body, i.e., to the spirit.*

*The mastery of this virtue reveals to the child of God all the
mysteries relating to connecting the emotions with the mind, i.e. the mental
matrix,
and bestows the ability to comprehend, see, sense and control, the
mental matrix with its sphere of action, either in regard of self or others.*

*The color is dark red, the musical note is A, it is of the water
element of feeling so it has a cool sensation.
The liver is formed from this virtue.*

Footnotes:

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions:

Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name.

This name is a key to their powers and influence.

Names, phrases, or sections in the angel messages are quoted or paraphrased from the books of Franz Bardon.

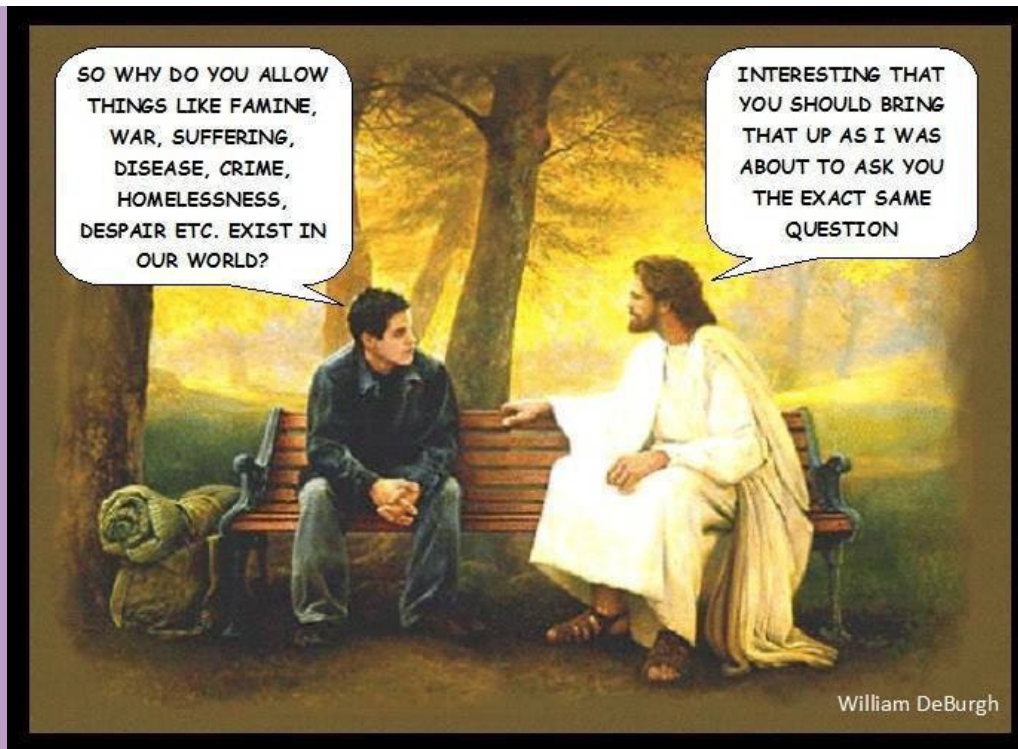

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4]. Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

*The Law of One is the original law of Creation,
and is the supreme Law over all laws in all dimensions.*

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM ,

and I AM ONE one with all there is;

I ask that only THE HIGHEST GOOD OF ALL concerned happen

I give thanks that this is done.

SO BE IT!

So it is.

**"The most exquisite paradox...
as soon as you give it all up, you
can have it all. As long as you
want power, you can't have it.
The minute you don't want
power, you'll have more than you
ever dreamed possible."**
