## The Angels of Mastery of Storms

Also known as

The  
Angels  
of

## Carona

Beloved,

***Powerful forces in creation are directed through  
spiritualizing them  
through cognition brought about by UNITY and  
omnipotent divine love.***

***By recognizing divine essences of these forces,***

***and giving thanks for them,  
a person asks that they do what they do  
ONLY IN WAYS THAT ARE THE HIGHEST GOOD OF ALL  
CONCERNED.***

On paths to spiritual perfection and mastery of will,  
a child of divine being learns  
that there is a direct connection between emotional storms  
and physical storms on earth.

Great powers in creation obey  
those who have learned that their own physical, emotional, mental and  
spiritual realities  
ou tpicture what they create in meditation within for self,  
and that these internal creations are then mirrored back by outside worlds.

By mastering internal storms within, on all levels of desire, thought, feeling,  
and sensation,  
at the same time as identifying self as one with all,  
a person masters storms anywhere, in anything, through intent.

This is true especially as intentions are visualized as realities of  
unconditional all encompassing love.

Great powers in creation obey those who embody the highest good of all.

They are attracted to and obey those who embody emotions of unity and  
unconditional all encompassing love.

Giving thanks for whatever is going on within the self,  
or in the outer worlds,  
creates a field of non-resistance.

Following this with The Law of One,  
asking for the highest good of all concerned,  
fulfills a purpose for which humankind was created.

*"For I have given you dominion over all that is created."*

It is written that each Child of Divine Being is given dominion over all that is  
created.

It is written that God is Love.

Even storms obey those that respond with love instead of fear.

***Come back into complete dominion over creation and self within,  
and bless all within with harmony, safety and with ease.***

***Automatically these frequencies radiate outward into the collective,  
and the collective receives information codes on every level,  
and all are blessed.***

***"One good man can save a city of ten thousand,  
and ten can save the world. "***

***Come back into unconditional all encompassing love that shines  
on everything alike,  
within and in the outer worlds.***

***in this our final degree of Leo,  
through the six divine virtues of the letters of our name,  
we teach how to control both strong emotions in the emotional  
world***

***and weather storms in the outer physical world.***

**Mastery of great emotions within the self, both positive and negative,  
is accomplished on an ongoing basis.**

***As this happens, mastery of thunderstorms and gales is also  
gained.***

***So also is the ability to calm the rough seas, stop or cause heavy  
rains, and evoke or cease storms.***

***Mastery of fluidity and change is gained in the emotional world and  
the physical world .***

**To control storms, on both emotional and physical levels:**

**The first skill is spiritualizing,  
through giving thanks for all things,  
combined with powers of flowing divine love.**

**Do this with all divine storms of the physical world,  
as well as storms of the emotional worlds,  
both within the self and in the outer worlds for all is one.**

**Give thanks for all of it, the blessings of the positive and the lessons of the  
negative.**

**This is done with gratitude and faith in whatever the present reality is,  
seeing value in both the positive and the negative.**

***"Give thanks for all things, for that is my will concerning you."***

***"All things work for good for those who believe."***

**After creating a field of nonresistance by giving thanks,  
["give thanks for all things, all things work for good."] charge all with visualizations, thoughts, emotions, and sensations  
of harmony and perfection.**

**Storms bring many necessary benefits.**

**Tell the beings of storms to do what they do, and be who they are,  
only in ways that are the highest good of all concerned.**

**Give direction to the powers and forces, within the self and in the  
outer worlds,  
by asking for The Law of One.**

*The Law of One is the original law of Creation,  
and is the supreme law over all laws in all dimensions.*

**THE LAW OF ONE**

**We are all one.**

**When one is harmed, all are harmed.**

**When one is helped, all are helped.**

**Therefore, in the name of who I AM ,**

**And I AM one with all there is.**

**I ask that only THE HIGHEST GOOD OF ALL concerned happen .**

**I give thanks that this is done.**

**SO BE IT!**

**SO**

**IT IS!**

**The next virtue to bring into play is enlightenment,  
letter soft A,  
so that the original divine blueprints of perfection for every plane of being  
and every being in creation,  
are revealed, understood, and enlivened,  
in deep inner thought,  
both within the self personally and in the outer worlds.**

**Then it is easy and natural to recognize and release  
all imperfect desires, visualizations, thoughts, emotions or sensations,  
situations or states, within and in the outer worlds,  
to Divine Being for transformations into higher states.**

**This is the virtue of umlaut A, ae.**

***Follow inner guidance and release imperfections totally.  
Let them go, with gratitude and love,  
into The Law of One,  
for transformation.***

***With this triumph, it is natural next to attune to and flow with  
divine happiness, letter N.***

***Deep Happiness brings cohesion,  
and attracts only the highest good of all concerned,  
according to original divine blueprints of creation,  
so that heaven manifests on earth.***

**Remember, that to control storms on the outer, storms on the inner must also be mastered.**

**Whenever destructive passions erupt in the emotions in self or others,  
even the beings of weather,  
realize unity with all,  
give thanks for lessons being learned,  
intend and allow intense emotions  
to flow and heal naturally through purifying fires of divine love,  
in non-destructive ways,  
with divine empathy for everything,  
for everyone or anyone who is part of them.**

**Allow negative or destructive passions to flow safely by not acting out  
destructively to self, property or others.**

**Avoid both acting out destructively or trying to resist, suppress, deny, or  
bypass negative feelings,  
as this will only make matters worse.**

**Let the emotions flow safely  
with unconditional love  
for the feelings themselves  
as well for those parts of yourself or others, human and elemental, that are  
generating these emotions.**

**Allow divine love to do its work.**

***"Love conquers all."***

**Now comes the interesting part:**

**In meditation, do this with physical storms.**

**With divine love and gratitude, thank the storms for being.**

**Then recognize, release and thereby transform any destructive emotions  
of rage, desperation, fear or helplessness,  
in self or others or elemental beings.**

**Recognize and let go any limiting ideas of harm being done,  
of any imperfection happening,  
repeating The Law of One.**

**Thank the storms, and visualize the storms flowing in safe and non-**

destructive ways  
for the highest good of all.

It is always wise to focus into your heart, flowing with love that springs forth there.

PIGLET NOTICED THAT EVEN THOUGH  
HE HAD A VERY  
SMALL HEART,  
IT COULD HOLD  
A RATHER LARGE  
AMOUNT  
OF GRATITUDE.

- A.A MILNE

Grammarly Quotes

From your heart, while loving unconditionally and praising, respecting, and giving thanksgiving for everything in nature and creation, release any possible or probable imperfections that might manifest so that they change into other states that are the highest good.

the material world.**

virtues  
in the manner explained in these messages,  
remember how to recreate the world to be heaven on earth.**

In the next sign of Virgo a person takes mastery of WILL learned in the thirty degrees of Leo and applies it with Divine Wisdom in practical ways to heal and serve.

*"What you do unto the least of these, you do unto me."*

We are all One.

*All that I do, ye shall do and more.*

Remember that the heavenly hosts are with you and you are not alone.

*Ask and ye shall receive.*

C

When you call upon us, the very first thing that we teach you is the mysteries of the Eucharist with all its aspects.

This symbolizes the mystery of self-spiritualization.

When you master this mystery well,  
you comprehend and understand the profundity of the Eucharist and master all the practical methods of relating to the Eucharist.

It has to do with the transformation or incorporation of a divine idea, a higher virtue, into a certain form.

We teach you how to influence your own mental body or the spirit of somebody or something else by a divine idea, virtue, quality, power, or might.

We also teach you how to influence your own or someone else's emotions with these qualities.

And finally we help you to impregnate any material form at will with these divine qualities.

The color of this virtue is vermilion red, the musical note is D,  
it is the elements of fire and earth so it has the sensation of warmth and ease.

The stomach is formed from it.

Imagine yourself as a tiny dot in your solar plexus and your body as a universe around you.

See vermilion red radiating from a tiny sun in the throat area, filling the stomach or entire body [whatever inner guidance directs] with warmth and ease.

Intone inwardly the musical note of D, as you feel emotions of the spiritualization of matter, and meditate on Divine Will, Consciousness and Feelings being incorporated into your body, especially the stomach.

With the out breath, sense this radiance passing through the pores of the skin over the stomach and filling an object or the outer universe or whatever inner guidance directs.

With the in breath sense this radiance coming in through these same pores and filling your body. Doing this attunes your individual self with the Divine Self and you actually become one.

*"I and the Father are One. All that I do, ye shall do and more."*

Keep the rhythm of the breath natural and dissolve the vermilion color in the body when you are finished to protect the natural balance of elements in the body.

umlaut A, ae

The realization of wishes regarding physical matter, no matter whether this physical matter is fire, air, water, or earth, is subjected to this virtue.

The sound of this letter, the long A, ae, in the cosmic language is the virtue of the origin and mystery of life and death regarding their transformation.

By meditating on this virtue, a child of God becomes convinced that in reality death does not exist, for the so-called death is only a transformation from one state into another.

Also will come enlightenment on the cause of this transformation.

With this comes the ability to master all negative spiritual beings in all spheres and planes with regard to their scope of action.

The purpose for which negative beings have been created becomes clear.

Since, in the original principle all beings are alike, each having been created by Divine Providence to fulfill a certain task, there is no dissimulation of negative beings, for from the enlightened persons point of view everything is pure.

Here the saying: "*to the pure one everything is pure*" becomes plain.

If there were no negative beings, it would be impossible to distinguish between good and evil; and if there were no passions, there would also be no virtues.

Gods love is like the sun, it shines EQUALLY on the good and bad alike.

BY LOVING ALL THINGS EQUALLY with unconditional all-encompassing love, a person becomes like the Divine and assumes dominion.

UNCONDITIONAL ALL ENCOMPASSING LOVE IS THE MOST POWERFUL TRANSFORMING AGENT.

When negative beings feel this type of unconditional cosmic love, they gladly obey.

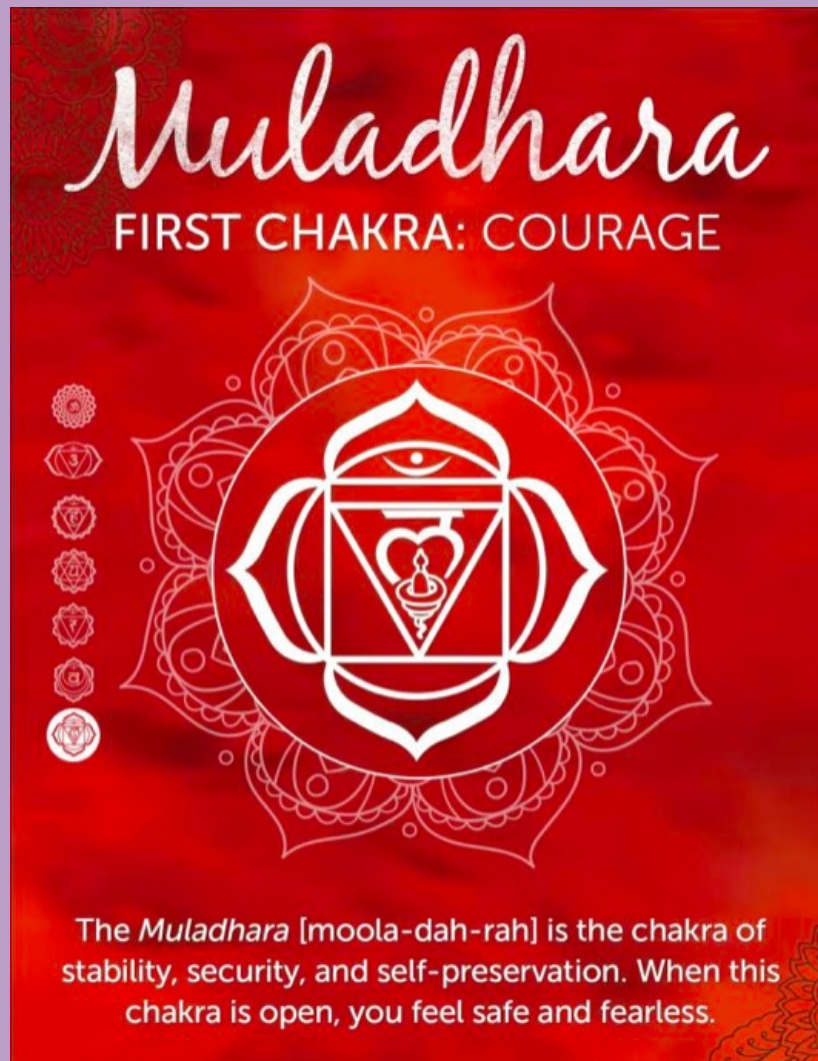

Always use The Law of One, the Law of Laws, and ask that they be who they are, and do what they do, ONLY in the way that is THE HIGHEST GOOD OF ALL CONCERNED.

This includes their own highest good.

Ask them to do this through all time and space; past, present, and future, and in all dimensions.

This virtue confirms the words contained in the Bible: *"through night to light"*, the deep symbolic meaning of which now becomes clear.

In the intellect the ability is gained to see through all thoughts, actions and wishes concerning matter, and of becoming their absolute master.

In the emotions, this virtue represents desires, passions, and the inclination to self-satisfaction etc.

A person who masters this virtue in their feelings becomes absolute master and ruler of all desires and passions.

Also, a person is able to not cling to any mental, emotional, and material virtues and objects.

This means complete independence and freedom and fulfills the saying "bind yourself and you will be free".

On the material level this virtue is one of the most materialized.

No matter whether you evoke it in the mind, the emotions, the akasha, or the material world, the earth is influenced by it to a larger extent.

The ability to infuse matter with divine virtues is heightened.

The color of this virtue is loamy brown.

The musical note is C.

The element is earth so it has the sensation of weight. The anus is formed from this virtue.

## R

This is the sound of the divine virtue of independence and freedom.

After learning all of the virtues associated with all of the letters of the alphabet in order starting with A, by the time you reach the letter R you have achieved a state of maturity by which your feeling of independence has been transformed into an absolute state of security and unimpeachability.

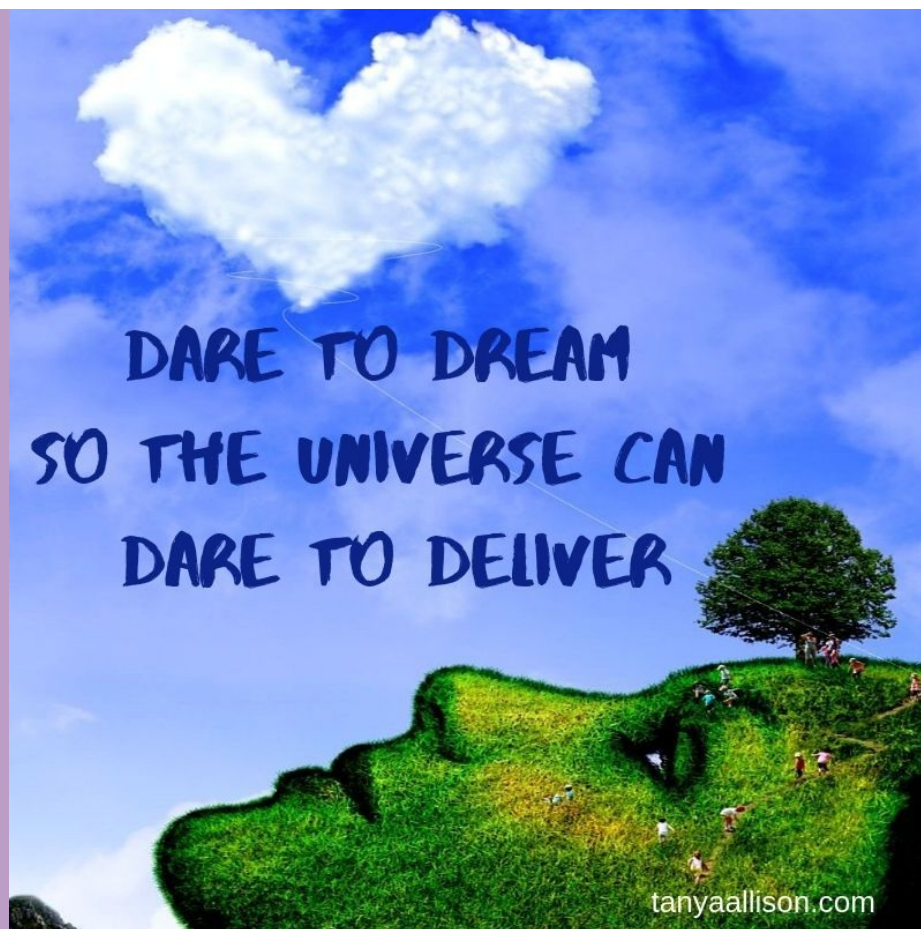

Mentally, you will have an eminent mind and the feeling of freedom of will and action.

Not only this, but also the state of maturity in which you will never violate a law, having yourself become a master of all laws. In spite of your freedom of will, you will find yourself willing to subject yourself freely to Divine Providence, and accept missions to serve Divine Providence with deep humility, immense gratitude and the highest devotion without losing your feeling of absolute freedom of will in any way.

Such great ingenuity will proceed from this that you will be able to comprehend any knowledge quickly and without difficulty.

The color of this virtue is gold, the musical note is C, the element is earth so it is felt with a sensation of weight, and the left side of the nose is formed from it.

Umlaut O, er

Akasha:

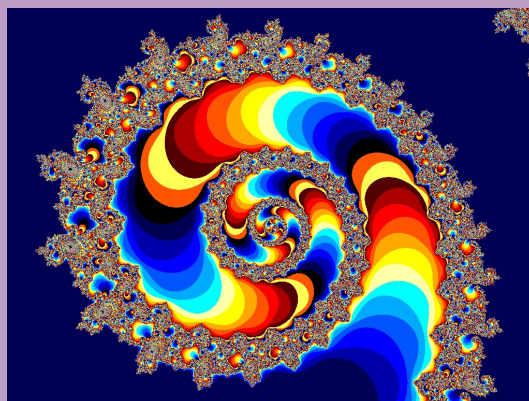

In the principle of consciousness penetrating all, the umlaut O oscillation evokes the most profound cognition which can only be brought about by love divine.

By the help of this a person gets to know all the possibilities of transformation of the spirit, all the systems and ways serving this end, and all knowledge concerning transformation in all other fields.

He/she is informed about everything that, deriving from the act of creation, had to pass through all the mode of transformation to be reunited.

A person must attain all the faculties that are offered by this profound cognition made possible by Love Divine, in the principle of consciousness-penetrating-all, and must make use of all possibilities, in order to get convinced that they cannot be described by words, by must be experienced, lived through.

I have mentioned the letters umlaut A and umlaut O as the last ones in this series of exercises, because by the help of their virtues one is able to comprehend, from the principle of consciousness-penetrating-all, the crown of all wisdom in the micro- and macrocosms, from the act of creation to the present state of evolution, and even to the final development.

#### **Mental:**

Evoked in the intellect, the virtue of profound cognition brought about by love divine gives the understanding of the transformation of ideas, virtues, etc. by the quabbalistically pronounced word, which is a very great and comprehensive field.

#### **Astral/ emotional level:**

In the emotions the virtue of profound cognition brought about by love divine develops the faculty of perfect astral projection and the mastery of all occult and magical phenomena that have reference to transformation, so that a person may, for instance, assume any desired vibration in the emotional body without being recognized by other beings and with only Divine Providence seeing through him/her.

Apart from this, a person is able to transform any emotional oscillation into the oscillation he wants and to do the same with any element.

#### **Material:**

When mastered in the physical body, the profound cognition brought about by love divine leads to perfect knowledge of quabbalistic alchemy in the material world.

A person is taught the true preparation and charging of the philosophers stone in the physical sense.

He/she can influence, at will, any oscillation atomic, oscillation, electronic oscillation- by quabbalah, and he/she is able to transform it into the oscillation desired by him/her.

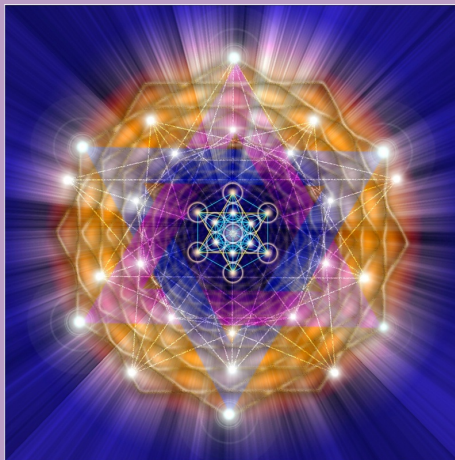

Therefore he/she perfectly masters the laws of transmutation and is able to transform any metal into gold, any stone into a precious stone, etc. if desired.

By the help of this virtue a person is furnished with many other faculties of which he/she cannot even dream now and which non-initiates would regard as absolutely impossible.

Umlaut O is dark orange, has the musical note of D-sharp, is the element of akashic-earth which has the sensation of weight penetrating everything.

The ovaries and testicles are formed from this virtue of the profound cognition brought about by Love Divine.

In healing, heal the left ovary first and then the right one.

#### **O**

The sound of letter O is the sound of the initiation into the original principle of divine justice.

Mentally you will be able to give expression to the absolute legality of harmony in all four basic qualities of the elements.

You will have a high power of judgment and the ability to comprehend spiritually any legality, any interference by Divine Providence for the sake of justice.

**You will never be able to condemn anyone unjustly.**

**This will bring about the abilities to create any change in the emotional situations that you find yourself in and to have absolute success and happiness on all levels.**

**The ability to control emotions is the ability to control the element of water.**

**We inspire you to charge the element of water with the emotions that stimulate the immune system to heal any disease.**

**This virtue has an ultramarine blue color, the musical note of C, and is the earth element so it has the sensation of weight.**

**It forms the throat and windpipe.**

**N**

**Next we initiate you into the highest state of happiness.**

**With this comes a mastery of the mental matrix and the mental aura.**

**The mental matrix is the spiritual bonding material, which connects the astral [emotional] body to the mental body, [the spirit].**

**The mastery of this will reveal the mysteries relating to the mental matrix and bestow upon you the ability to comprehend, see, sense, and control, the mental matrix with its sphere of action, in regard to yourself or to others.**

**You will also be able to see the mental aura and to define it with regard to its scope of action.**

**You will be able to recognize your own mental maturity and that of other people.**

**This will give you the ability to enlighten anyone who you deem worthy, on account of his or her maturity, so that the person is able to solve any problem corresponding to his grade of development without difficulty.**

**This mastery will give you great skill in the use of magnetism for the purpose of miracles.**

**The drive for self-preservation becomes perfected and control over the elements of water, of feeling is gained.**

**In the material world mastery over the power of coherence in any material thing is gained.**

**The color is dark red, the musical note is A, it is of the water element of feeling so it has a cool sensation. The liver is formed from this virtue.**

## A

This sound[a soft a like a sighahhhhh] and virtue is an initiation into the highest wisdom and the purity of all ideas in existence.

This has as a fundamental feature the enlightened mind.

Reasoning, perception, the cognition of the most profound truths, highest knowledge, high intelligence, and the arousing of all intellectual faculties are expressed. Musical gifts, eloquence, poetic talent, and clairvoyance, clairsaudience, the art of levitation, and the control of the air element and its beings are all aroused by this initiation.

On the physical plane the command of the beings of the air, control over storms, are all made possible by initiation into the highest wisdom.

The color of wisdom and enlightenment is light blue, the musical note is G, the element is air so it has the sensation of ease, and the lungs are formed from it.

Umlaut A, ae

Transformation through release.see above.
