The Angels of Inventions

Also known as

**The Angels of
Bruahi**

Beloved,

**We are protectors of all inventions in the Akasha-principle,
so that they are not realized before their time.**

**We inspire certain individuals to make certain inventions and we cause these to be realized
in the physical world when it is the highest good of all.**

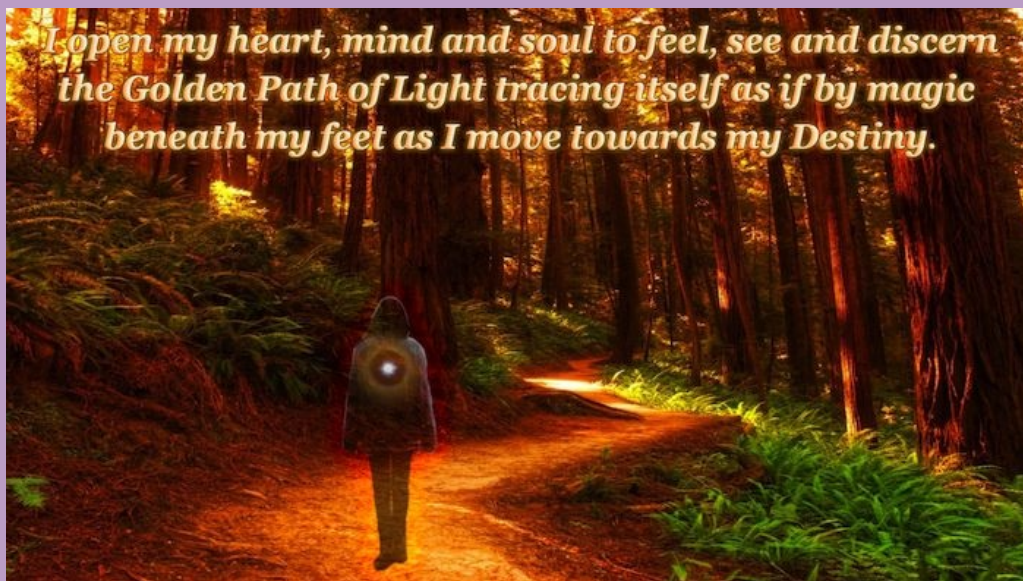

**We also hinder people with high intuitive faculties from realizing inventions
which are not to be made known to the public before a longer time,
maybe a century or five centuries, has passed.**

***As this glorious dawn becomes blazing light of full divine day,
and people awaken to enlightenment,
we reveal amazing inventions that further establish Heaven on Earth.***

***As people become enlightened and mature,
we are allowed by Divine Providence
to inspire inventions beyond your current level of imagination.***

**During the dawning of the Alpha and the Omega,
we make sure that destructive inventions are never fully realized,
or if they are,
that they are rendered inoperable when divine inner guidance directs.**

***We are the heavenly host that have the responsibility of safeguarding mankind
from destructive inventions either through intentional or unintentional use.***

***As more and more people ask for heavenly assistance
and find the kingdom of heaven within,
profound and great shifts in how inventions are used in
the world are occurring.***

**As each child of light and love discovers his or her own
divine nature,
and experiences an open heart in oneness with all life,
Virgo opens many initiations concerning practical wisdom.**

Day to day wisdom manifests in the most practical earthy ways.

Virgo inspires detailed analysis.

During passage through Virgo,

by studying previous messages of the cosmic language with
attention to detailed analysis,
a comprehensive picture emerges.

Simplicity rises out of complexity exquisite simplicity so basic and
pure,
that even children understand and regard it as obvious.

Living in the moment, being aware of what is happening now, both
within and in the outer world,
and following inner guidance, we realize that like a tree with many
leaves, branches, trunk, and roots,
that one life moves and lives within all our parts.

No harm must come to any of the parts of the tree, all parts desire
to be healthy.

"Ye must be as little children to enter the kingdom of heaven.

"The kingdom of heaven is found within."

*"Seek ye first the kingdom of heaven and all else will be added unto
you."*

The cosmic language is simple.

Go deep within, and find the still small voice.

The ancient cosmic language is awareness of and conscious use of
the five brainwave states, which develop at different stages of life.

The deep delta brainwave state of pure being and oneness with all is
ZEN,
the beginners mind that responds intuitively to life.

It is not concerned with the past or the future,
and is focused on unity with all beingness in the now.

In its active expression, it becomes intent, or will power.
This state is dominant during infancy and must be regained in
meditation.

It also occurs each night in deep dreamless sleep,
and in this way the body, mind, and emotions experience healing.

The theta state of deep inner thought and imagination is dominant
during childhood.

It is this state which is necessary to find the kingdom of heaven
within.

"Ye must be as little children to enter the kingdom of heaven."

"The kingdom of heaven is found within."

Next is the alpha state of flowing emotions.
This state is dominant in adolescence.

**Finally is the beta state of the five senses, memory and logic.
This state becomes dominant after puberty.**

**These five states, also known as the five elements of akasha, fire,
air, water, and earth,
are mastered in conscious awareness to create happiness in
practical ways in day to day affairs.**

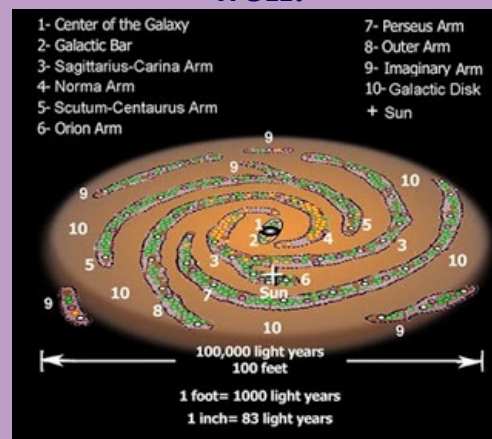

These states focus on the original divine blueprints of perfection.

**This is necessary, because within one minute of having a thought,
over a hundred thousand chemical reactions occur within the body.**

**By focusing on the overall unity and health of the whole,
all parts are protected and treasured.**

**Every part of consciousness must be healthy and in
harmony
for a person to be healthy.**

**With the use of inventions,
all parts of creation must be protected and treasured as
well.**

**We help the children of love and light understand that the cosmic
language
is the conscious use of original divine being-will-visualizations,
thoughts, emotions, and sensations.**

**These are the natural and effortless awareness states of any
enlightened human being.**

**With the cosmic language, the five brainwave states are recalled,
remembered, and used to focus on what is desired in the heart.**

**This awakens miraculous powers to flow easily and naturally in
service to creation
according to the highest well being of all.**

**In doing this, amazing powers of creation, intention, visualization,
thought, emotions, and sensations
are safely used to bring about technology
that mirrors divine miracles.**

**Through the deep delta brainwave state of akasha, which is pure
being
and unity with Divine Being and all creation,
insights arise on networking with the heavenly hosts
for purposes of bringing about desired conditions or creations that**

are the highest good.

This communication and community sharing are simply normal interactions of different parts of the one divine and unified body of creation working together.

We are all one.

The many make up THE ONE.

Analogous to the 72 trillion cells in the body making up one body, so too do all beings in creation make up one body.

As above, so below.

"Ye are made in the image and likeness of God.

"Know ye not that ye are Gods?"

**Each one of us is like a radio station,
transmitting and receiving information either consciously or
unconsciously.**

**It is time to be, desire, visualize, and create what we desire in our
hearts,
as pure innocent and beautiful children of God.**

**It is time to take back control of what we believe,
feel in our emotions, and thereby experience in our physical world,
so we walk in the footsteps of the masters and
experience and create miracles of love and beauty.**

**Be aware of any programming of your consciousness
coming in through any source that does not ring true to your heart.**

"Ye can tell a tree by its fruit. "

**If something doesn't feel good,
then rest assured that it isn't.**

**Then it is time to contain your own energy, to attune to your own
heart,
to transmit, through the miracle of awareness,
healing frequencies of akasha, fire, air, water, and earth to the
world.**

**And no one has to do this alone!
*"Ask and ye shall receive. "***

"Where two or more are gathered in my name, there I AM also. "

**Because we are all one, asking the heavenly hosts for assistance in
practical
matters helps all creation and makes more easily possible
the divine blueprints of perfection manifesting in Creation.**

**The heavenly hosts, including the angels, are under the guidance of
unified divine being
and receive help as well from other great beings,
some who were and are themselves human.**

**They are here to serve in humble gratitude,
for they have reached this place of awareness that we are all one.**

"What you do unto the least of these, you do unto me."

**In the true spirit of service to the one and the many,
they can be called upon to help.**

On Earth as it is in Heaven.

**So it is that in the dawning of the Alpha and the
Omega, we make sure that destructive inventions are never fully
realized,
or if they are, that they are rendered inoperable when divine inner
guidance directs.**

As people become enlightened and mature, we are allowed by Divine Providence to inspire inventions beyond your current level of imagination.

**Since in enlightenment, in which we experience ourselves as divine beings,
WE EXPERIENCE PURE BEING, IN UNITY WITH ALL with all creation,
we experience self
as A UNIFIED FIELD,
one with all creation,
one with man and woman and creatures and plants and minerals,
and all the heavenly hosts.**

This is why the heavenly hosts work through The Law of One which requires that the highest good of all happen.

In taking responsibility for all that happens through the effects of a creative act and its ongoing effects, we help you remember to always to ask that the highest good of all happens.

This assures that the fate that is created through a creative act is The Highest Good of All.

This is the highest and purest fate and this is the fate that brings about perfection in all life in every dimension.

To attune to guidance and mastery in the field of inventions, integrate the following six divine virtues in being-visualization-will, thought, emotions, and sensations with our help.

These are the divine virtues represented by the six letters in our name.

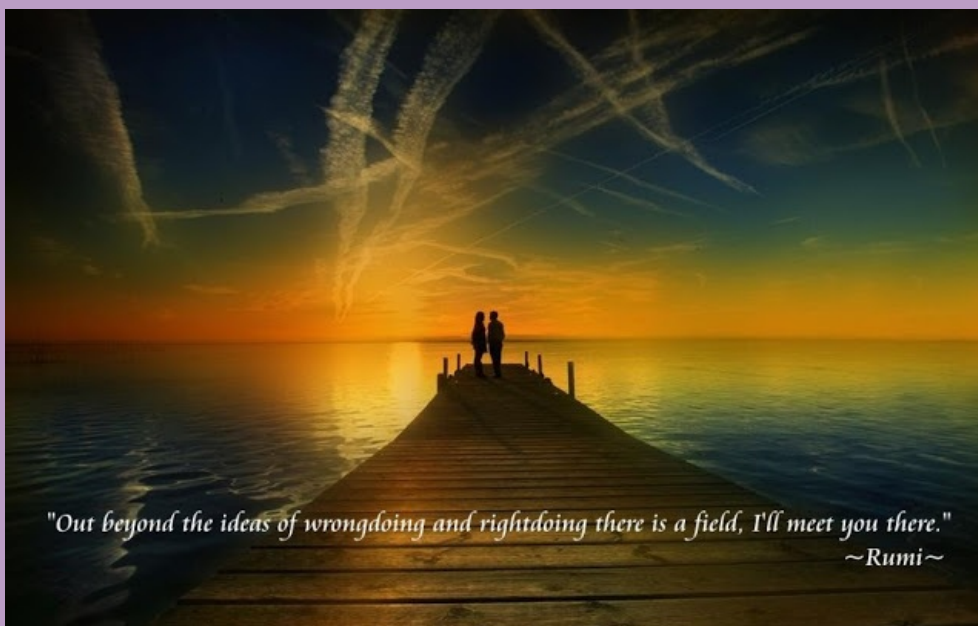

Bruahi

B

First comes the initiation into universal life and the cognition of polarity in all forms of existence which will lead to the profoundest wisdom.

You will learn to perceive the plus and the minus, and it will become clear that nothing has been made in vain and that the negative as well as the positive must exist, for without these contradictions the one could not be told from the other.

This will give you perfect mastery over the electric [will and desire] and the magnetic [feeling and emotions] energies of creation.

The color of this virtue is light violet, the musical note is A, the element is earth so it has the sensation of weight and gravity.

The right eyeball is formed from it.

R

This is the sound of the divine virtue of independence and freedom.

After learning all of the virtues associated with all of the letters of the alphabet in order starting with A, by the time you reach the letter R you have achieved a state of maturity by which your feeling of

independence has been transformed into an absolute state of security and unimpeachability.

Mentally, you will have an eminent mind and the feeling of freedom of will and action.

Not only this, but also the state of maturity in which you will never violate a law, having yourself become a master of all laws.

In spite of your freedom of will, you will find yourself willing to subject yourself freely to Divine Providence, and accept missions to serve Divine Providence with deep humility, immense gratitude and the highest devotion without losing your feeling of absolute freedom of will in any way.

Such great ingenuity will proceed from this that you will be able to comprehend any knowledge quickly and without difficulty.

The color of this virtue is gold, the musical note is C, the element is earth so it is felt with a sensation of weight, and the left side of the nose is formed from it.

U

Next we help you attain the faculty of understanding the creative act and karma.

With this comes the understanding of the original source of everything that exists in all its forms.

The highest form of intuition and inspiration in the mental body and the ability of transferring consciousness and evoking states of trance in the emotional body comes next.

The color of this virtue is velvet black, the musical note is B, the element is Akasha which is the sensation of God-penetrating-all, and the pancreas and pit of the stomach is formed from it.

A

This sound [a soft a like a sighahhhhh] and virtue is an initiation into the highest wisdom and the purity of all ideas in existence.

This has as a fundamental feature the enlightened mind.

Reasoning, perception, the cognition of the most profound truths, highest knowledge, high intelligence, and the arousing of all intellectual faculties are expressed.

Musical gifts, eloquence, poetic talent, and clairvoyance, clairaudience, the art of levitation, and the control of the air element and its beings are all aroused by this initiation.

On the physical plane the command of the beings of the air, control over storms, are all made possible by initiation into the highest wisdom.

The color of wisdom and enlightenment is light blue, the musical note is G, the element is air so it has the sensation of ease, and the lungs are formed from it.

From this comes the virtue of umlaut A, ae. This virtue is the mysteries of life and death and transformation.

By releasing any imperfection to Divine Being for transformation for the highest good of all, control over negative beings and negative emotions and situations is gained.

H

This is the divine virtue of the POWER OF THE WORD.

The power of the word is the cosmic language, which is a whole brain language of pure being and omnipresence, will-visualization, concept, flowing feelings, and sensation.

To speak the cosmic language, all four brainwaves are used simultaneously to produce a complete multidimensional sine wave that manifests divine virtues in the four planes of being, will, intellect, feeling, and form.

These divine virtues are produced in the microcosm and the macrocosm, which means they are produced in a persons own being, will, mind, emotion, and form and then are produced through intent and visualization in the outer universe on the levels of will, mind, emotion, and form.

The use of the cosmic language in World Service fulfills the saying that:

"All that I do, ye shall do and more."

Each letter, or virtue, has a sound, color, meaning, feelings, a musical tone, a sensation, and a part of the body temple that was created by it.

The idea is to sing the letter in the proper musical note, inwardly or outwardly, while visualizing color, and meditating intently on its

meaning, flowing with its feelings, and experiencing its sensation.

As you have learned through exercises such as the Tibetan Exercise of Paradox, that which is in the imagination must seem more real than anything else.

All letters may be practiced in the whole body, then in the elemental region, and then in the organ that is made from it.

The elemental regions are:

All fire letters are to be imagined shining as tiny powerful suns in their respective colors, creating warmth and great expansion in the head region, which is imagined as an infinite space.

All air letters are imagined as shining tiny suns in their respective colors, creating blissful, relaxing ease, in the lungs.

All water letters are imagined as shining tiny suns in their respective colors, creating coolness that turns to iciness, in the abdomen.

All earth letters are imagined as shining tiny suns in their respective colors, creating weight, in both legs.

For example, with the letter A, which is pronounced with a soft A, as in arm, hum AHHHH in the musical note of G while vividly imagining a bright light blue sun, shining from a tiny sun in the lung area, filling first the whole body, then the lung area, creating a sensation of ease.

Contemplate infinite wisdom and enlightenment.

Meditate on this filling inner space and then outer space with the out breath.

Breath through the pores of the skin over the lungs at the same time as through the mouth or nose. Keep the rhythm of the breath natural.

A most important aspect of meditation after visualization with faith is attunement to the MEANING of the divine virtue itself, which in this case is infinite wisdom and enlightenment, and the PURITY OF ALL ORIGINAL IDEAS in Divine Mind.

The more time that is spent on ATTUNEMENT in the MIND, the better.

With practice, the sun in the light blue color shining from a tiny sun in the lungs, the meaning, the ahhh sound in the key of G along with flowing feelings of enlightenment and the sensation of blissful ease pop into mind automatically whenever you wish to manifest wisdom and enlightenment with the breath.

This is because the mechanical part of the brain learns to do things automatically without thinking, like typing, driving, or walking. The mechanical brain also learns to do the cosmic language effortlessly and expertly over time.

With each practice session, identification with infinite wisdom with its four level aspects of will-visualization, mind and concept, feelings and tone, and sensation, deepens until eventually the spirit, mind, emotions, and body are permanently bonded and united with this Divine Virtue.

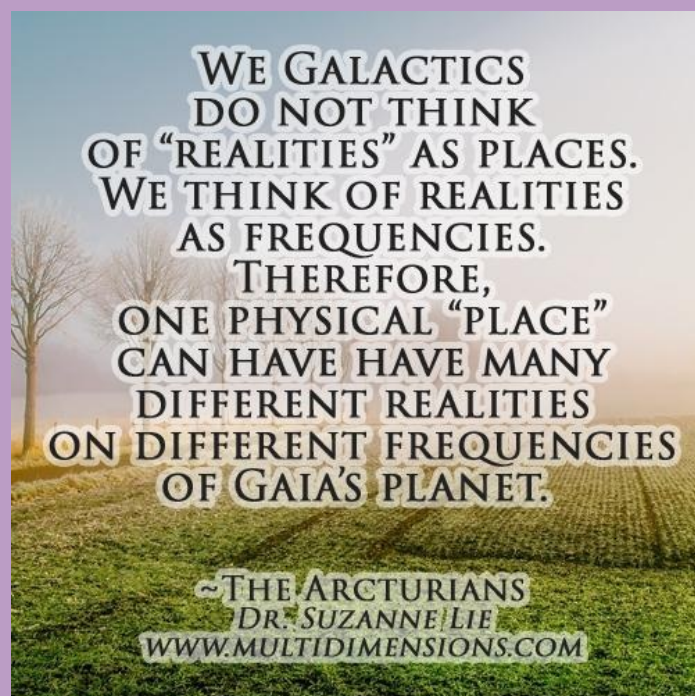

Whenever this virtue is desired in oneself, or another, or the universe, it is easily produced in a whole brain manner.

When this happens the letter 'A' is said to be 'mastered'.

In truth the depth of union with the virtue of Divine Wisdom and Enlightenment of letter 'A' increases to infinity.

We continually inspire this process of expansion.

The next step in the cosmic language is to master letter B, and then C, and so forth through the entire alphabet.

Since the same skills and brainwaves apply equally to all the letters,
once the first letter is mastered all the others come easily.

At some point, skill increases so that every time a letter is spoken or
heard in any context, the mind automatically attunes to the Willpower,
the visualization, THE UNDERSTANDING OF THE DIVINE VIRTUE, feelings,
musical note, color, and sensation. This is such a level of Divine bliss
and ecstasy that the endocrine system now produces chemicals that
prevent aging and bring eternal youth. The power to produce miracles is attained.

Master the single letters first, then join two or three together or more.

Two or more letters joined together form a mantra of great power.

For instance, suppose you join the letters A and H. First you would
make the soft ahhh sound in the key of G, meditating on the light blue
sun in the lungs of infinite wisdom filling all of inner and outer space
with a sense of ease. After that you make the sound of letter H in the
key of A, while meditating on a silvery violet sun in the head region
filling all of inner and outer space with feeling of warmth and the
power of the word.

The practical consequence of this letter combination is the influence of divine intuition, on oneself and on others. In particular, frightened people who think themselves surrounded by enemies and are therefore oppressed and haunted, may be cured and freed by the application of these two letters.

Also, people who believe that they are being wronged may be enlightened by this energy so that they will realize a higher wisdom and purpose behind everything that has happened.

"All things work for good to those who believe."

With practice, letters can be added together to form whole words.

The names of the heavenly hosts and angels, when used in this way, actually manifest the hosts and angels full presence and power.

I

The sound of this letter is the virtue of cause and effect, which is the karma law. On the mental level, this is analogous to memory, remembrance and conscience.

In the feeling body, this corresponds to the astral matrix with all of its functions.

As you know, the astral matrix is the connecting link between the material body and the soul, or feeling body.

It is a known fact that the astral matrix, and with it the whole body, is kept alive by breathing.

With the initiation into karma law, the knowledge of cause and effect, you are in the position to get under your perfect control the breath with all of its aspects and ways of application.

All magical abilities are subject to the mastery of breath. On the material world, everything that has shape, measure, number and weight can be understood and mastered with this virtue.

The color of this virtue is light opal, the musical note is G, the

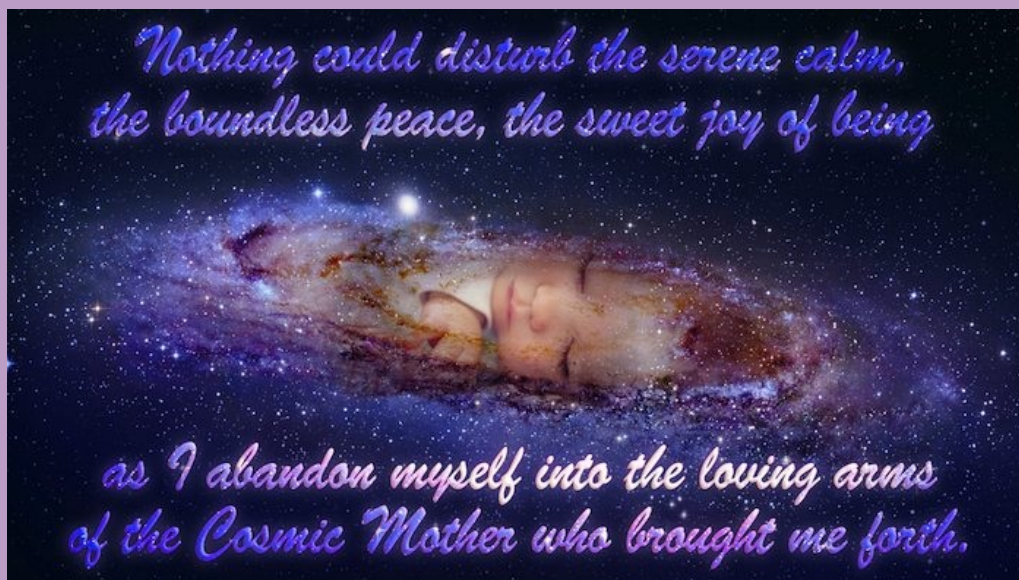

element is earth so it has the sensation of weight, and the left kidney is created by this oscillation.

B-R-U-A-H-I

I and my Father are One.

All that I do, ye shall do and more.

Footnotes:

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name.

This name is a key to their powers and influence.

Names, phrases, or sections in the angel messages are quoted or paraphrased from the books of Franz Bardon. Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and Information of the divine virtues and the letters

are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W Germany.

These books have very important information for these studies.

The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

I ask that only THE HIGHEST GOOD OF ALL concerned happen.
