Beloved,

***In times of Alpha and Omega,
heaven and earth are one.***

***Alpha is enlightenment, and letting go imperfections for changes into the highest good of all.
Omega is seeing through the eyes of love and transmuting what was imperfect into beauty of the
highest good of all,
bringing harmony and divine justice to all.***

People and all sentient beings live in freedom, plenty, security, and bliss.

***Vitality and health, inspiration and enlightenment, love and peace and freedom of time foster
artistic talents in all.***

The earth is bathed in beauty, music and song.

Art radiates the splendor and majesty of all of the Divine Virtues.

We are the heavenly host that control art in the physical world.

We administrate the various branches of art.

***Special methods are revealed by us that enable people to equip themselves
with any artistic faculty.***

We also help with establishing a career in the field of art.

**As Children of Light attune to Divine Will with flowing tangible feelings of Divine
Love, it is natural to use art for out picturing heaven on earth.**

**The brain communicates in images, not words.
Words are powerful to the extent that they create images in the imagination.**

**Creating images of divine perfection that result in flowing emotions of beauty,
shows that everything created may express the most splendid sacred art.**

**Beauty, harmony and ecstasy also pours forth through multi artistic media, such as
music, dancing, cooking, literature, sculpture, theater, clothing, architecture, landscaping,
inventions, and material possessions of every kind and purpose.**

**Everything on earth becomes artistic mediums
for expressing Love, harmony and Divine Will
for the highest good of all.**

**Each individual is unique, each moment is unique, each situation is unique,
and arts that each person manifest are unique.**

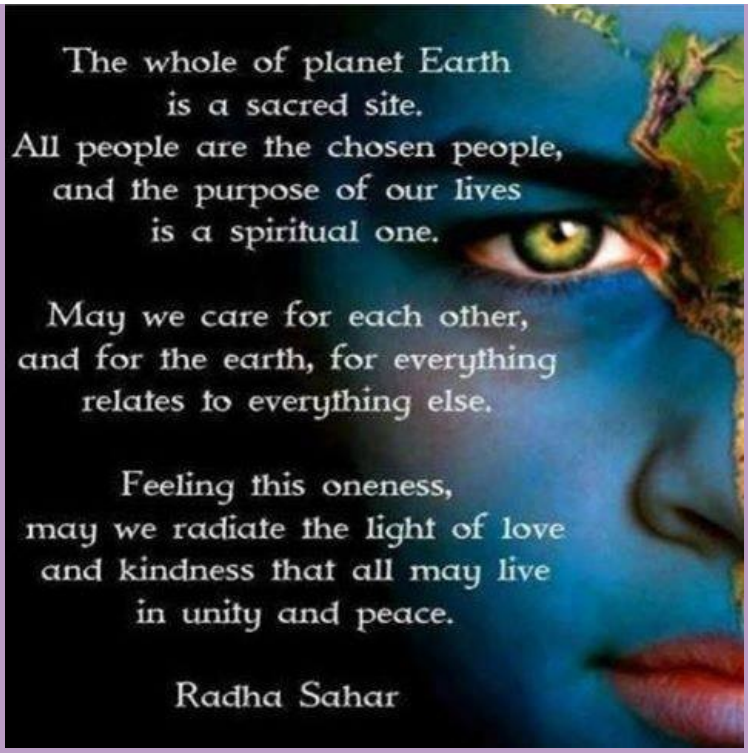

**The divine virtues of our name are awakened so that art flows
naturally.**

**WE BEGIN OUR INSTRUCTION WITH THE ORIGINAL WATER PRINCIPAL, MAGNETISM,
AND THE UNDERSTANDING AND MASTERY OF EMOTION AND FEELINGS.**

With this comes flow intelligence.

The whole of planet Earth
is a sacred site.
All people are the chosen people,
and the purpose of our lives
is a spiritual one.

May we care for each other,
and for the earth, for everything
relates to everything else.

Feeling this oneness,
may we radiate the light of love
and kindness that all may live
in unity and peace.

*Flow intelligence is the ability to use streaming intuition,
attunement to Divine guidance, and FLOWING DIVINE EMOTIONS in the process of creation.*

*By focusing on "flowing emotions" in present time, thoughts and ideas necessary to bring about a
work of art
are accessed from Universal Consciousness in a free-flowing, streaming, manner.*

*The right brain, the intuitive faculty, "downloads" from Universal
Consciousness unlimited ideas and inspiration in present time through the act of creating in any
medium.*

*When the left brain is flexible and
allowing, the ideas and inspiration are readily accessed for true works of art.*

The letter M is the sound of the original water, emotional, magnetic principal.

Its color is the most lovely blue-green imaginable.

*Meditate on this letter through the meditation of The Power of the Word and fill
your inner world with a sense of coolness that turns to iciness.*

*This letter represents the divine feminine and is one of the three original
Mother letters from which all other letters come.*

Each time you see, speak, or think of the letter M, remember that flowing emotions and water and magnetism are one.

Whatever you wish to magnetically attract is done with emotions.

This is why the mastery of emotions is important.

If you wish to attract inspiration for beauty, flow with some kind of beautiful emotions.

"Ye are made in the image and likeness of God."

The physical body is almost 80 per cent water, and is the most holy temple of the divine spirit.

The flowing emotions and wisdom inherent in the body are a reflection of the wisdom that runs throughout all of creation, due to the omnipresence of Divine Virtues in everything.

At night when dreaming, the eyes move back and forth from left to right and back, over and over processing emotions of the dream in the parasympathetic and sympathetic nervous systems.

>From this, the ancient practice for processing emotions is to move the eyes in this manner while flowing with any strong emotion.

When emotions are negative, such as fear, doubt, envy, despair, anger, helplessness, and confusion, moving the eyes—either shut or open—back and forth, while FLOWING WITH THE EMOTIONS, allows the two hemispheres of the brain to PROCESS the magnetic energy of these emotions to bring about resolution and healing.

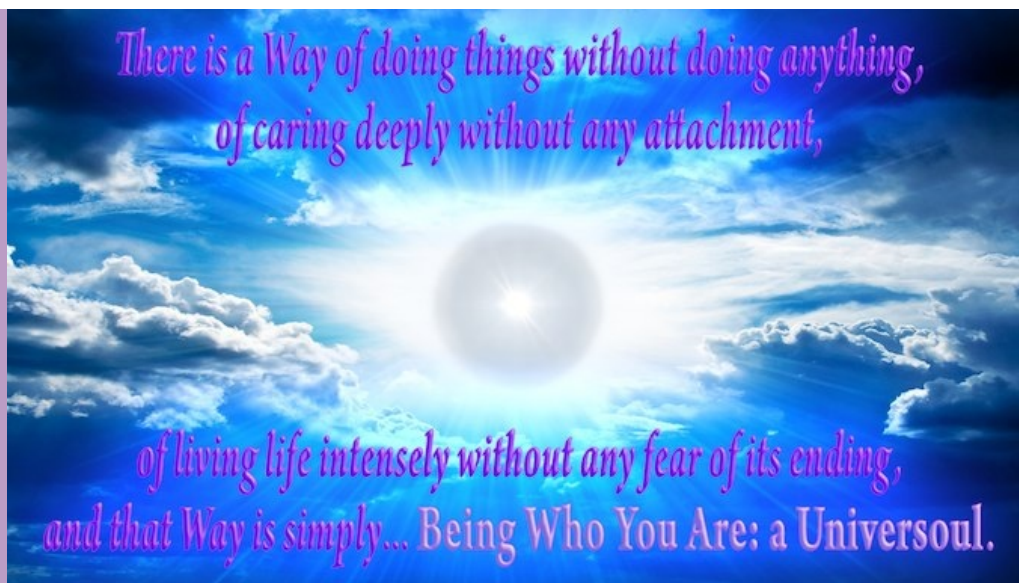

When the emotion is positive, such as love, awe, gratitude, peace, contentment, joy, or courage, moving the eyes back and forth, over and over again, while feeling the positive emotions, allows the two hemispheres of the brain to PROCESS the deepest and highest connections to spirit in regards to the divine virtues represented by these emotions.

This is one of the most important and effective exercises, it is one that the body uses every night for processing flowing emotions.

Using it consciously in the day becomes easier and second nature with practice.

Remember to pay attention to emotions the entire time that the eyes are moving.

The movement can be as slow or as fast as is comfortable in any situation.

*There is a Way of doing things without doing anything,
of caring deeply without any attachment,
of living life intensely without any fear of its ending,
and that Way is simply... Being Who You Are: a Universoul.*

No matter how busy you are, this is an exercise that can be done with the eyes open or closed at any moment during your day, whenever you feel an emotion, and even as little as a few seconds creates change.

If you do it for as long as 30 seconds, you will be amazed at how the emotion matures up.

If you practice this for longer periods of time, it will be possible to process large amounts of emotions, including emotions of past experiences.

The emotion itself changes and evolves and intuitive flashes of insight occur.

These insights are part of the emotional healing process and eventually result in emotional enlightenment.

This process removes all blocks to flow intelligence, which is necessary for true artistic expression.

Umlaut O , er

Akasha: In the principle of consciousness penetrating all, the umlaut

O oscillation evokes the most profound cognition which can only be brought about by love divine.

By the help of this a person gets to know all the possibilities of transformation of the spirit, all the systems and ways serving this end, and all knowledge concerning transformation in all other fields. He/she is informed about everything that, deriving from the act of creation, had to pass through all the mode of transformation to be reunited.

A person must attain all the faculties that are offered by this profound cognition made possible by Love Divine, in the principle of consciousness-penetrating-all, and must make use of all possibilities, in order to get convinced that they cannot be described by words, by must be experienced, lived through.

*To learn
love
and serve...*

*these are the true reasons
for our sojourn in this body,
in this Great School of Life.*

I have mentioned the letters umlaut A and umlaut O as the last ones in this series of exercises, because by the help of their virtues one is able to comprehend, from the principle of consciousness-penetrating-all, the crown of all wisdom in the micro- and macrocosms, from the act of creation to the present state of evolution, and even to the final development.

Mental: Evoked in the intellect, the virtue of profound cognition brought about by love divine gives the understanding of the transformation of ideas, virtues, etc. by the quabbalistically pronounced word, which is a very great and comprehensive field.

Astral/ emotional level: In the emotions, the virtue of profound cognition brought about by love divine develops the faculty of perfect astral projection and the mastery of all occult and magical phenomena that have reference to transformation, so that a person may, for instance, assume any desired vibration in the emotional body without being recognized by other beings and with only Divine Providence seeing through him/her. Apart from this, a person is able to transform any emotional oscillation into the oscillation he wants and to do the same with any element.

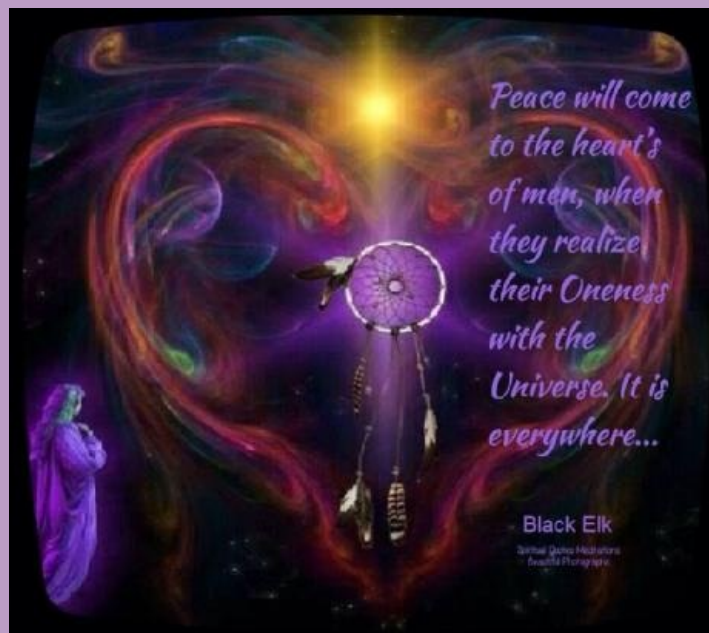

Material: When mastered in the physical body, the profound cognition brought about by love divine leads to perfect knowledge of quabbalistic alchemy in the material world.

A person is taught the true preparation and charging of the philosopher's stone in the physical sense. He/she can influence, at will, any oscillation—atomic, oscillation, electronic oscillation- by quabbalah, and he/she is able to transform it into the oscillation

desired by him/her.

Therefore he/she perfectly masters the laws of transmutation and is able to transform any metal into gold, any stone into a precious stone, etc. if desired. By the help of this virtue a person is furnished with many other faculties of which he/she cannot even dream now and which non-initiates would regard as absolutely impossible.

Umlaut O is dark orange, has the musical note of D-sharp, is the element of akashic-earth which has the sensation of weight penetrating everything. The ovaries and testicles are formed from this virtue of the profound cognition brought about by Love Divine. In healing, heal the left ovary first and then the right one.

In the next phase we flood you with the divine virtue of justice and harmony, and the love of divine laws. The letter associated with this principle is O. The color that represents divine justice is ultramarine blue. This divine quality of justice brings about the feeling of absolute contentment and poise, satisfaction, security, infallibility and unimpeachability.

SCH...This is the virtue by which Divine Providence creates the first outpouring of divine creation.

It is regarded as the highest virtue. The virtue of Sch connects both original light and original fire, and thus indicates the non-manifestable omnipotence.

The S oscillation is the original fire [all penetrating will]. The K oscillation is the original light [omnipotence].

The Sch therefore represents the original principle superior to the K and S.

Life is such a precious gift that nothing could fully express the infinite gratitude we feel whenever this truth touches us.

It is pointed out in the cosmic language that Divine Providence has created the original principle of the elements by the three letters A, Sch and M, and that all other letters derive from these letters. A is analogous to the original element of the air principle, Sch to the original fire and M to the original water element. The A is analogous to the intellect, to wisdom, to the legality of equilibrium etc.; the Sch "to will power, to all-power and omnipotence and the M to love.

Akasha: In the principle of consciousness-penetrating-all, this virtue is the original element of fire, light, and the highest form of enlightenment.

Mental: This virtue brings about the highest enlightenment, the highest spiritualization, which increases to the point of ecstasy.

Astral: In the emotions, this virtue evokes the original state of the manifestation of faith and the ability to transmutation and perfect mastery over the fire element in all kingdoms.

Material: In his or her material body, a person strengthens his or her absolute faith with this virtue. The faculty of influencing everything in the material world by the help of will is gained.

This is the original masculine electric force of DIVINE WILL.

Its color is blazing red. Its musical note is C. It is the element of fire so it is felt with warmth. The brain is formed from this virtue.

E

This letter is the sound of universal consciousness, which represents, as a divine idea and virtue, its omnipresence in everything that has ever been created. This will unite your normal consciousness with the universal consciousness, with the cosmic consciousness, so that you can attain, in the akasha principle omnipresence yourself. This is known in oriental wisdom as Nirvi-Kalpa-Samadhi.

You will attain the highest form of intuition in your mental world; you will be able to transfer your consciousness so that there exists no sense of time and space. Divinity in His highest form will be able to speak through you. The most profound mysteries of materialization and dematerialization will become obvious to you as you master this, everything that is material may be transferred back into its refined and most subtle form and any idea can be intensified in such a way that it will become physically visible.

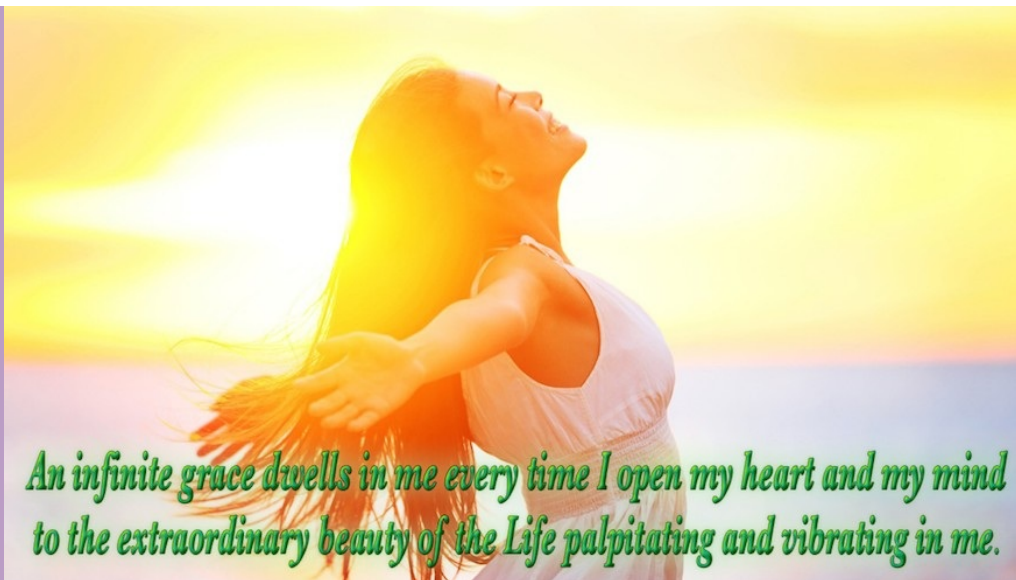

The color of this virtue is deep violet, the musical note is D, the element is akasha, which has the sensation of God-penetrating-all, and the spine is formed from it.

L

And finally, we inspire you with the letter L. It is to be imagined as the color of olive green. This letter represents the highest divine virtues that may be described by words, irrespective of whatever sort they may be. This letter oscillation is used to comprehend the Divine Majesty and the greatness of God in the form of the purest virtues. From this comes the faculty of comprehending true morality as seen from the highest point of view. This will lead you to the borders of saintliness. On the feeling level true equilibrium of character occurs and mastery of flooding the emotions with the highest light is attained. On the physical level you will gain perfect health, beauty and harmony and you will become absolute master of your own vitality.

The color is dark olive green, the musical note is F. The element is air with a sensation of relaxation and ease. The spleen is formed from this virtue.

Even though we are giving much information in this message,
remember
that the subconscious mind has a photographic memory.

In addition to processing this consciously,
all information is retained and is
processed subconsciously.

The seeds of the divine virtues with their
intent, their meaning, their feeling, and their manifestation on all
levels are planted securely and nourished by the spirit and soul of
each
child of God that receives them.

Create art with a sense of love, harmony, attunement to Divine Will,
oneness with the presence of the Divine in all, ease and enjoyment
in
the bliss of the divine virtues.

Use eye movement and treat all emotions, negative or positive, with
unconditional all encompassing love so that the emotional self stays
pure and clean and full of the love and vitality of the Divine.

Footnotes

Special note on Y...Akasha: This is the divine virtue of the true origin of the rhythm of life and its relations. This virtue has been influencing the law of evolution from the beginning of creation towards its perfection. Since this rhythm is difficult to grasp, only an experienced person who has reached this point in meditating on the divine virtues in terms of scientific work will succeed in FULLY comprehending and mastering the original rhythms of life and the laws of harmony-legality.

Mental:In the mental plane, i.e., in the spirit, the virtue of the original true rhythm of life brings about the faculty of profoundest cosmic intuition and inspiration, which, at the same time, may be regarded as the gift for absolute devotion to and deepest love for Divine Providence. Another advantage is the fact that from this faculty many other abilities may develop which cannot at all be described by words alone because of their being of exceptional macrocosmic value.

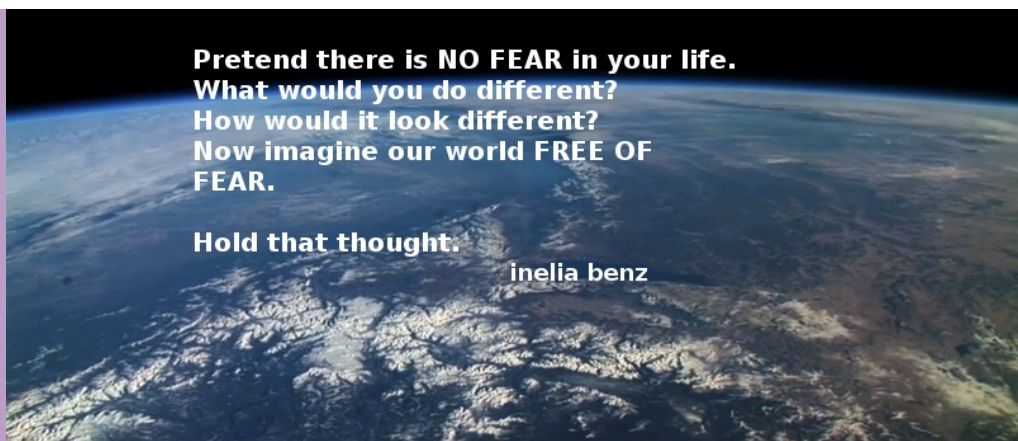

Astral:Mastered in the feeling body, the virtue of the rhythm of life imparts an excellent aptitude for prophecy that will exclude any possibility of mistake. Who has become familiar with the rhythm of life will have spiritualized his/her emotional body in such a way that he/she will be able to see and know prophetically, beyond all doubt, the fate of everything, of every creature, be it man or animal, from the microcosmic point of view. His/her prophecies will be so certain and infallible as if they would come directly from Divine Providence. Such a high faculty of prophecy cannot be acquired by any other virtue.

Material: When the rhythm of life is evoked in the material body, this virtue leads to the ability to explore, comprehend and apply the absolute influence of the akasha principle [the principle of consciousness-penetrating-all] on the material world with regard to all forms and bodies in the mineral, vegetable, animal and human kingdoms. At the same time, the faculty of making emotional and material objects invisible is also achieved, for whoever recognizes and masters the akasha principle in the material world in all its forms of existence is able to change the grade of condensation in our material world at will. Thus a person is in a position to dematerialize his/her body and to materialize it again at a great distance within a few moments. Consequently, he/ she is able to bridge over time and space, not only mentally and emotionally, but also materially. Many of the miracles of the holy scriptures are evidence of what is said here.

The color is pink, the musical note of this virtue is C-sharp. The element is etheric-earth penetrating everything. The heart is formed from this virtue.

From this we can see that a Child of God 'can bridge over time and space, not only mentally and emotionally, but also materially.

**Pretend there is NO FEAR in your life.
What would you do different?
How would it look different?
Now imagine our world FREE OF
FEAR.**
