**5 degrees Virgo**

**The Angels  
of  
*LOVE, HARMONY, AND BEAUTY***

Also known as

**The Angels  
of**

**Girmil**

**Beloved,**

*We are protectors of love,  
of harmony,  
and  
beauty.*

*It is inevitable that veils of illusion are lifted from the earth and that the  
eternal perfections of Divine Being,  
in splendor and majesty and love, beauty,  
and harmony,  
are revealed in joyous fulfillment of Divine Will and LOVE upon the  
Earth.*

*Through grace and mercy,  
flowing with tangible feelings of all highest divine virtues,  
we initiate children of divine being.*

**As seekers walk upon paths of divine harmony;  
understandings arise of great indwelling beauty and splendor in everything.**

**We inspire awareness that even the smallest and most insignificant of  
creatures**

**reveal  
beautiful evidence  
of love and harmony,  
through omnipotent,  
omnipresent,  
and  
omniscient Divine Being.**

*Flowing emotions of this understanding result in*

*increasing awe and wonder  
of divine splendor and majesty.*

**Divine Harmony materializes beautiful transformation of self and all universes.**

*Love and harmony on the one hand,  
and hate and disharmony on the other,  
reveal exact laws of sympathy and antipathy.*

*With this knowledge, true beauty is understood for purposes of materialization.*

*It becomes clear that beauty is but another expression of harmony.*

**Like all other divine virtues, grace and mercy are attracted into expression,**

**to life,  
through *flowing divine emotions.***

**Through flowing emotions of love, harmony and beauty,  
abilities are understood and mastered  
to communicate with and flow with emotions of wonderful beings known in  
our myths  
and lore as Fairies, Salamanders, Sylphs, Undines, Gnomes, and nature  
spirits.**

*It is revealed that in the divine blueprints of creation,  
these beings are responsible for manifesting beauty, harmony, and love  
in nature and the four elements.*

**Sensitivity to the omnipresence of divine being and love**

**in everything that is perceived with the five senses  
opens up other more subtle senses,  
such as the third eye and high heart.**

**These beings are seen and communicated with by intuitive perception and imagination.**

***In meditating on the divine virtues of Girmil  
the mind and heart begin to process meanings behind meanings,  
worlds behind worlds.***

**Then, these six divine virtues of Girmil reveal the profundity of divine grace  
and mercy,**

**the virtue of letter G of our name.**

**In a previous angel message it was explained how divine grace and mercy work  
within divine law.**

***Every action creates a reaction.***

**Every act is a small seed that grows and bears great fruit that is reaped by the sower.**

**So, ordinarily, when harmful seeds are sown,**

**a harmful harvest is reaped through The Laws of Cause and Effect,  
the divine virtue of letter I.**

**However, whenever a person is uplifted in spiritual perfection**

**through flowing emotions of mercy and blessings of Divine Providence,  
amazing information is received.**

**Remember that emotions are magnetic, and contain compressed information.**

**The virtue of grace and mercy is emotions of flowing divine blessings.**

**These particular emotions download much about unity and harmlessness.**

**As a person asks for and receives emotions grace and mercy,**

**or gives these emotions to another,  
lessons of harmlessness are transferred as gifts of love.**

**Therefore, instead of learning these lessons of harmlessness through  
personal suffering,  
a person learns them through the outpouring of divine emotions and feelings.**

**At this point, the personal energy field is uplifted.**

**Now, when a harmful harvest comes due and the reaping is gathered,**

**the harmful effects of the negative harvest glance off the greater  
spiritualized essence of**

**this blessed person,**

**to manifest in mostly weakened or symbolic ways.**

**Harmful negative energy transforms when exposed to powerful positive energy  
fields.**

**Grace and mercy, a quality of love and omnipotence,  
is a most powerful energy for establishing harmony and abundance, and  
peacefulness of the spirit.**

**How wonderful now that when the effects of past misdeeds come due,  
these effects are made mostly harmless and merely symbolic by the greater  
spiritual consciousness  
that has been caused by the outpouring of flowing emotions of Divine  
Blessing!**

**This is how Grace and Mercy operates within the legality of Karma and Cause and Effect.**

**The spiritualizing upliftment in consciousness of a person can come directly from Divine Providence, from the heavenly hosts and teachers, and/or indirectly through prayers from his or her own efforts in diligently seeking spiritual perfection.**

**With the power of heightened spirituality, virtues of peacefulness and blessings by Divine Providence manifest.**

**We initiate seekers into the virtue of grace and mercy.**

**Divine emotions flow, especially of happiness, of complete satisfaction.**

**These are mastered both in oneself and for others.**

***On the material plane great abundance is then attracted, along with tremendous satisfaction and unity with Divine Consciousness.***

**Four sense meditation, in being-visualization- will, thought, emotions, and sensations, which is the inner infant self, child self, adolescent self and adult self, on these divine virtues of Girmil, help people understand fate, and cause and effect, so that they are able to create what is beautiful and harmonious for self and others.**

***These five virtues fill a seeker with Divine individuality and freedom and the understanding and mastery of flowing emotions.***

**Because these virtues initiate into complete and absolute understanding of cause and effect,**

**they finally unite a person with all of the Divine Virtues.**

***Divine Harmony is a key to transformation of self and the outer universe.***

**With free will, ask us, the Angels of Love, Harmony, and Beauty, to be with you.**

**Bless all, for truly WE ARE ALL ONE  
IN COMPLETE LOVE, BEAUTY AND HARMONY.**

**It is inevitable that veils of illusion are lifted from the earth and that the  
eternal perfections of Divine Being,  
in splendor and majesty and love, beauty,  
and harmony,  
are revealed in joyous fulfillment of Divine Will and LOVE upon the Earth.**

**G**

**The letter G symbolizes the virtue of divine grace and mercy.**

**In the akasha, which is consciousness-penetrating-all, the divine virtue of  
grace and mercy in all spheres and planes is discerned.**

**In the mind, this virtue gives the experience of peacefulness, and the faculty  
of giving true divine blessing.**

**On an emotional level this virtue gives the feeling of happiness, of complete  
satisfaction.  
Situations may be created by means of the elements and the will and feelings  
causing success and wealth in the world that is for the highest good of all  
concerned.**

**In the physical world this virtue represents all phases of riches and wealth, of happiness and satisfaction.**

**By this virtue Divine Providence has created abundance and, like the Creator, a child of God may also bring about, for him or her self or other people, abundance in everything, should that be desired.**

**Those who are blessed with the gift of prophecy are also blessed with the gift of knowing the profundity of divine grace and mercy in all their aspects and to realize how far divine legality goes and how divine grace and mercy effects man and animal.**

**By being one with this virtue, a prophet can see how much the virtue of divine grace and mercy ameliorates the painful fate of the future that was caused by failure to adhere to the Divine Laws of Justice and Harmony.**

## **I**

**The sound of this letter is the virtue of cause and effect, which is the karma law.**

**On the mental level, this is analogous to memory, remembrance and conscience.**

**In the emotional body, this corresponds to the astral matrix with all of its functions.**

**As you know, the astral matrix is the connecting link between the material body and the soul, or emotional body.**

**It is a known fact that the astral matrix, and with it the whole body, is kept alive by breathing.**

**With the initiation into karma law, the knowledge of cause and effect, you are in the position to get under your perfect control the breath with all of its aspects and ways of application.**

**All magical abilities are subject to the mastery of breath.**

**On the material world, everything that has shape, measure, number and weight can be understood and mastered with this virtue.**

**The color of this virtue is light opal, the musical note is G, the element is earth so it has the sensation of weight, and the left kidney is created by this oscillation.**

**As with all the letters and their virtues, see yourself as a tiny dot in your solar plexus with the rest of the body as an infinite swirling universe all around you. Visualize the color shining forth from a tiny sun in the area of the body that is formed by the element.**

**In this case, see light opal shining from a tiny sun in the leg region. Meditate on the meaning of the virtue with your intellect, in a Theta brainwave state of deep inward thought.**

**In this case, meditate on the virtue of cause and effect.**

**Do this with sensations of the element, in this case a sensation of weight,  
filling the body.  
Sense and feel it forming the left kidney.  
Inwardly chant the musical note, in this case G, with feelings of mastery over  
the law of cause and effect.  
Keeping the rhythm of the breath normal, send all of this with the outbreath  
through the pores of the skin over the left kidney  
to whatever inner guidance directs in the outer world.  
With the inbreath, see it return.**

**Dissolve the light opalescent light in the body when you are finished to  
protect the natural balance of elements in the body.**

**R**

**This is the sound of the divine virtue of independence and freedom.  
After learning all of the virtues associated with all of the letters of the  
alphabet in order starting with A,  
by the time you reach the letter R you have achieved a state of maturity by  
which your feeling of independence has been transformed  
into an absolute state of security and unimpeachability.**

**Mentally, you will have an eminent mind and the feeling of freedom of will and action.**

**Not only this, but also the state of maturity in which you will never violate a law, having yourself become a master of all laws.**

**In spite of your freedom of will, you will find yourself willing to subject yourself freely to Divine Providence, and accept missions to serve Divine Providence with deep humility, immense gratitude and the highest devotion without losing your feeling of absolute freedom of will in any way. Such great ingenuity will proceed from this that you will be able to comprehend any knowledge quickly and without difficulty.**

**The color of this virtue is gold, the musical note is C, the element is earth so it is felt with a sensation of weight, and the left side of the nose is formed from it.**

#### **M**

**The sound of this letter in the ancient language is the sound of emotion, which is Love.**

**Emotion is the magnetic feminine energy that attracts reality into form.**

**This divine virtue of emotion is the water element, so it has the sensation of coolness.**

**Its color is blue-green, its musical note is D, and the abdomens of all the children of God were formed by this virtue.**

#### **I**

**Cause and effect. Light opal. Earth. Musical note G.**

#### **L**

**And finally, we inspire you with the letter L.**

**It is to be imagined as the color of olive green.**

**This letter represents the highest divine virtues that may be described by words, irrespective of whatever sort they may be.**

**This letter oscillation is used to comprehend the Divine Majesty and the greatness of God in the form of the purest virtues.**

**From this comes the faculty of comprehending true morality as seen from the highest point of view.**

**This will lead you to the borders of saintliness.**

**On the emotional level true equilibrium of character occurs and mastery of flooding the emotions with the highest light is attained.  
On the physical level you will gain perfect health, beauty and harmony and you will become absolute master of your own vitality.**

**The meditation on the divine meanings of the letters,  
the colors associated with the different divine attributes and virtues,  
and their relationship with different parts of the human body temple,  
reprograms consciousness in a wholebrain way,  
so that you transform both your physical reality and the universal.  
By imagining that you are a small dot in your solar plexus,  
and experiencing your body as a vast universe,  
you create a four part information sine wave that fills the microcosmic  
universe with each virtues meaning, color, sensation, sound, and tone.  
With the out breath, you can then fill the outer world.**

**This fulfills the law As above, so below: and as below, so above.**

**G-I-R-M-I-L**

This name is a key to their powers and influence.**

Names, phrases, or sections in the angel messages are quoted or paraphrased from the books of Franz Bardon.
