The Angels
of

Omnipotent Faith

Also known as

The Angels

of

Kirek

Beloved,

We help bring about miracles on Earth.

We inspire almighty will and faith.

**Whenever it is necessary for the highest good,
we inspire children of divine being with understanding and use
of omnipotent faith
to bring about miracles.**

"All that I do, ye shall do and more."

Omnipotence is the first letter of our name.

**The letter K in the language of light,
reveals itself
as all-embracing power
by which miracles are made possible.**

The letter I is cause and effect, and the letter R is clear inner guidance.

Omnipotence requires identification with divine being itself.

**Omnipresence, the letter E of our name,
is the experience of unity with the Creator
in everything that has ever been created or ever will be.**

**Through effects of consciousness occurring in an observer,
dimensional shifts are made to occur.**

**We have inspired scientists of quantum and plasma theories with many
truths about this in studying changes in matter, emotions, thoughts, and
desires.**

"Man is made in the image and likeness of God."

"Know ye not that ye are gods?"

**By working with the ether, or akasha, which is omnipresence,
the other elements are brought under control.**

The other elements are fire, air, water, and earth.

**Ether corresponds to the deepest level of Delta brainwaves,
a state of pure being and unity with Divine Being and all creation,
including the quantum field of infinite possibilities.**

**This opens up communication with the observed on every level,
including levels of being, desire, images, emotions and sensations.**

**In a deep delta brainwave state of pure being,
the self is experienced as one with the observed on all these levels.**

Fire is will, or will power, it is an intention made in a higher Delta state.

**In this state, a desire for change is registered in consciousness in
self and then in the observed,
because both are joined as one in beingness.**

**Both self and other are affected by the information contained in this
desire
because at the level of the deep delta brainwave state they are one.**

**So the beginning of creating an information code to effect change
is the deep delta brainwave state of oneness
moving into a higher delta brainwave state of intention.**

**Because the change is occurring in what is experienced as another part
of the person's own self,
the desire is always for the highest good of all.**

**This is the basis of Law of One, the original law of creation.
It awakens primordial DNA codes of survival and enlightenment.
It overrides all other laws.**

**The Law of One is the original law of Creation,
and is the supreme Law over all laws in all dimensions.**

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM,

and I AM one with all there is;

I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen.
I give thanks that this is done.

SO BE IT!

So it is.

**Through inner guidance,
the highest good of all is contemplated in the mental state of air.**

**Air is deep inward thought,
or Theta brainwaves of deep inner contemplation and meditation.**

**A clear visualization of the desired change is contemplated
in the imagination.**

**Visual images of what is the highest good in any situation is made in
imagination.**

**are the language of mind,
These images form molds or holograms for energy to fill.**

**Remember that the energy field and the brain communicate in visual
images combined with emotion.**

**Wonderful highest good visualizations evoke such emotions of joy,
anticipation, love, delight and gratitude,
that a magnificent magnetic field is produced.**

**The magic of Life sets us on the path to our deepest truth,
the one we discover when we let Love shine from our whole being.**

**Tangible flowing feelings in the body are magnetic and, like zip files,
contain compressed information.**

**The emotional, or astral, body now goes online and emits strong
magnetic signals,
or magnetic information and frequency codes.**

Flowing emotions are known as the water element.

**Dense water is liquid, but subtle water is flowing emotions,
or Alpha brainwaves.**

**This magnetic field, through attraction, reorganizes the quantum field
to produce the visualized images created Theta, or deep inner
thought.**

**The resulting material manifestation of visualization and emotion is the
earth element.**

**Earth awareness is sensation, memory, conscience, logic and linear
thoughts,
or Beta brainwaves.**

**Like overlapping colors in a rainbow,
these levels or elements blend one into the other.**

We are the heavenly hosts of Kirek

***We help you align fire, air, water, and earth,
and receive true divine inspiration,
with infinite faith,
concerning whatever your inner guidance directs.***

**As a person gains control over these elements within the self,
then, through breath,
they breath out new information codes
even into physical reality.**

**With the inbreath, they reap what they have sown,
they receive back what they have breathed out.**

**In this way, through intent, visual images, thought, feelings, and breath,
a person controls the elements in the inner and outer worlds.**

**Delta, Theta, Alpha and Beta brainwaves,
in this way, function in harmony and coherence.**

**Information waves of intent, visualization, thoughts, feelings, and
sensations,
affect the quantum field of infinite potential.**

**Through intention, visualization, emotion and breath, changes are
willed
to occur in the inner and outer worlds.**

**Beautiful desires are generated,
visualizations are inspired,
thoughts are contemplated,
emotions are generated,
and accompanying sensations are experienced
within in meditation,
forming a holographic mold.**

**With intention, this four fold package of information is impregnated
into any space, situation, or substance.**

By doing this, changes in physicality are attracted.

The old state of affairs in physicality now changes.

The old manifestation is released, and the new is born and embraced.

**It cannot be repeated too often, that faith united with a powerful
visualization process,
combined with clear concepts,
flowing currents of appropriate tangible feelings and sensations,
attract new expressions of reality into physical manifestation.**

**We make sure that the children of light attain understanding and
mastery
of uniting individual will
with divine omnipotent
will for the highest good of all.**

The wonderful power of individual will aligned with Divine Will, coupled with inspired visualizations, enlightened understandings, with powerful trance like flowing emotions, and powerfully imagined sensations, make possible miracles demonstrated by yogis, saints and masters of old.

This four fold energy of the elements is the core of using the magic of breath to create.

Cause and effect, the letter I of our name, gives mastery over breath, as well as memory, remembrance, conscience and logic.

Remember that awareness is encoded on breath and flows out as wireless signals to the unconscious and superconsciousness of all others.

Divine inner guidance guides a person to what awareness to meditate on and send out by breath.

Inner guidance directs the four elements, both within the microcosm of individual self, and the macrocosm of the collective Self, to out picture Perfection.

"One good man can save a city of ten thousand, and ten can save the world."

Use the four elements to obtain omnipotence to express beauty and perfection for self and others.

This is your birthright and purpose for incarnating.

The paradigm shifts now being experienced place each person squarely in the footsteps of the great adepts who have gone before, who have lived and transcribed this knowledge of divinity so it is available to you now.

Practice omnipotence.

MIRACLES

Footnotes:

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her. The being and the angels share the same name. This name is a key to their powers and influence.

Names, phrases, or sections in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,

and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4]. Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books have very important information for these studies.

The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others. Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.
