Beloved,

Within peoples' hearts a beautiful divine love burns
deeply and eternally.

This love awakens spiritual desires to unite everyday
livelihood
with joyful spiritual development.

Professions of divine happiness allow people to follow
inner guidance,
and out picture
original divine blueprints of heaven on earth
with flowing emotions of grace and mercy.

*Professional masters of life essence know that holy
longings for divine happiness
attract the most efficient ways to create any desired
reality*

On the path to grace and mercy,
flowing visceral emotions of divine happiness
are found to be the best way to attract solutions,
and divinely inspired inner guidance,
to every problem.

Within one minute of having a thought,
over a hundred thousand chemical changes occur in the body.

Thoughts that create feelings of happiness cause chemical changes
in the body
that heighten intelligence and whole brain cognition.

To this end, we offer initiations into enlightenment,
which is the merging of individual mind with original divine mind.

"Know ye not that ye are gods?"

"Ye are made in the image and likeness of God. "

We awaken understanding of the original purity of all
ideas in divine mind,
emotions of grace and mercy,
transformation, transmutation, harmony, and supreme
happiness.

**We inspire professions that manifest eloquence,
wisdom,
artistic creativity
and supreme happiness
upon Earth.**

"On Earth as it is in Heaven."

**Divine Profession is a way of understanding natural energy flows,
referred to in some cultures as
"The Tao",
or
*"The good red road".***

**The Tao is a way of being grounded in pure essence,
and from this center point
being focused on the here and the now.**

**The here and the now is subject to natural rhythms and cycles of
life.**

**By staying grounded in pure essence in present time and present
space,
any person, through divine intuition and logic
instinctively knows how to successfully navigate the
ever changing phenomena of incarnation.**

Remember that emotional energy attracts new realities.

**To create the joyful realities that all beings long for,
emotional energy must be mastered
to vibrate in frequencies of delight and happiness.**

***When divine profession is mastered on the spiritual
path to perfection and beauty,***

all beings are blessed.

It is written that divine happiness is the fruit of true spiritual maturity.

It has long been known that happy professions are creative avenues for receiving and for giving divine blessings.

These professions are expressions of love to enliven indwelling divinity in everything.

In this time of the Alpha and the Omega, through divine professions that we inspire, there are enough gifts of the spirit, technologies, talents, resources, and enlightenment to address and remedy every problem.

Children of Light from all spheres, dimensions and times of reality are coming together now professionally in selfless services at this time, for indeed, all are ONE.

***We are all one.
When one is harmed, all are harmed.
When one is helped, all are helped.***

We are ONE unified creation, interdependent, existing in an ocean of cosmic love.

We, among other heavenly hosts, are helping with the ushering in of times of tremendous artistic abilities, with firm foundations of freedom, wisdom, grace, love and mercy, happiness, plenty, and divine justice.

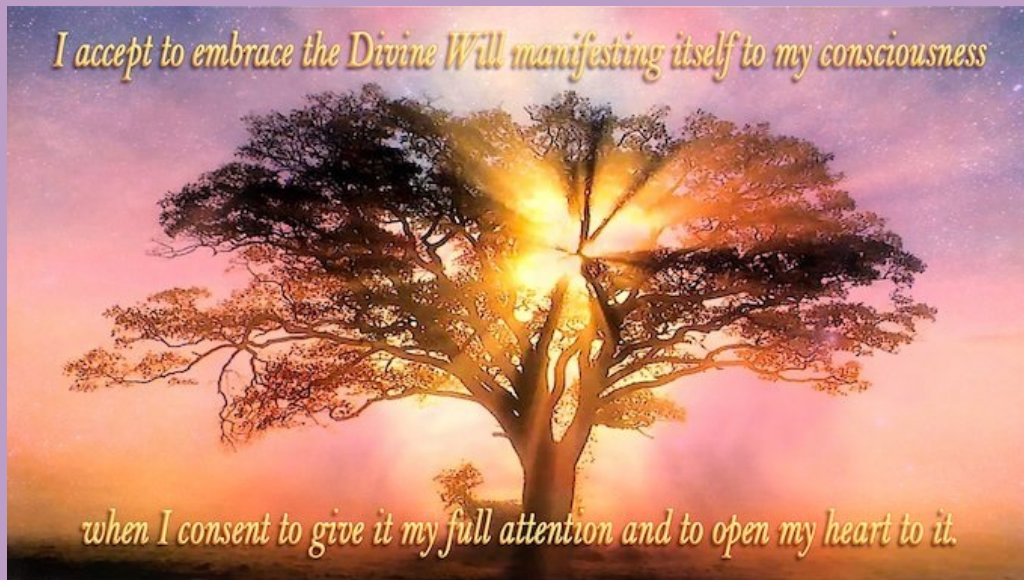

It is important that through the virtues of Yraganon people create professions of supreme happiness, grace, and transmutation so that divine paradigm shifts express the original purity of all ideas in Divine Mind.

Each letter in our name is a key from the cosmic language to help mankind accomplish this, and each letter is explained a little in this message.

We encourage you to go back and analyze in great detail previous messages again, for each time you do,

**more is revealed through inner guidance from the spirit and soul
concerning the divine virtues of each letter.**

**Even more importantly, we ask you to use the meditation for each
letter,
in deep and meaningful ways,
until the
divine virtue that it represents reunites you
with remembrance of your original divine consciousness.**

**Remember that Divine Consciousness is your natural and original
state.**

**Divine Being is experienced
in the Delta brainwave state of pure being and unity with Divine
Mind and all creation.**

**This is the natural dominant state of infancy and deep dreamless
sleep each night.**

**Ask your cellular memory,
in meditation,
to open so that you re-experience
your original purity and innocence and oneness with Divine Being
that you experienced in your infancy
and reexperience each night in deep dreamless sleep.**

**This facilitates strong delta brainwave states,
which are the foundation of whole brain awareness.**

**With each meditation on a virtue, go first into this state,
and from there visualize and contemplate the virtue.**

**This will create clear understanding and flowing emotions of the
virtue,
which will, in turn, attract this virtue and its benefits into physical
expressions.**

**Remember that each divine virtue is experienced as located in a
specific location of the body,
which is itself a unique and whole universe,
just as an atom looks like and is actually a small whole solar
system.**

**Each divine virtue will be seen to emanate from a definite tiny sun
in the physical, emotional, mental, and spiritual bodies,**

with particular elemental sensations, colors, musical notes, meanings and emotions.

With such conscious meditation, the personality and cellular structure becomes further impregnated with frequencies and powers of each divine virtue.

With intent and breath, the outer universe becomes impregnated as well.

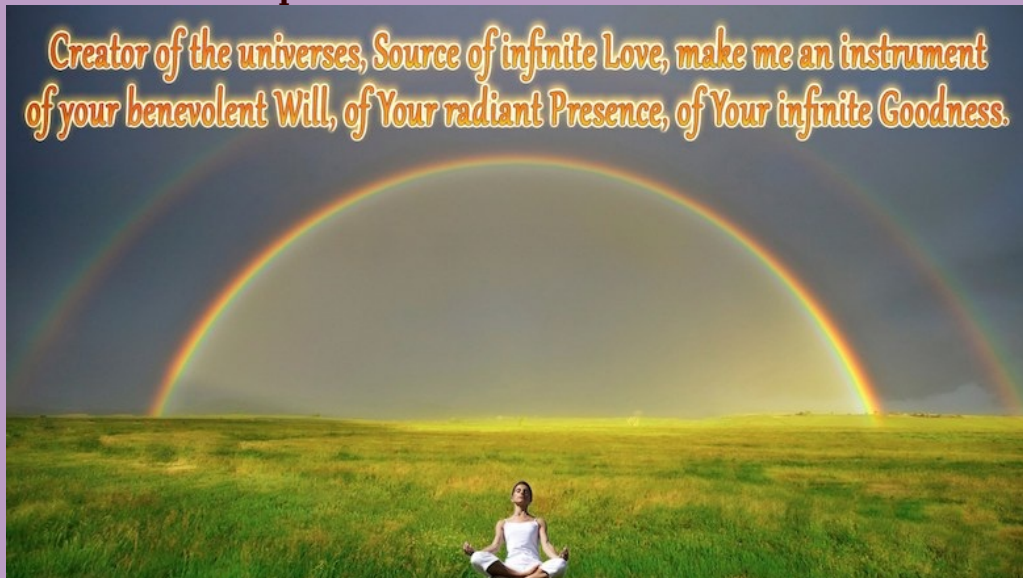

"As above, so below."

And likewise:

"As within, so without."

Even if a person does not know the cosmic language, through inner guidance and divine grace, we inspire spiritually mature professions for all who seek.

This way, through divine virtues of Yraganon, people naturally create success, honor, esteem and abundance in divine professions that bless self and others.

Creator of the universes, Source of infinite Love, make me an instrument of your benevolent Will, of Your radiant Presence, of Your infinite Goodness.

Below are the virtues to accomplish this.

Y

Akasha:

This is the divine virtue of the true origin of the rhythm of life and its relations.

This virtue has been influencing the law of evolution from the beginning of creation towards its perfection. Since

this rhythm is difficult to grasp, only an experienced person who has reached this point in meditating on the divine virtues in terms of scientific work will succeed in FULLY comprehending and mastering the original rhythms of life and the laws of harmony-legality.

Mental:

In the mental plane, i.e., in the spirit, the virtue of the original true rhythm of life brings about the faculty of profoundest cosmic intuition and inspiration,

which, at the same time, may be regarded as the gift for absolute devotion to and deepest love for Divine Providence.

Another advantage is the fact that from this faculty many other abilities may develop which cannot at all be described by words alone because of their being of exceptional macrocosmic value.

Astral:

Mastered in the emotional body, the virtue of the rhythm of life imparts an excellent aptitude for prophecy that will exclude any possibility of mistake.

Who has become familiar with the rhythms of life will have spiritualized his/her emotional body in such a way that he/she will be able to see and know prophetically, beyond all doubt, the fate of everything, of every creature, be it man or animal, from the microcosmic point of view. His/her prophecies will be so certain and infallible as if they would come directly from Divine Providence.

Such a high faculty of prophecy cannot be acquired by any other virtue.

Material:

When the rhythm of life is evoked in the material body, this virtue leads to the ability to explore, comprehend and apply the absolute influence of the akasha principle [the principle of consciousness-penetrating-all] on the material world with regard to all forms and bodies in the mineral, vegetable, animal and human kingdoms.

At the same time, the faculty of making emotional and material objects invisible is also achieved, for whoever recognizes and masters the akasha principle in the material world in all its forms of existence is able to change the grade of condensation in our material world at will.

Thus a person is in a position to dematerialize his/her body and to materialize it again at a great distance within a few moments.

Consequently, he/ she is able to bridge over time and space, not only mentally and emotionally, but also materially.

Many of the miracles of the holy scriptures are evidence of what is said here.

The color is pink, the musical note of this virtue is C-sharp.

The element is etheric -earth penetrating everything.

The heart is formed from this virtue.

R

The perfection of divine freedom and individuality.

Becoming the master and guardian of freedom and independence, which is the virtue of following inner guidance, is absolutely necessary in uniting business with spirituality.

In this state there is the feeling of freedom of any pressing burden of the laws, for by the mastery of all the preceding virtues you have achieved a state of maturity by which this feeling of independence has been transformed into an absolute state of security and unimpeachability.

This comes from the realization of the harmony and perfection of all divine laws and the identification and love of them so intensely that they have actually become merged with oneself.

In this case you are the personification and representation of the divine laws and they will serve you, and your sense of freedom will derive from them rather than in spite of them.

This is a very high state of consciousness, but it is the state that every human being is destined to accomplish. It is for this reason that your teachers have told you that "the truth is written within your heart".

We remind you that on a level that is both above and below everyday consciousness, all Children of Light are already one with Divine Mind and have never been separated from it.

Access these levels within the heart through pure being, deep inward thought and emotion, and access all divine laws and oneness with them.

The letter that represents following inner guidance in the cosmic language is the letter R.

It is seen as a golden light shining from a tiny sun within the leg region.

The R, with its golden color, resides as the spiritual quality of divine freedom and independence.

The left side of the nose is formed from this virtue.

The musical note is C, and it has the sensation of weight.

A

Wisdom and enlightenment. Comprehension of the original purity of all ideas in divine mind. Eloquence, artistic talent, clairvoyance and other mystical powers.
[more explanation below]

umlaut A, ae

The transformation of will, thought, emotion, and form through release, through letting go, of whatever is no longer the highest good of all concerned.

The realization of wishes regarding physical matter, no matter whether this physical matter is fire, air, water, or earth, is subjected to this virtue, for it is only by letting go of whatever is imperfect that a new perfect state can arrive.

The sound of this letter, the long A, ae, in the cosmic language is the virtue of the origin and mystery of life and death regarding their transformation.

By meditating on this virtue, a child of God becomes convinced that in reality death does not exist, for the so-called death is only a transformation from one state into another.

Also will come enlightenment on the cause of this transformation.

With this comes the ability to master all negative spiritual beings in all spheres and planes with regard to their scope of action.

The purpose for which negative beings have been created becomes clear.

Since, in the original principle all beings are alike, each having been created by Divine Providence to fulfill a certain task, there is no dissimulation of negative beings, for from the enlightened person's point of view everything is pure.

Here the saying: "to the pure one everything is pure" becomes plain.

If there were no negative beings, it would be impossible to distinguish between good and evil; and if there were no passions, there would also be no virtues.

This virtue confirms the words contained in the Bible: *"through night to light"*, the deep symbolic meaning of which now becomes clear.

In the intellect the ability is gained to see through all thoughts, actions and wishes concerning matter, and of becoming their absolute master.

In the emotions, this virtue represents desires, passions, and the inclination to self-satisfaction etc.

A person who masters this virtue in their emotions becomes absolute master and ruler of all desires and passions.

Also, a person is able to not cling to mental, emotional, and material virtues and objects when they are no longer the highest good of all concerned.

This means complete independence and freedom and fulfills the saying *"bind yourself and you will be free"*.

On the material level this virtue is one of the most materialized.

No matter whether you evoke it in the mind, the emotions, the akasha, or the material world, the earth is influenced by it to a larger extent.

The ability to infuse matter with divine virtues is heightened.

The color of this virtue is loamy brown.

The musical note is C.

The element is earth so it has the sensation of weight.

The anus is formed from this virtue.

G

Divine Grace, love, and Mercy

In the mind, this virtue gives the experience of peacefulness, and the faculty of giving true divine blessing.

On an emotional level this virtue gives the feeling of happiness, of complete satisfaction.

Situations may be created by means of the elements and the will and emotions causing success and wealth in the world that is for the highest good of all concerned.

In the physical world this virtue represents all phases of riches and wealth, of happiness and satisfaction.

By this virtue Divine Providence has created abundance and, like the Creator, a child of God may also bring about, for him or her self or other people, abundance in everything, should that be desired.

The color is deep grass green, like an emerald.

The musical note is F.

The element is water, so feel it with the sensation of chill turning to iciness.

See it shining as a tiny sun in the abdomen.

The left eye is formed from this virtue.

A

The virtue of wisdom and enlightenment

This sound [a soft a like a sigh—ahhhhh] and virtue is an initiation into the highest wisdom and the purity of all ideas in existence.

This has as a fundamental feature the enlightened mind.

Reasoning, perception, the cognition of the most profound truths, highest knowledge, high intelligence, and the arousing of all intellectual faculties are expressed.

Musical gifts, eloquence, poetic talent, and clairvoyance, clairaudience, the art of levitation, and the control of the air element and its beings are all aroused by this initiation.

On the physical plane the command of the beings of the air, control over storms, are all made possible by initiation into the highest wisdom.

The color of wisdom and enlightenment is light blue, the musical note is G, the element is air so it has the sensation of ease, and the lungs are formed from it.

>From this comes the virtue of transformation, of the mysteries of life and death, the virtue of umlaut A, ae.

By meditating on this virtue a person learns to release anything that is imperfect back to Divine Being for transformation, to control in this way the negative beings.

The color is loamy brown, the musical note C, the anus is formed from it.

It is of the earth element with the sensation of weight.

N

The virtue of divine happiness

This sound in the ancient language is the virtue of Supreme Happiness.

In the intellect, this virtue controls the connection between mind and heart, or thought and emotions.

Mastering this virtue gives control over any other being, and enables one to help others solve any problem.

On the emotional level, mastery over the drive for self-preservation and control over any being is gained.

On the physical level mastery over cohesion, or the power of coherence or gravity is gained.

This virtue has a deep red color, the musical note of A, is of the water element of emotion and has the sensation of coolness.

The liver of all beings was formed by this virtue.

umlaut O, er

Cognition brought about by love divine, resulting in transmutation.

O

The initiation into Divine Justice is necessary as well.

In the marketplace, a soul becomes keenly aware of Divine Justice in all of its most subtle expressions.

By meditating upon this virtue, mentally you are able to give expression to the absolute legality of harmony in all four basic

qualities of the elements, which are will, intellect, emotion, and sensation.

You have a high power of judgement and the ability to comprehend spiritually any legality, any interference by Divine Providence for the sake of justice.

You will never be able to condemn anyone unjustly.

This will bring about the abilities to create any change in the emotional situations that you find yourself in and to have absolute success and happiness on all levels.

This divine quality of justice brings about the feeling of absolute contentment and poise. satisfaction, security, infallibility and unimpeachability.

The ability to heal and uplift emotions is the ability to control and manifest on the physical level.

This virtue has an ultramarine blue color, the musical note of C, and is the earth element so it has the sensation of weight.

It forms the throat and windpipe.

N

Divine happiness.

When you attune to the N, the virtue of Supreme Happiness, we flood your intuition with direct experience of this as you meditate with desire, faith, emotion and imagination as described in previous messages.

This intuitive experience, a function of your right brain, is balanced by the left brain function of reading and thinking.

If, while you are engaged in your inward studies, you make use of eye movement that replicates the eye movement of REM sleep, moving the eyes back and forth, right to left and back again over and over, you will find your progress greatly enhanced.

Eye movement is both a natural function of dreaming and an ancient shamanic exercise, which accelerates the integration of right & left brain functioning.

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings

which together form a common precursor, or root, of three of the world's religions:
Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone
girdling the earth,
and the angels who work with him or her.

The being and the angels share the same name.

This name is a key to their powers and influence.

Names, phrases, and sections, in the angel messages are quoted or paraphrased
from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from
THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,
and Information of the divine virtues and the letters are referenced from THE KEY
TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books have very
important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for
the others.

Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical
background

and was compiled by his German publisher from notes written by Franz Bardon.
