Beloved,

Smell affects every system within the human body.

Scents have powerful effects on consciousness and the endocrine system.

**Remember that the nose is placed right over the brain
and is actually an extension of it,
so that air mixes with molecules of scents and affects the brain
directly.**

**The wise men brought frankincense and myrrh as gifts
to the baby Jesus.**

There are beautiful fragrances available to you now.

More books and information about the healing powers of scents are in bookstores than ever before.

**Ask for inner guidance,
and we guide to both information and scents
that greatly facilitate quests for healing and
enlightenment.**

**Ask us to surround you and the earth with angelic
scents.**

**Healing and enlightenment manifests through all five senses:
through food, sound, sight, touch, and scent.**

**In the Divine Plans for Heaven on Earth,
all senses are artfully cultivated for healing and
enlightenment.**

**Fragrant vegetation is most important,
for smell enters the body and brain through breath,
and causes amazing chemical reactions.**

**Scent is a powerful catalyst of transformation that has always been
utilized
by the heavenly hosts of Heaven and Earth, and the Children of
Light.**

**We inspire people to understand the powers of scents and fragrant
vegetation.**

**Vegetation can be grown with such powerful fragrances that the
very act
of smelling, and therefore BREATHING DEEPLY,
is most cherished and pleasurable every day and night.**

The time is here for divine fragrance!

We control everything that has to do with scents in your world.

**Combinations of scents, properly administered and blessed,
bring about healing and inspiration in spirit, mind, emotions, and
body.**

**The power of smell is far greater than words can describe,
so it must be experienced in its use for healing and enlightenment.**

Conscious use of imagination with breathing is a basis of yoga, or

union with Divine Being.

We inspire combining beautiful scents with breathing to enhance health and wellness on all levels of consciousness and being.

In this time of the Alpha and the Omega, the science of aromatherapy reaches new heights.

Imagine the emotions that come from smelling **spiritually euphoric intoxicating scents on a regular basis!**

Visualize reading a book, or walking with a friend, while every breath is filled with the most enchanting and stimulating fragrances imaginable.

At different times of the year different scents predominate, aligning individual consciousness with various cosmic cycles and rhythms.

This is exactly the way Divine Providence desires it to be for the beloved Earth and all beloved children who live upon her.

We gently enhance the sensitivity to smell so that fragrances on a psychic intuitive level are perceptible.

Different orders of angels are identified by their fragrances.

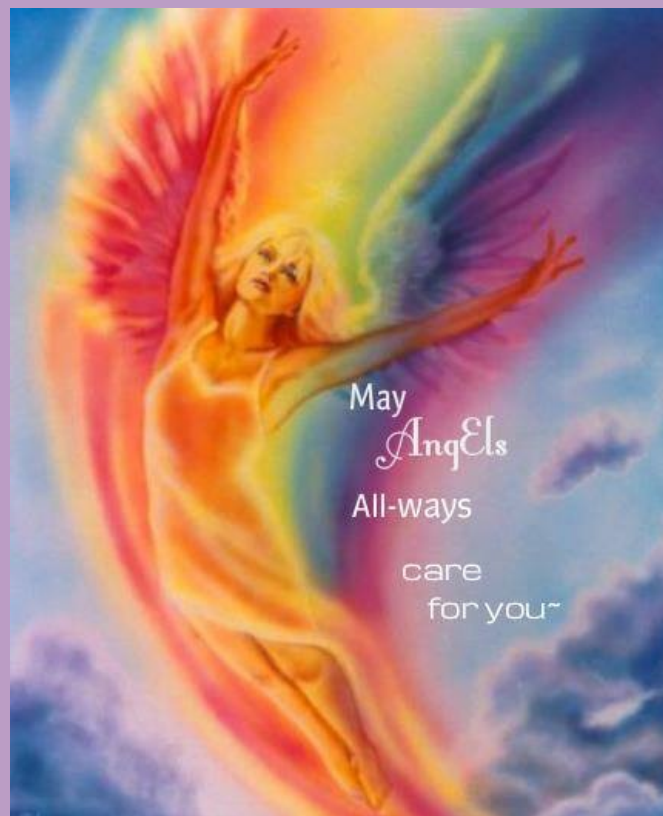

Every person exudes subtle fragrances that correspond to emotions and thoughts.

Ask for and open yourself to the understanding of the science of smell in consciousness.

In this way great healing is available for all.

***Meditation creates an alternating current of light and emotion,
of information-encoded electro-magnetic power,
that reaches into the very heart of omnipresent
Universal Consciousness.***

**By enhancing meditation with heavenly,
beautiful, healing, enlightening, and inspiring smells,
the most amazing changes
for the highest good
occur on all levels.**

***Prayer and meditation,
on behalf of self, the world, and the highest good of all
concerned,***

combined with sacred scents,

***most powerfully activates chackras
in the physical, emotional, mental and spiritual bodies.***

***The heavenly hosts, in oneness, join with your prayer,
and miracles bless all.***

Here are the divine virtues of our name:

C-O-B-E-L

C This is the virtue of the spiritualization of matter on all planes.

One who masters this virtue well, will comprehend and understand the profundity of the eucharist and its aspects and will master all the practical methods relating to the eucharist. It has to do with the transformation or incorporation of a divine idea, a higher virtue, into a certain form.

This virtue is a vermillion red color, it is the fire and air element combined so it has the sensation of warmth and ease, it has the musical note of D, and it is the virtue that forms the stomach.

When meditating on this virtue, focus your mind on the influencing of your own or another's spirit, or an object, or fragrance, with a divine idea, virtue quality, power, might, etc. As you do this, imagine that you are omnipresent and one with Divine Being. Then locate yourself as

a tiny dot in your own solar plexus seeing your body as an immense universe all around you. While visualizing a vermillion red color shining from a tiny sun in the throat, concentrate on your own universe being impregnated and spiritualized by the divine virtues. Flow with feelings of

this. Tone the letter C to the musical note of D. Experience it energizing the stomach and head. Feel sensations of warmth and ease..With

the outbreath, see this passing through the pores of the skin over the stomach and filling an object, a person, a fragrance, or the outer universe, whatever your inner guidance directs. With the inbreath see this coming in through these same pores and filling the body.

When finished, dissolve the red light in the body to protect the natural balance of elements in the body. Keep the rhythm of the breath natural.

Umlaut O, er

Akasha: In the principle of consciousness penetrating all, the umlaut O oscillation evokes the most profound cognition which can only be brought about by love divine.

By the help of this a person gets to know all the possibilities of transformation of the spirit, all the systems and ways serving this end, and all knowledge concerning transformation in all other fields. He/she is informed about everything that, deriving from the act of creation, had to pass through all the mode of transformation to be reunited.

A person must attain all the faculties that are offered by this profound cognition made possible by Love Divine, in the principle of consciousness-penetrating-all, and must make use of all possibilities, in order to get convinced that they cannot be described by words, by must be experienced, lived through.

I have mentioned the letters umlaut A and umlaut O as the last ones in this series of exercises, because by the help of their virtues one is able to comprehend, from the principle of consciousness-penetrating-all, the crown of all wisdom in the micro- and macrocosms, from the act of creation to the present state of evolution, and even to the final development.

Mental: Evoked in the intellect, the virtue of profound cognition brought about by love divine gives the understanding of the transformation of ideas, virtues, etc. by the quabbalistically pronounced word, which is a very great and comprehensive field.

Astral/ emotional level: In the feelings, the virtue of profound cognition brought about by love divine develops the faculty of perfect astral projection and the mastery of all occult and magical phenomena that have reference to transformation, so that a person may, for instance, assume any desired vibration in the emotional body without being recognized by other beings and with only Divine Providence seeing through him/her. Apart from this, a person is able to transform any emotional oscillation into the oscillation he wants and to do the same with any element.

Material: When mastered in the physical body, the profound cognition brought about by love divine leads to perfect knowledge of quabbalistic [the use of will, thought, feeling, and sensation] alchemy in the material world.

A person is taught the true preparation and charging of the philosophers stone in the physical sense. He/she can influence, at will, any oscillation atomic, oscillation, electronic oscillation- by quabbalah, and he/she is able to transform it into the oscillation desired by him/her.

Therefore he/she perfectly masters the laws of transmutation and is able to transform any metal into gold, any stone into a precious stone, etc. if desired. By the help of this virtue a person is furnished with many other faculties of which he/she cannot even dream now and which non-initiates would regard as absolutely impossible.

Umlaut O is dark orange, has the musical note of D-sharp, is the element of akashic-earth which has the sensation of weight penetrating everything. The ovaries and testicles are formed from this virtue of the profound cognition brought about by Love Divine. In healing, heal the left ovary first and then the right one.

O The sound of letter O is the sound of the initiation into the original principle of divine justice.

Mentally you will be able to give expression to the absolute legality of harmony in all four basic qualities of the elements. You will have a high power of judgement and the ability to comprehend spiritually any legality, any interference by Divine Providence for the sake of justice. You will never be able to condemn anyone unjustly. This will

bring about the abilities to create any change in the emotional situations that you find yourself in and to have absolute success and happiness on all levels.

This virtue has an ultramarine blue color, the musical note of C, and is the earth element so it has the sensation of weight. It formed the throat and windpipe.

B This is the meditation for the letter B, whose sound is the virtue of polarity and Universal Consciousness.

Go deeply within.

Relax.

Imagine

That now you are a tiny dot in your solar plexus.

See that your body is an infinite universe all around you.

>From a tiny sun in your leg region, a light violet light fills all the universe and creates the galaxy of your right eyeball.

Angel choirs are joining you in toning the letter B to the musical note A in many octaves.

Universal Consciousness as it manifests in infinite polarities, with their forms and qualities becomes understandable to you.

***Meditate on electricity and magnetism,
On hot and cold,
On inward and outward,***

***Yin and Yang,
male and female,
will and emotion,
above and below.***

Meditate on Delta brainwaves of pure being and Beta brainwaves of the five senses, memory, and logic.

Feel the sensation of weight and gravity, because this virtue is the earth element.

As you meditate in your own universe, be aware that what you do within your own awareness manifests in the outward universe, through the breath and intent .

E The sound of this letter is the sound of omnipresence, or the indwelling consciousness of God in all life. By meditating on this virtue, a child of God unites their individual consciousness with Cosmic consciousness and becomes one with all life. Use this meditation in transferring higher states of consciousness onto others.

The color of this virtue is dark violet, the musical note is D, it is the akasha element which has the sensation of God-penetrating-all. The spine is formed from this virtue.

L Initiation into the Divine Virtues. It is to be imagined as the color of olive green. The musical note is F, the element is air, so it has the sensation of ease. The spleen is formed from this virtue. This letter represents the highest divine virtues that may be described by words, irrespective of whatever sort they may be. This letter oscillation is used to comprehend the Divine Majesty and the greatness of God in the form of the purest virtues. From this comes the faculty of comprehending true morality as seen from the highest point of view.

***This
will lead you to the borders of saintliness.***

On the emotional level true equilibrium of character occurs and mastery of flooding the emotions with the highest light is attained.

***On the physical level
you will gain perfect health, beauty and harmony
and you will become absolute master of your own vitality.***

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity. Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name.

This name is a key to their powers and influence.

Names, phrases, and sections in the angel messages are quoted or paraphrased from the books of Franz Bardon. Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,

and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books have very important information for these studies.

The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

Feel free to share these messages.

To understand Universal Consciousness, and immortality, it is very helpful to read the first three volumes of The Life and Teachings of the Masters of The Far East by Baird Spalding

The first three volumes are field notes taken on a scientific expedition to Nepal in the late 1800's.

The Law of One is the original law of Creation, and is the supreme Law over all laws in all dimensions.

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM,

**and I am one with all there is;
I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED HAPPEN.**

I give thanks that this is done.

SO BE IT!
