**The Angels of Patrons  
and  
Benefactors**

Also known as

The Angels  
of  
**Lagiros**

Beloved,

We inspire grace and mercy, so that benefactors follow inner  
guidance,  
and offer support to restore the splendor and majesty of Divine  
Being in the world.

In this way Divine Love reveals how grace and mercy creates ways of  
restoring harmony and justice,  
success and satisfaction to all.

*We connect benefactors with all sorts of people and  
situations  
to outpicture the will of Divine Providence for Heaven  
on Earth.*

Patron and genius, benefactor and recipient, are gifts to each other  
as well as to the world.

**Divine Love manifests in the world through benevolent patrons and benefactors of all kinds.**

**Important discoveries, inventions, artworks, and humanitarian projects are developed through the love of gifted people who sometimes do not have enough wealth or influence to bring these to full completion.**

**Then a person of wealth or power steps in as a patron or benefactor.**

**We are aware of every genius and world server that requires patronage.**

**When Divine Providence ordains it, we make sure that connection is made with the person of power or wealth who brings genius and good works to fruition.**

**We stay with both parties, the patron and the recipient, to inspire and guide the relationship.**

**Both the patron and the genius or world server have chosen incarnations developing their respective positions.**

**The genius or world server utilizes everything to develop his/her gifts, and therefore opportunities to become financially successful or powerful are often sacrificed.**

***The patron often develops his/her financial base and sphere of***

*influence and thereby does not fully develop whatever other potential genius or gifts that lie within.*

*Through the divine virtues of the letters of our name, we  
bring these  
two together, recipient and benefactor, and they do  
together what neither would do alone.*

The genius or humanitarian gives wings to the patrons money and  
power,  
and the patron gives wings to the recipients gift.

Divine Providence has ordained the sacred interactions  
between patron and recipient since the beginning of time.

**Our galaxy, along with many others, orbits around a point in the sky, called super galactic center SGC, which is 3 Libra, the heavenly hosts of protection for animals, of happy birth, meaningful and happy life and peaceful and painless death of all animals.**

**Now in the fullness of time the Children of Divine Being are patrons and benefactors, of all animal kingdoms,**

**loving and protecting animal kingdoms and  
their habitats.**

**In doing this, all of earth becomes beautiful,  
according to the original divine blueprints of  
creation.**

**L The letter L represents the sum total of all the divine virtues.**

**These virtues taken together are the splendor and majesty of Divine  
Consciousness.**

***Establishing this splendor and majesty of God upon  
the earth is a primary motivation for both geniuses and  
patrons and benefactors.***

**By mastering the virtue of unity with the divine virtues,  
it is possible to create in the Akasha the splendor and majesty of  
heaven so  
that it manifests in the intellect, in the emotions, and in the reality  
of the physical world.**

**This gives morality, mastery of emotions, great courage and  
endurance,  
and the drive for self-preservation in self and others.**

**The color of this virtue is olive green, the musical note is F,  
the sensation is the air element of ease, and the organ formed by it  
is the spleen.**

**A This sound, the soft ahhhh of a sigh, is the sound of the WISDOM  
AND ENLIGHTENMENT.**

**This virtue gives intellectual clairvoyance, clairsaudience, eloquence,  
musical and artistic gifts.**

***A genius uses this virtue to manifest splendid  
inventions  
or artworks to bless the world.***

**Patrons and benefactors are attuned to this virtue in others as well  
as being blessed with it themselves.**

***Many times it is through the gift of clairvoyance, or clairsaudience  
that patron and genius,  
benefactor and recipient are brought together.***

**The color is light blue, the sensation is ease, the musical note is G,  
and the part of the body that is formed by this virtue is the lungs.**

**Umlaut A, aewhatever imperfections, regardless of on what level  
they may occur,  
in either benefactor or recipient or any situation concerning  
them, can be released back to Divine Being for transformation into  
another state**

that is the highest good of all concerned.

G The letter G symbolizes the virtue of divine GRACE AND MERCY.

*A genius is inspired by this virtue to bring through art  
and inventions  
that makes life easier and more beautiful for all.*

*The patron and benefactor are filled  
with feelings of happiness and satisfaction  
that come from this virtue  
when they give a helping hand to others.*

In the physical world this virtue represents all phases of riches and  
wealth,  
of happiness and satisfaction.

By this virtue Divine Providence has created abundance and, like  
the Creator, a child of God may also  
bring about, for him or her self or other people, abundance in  
everything, should that be desired.

On an emotional level this virtue gives feelings of happiness, of  
complete satisfaction.

Situations may be created by means of the elements  
and the will and feelings causing success and wealth in the world  
that is for the highest good of all concerned.

In the mind, this virtue gives the experience of peacefulness,  
and the faculty of giving true divine blessing.

The color is deep grass green, like an emerald. The musical note is  
F.

The element is water so it has the sensation of chill turning to  
iciness.

The spleen is formed from this virtue

The sound of this letter is the virtue of CAUSE AND EFFECT, which  
is the karma law.

*Patrons and benefactors sense the importance of  
giving,  
of creating success and happiness for others.*

*They know that as one gives, so shall one receive.*

On the mental level, this is analogous to memory, remembrance and  
conscience.

In the feeling body, this corresponds to the astral/physical matrix,  
which is the connection between feeling and physical form, with all  
of its functions.

On the material world, everything that has shape, measure, number  
and weight  
can be understood and mastered with this virtue.

The color of this virtue is light opal, the musical note is G, the  
element is earth so it has the sensation of weight, and the left

kidney is created by this oscillation.

**R** This is the sound of the divine virtue of INDEPENDENCE AND FREEDOM, of following inner guidance.

*A genius uses this virtue to follow inner guidance in creating.*

*A patron or benefactor uses their free will to attune to the high calling of following the direction of Divine Providence.*

Those who study the divine virtues in the order of the alphabet reach a state of complete oneness with Divine Providence.

After learning all of the virtues associated with all of the letters of the alphabet in order starting with A,  
by the time you reach the letter R you have achieved a state of maturity  
by which your feeling of independence has been transformed into an absolute state of security and unimpeachability.

Mentally, you will have an eminent mind and the feeling of freedom of will and action.

Not only this, but also the state of maturity in which you will never violate a law,  
having yourself become a master of all laws.

In spite of your freedom of will, you will find yourself willing to subject yourself freely to Divine Providence, and accept missions to serve Divine Providence with deep humility, immense gratitude and the highest devotion without losing your feeling of absolute freedom of will in any way.

Such great ingenuity will proceed from this that you will be able to comprehend any knowledge quickly and without difficulty.

The color of this virtue is gold, the musical note is C, the element is earth so it is felt with a sensation of weight, and the left side of the nose is formed from it.

Umlaut O, eu The special cognition that is brought about by seeing through the eyes of the most profound divine love awakens indwelling Divine Perfection in all concerned.

***O Both a genius and a patron or benefactor seeks happiness and success for all.***

**This is the virtue that brings absolute success and happiness to the Earth.**

**When people identify with DIVINE JUSTICE through meditation,  
they  
become one with divine justice.**

**They have a high power of judgement and  
comprehend spiritually any legality, any interference by Divine  
providence for the sake of justice.**

**The color is ultramarine blue. The musical note is C. The element is  
earth so it has the sensation of weight. The throat and windpipe is  
formed from this virtue.**

***S A genius uses this virtue to summon the courage  
and persistence to invent and create.***

***A patron or benefactor uses this virtue to sense  
the will of Divine Providence concerning each recipient.***

**This final step is initiation into ALL-PENETRATING-POWER.**

**With all-power you get into contact with the most subtle substance  
of the divine spirit, i.e.,  
with the original divine fire which works as a substantial power  
in everything that has been created by Divine Providence.**

**Oneness with all-power gives mastery over the fire principle of  
desire and will and brings about a state of clairvoyance in its purest  
form.**

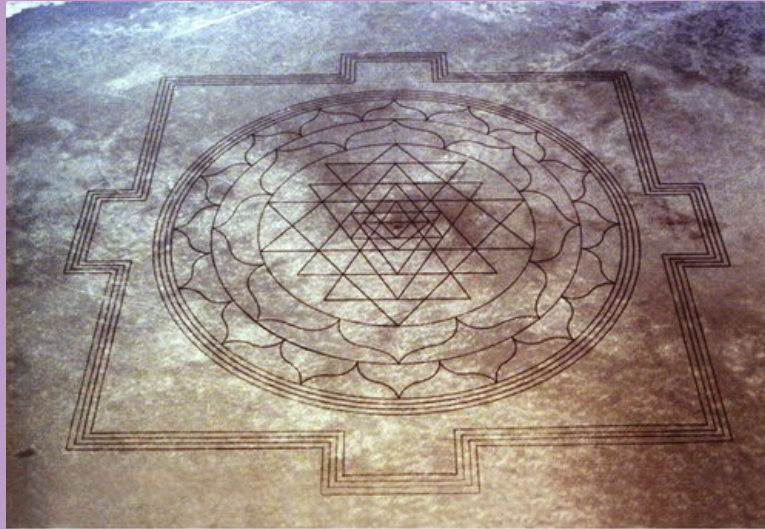

**Complete control over consciousness results from this.**

**The color of this virtue is purple red, its musical note is G-sharp, it  
is the fire element of will and so it has the sensation of warmth,  
and the gall bladder is the part of the body that is formed by it.**

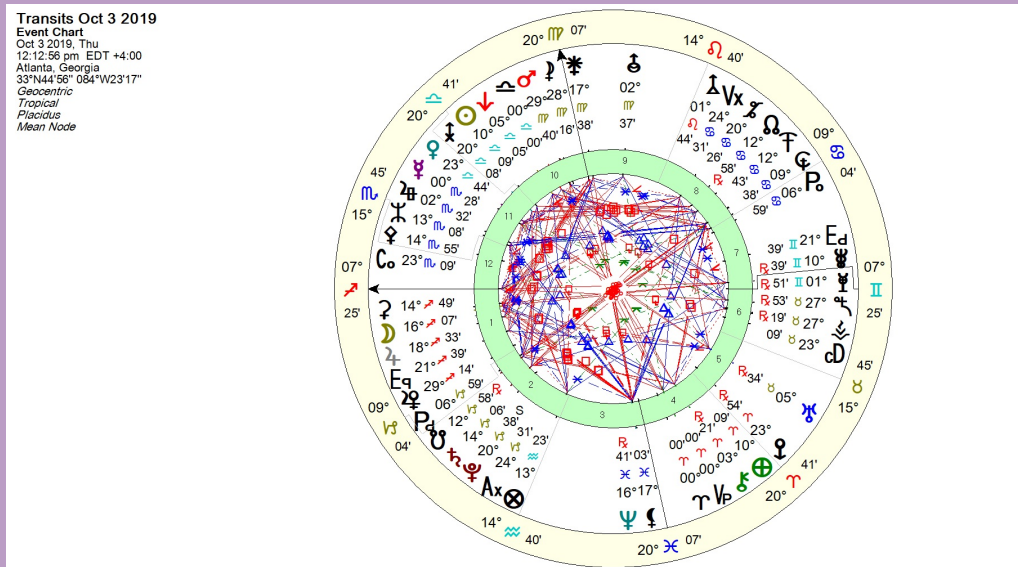

**The sacred connections between a patron and genius, a benefactor  
and recipient, brings joy and**

satisfaction to both and creates flowing divine feelings of worth that transcends almost anything ever known before.

**Pluto is still stationing to go direct.**

**This is a major change for us all,  
since Pluto brings out all that is hidden, both dark and light,  
and all that is keeping us from being divine love,  
both receiving and giving,  
must be transmuted.**

**While it was retrograde, this process was inward.**

**Now that it is going direct,  
our experiences of the outer world are being transmuted.**

**Here is an explanation of what we have gone through in retrograde.**

### **Retrograde Motion of Planets:**

**Retrograde motions of planets are the appearance of backward motions,  
in their orbits from the vantage point of earth.**

**In actuality, all planets continually go forward along their orbits,**

but there are cycles of time  
when they APPEAR to be going backward from the vantage point of  
earth.

Life is about harmony, rhythm and balance.

The appearance of the direct motion of planets is balanced by times  
of the appearance of retrograde motions.

The retrograde motion activates parasympathetic nervous system,  
which is attention to the inner worlds in contrast to direct motion  
which activates  
the sympathetic nervous system, which is attention to the outer  
world.

The sympathetic nervous system is attention to the outer  
worlds, primarily Beta brainwaves, which are logic, language,  
memory, and the five senses.

By having both direct and retrograde planetary effects, our outer  
focus  
on the beauty of creation during direct motion is balanced by our  
inner focus  
on the beauty of the inner worlds of our being during retrograde.

Retrograde is the time for INWARD journeying in consciousness to  
access the inner realms.

Primarily this will be in areas of our inner world concerning the  
activities of the planet that is retrograde.

For example, Pluto is about giving and receiving Divine Love.

When Pluto goes retrograde, the giving and receiving of divine love  
is obtained from the parasympathetic states of inward meditative  
focus.

During retrograde Pluto, the soul and spirit, in its relationship to  
Divine  
Love, disengages from processing Divine Love as regards outward  
states of the outer world.

Hence deep inner recognition of painful desires, thoughts,  
emotions, and sensations  
are more likely to preoccupy us.

We come to terms with our own inward divine innocence and  
perfection.

Now that Pluto is stationing direct at the place of divine  
sportsmanship,  
we will be coming to terms with all that is painful as well as all that  
is holy and beautiful,  
in how we interact with shared goals in the outer world.

The key is to flow with the natural rhythms of the universe and  
shift  
our attention and focus to be in sync with both the direct and  
retrograde motions.

*The inner journey is  
about finding your  
own fullness,  
something that  
no one else can  
take away.*

*Deepak Chopra*

***In these new times of abundance and harmony, of Heaven on Earth,  
people will no longer live according to unnatural conditions  
of suffering, lack or slavery and are free to follow inner guidance to  
spend time  
doing whatever is the highest good of all concerned.***

**Direct Pluto will be welcomed as WONDERFUL for  
the healing and transmutation of our shared goals of bringing  
heaven into manifestation on earth.**

**When a planet is retrograde at the moment of birth, then there is a  
natural attunement to this wonderful inward psychic flowing  
parasympathetic state  
in the area represented by the planet.**

**Once the divine perfection of retrograde is understood, retrograde  
times become FAVORITE TIMES for spiritual pathwalkers to  
balance the experience of perfection  
in the outer world with experiencing pure  
being, feelings, ecstasy, psychic sensitivity, flow and change with the  
perfection of the inner worlds.**

**RETROGRADE IS INNER MEDITATION AND THE CHANGE PROCESS.**

**We rediscover our relationships with beings in the inner realms.**

**Retrograde is about balancing the inner with the outer, about going within and withdrawing from the allure of the outer world for a while and enjoying a journey in the richness of inner realms.**

***"The kingdom of Heaven is found within."***

***"Seek ye first the Kingdom of Heaven and all else shall be added unto you."***

**The names and meaning of angel groups come from Quaballah,**

which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions:  
Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth,

and the angels who work with him or her.

The being and the angels share the same name.  
This name is a key to their powers and influence.

Names, phrases, and sections in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and Information of the divine virtues and the letters

are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].  
Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.  
Franz Bardon's last autobiographical book, "Frabato the Magician",

gives historical background and was compiled by his German publisher from notes written by Franz Bardon. T
