The Angels of Song

Also known as

The Angels
of

Riqita

Beloved,

***Singing is the language of The Age of Flowers, of Miracles,
of
The Golden Age-Sat Yuga, of the Angels,
of Avatars,
of the time of Heaven on Earth.***

Singing is Divine Love expressing through sound.

***We are the heavenly host that protect and inspire
all singers.***

**The power of song to uplift consciousness
has long been known
and used
in ancient religions and sciences.**

**As the coming times unfold, more and more people will be
amazed
at how deep expressions of heartfelt emotions and feelings
through song,
dramatically facilitate healing and enlightenment.**

**As people of Light and flowing divine Love master following inner
guidance with open hearts,
gifts of song spontaneously awaken within.**

**These flowing sounds change and heal all levels of manifest creation,
both within and without,
from the most subtle levels perceived in deep delta brainwave states
to the most materialized levels perceived in Beta brainwaves.**

*Singing is precise in creative power, directing magnetic attracting powers of the heart,
with clear intellect, and flowing electric intent of omnipotence, for the highest good of all.*

Singing transcends ALL barriers.

**The difficulty that words have in transcending language
barriers
between different cultures and species are overcome
through the subtleties of song.**

**The musical notes, the melodies, the inflections of voice
and tone,
all carry important emotional information codes.**

**Remember that emotions attract new realities into physical
form.**

**In The Language of Light, which is the ancient language, each divine
virtue expresses it's frequency as a musical note.**

**These notes enliven corresponding flowing emotions
being generated through the omnipotent, omnipresent, omniscient
flowing divine heart of love.**

Each musical note corresponds to certain divine virtues.

**Whether or not a person remembers which virtues go with which notes,
the notes themselves carry the frequencies of flowing emotions of
unique divine
virtues through the act of singing, especially with clear intent and a
heart flowing with love.**

When asked, we and many others in the inner planes are happy to help

**you
hold the intent and perfect meditation for each note that you sing!**

**Through the divine virtue of the letter Q, which is the same as K and U
together,
in our name Riqita, we inspire the greatest faith to change fate for the
better.**

**With this faith singing has the highest power imaginable to create
loving changes on Earth.**

With faith all things are possible.

**We inspire each person that sings with understanding of Cause and
Effect.**

**By understanding cause and effect, each song is purposely intended to
express the magic of love, to
flow with love and forgiveness that uplifts awareness
so that returning negative karma is made less harmful as lessons are
learned through grace and mercy.**

**We inspire infinite wisdom and enlightenment, so that each song
carries with it,
and enlivens, the perfect divine plan on Earth.**

The human body is made in the image and likeness of Divine Being.

**Each part embodies certain divine original principles, virtues, and
qualities.**

**When a Child of Light sings with divine intent, his or her entire body
receives and emits healing from the musical notes.**

**The divine virtues can be enlivened in every organ and part of the body
in self and others.**

**With intent and faith the sound goes out and creates changes that
enlivens and heals
all that hear with divine virtues of the musical notes of the song.**

**The human voice, in the original purity of all ideas in divine mind,
transmits infinite power into sounds that carry Divine Consciousness
and flowing emotions into manifestation.**

"In the beginning was the Word."

**The voice stimulates glands, especially the thyroid and parathyroid
glands,
and enlivens the whole body with powerful chemical reactions.**

**When you feel wonderful feelings, remember that the Power of Divine
Feelings and Consciousness flow through song.**

Lift up your voice!

Talking is the language of mind.

***Music is the language of heart, of flowing
emotions of love.***

***Talking joined with music as song supercharges
the power of love to conquer all.***

"Love conquers all."

***The electro-magnetic field of the heart is 5000
times stronger
than the electro-magnetic field of the mind.***

**Singing combines the language of the mind with the language of heart,
singing is joining together the electro-magnetic powers of will and
feeling.**

Therefore, song is the alpha and the omega of language.

**By following inner guidance and high inspiration from Divine Providence,
a singer creates exactly in each moment the most perfect results.**

Creation contains polarity.

For this reason the human body has two nervous systems, the sympathetic and the parasympathetic.

The sympathetic nervous system activates when a person is interacting with the outside world.

The parasympathetic nervous systems activates when a person interacts with the inner world.

These two polarities follow one after the other, like night follows day, and an inbreath follows an outbreath.

Every 90 minutes, the human body shifts dominance from one to the other.

The diatonic keyscale, which corresponds to the white keys on a keyboard, stimulates the sympathetic nervous system.

**The pentatonic keyscale, which corresponds to the black keys,
stimulates the parasympathetic.**

**It is inner guidance and high inspiration that guides the voice in each
moment in its choice of notes, of keyscales, of highs and lows, in its
pauses and cascading trills, in its softness and loudness.**

**It is inner guidance and high inspiration that guides the consciousness
in its being, visualization, faith, inner thoughts, flowing feelings, and
sensations in each moment of song.**

***We inspire developing a lovely voice which fascinates
people.***

There are no two voices alike.

***Singing is precise in its creative power, directing magnetic
attracting powers of the heart
with clear intellect and electric intent of the mind.***

**This is the time for ALLthe Children of Light to sing Heaven into
manifestation upon Earth.**

**Lift up your voices, make a joyful noise unto the ONE BEING that is
everywhere present.**

On Earth as it is in Heaven.

**The more the world is filled with tones of sacred singing, the more the
world is transformed
in the merging of Divine Heart Love with Wisdom and Intent .**

Singing heals and spreads outward like ripples in a pond to heal all.

***The power of the voice to heal, bless, and enlighten is
unlimited.***

Song is one of the most powerful catalysts of change on Earth.

Every tree, every rock, every ear is blessed by the sound of singing.

In so many situations, what greater gift can you receive, or give?

It is easy.

LIFT UP YOUR VOICE!

Even if you have never sung before, go within and ask the heavenly

hosts and Divine Providence for help.

Then, just do it.

Take courage and follow your heart and inner guidance.

Be aware of breath.

**In short time the muscles of your larynx come alive, your voice opens
and flowers,
blessing the entire web of life.**

Open your heart to yourself and others as you sing.

**Be an example to others, helping them, by your example, to find the
courage to sing.**

The sound of singing creates love on the Earth.

**Heaven is filled with the sound of singing, of angelic choirs, and so it is
on Earth.**

On Earth as it is in Heaven.

RSinging begins with inspiration from within.

**The sound of the letter R is the sound of the virtue of freedom and
independence.**

It is the virtue of listening to the inner voice of guidance.

**It has a golden color, the note of C, and is the earth element,
so it is felt with a sensation of weight.
The left nostril is formed from this virtue.**

**The mastery of this virtue gives clear inner guidance
that is in complete harmony with Divine Providence,
so no mistake is ever made.**

**Because the divine virtue of free will is the extension of Divine Mind
operating within each being,
a high state of maturity and ingenuity
is gained through this virtue that gives clear inner guidance and
sensitive creativity in singing.**

**I The sound of this letter is the virtue of cause and effect, which is the
karma law.**

**By mastering this virtue, a Child of Light and Love comes to understand
that when a person uplifts their consciousness and fills themselves with
the divine virtues,
then when any negative karmas from previous mistakes
return, they manifest in seemingly symbolic ways
and tend to glance off the higher energy that the person has since
become.**

**Singing is a primary way to attune to higher consciousness and being,
for self and others.**

**By uplifting self and others through divine song,
negative karmas of everyone are weakened in their severity.**

**In this way song is a healing gift of love
that goes out and out and out like ripples in a pond in the Web of Life.**

When a person sings with the intention of causing A SPECIFIC result, or effect, this virtue enables them to create a perfect mental and emotional blueprint for physical manifestation.

On the mental level, this is analogous to memory, remembrance and conscience.

In the emotions, this corresponds to the astral matrix, which is the connecting link between the physical body and the feelings.

Therefore, the mastery of the virtue of cause and effect controls the connection between the body and the soul.

The color of this virtue is light opal, the musical note is G, the element is earth so it has the sensation of weight, and the left kidney is created by this oscillation.

I and the Father are one.

All that I do, ye shall do and more.

Q The letter Q in our name represents the power of sound, for in Quaballah it has the same meaning as the letter K, which represents the highest power imaginable, omnipotence. in deep meditations sees causes and changes them, thereby changing fate itself.

It also has the sound of letter U, which is the power to see the causes of anything and change them, thereby changing fate, and seeing the ongoing effects of this change.

"In the beginning was the word."

"All that I do ye shall do and more"

These scriptures point out that the voice has the power to create, and that mankind is destined by Divine Providence to create miracles.

The letter K is the silvery blue color and has the musical note of G. It is the fire element and has the sensation of heat. The left ear is formed from it.

It is a known fact that the astral matrix, and with it the whole body, is kept alive by breathing.

With the initiation into karma law, which is the knowledge of cause and effect, you are in the position to get under your perfect control the breath with all of its aspects and ways of application.

When a Child of Light sings, understanding and mastery of breath is extremely important, not only for the quality of sound, but for the quality of manifestation.

All mystical abilities are subject to the mastery of breath.

On the material world, everything that has shape, measure, number and

weight
can be understood and mastered with this virtue.

T This is the virtue of high inspiration.

It gives the ability to carry through mystical feats, especially through emotions, and to have remarkable inventive faculties in expressing divinity through singing.

When a Child of Light masters this virtue, he or she is able to impregnate their will on all four levels of will, thought, emotion, and form.

This virtue has a brown-black color like fertile earth, is the element of fire so it has the sensation of warmth, vibrates to the musical note of F, and forms the right kidney.

A This is the virtue of the highest wisdom and enlightenment that can be conceived of.

Singing attunes both the singer and hearers to divinity through the virtue of enlightenment and wisdom.

That is why when one person sings, others desire to join in.

This sound[a soft a like a sighahhhhh] is the virtue of the highest wisdom and the purity of all ideas in existence.

This has as a fundamental feature the enlightened mind.

Reasoning, perception, the cognition of the most profound truths, highest knowledge, high intelligence, and the arousing of all intellectual faculties are expressed.

Musical gifts, eloquence, poetic talent, and clairvoyance, clairaudience, the art of levitation, and the control of the air element

and its beings are all aroused by this initiation.

On the physical plane the command of the beings of the air, control over storms,
are all made possible by initiation into the highest wisdom.

The color of wisdom and enlightenment is light blue, the musical note is G, the element is air so it has the sensation of ease, and the lungs are formed from it.

Umlaut A, aeAll imperfections are released back to Divine Being for transformations into other states that are the highest good of all.

In this way, negative beings are controlled,
and everything that no longer serves the highest good transforms.

Footnotes

The names and meaning of angel groups come from Quaballah,
which is a very ancient set of teachings
which together form a common precursor, or root, of three of the world's religions:
Judaism, Islam, and Christianity.
Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the
earth,
and the angels who work with him or her.
The being and the angels share the same name.
This name is a key to their powers and influence.

Names, phrases, and sections in the angel messages
are quoted or paraphrased from the books of Franz Bardon.
