The Angels of

## Malata

Beloved,

**We initiate the children of divinity  
to understand that the human body temple  
is a microcosm of the macrocosm,  
in the image and likeness of Divine Being.**

The body is holy,  
and responds to our thoughts and emotions.

This is why firewalking,  
which is walking on hot coals without getting  
burned,  
has been celebrated for centuries  
amongst those who understand this  
interconnectivity.

***"Groundbreaking scientific studies find that  
genes  
can be turned on and off by environmental  
signals  
including thoughts, feelings and emotions from  
outside the cell.***

***Cellular biologist Dr. Bruce H. Lipton Ph.D.,  
a former medical school professor and research  
scientist,  
was one of the first scientists to posit such***

***extra-cellular control.  
Dr. Lipton conducted a series of experiments  
that reveal that the cell membrane, the outer  
layer of a cell,  
is the organic equivalent of a computer chip,  
and the cells equivalent of a brain.***

***Although this view conflicts with the widely held  
scientific dogma  
that genes control behavior,  
papers by other researchers have validated his  
iconoclastic thinking."***

**The time has come for truth and love  
to heal every aspect of creation.**

**It is written that in the end times ALL WILL BE KNOWN.**

**We help the children of light master the waters of physical life  
in the human body temple, the Blood.**

***Blood is a programmable medium of liquid life,  
of flowing emotions in physical manifestation.***

**We watch over the purity and health of the blood  
in the circulatory systems of humans and animals.**

**We know the secrets of blood.**

**We have inspired scientists about its classification in groups and RH-  
factors.**

**In many fields of science like medicine, chemistry, physiology,  
psychology, and genetics,  
we bring forth, according to the maturity of mankind,  
knowledge and understanding of the secrets of blood.**

**All parts of the human body temple are analogous to Divine Virtues.**

**The blood is analogous to Mother Letter M, which is FLOWING DIVINE  
EMOTIONS, which are LIFE.**

**As emotions flow, they attract changes in blood and all physical reality  
because emotions are magnetic compressed information.**

**To manifest immortality and youth, we therefore inspire people to  
charge blood  
with the magnetism of flowing emotions of all the Divine Virtues, so  
that  
life manifests as majestic, desirable and sweet.**

**In doing this blood takes on miraculous powers.**

**The body knows how to protect itself.  
The body can absorb nutrients from prana, from sunlight.  
It can walk over hot coals and not get burnt.  
It can levitate, go through spontaneous remission of any disease, it can  
walk on water.**

**By flooding the blood with beautiful emotions,  
any child of Divine Being can follow in the footsteps of the masters.  
Seemingly miraculous healing and transformation occurs.**

***"For I have not given you the spirit of fear, but of joy, and life  
everlasting."***

***"All that I do, ye shall do and more."***

**As you know, every desire creates thoughts.**

**Every thought creates emotions.**

**Every desire, thought, and emotion in this way creates powerful  
chemical changes in blood.**

**We are teaching the Children of Light to use the divine virtues  
of the letters of our name Malata to understand and master blood.**

**The Cosmic Language is a language that programs blood perfectly  
through emotions in attunement with the original blueprints of creation.**

**These blueprints of enlightenment exist  
in the four brainwave states of Delta, Theta, Alpha, and Beta.**

**These are respectively being-will-visualization/thought/  
emotions/sensation.**

**These states create and combine electricity and magnetism to attract  
specific material forms  
out of the infinite potential of the quantum field of possibilities.**

**Any desire that creates visualizations, thoughts and then emotions does  
this.**

**Therefore it is important to attune desires to those of Divine Being for  
the highest good of all,  
according to the original Law of Creation, The Law of One.**

**When emotions are imperfect, addressing them with love  
and The Law of One causes amazing changes.**

**Within one minute of having a change of thought and emotion,  
over a hundred thousand chemical changes occur in the human body.**

**The Law of One**

**We are all one.  
When one is harmed, all are harmed.  
When one is helped, all are helped.  
Therefore, in the name of Who I Am.  
And I Am ONE with ALL there is,**

**I ask that only the highest good of ALL concerned happen.  
I give thanks that this is done.**

**So be it.**

**All language is electro-magnetic, will and emotion, light and sound.**

**The original language of light and sound is the power of the word  
as taught by the ancients and in these messages.**

**This language is a PROCESS OF ACTIVATION of divine qualities,  
using all four brainwave patterns, using light and sound.**

**Sometimes called Hiburū in history, the Cosmic Language is a harmonic  
language that reproduces waveforms of light and sound corresponding  
to Divine Consciousness.**

**This language comes naturally to human beings,  
for they are made and sustained by Divine Consciousness.**

**Remember that sound enlivens Divine Virtues and activates physical  
matter through  
concentration on being-will[desire-intent-image],  
intellect [thought], flowing emotions, and sensations of a desired  
outcome.**

**Each divine virtue is represented by a letter that is uttered in a  
particular musical note.**

**Each virtue and its letter have a color, an element, a sensation  
and a part of the body that is formed from it.**

**Because blood is a programmable medium of liquid life,  
of flowing emotions in physical manifestation,  
spontaneous remission of any imperfect physical condition is possible.**

**When blood samples are taken from a person with multiple  
personalities,  
the blood shows dramatic changes from one personality to another,  
even within a few minutes.\***

**In one personality the blood might show advanced disease, and as soon  
as  
another personality is accessed, the blood may show good health.\***

**If you change your emotions, you will change your blood.**

***"As a man believeth in his heart, so is he."***

**Therefore, when you intone inwardly or outwardly sounds**

**qualified by being-will- image-thought,  
emotions, and sensation of divine qualities,  
the blood receives it-magnetically-  
and then charges-electrically- the cells of the body.**

**The way of intoning sound is to tone the sound while flowing with  
emotions.**

**The cosmic language is an ancient meditation that uses emotions  
of a divine virtue to attract miracles on earth.**

**Each virtue has a specific musical note.**

**This ancient meditation of divine virtue is an imagined experience.  
A divine virtue is visualized and sensed originating  
from the proper area of the body for the element  
of each divine virtue as you imagine  
the divine virtue, with its qualities, color, sound and sensation,  
shining from a tiny sun located in this same region.**

**Remember that fire letters of will are to be imagined and felt in the  
head,  
air letters of thought in the region  
of the chest, water letters of emotions  
in the abdomen seen as a hollow space, and earth letters of sensations  
in the legs and feet.**

**In addition they are felt in the specific organs associated with each  
letter.**

**The letters of our name are keys to the divine virtues used to enliven the  
circulatory system.**

**Use these letters of our name with fourfold concentration described  
above.**

**Doing this, blood is charged with the Divine Virtues that bring love,  
enlightenment, transformation, eternal youth, mystical faculties,  
purification, high inspiration, and ease, artistic talent and control of air,  
with transformation of all imperfections on an ongoing basis.**

**If this is done for 28 consecutive days, one lunar cycle,  
this charge often remains indefinitely,  
as new neural networks are formed in the brain to carry out this process  
indefinitely through intent.**

**The charge is passed along from blood cells to new blood cells.**

**It's best to start the 28 days on a new moon.**

**The strength of waveforms is directly related  
to the strength of will, visualization and flowing emotions in  
meditation.**

**Practice and become better at meditation and power intensifies.**

**The purity of the waveforms is directly related to the purity of  
intellectual attunement and purity and clarity of imagination in color,  
sound, tone, and emotions.**

**With proper intensity and purity, the power of letters and words  
manifest miracles  
not only in the blood, but anywhere it is directed.**

***MMastery of Divine Emotions. One of the original Mother letters.***

***All waters, changes, flowing, magnetism, and divine emotions  
are created with divine utterance of this letter  
in the fashion that you are learning now.***

***Emotions are compressed information, and must flow to stay pure and  
life giving.***

***Negative emotions contain information about cause and effect,  
lessons lessons learned from past mistakes.***

***As they flow in an atmosphere of praise, respect, thanksgiving and love  
[give thanks  
for all things] a person gains wisdom and then the emotions turn to  
positive beautiful ones.***

***Positive emotions contain information about the splendor and majesty  
of Divine Being in creation.***

***Positive or negative, emotions must flow.***

***By flowing they process information so that healing and evolution occur.***

***Negative emotions change into positive ones in the presence of  
unconditional love.***

***Positive emotions are the essence of divine life and bring about  
changes in physical reality  
that mirror the original purity of all ideas in Divine Mind.***

***Emotions are the water element, and like water,  
become stagnant and toxic if bottled up and not allowed to flow.***

***Remember to always let emotions flow in a safe and non-destructive  
way.***

***Imagine this virtue of flowing divine emotions as a lovely blue-green  
color  
with sensations of coolness,  
first in the abdomen [seen as a hollow space] and then filling  
the entire inner universe of your body or filling whatever inner guidance  
directs.***

***While flowing with divine emotions, INTONE M in the MUSICAL NOTE  
of D  
with a grumbling voice like deep water.***

***Your intent is to fill your inner space with the ideal quality***

*of PERFECT FLOWING DIVINE EMOTIONS, sensations, and life spirit.*

*This letter strengthens the magnetic quality of the blood  
and keeps it flowing without obstruction of any kind.*

*A This letter represents wisdom and enlightenment. Meditate on this  
virtue,  
aligning will and intent with wisdom in Divine Mind.*

*At the same time, imagine this virtue as Light Blue light filling first the  
chest  
and then anyplace within your body with a sensation of ease, and the  
musical note of G.*

*A as in ahhhh*

*To quote from a Quabballistic text: the student advances on to no  
longer getting the light blue color oscillation of letter A into his chest  
by breathing it in through his mouth or nose, but through the  
circumference of his/her chest region, similar to breathing through the  
pores.*

*Also, the student must try to achieve sufficient dynamics  
by repeatedly using his imaginative faculty.*

*The student must be capable of drawing any letter oscillation  
into the respective region of the body  
and emitting it again, inductively and deductively, in a simple or  
condensed state.*

*These exercises have to be repeated until such a  
proficiency is achieved that the student can do all the quabballistic tasks  
mentioned so far with effortless ease.*

*The intent is to fill first the chest and then whatever space inner  
guidance directes with the highest wisdom and highest illumination  
that may ever be lavished on a human being: Enlightenment.*

*The musical note is G, the element is air, so it has the sensation of ease.  
The lungs are formed from this virtue.*

*This letter purifies the blood and charges it with the vibration  
of wisdom, enlightenment, ease, artistic and occult powers.*

*Then meditate on umlaut A, see below*

*L The sound of this letter is the sound of all Divine Virtues taken  
together; therefore, this sound is the sound  
of the splendor and majesty of Divine Consciousness.*

*By mastering this virtue, a Child of Light masters true spiritual morality,  
vitality and youth.*

*The intent is to fill first your spleen [which is the part of the body  
that is formed from this virtue] and then all of your body with the  
majesty and splendor of Divine  
Consciousness [love, beauty, truth, wisdom, power,  
compassion, harmony, freedom, individuality, etc.].*

*This letter oscillation represents the highest divine virtues  
that may be described by words.*

*The quabballist usually only uses this letter oscillation when wanting to  
comprehend the Divine Majesty or the greatness of God in the form of  
the purest virtues.*

*This letter purifies the blood and charges it with vitality, splendor and*

*majesty.*

*Intone it to the musical note F. This is an air element,  
so it has the sensation of ease filling all of space with a dark green  
glowing olive color. Intone it with a sound of hissing air.  
This virtue especially empowers the spleen.*

*Meditate on A, see above*

*Aumlaut A, ae, [Long A]The realization of wishes  
regarding physical matter is subjected to this virtue.*

*The sound of this letter, the long A, {ae}, in the cosmic language  
is the virtue of the origin and mystery of life and death regarding their  
transformation.*

*By meditating on this virtue, a child of God becomes convinced that in  
reality death does  
not exist, for the so-called death is only a transformation from one state  
into another.*

*Also will come enlightenment on the cause of this transformation.*

*With this comes the ability to master all negative spiritual beings  
in all spheres and planes with regard to their scope of action.*

*The purpose for which negative beings have been created becomes  
clear.*

*Since, in the original principle all beings are alike,  
each having been created by Divine Providence to fulfill a certain task,  
there is no dissimulation of negative beings  
, for from the enlightened persons point of view everything is pure.*

*Here the saying: "to the pure one everything is pure" becomes plain.*

*If there were no negative beings, it would be impossible to  
distinguish between good and evil; and if there were no passions,  
there would also be no virtues.*

*This virtue confirms the words contained in the Bible: "through night to  
light",  
the deep symbolic meaning of which now becomes clear.*

*In the intellect the ability is gained to see through  
all thoughts, actions and wishes concerning matter,  
and of becoming their absolute master.*

*In the emotions, this virtue represents desires, passions,  
and the inclination to self-satisfaction etc.*

*A person who masters this virtue in their feelings  
becomes absolute master and ruler of all desires and passions.*

*Also, a person is able to not cling to mental, emotional, and material  
values and objects  
when they are no longer for the highest good of all.*

*This means complete independence and freedom  
and fulfills the saying "bind yourself and you will be free".*

*On the material level this virtue is one of the most materialized.*

*No matter whether you evoke it in the mind, the emotions, the akasha,  
or the material world, the earth is influenced by it to a larger extent.*

*The ability to infuse matter with divine virtues is heightened.*

*The color of this virtue is loamy brown. The musical note is C. The element is earth so it has the sensation of weight. The anus is formed from this virtue.*

*This virtue is used to purify each level of consciousness and the blood itself.*

*This letter oscillation brings forth high inspiration to anything and everything that arouses your interest or attention.*

*With the help of this letter, a person realizes that he/she is able to infuse divine inspiration and intuition into all things.*

*Intone it with the musical note F, just as you did with L, but this time with a brownish black light.*

*The intent is to fill first the right kidney and the head and then inner space with high inspiration.*

*It is a fire element and has to be practiced with the elemental characteristics of warmth.*

*Therefore you imagine a warm brownish black light filling all of your inner space with high inspiration.*

*This encodes the blood with this virtue.*

*A final repetition of A, this time with emphasis on the FEELING of the gifts of eloquence, musical and artistic talent, clairvoyance, clairaudience, levitation, and control over the spirits of air:*

*The divine virtue of wisdom and enlightenment is again meditated upon, this time with special emphasis on clairvoyantly attuning to the blood, and the changes happening to it through the process of these meditations.*

*Final repetition of umlaut A, ae.*

Footnotes

The names and meaning of angel groups come from Quaballah,

which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions:

Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the

earth,  
and the angels who work with him or her.

The being and the angels share the same name.  
This name is a key to their powers and influence.  
Names, phrases, and sections, in the angel messages  
are quoted or paraphrased from the books of Franz Bardon.  
Information of the heavenly hosts of the zone girdling the earth is referenced  
from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,  
and information of the divine virtues and the letters are referenced  
from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies.  
The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book,  
"Frabato the Magician",  
gives historical background and was compiled by his German publisher from notes written by Franz  
Bardon.
