The Angels of Electro-Chemistry

Also known as

The Angels
of

Agikus

Beloved,

As enlightened mankind turns every resource to manifesting inner and outer beauty, wisdom, creativity, love, harmony, and peace, we ensure inventions of amazing scope to provide limitless energy.

We, the heavenly host of Agikus, are original initiators of galvanic electricity.

As The Law of One is followed, which is asking for only the highest good of all concerned to happen, we reveal inventions that are more fantastic than even fairy tales describe.

The Law of One

**We are all one.
When one is harmed, all are harmed.
Then one is helped, all are helped.
Therefore, in the name of who I am,
and I am one with all there is,
I ask that only the highest good of all concerned
happen,
and I give thanks that this is done.
So be it.
So it is.**

*The law of one is the original law of creation,
and is supreme over all other laws.*

**Following our intuitive inspirations,
sons and daughters of Divine Being have invented
batteries, radionic devices, accumulators,
the dissolving of metals by electricity, catalysts and electro-
homeopathy.**

There remain many mysteries in electro-chemistry.

**The answers are revealed as harmlessness is completely integrated
on all levels of the psyche,
on all four levels of consciousness.**

**As a person is ready in this respect,
we unveil secrets and entrust you with relevant knowledge.**

We allow you to look into the future.

***We show you tiny quantities of chemical compounds
changing into great electrical discharges
with an immense voltage and amperage.***

**This knowledge will be of great value in the technical and domestic
domain.**

**It is only when you are mature enough
to use these gifts without causing harm
that you receive them.**

**Whether harm is caused by ignorance, negative feelings, or custom,
harm affects the entire being of God, the unified field, the web of
life.**

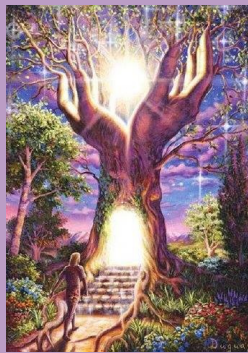

***The beneficial potential of these electro-chemical gifts
is great.***

When anyone is helped, all are helped, for all is one.

***Electro-chemistry will bring warmth and light,
and power for all domestic and technical needs
without causing harm to the environment or costing anything***

"On Earth as it is in Heaven."

***In states of spiritual perfection,
basic needs such as food, energy, clothes,
and shelter are provided
in ways that enhance unfolding spirits and souls of all
sentient life
with love, joy, enlightenment, wisdom, grace and mercy.***

***With ease and grace, intent and unbending courage,
contemplation of
Divine Consciousness
heals wounds of the past and fills consciousness with
light.***

***Meditating on the divine virtue of letter U in our name enables a
Child of Light
to enter the highest states of trance
and see the causes of whatever is focused upon.***

***Because of this, we are revealing an additional visualization to help
guide trance states
to explore the vast infinity
of the original purity of all ideas in Divine Mind.***

***Each degree of the zodiac has a number, which in turn represents a
shape.***

***In counting the heavenly hosts of the zone girdling the earth,
there are first 24 great elemental beings.***

***Then come the 360 degrees of the zodiac, starting with 1 degree
Aries.***

1 Aries begins with the number 25.

Our sign, 20 degrees Libra, is the 224th .

The numbers of each degree are added together to equal a number between one and ten.

In the case of 224, 2 plus 2 plus 4 equals 8.

**NUMBER EIGHT is the number of the mind,
the intellect,
and thus the number of knowledge.**

It is analogous to the planet Mercury.

The octagon is a symbol of this number.

All knowledge, actual or theoretical, is a part of the eight vibration.

**Call on our help and intend to connect with us by
visualizing a beautiful octagon over a light blue background
[because light blue is the color of the first letter of our name].**

**Use the colors associated with all the letters in the name of Agikus
in your visualization of this octagon on top of a light blue
background.**

**The colors of the virtues of our name are loamy brown, emerald
green, light opal,
silvery blue, velvet black, and purple red.**

**You may ask your higher self to make this octagon for you,
or ask for help from us- the heavenly host.**

**Like a clown diving through a paper hoop at a circus
imagine diving through the octagon.**

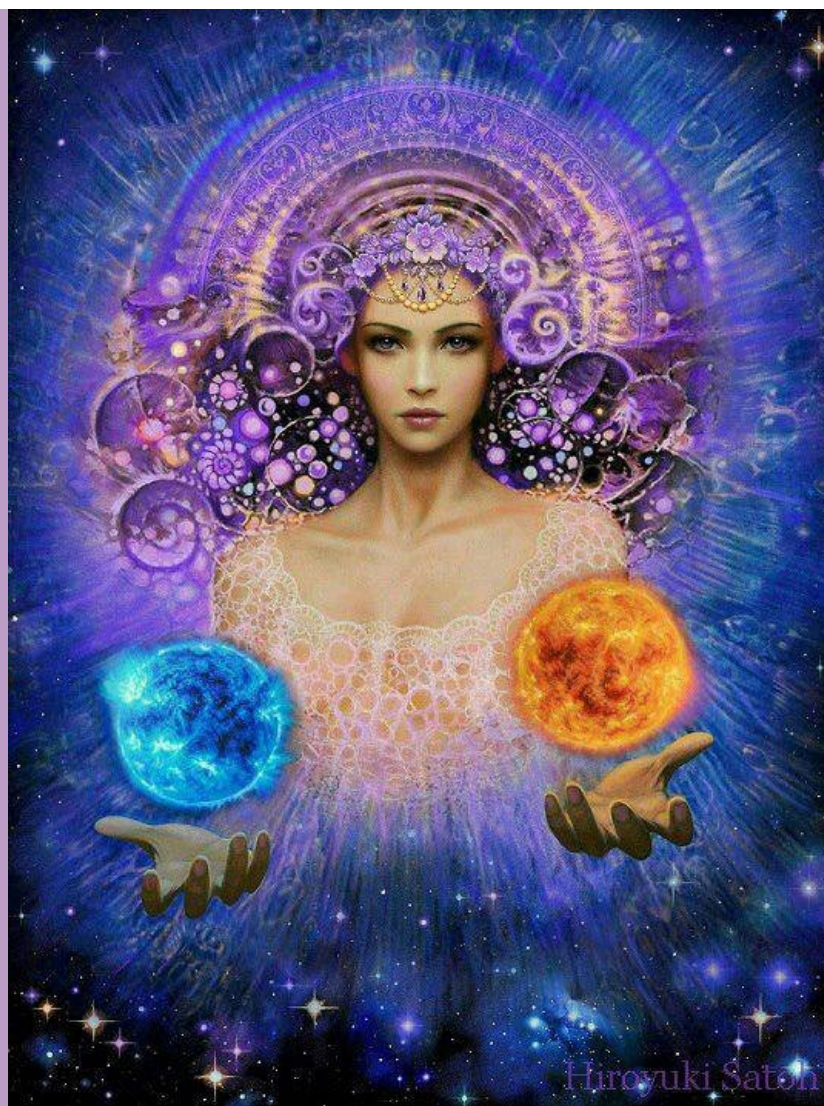

**In this state of trance in which deep imagination of the octagon is
vivid,
two levels of awareness:
the mental body
theta brainwave state,
with
feelings of flowing emotions of divine virtues of the octagon,
alpha brainwave state,
the astral body,
burst out the other side of the octagon
into another reality.**

**Ask to see and hear and talk with beings there, ask for help,
ask any questions.**

**Remember to ask that all be done
only in ways that are the highest good of all concerned.
Also ask the being of Agikus for help
in understanding and becoming one with the wisdom of electro-
chemistry.**

**Understanding the divine virtues of the letters of Agikus is
important.**

Experiences that unfold are very enlightening.

When you wish to come back, do so by simply willing to.

**One by one, master the divine virtues of wisdom, transformation,
mercy
and grace, cause and effect, omnipotence, creativity, and all-
penetrating-power.**

**Join with the beings of this place, using the meditations of The
Power of The Word.**

**At any time ask to talk with the heavenly hosts of Agikus
concerning anything about electro-chemistry.**

**This experience unfolds in ways that are appropriate for your level
of maturity,
the requests that you make,
and the questions that you ask.**

**If your interest is strong in the field of electro-chemistry, and you
return often, then a loving and familiar relationship with the beings
of this realm is established.**

**Then you can travel back and forth more quickly, just by visualizing
and remembering the essence of the journey.**

A-G-I-K-U-S

A...This letter represents wisdom and enlightenment.

***Meditate intellectually on this virtue, aligning your will and intent
with wisdom in Divine Mind.***

At the same time, imagine this virtue as Light Blue light filling first the chest and then all of inner space within your body with a feeling of ease, and the musical note of G.

[A as in ahhhh]

To quote from a Quabballistic text: '...the student advances on to no longer getting the light blue color oscillation of letter A into his chest by breathing it in through his mouth or nose, but through the circumference of his/her chest region, similar to breathing through the pores.

Also, the student must try to achieve sufficient dynamics by repeatedly using his imaginative faculty.

The student must be capable of drawing any letter oscillation into the respective region of the body and emitting it again, inductively and deductively, in a simple or condensed state.

These exercises have to be repeated until such a proficiency is achieved that the student can do all the quabballistic tasks mentioned so far with effortless ease.'

Your intent is to fill first your chest and then all of your inner space with the highest wisdom and highest illumination that may ever be lavished on a human being: Enlightenment.

The musical note is G, the element is air, so it has the sensation of ease.

The lungs are formed from this virtue.

umlaut A, ae, Long A ... The realization of wishes regarding physical matter is subjected to this virtue.

The sound of this letter, the long "A", {ae}, in the cosmic language is the virtue of the origin and mystery of life and death regarding their transformation.

By meditating on this virtue, a child of God becomes convinced that in reality death does not exist, for the so-called death is only a transformation from one state into another.

Also will come enlightenment on the cause of this transformation.

With this comes the ability to master all negative spiritual beings in all spheres and planes with regard to their scope of action.

The purpose for which negative beings have been created becomes clear.

Since, in the original principle all beings are alike, each having been created by Divine Providence to fulfill a certain task, there is no dissimulation of negative beings, for from the enlightened person's point of view everything is pure.

Here the saying: "to the pure one everything is pure" becomes plain.

If there were no negative beings, it would be impossible to distinguish between good and evil; and if there were no passions, there would also be no virtues.

This virtue confirms the words contained in the Bible: "through night to light", the deep symbolic meaning of which now becomes clear.

In the intellect the ability is gained to see through all/ /thoughts, actions and wishes concerning matter, and of becoming their absolute master.

In the emotions, this virtue represents desires, passions, and the inclination to self-satisfaction etc.

A person who masters this virtue in their feelings becomes absolute master and ruler of all desires and passions.

Also, a person is able to not cling to imperfect mental, emotional, and material virtues and objects.

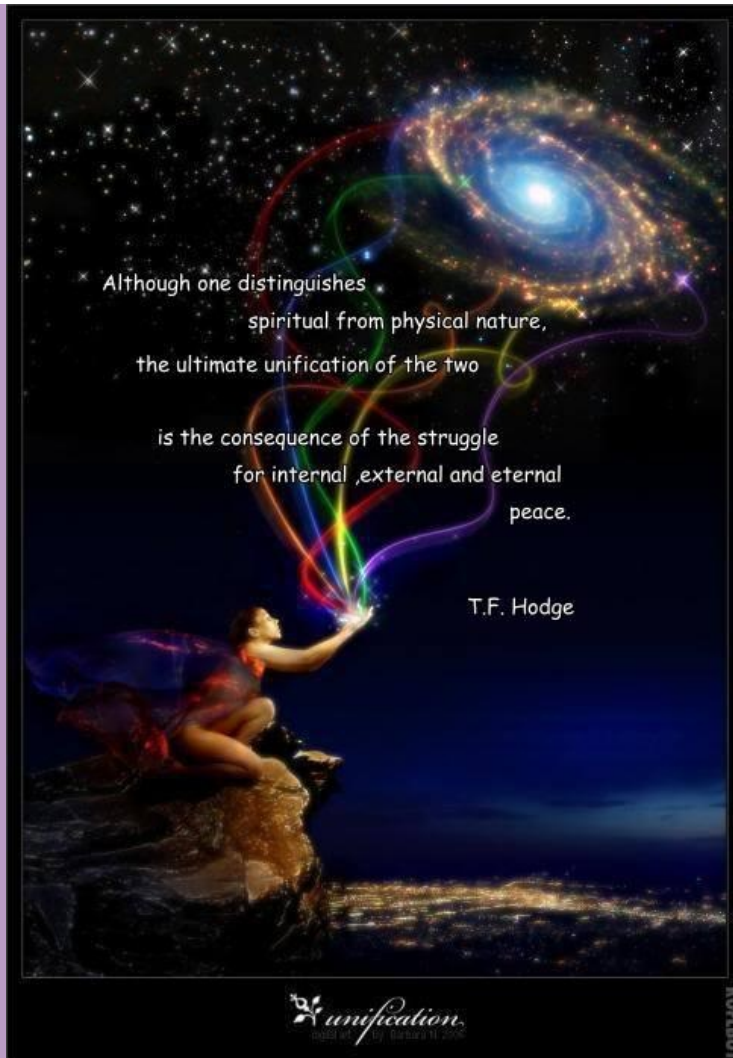

This means complete independence and freedom and fulfills the saying "bind yourself and you will be free".

On the material level this virtue is one of the most materialized.

No matter whether you evoke it in the mind, the emotions, the akasha, or the material world, the earth is influenced by it to a larger extent.

The ability to infuse matter with divine virtues is heightened.

The color of this virtue is loamy brown. The musical note is C. The element is earth so it has the sensation of weight. The anus is formed from this virtue.

G... The sound of this letter is the sound of the virtue of divine grace and mercy.

n the physical world this virtue represents all phases of riches and wealth, of happiness and satisfaction.

By this virtue Divine Providence has created abundance and, like the Creator, a child of God may also bring about, for him or her self or other people, abundance in everything, should that be desired.

On an emotional level this virtue gives the feeling of happiness, of complete satisfaction.

Situations may be created by means of the elements and the will and feelings causing success and wealth in the world that is for the highest good of all concerned.

In the mind, this virtue gives the experience of peacefulness, and the faculty of giving true divine blessing.

Those who are blessed with the gift of prophecy are also blessed with the gift of knowing ' the profundity of divine grace and mercy in all their aspects and to realize how far divine legality goes and how divine grace and mercy effects man and animal.

The color of this virtue is a deep grass green, like a pure emerald. It is the water element, so it has the sensation of coolness. Its musical note is F. The left eye is formed from this virtue.

L.. The sound of this letter is the virtue of cause and effect, which is the karma law.

On the mental level, this is analogous to memory, remembrance and conscience.

In the emotions, this corresponds to the astral matrix, which is the connecting link between the physical body and emotions.

Therefore, the mastery of the virtue of cause and effect controls the connection between the body and the soul.

The color of this virtue is light opal, the musical note is G, the element is earth so it has the sensation of weight, and the left kidney is created by this oscillation.

K... This is the sound of the divine virtue of omnipotence.

In the akasha, the subtle pre-matter, this virtue is the highest and purest light and is analogous to the original fire, or desire principle.

The fire principle is the essence of electricity.

In the mind, it manifests as the state of faith.

This is the faith that was spoken of in the Bible that could move mountains and "do all things".

In the soul, which is also called the astral or emotional body, this virtue manifests as endurance, toughness, courage, and the ability to remove any feeling of fear within yourself or within others.

Since it is the fire and air element, it has the sensation of warmth and ease; it has the musical note of B, and the color of silvery blue.

U... The letter U in the cosmic language represents the faculty of comprehending the creative act and its relationship to karma.

It evokes the highest form of intuition and inspiration and makes possible the understanding of one's own karma and its modification.

It also makes possible the transfer of consciousness to any state imaginable and this results in states of highest trance.

This letter is imagined as shining velvet black and is practiced in the solar plexus and then in the legs and feet.

This letter enlivens the pancreas.

The musical note is B, and it is the element of Akasha, which has the sensation of God-penetrating-all in meditation.

S... This sound is the sound of all-penetrating-power.

This power is electric energy and is used to impregnate the molecular structure of physical objects.

The color of this virtue is purple red, its musical note is G-sharp, it is the fire element of will and so it has the sensation of warmth, and the gall bladder is the part of the body that is formed by it.

MIRACLES

Note:The meanings and shapes of the numbers are found in the 15 Libra message.

The meditation in this message can be used for all of the degrees of the zodiac by using the appropriate number, shape, and divine virtues of the name of the angels of each degree.

Footnotes

The names and meaning of angel groups come from Quaballah,

which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name. This name is a key to their powers and influence.

Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,

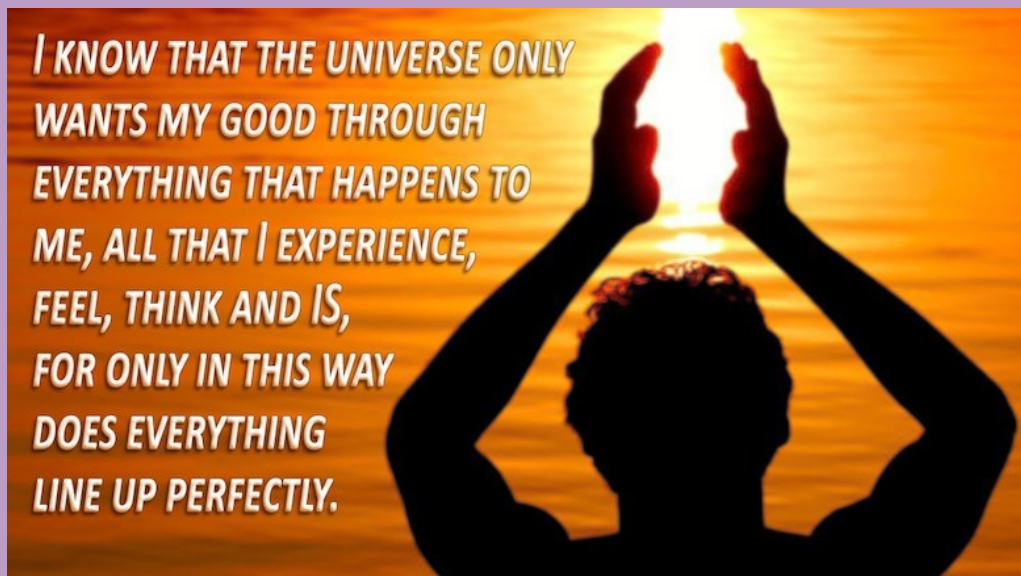

and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies.

The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.
