## *The Angels of Jewelry*

Also known as

The Angels of

## *Canali*

Beloved,

*We are the heavenly hosts that encourage wearing jewelry,  
so that the natural energies of divine qualities  
that are embodied in metals and stones  
enhance the electro-magnetic energies  
of the physical,  
emotional,  
mental  
and spiritual bodies  
of the children of Light,  
on the spiritual path to enlightenment and joy.*

As being, intention, thoughts and emotions  
are united with Divine Mind  
and  
Flowing Cosmic Love,  
we help manifest Heaven on Earth,  
and all physical manifestations become beautiful

**and  
resplendent  
in perfect harmony and sacred meaning.**

**Personal appearance,  
clothing,  
jewelry,  
possessions,  
home,  
and surroundings  
become expressions of spiritual beauty and divine qualities.**

**Since ancient times, people have found that wearing jewelry  
increases and uplifts energy and consciousness  
and helps in attuning to divine consciousness.**

**The Angels of Canali, bring forth important information about the  
healing and inspirational power of metals and stones to bring about the Highest Good of  
All.**

**Many books on this subject are inspired by us.  
At this time, the heavenly host and Children of Light manifest HEAVEN  
ON EARTH.**

**They create a Golden Age under The Law of One, the highest good of all  
concerned.**

***This is embraced and followed above all else.***

***Each person has a divine purpose.***

***It is wise to use stones and metals to amplify divine  
qualities to serve this purpose.***

**Remember, beautiful and regal adornment out pictures the beauty and  
harmony  
of indwelling Divine Consciousness in all life.**

***We inspire the art of creating beautiful jewelry and the art  
of wearing it in a  
beautiful way so that it represents the splendor of  
indwelling Divine Consciousness.***

***Metals and stones that are charged with divine qualities more strongly  
attune***

***the physical body to divine consciousness.***

**We inspire novelties in the fashion of jewelry, for instance, rings,  
bracelets, precious stones,  
and everything of this sort that can be worn.**

***We also protect and inspire all people who are involved in  
the manufacture  
of jewels for the highest good of all. We inspire the mining  
of precious metals and stones  
to the making of the finished jewelry.***

**On the level of greatest solidity, pure Divine qualities  
manifest as precious and semi-precious metals and stones.**

***In the end times, even the rocks will cry out.***

**A person uses the virtues of our name to charge stones  
and metals  
with heightened spiritual qualities.**

**This increases the radiance of their natural state.**

**Charged metals and stones are transmitters and receivers  
or antennae  
that help attune the physical body to certain bandwidths of  
consciousness.**

**This is done through divine intent in being, visualization,  
will, thought forms, emotions, and sensations.**

When deciding on what jewelry to wear, we prompt you intuitively to make the best selection for your present circumstances.

***We guide you to put certain stones over parts of the body that need it most.***

We inspire you to charge these stones and metals with the best divine qualities for the purpose at hand.

The original divine purpose of metals and stones is to hold the energies of profound healing qualities.

The first letter of our name, the letter C, is the divine virtue of the spiritualization of matter.  
It is a lovely vermilion red color and vibrates to the musical note of D. It is a fire and earth element virtue and gives forth the sensation of warmth and ease.

***Whenever you wear jewelry, the divine virtues of Canali assist in cleansing and charging the metals and stones to keep them strong and pure.***

This is the 230th degree in the zodiac.

$$2+3+0= 5.$$

NUMBER FIVE is the perfect representation of the microcosm, of man in all his phases and forms of existence.

It represents the microcosm in its perfection.

The working of the four elements, ruled by the akasha principle which is consciousness-penetrating-all, is represented by five and also expresses the power and the might which is symbolized by Mars.

***All active miracles belong to this number and are represented by a pentagon.***

C When you call upon us, the very first thing that we teach you

is the mysteries of the Eucharist with all its aspects.

This symbolizes the mystery of self-spiritualization.

When you master this mystery well, you comprehend and understand the profundity of incorporation of a divine idea, a higher virtue, into a certain form.

We teach you how to influence your own mental body or the spirit of somebody else by a divine idea, virtue, quality, power, or might.

We also teach you how to influence your own or others emotions with these qualities.

And finally we help you to impregnate any material form at will with these divine qualities.

*A piece of jewelry is first and foremost a sacred holder of divine qualities that blesses the wearer and all those who come close to it.*

The color of this virtue is vermilion red, the musical note is D, it is the elements of fire and air so it has the sensation of warmth and ease. The stomach is formed from it.

Imagine yourself as a tiny dot in your solar plexus and your body as a universe around you.

See vermilion red radiating from a tiny sun in head or throat region, creating the stomach and filling the entire body with warmth and ease.

Intone the letter C to the musical note of D, and meditate on the spiritualization of the body and any material object with divine virtues.

Divine Being, Will, Consciousness, Feeling, and Sensation are incorporated into the body.

Doing this attunes the individual body with omnipresent Divine Being and unites them as One.

With the out breath, visualize this energy enlivening any object, person, situation or place that inner guidance directs.

With the in breath visualize this energy coming into the body once again.

*I and the Father are One.*

*All that I do, ye shall do and more.*

Keep the rhythm of the breath natural and dissolve the light in the body when you are finished to protect the natural balance of elements in the body.

The sound of this letter, a soft A like a sigh,  
is the sound of the highest wisdom and illumination  
that can be lavished upon a human being.

*The purpose of wearing precious minerals  
is to help attune to complete enlightenment.*

*This virtue also gives artistic talent, so that jewelry  
is fashioned to represent the original purity of all ideas.*

The color is light blue, the musical note is G,  
the sensation is ease since it is the element of air,  
and the lungs are formed by it.

A is then pronounced umlaut A, ae.

The realization of wishes regarding physical matter is subjected to this virtue.

The sound of this letter, the long A, {ae}, in the cosmic language is the virtue of the origin and mystery of life and death regarding their transformation.

By meditating on this virtue, a child of God becomes convinced that in reality death does not exist, for the so-called death is only a transformation from one state into another.

Also will come enlightenment on the cause of this transformation.

With this comes the ability to master all negative spiritual beings in all spheres and planes with regard to their scope of action.

The purpose for which negative beings have been created becomes clear.

Since, in the original principle all beings are alike, each having been created by Divine Providence to fulfill a certain task, there is no dissimulation of negative beings, for from the enlightened person's point of view everything is pure.

Here the saying: "to the pure one everything is pure" becomes plain.

If there were no negative beings, it would be impossible to distinguish between good and evil; and if there were no passions, there would also be no virtues.

This virtue confirms the words contained in the Bible: "through night to light", the deep symbolic meaning of which now becomes clear.

In the intellect the ability is gained to see through all thoughts, actions and wishes concerning matter, and of becoming their absolute master.

In the feelings, this virtue represents desires, passions,

**and the inclination to self-satisfaction etc.**

**A person who masters this virtue in their feelings  
becomes absolute master and ruler of all desires and passions.**

**Also, a person is able to not cling to mental, emotional, and material  
virtues and objects.**

**This means complete independence and freedom and fulfills the saying  
"bind yourself and you will be free".**

**On the material level this virtue is one of the most materialized.**

**Nomatter whether you evoke it in the mind, the feelings, the akasha, or  
the material world,  
the earth is influenced by it to a larger extent.**

**The ability to infuse matter with divine virtues is heightened.**

**The color of this virtue is loamy brown. The musical note is C.  
The element is earth so it has the sensation of weight.  
The anus is formed from this virtue.**

**N The sound of this letter is the sound of Divine Happiness.**

**The highest state of happiness is gained by meditating on this virtue.**

**Doing this gives the ability of knowing exactly your own state of mental  
maturity  
as well as that of others.**

**With this virtue comes a mastery of the mental matrix and the mental  
aura.**

**The mental matrix is the spiritual bonding material,  
which connects the feeling body to the mental body.**

**The mastery of this reveals the mysteries relating to the  
mental/emotional connection  
and bestows upon you the ability to comprehend, see, sense, and  
control, the  
mental/emotional connection with its sphere of action, in regard to  
yourself or to others.**

**You are able to see the mental aura and to define it with regard to its  
scope of action.**

***You recognize your own mental maturity and that of other  
people.***

**This gives you the ability to enlighten anyone who you deem worthy,  
on account of his or her maturity, so that the person is able to  
solve any problem corresponding to his grade of development without  
difficulty.**

**This mastery will give you great skill in the use of magnetism for the  
purpose of miracles.**

**This virtue allows a jeweler to attune to the perfect minerals  
to use for each clients stage of development.**

**A Mastering this virtue in meditation gives clairvoyance,  
clairaudience, eloquence, artistic and musical gifts, and the control over  
the element of air.**

**We awaken mental acuity in the seeker, ingenuity, the ability to  
grasp high abstract and enlightened new information very quickly and**

easily,  
and flawless mental functioning.

***This virtue awakens the ability to clairsentiently attune  
to the divine virtues that manifest in each mineral.***

Umlaut A, aeBy releasing any perceived imperfections  
on any level to Divine Being for transformation  
into another state, minerals can be purified.

**L** The letter L represents the sum total of all the divine virtues.

These virtues taken together are the splendor and majesty of Divine  
Consciousness.

By mastering the virtue of unity with all of the divine virtues,  
it is possible to create the splendor and majesty of heaven so that it  
manifests in the intellect, in the emotions, and in the reality of the  
physical world.

***The art of creating beautiful jewelry, and the art of wearing  
it in a  
beautiful way, out pictures in the human form  
the splendor of the indwelling Divine Consciousness.***

This virtue also gives morality, mastery of emotions, great courage and  
endurance,  
and the drive for self-preservation in self and others.

This is the virtue that gives vitality, immortality and youth.

The color of this virtue is olive green, the musical note is F, the  
sensation is the air element of ease,  
and the organ formed by it is the spleen.

**I** The letter I represents the law of cause and effect in the ancient  
language.

It has a light opal color, the musical note of G, and radiates from the  
left kidney.

Because it is of the earth element it has the sensation of weight.

A person mastering this divine virtue evokes the greatest miracles in  
the material world  
by using the respective analogies to shape, measure, number and  
weight.

Shape, measure, number and weight are the  
chief components of the material world, and by getting this divine virtue  
under control,  
a person becomes their complete master.

By mastering this virtue, the faculty of a perfect memory and conscience  
is gained.

Also the ability to control both the breath  
and the connection between emotion and the physical body is gained.

**TODAY'S REFLECTION**

**"Your daily life is your temple and your religion.**

When you enter into it, take with you your all." ~Khalil Gibran

#### Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity. Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her. The being and the angels share the same name.

This name is a key to their powers and influence. Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,

and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4]. Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies. The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others. Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.
