The Angels of Water Animals

Also known as

The Angels of

Merki

Beloved,

Creation is very ancient and wise.

All of creation and everything in it
is made up of interconnecting organisms.

Therefore, each part
must be healthy and happy

**for the whole
to live
and
flourish.**

**Flowing in the oceans, rivers, lakes and streams of earth
are many living organisms that nourish and protect the planet.**

**Flowing in the liquids of every Child of Light are many living organisms
that also nourish and protect the body.**

"As above, so below."

**Divine Providence intends
that all of the Children of Light
understand the sacredness of water,
to love and nourish water
and all life within it,
in the microcosm of the human body
and in the macrocosm of the planet Earth,
to attract Heaven on Earth.**

The bodies of most organisms are primarily water.

**The bodies of the Children of Light
and of the Earth herself
are mostly water.**

**This water is designed to vibrate frequencies of faith, love
and happiness
and continually attract Heaven to Earth.**

**Earth is 80 percent water,
and at birth a human being is 95 percent water.**

On a molecular level, the body is 99 percent water.

**Emotions and water are manifestations of the same
element,
and therefore both contain compressed information.**

**This is why scientists are discovering that water is the best
computer.**

All original emotions and water are created divine.

**They are kept pure in their original clarity
with flowing moment to moment meditation**

using divine will
expressed as visualizations,
thoughts, emotions, and sensations.

*From the smallest plankton to the great whales,
each and every organism is connected to everything else in
the web of life.*

*To the extent that each part of this continuum of life loves
and nourishes
and is loved and nourished,
perfection manifests.*

We protect all animals that live in the water.

We watch over their propagation.

**Anyone who has anything to do with water animals comes under our
guidance and protection.**

**We are the heavenly host who guide fisher people
in ways that are the highest good of all,
and nudge them to know where fish congregate.**

**We guide them to bless all fish, all waters, and to catch only those
creatures who are
ready for a blessed transition into another state.**

We teach how to can fish and preserve them in different ways.

**With our help, the children of God control water animals
through love and the knowledge of the elements,
which are fire, air, water and earth
that express through will, intellect, emotion, and sensation.**

**Remember that "in the beginning was the word", which is
Omnipotent divine will, enlightened original divine mind, divine flowing
emotions,
and divine sensations that then manifested Creation out of the infinite
potential.**

**Remember that emotions are magnetic energy
that attract realities into form in physical manifestation.**

**Out of the infinities of possible realities, the frequencies of emotions
determine exactly which realities will express in any given moment.**

***Just as the emotional well-being of mothers affects the
quality of milk,
the magnetic emotional energy fields of contentment,
peace and harmony
of water animals
attract purity and health in the waters of Earth.***

**The good health of all waters on Earth depend on the positive feelings
of all water animals
and of those who deal with the water in any way.**

**Water that vibrates with flowing love blesses everything in the web of
life.**

In the time of the Alpha and the Omega, Earth and Heaven are One.

**Through the divine virtues of our name Merki,
we inspire people with the ancient wisdom of nature,
so that the Earth and her waters can manifest in their original pristine
condition.**

**Oceans, rivers and waterways, the veins and arteries of earth
then flow in their natural states
of infinite beauty and vitality.**

There are many things that we teach in this respect.

Water animals depend on sound for survival.

***We inspire the protection of soundscapes for all
waters.***

**For this reason, quiet technology for water travel
and other purposes is the highest good of all concerned.**

This is the 232nd degree of the zodiac.

$$2+3+2=7.$$

**NUMBER SEVEN is the number of harmony, fertility, propagation and
growing.**

**It is also the number of love with all its phases,
no matter whether the lowest form of love or the highest cosmic aspect
of love.**

**Mercy, benevolence, virtuousness, and happiness are also aspects of
love.**

It is the number of beauty, purity, and harmony.

**It is the number of Venus, the seven basic notes,
the seven states of maturity [chackras], and is represented by a
septangle.**

**There are various symbols for seven.
The colors of the rainbow are also the seven vibration.**

Mandalas with seven spokes or multiples of seven carry this vibration.

**As mankind learns the Law of One and the value of conscious
divine will, thought, feelings and sensations of divine virtues,
we reveal ways of working with water animals that are amazing.**

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM,

and I am one with all there is;

I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen.

I give thanks that this is done.

M-E-R-K-I

M The letter M represents the divine virtue of EMOTIONS and love.

This virtue is the magnetic Feminine power of the Universe that attracts energy into form on the material plane.

Everything in nature and the material plane is attracted into form through the magnetic force of emotion.

This virtue is the essence of water.

By meditating on this virtue of feeling, flowing, changing love, and becoming the master of it, a child of the Divine masters water and everything that lives in the water or anything that has to do with water.

The color of this virtue is the most beautiful blue-green imaginable. The musical note is D. The element is water so it has the sensation of coolness.

The abdomen is formed from this virtue.

E This letter is the sound of universal consciousness, which represents, as a divine idea and virtue, its omnipresence in everything that has ever been created.

This unites your normal consciousness with the universal consciousness, with the cosmic consciousness, so that you can attain, in the akasha principle, omnipresence yourself.

This is known in oriental wisdom as Nirvi-Kalpa-Samadhi.

*Meditating on this virtue unites your consciousness with
the
consciousness of the animals of the water,
so that you are able to transfer beautiful emotions to them,
and therefore control them.*

*You attain the highest form of intuition in your mental world;
you transfer your consciousness so that there exists no sense of time
and space.*

Divinity in the highest form is able to speak through you.

*The most profound mysteries of materialization and dematerialization
become obvious to you as you master this, everything that is material
may be transferred back into its refined and most subtle form
and any idea can be intensified in such a way that it becomes physically
visible.*

*The color of this virtue is deep violet, the musical note is D, the
element is akasha, which has the sensation of God-penetrating-all, and
the spine is formed from it.*

R This is the sound of the divine virtue of independence and freedom.

*It is this virtue that insures that each person and each sentient being
listens to their inner voice for guidance.*

*The inner voice is the direct connection to Universal Consciousness
and offers impeccable guidance
so that the will of Divine Providence works through each being for the
highest good of all.*

In this way all beings intuitively maintain and bless the web of life.

*By carefully following the inner voice, a person or any sentient being
always does whatever is the highest good for all in every moment.*

*After learning all of the virtues associated with all of the letters
of the alphabet in order starting with A, by the time you reach the letter*

R

*you have achieved a state of maturity by which your feeling of
independence has been transformed into an absolute state of security
and unimpeachability.*

Mentally, you will have an eminent mind and emotions of freedom of will and action.

Not only this, but also the state of maturity in which you will never violate a law, having yourself become a master of all laws.

In spite of your freedom of will, you will find yourself willing to subject yourself freely to Divine Providence, and accept missions to serve Divine Providence with deep humility, immense gratitude and the highest devotion without losing your feeling of absolute freedom of will in any way.

Such great ingenuity will proceed from this that you will be able to comprehend any knowledge quickly and without difficulty.

The color of this virtue is gold, the musical note is C, the element is earth so it is felt with a sensation of weight, and the left side of the nose is formed from it.

K The sound of this letter is the virtue of omnipotence. In the akasha, the subtle pre-matter, it is the highest and purest light and is analogous to the original fire, or desire principle.

In the mind, it manifests as the state of faith.

This is the faith that was spoken of in the Bible that moves mountains and does all things.

In the soul, which is also called the astral or emotional body, this virtue manifests as endurance, toughness, courage, and the ability to remove any emotions of fear within yourself or within others.

It is this virtue that is used to remove all fear in water animals when interacting with them.

***Since it is the fire and air element, it has the sensation of warmth and ease;
it has the musical note of B, and the color of silvery blue.***

I The sound of the letter I is the Divine Virtue of Cause and Effect, which represents the law of evolution of everything.

Understanding Cause and Effect is the understanding and mastery of the subtle pre-matter principle known by the ancients as The Akasha.

The sensation of akasha is God-penetrating-all.

The understanding of cause and effect also enables the perfection of memory and conscience.

Because all life is connected as a unified field of energy, whatever is willed, thought, felt, or done has repercussions throughout the entire web of life, both inside the microcosm which is the human body and the macrocosm, which is the outer universe.

As above, so below.

Whenever a person focuses on and becomes one with a divine virtue, the entire body and the kingdom of heaven, and indeed all of life, responds accordingly.

What is sown is reaped.

***The letter I with its light opalescent color, representing the law of cause and effect,
is the spiritual essence of the left kidney. This
virtue is of the earth element, so it has the sensation of weight. The
musical note is G.***

Footnotes

The names and meaning of angel groups come from Quaballah,

which is a very ancient set of teachings

which together form a common precursor, or root, of three of the world's religions:

Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth

, and the angels who work with him or her.

The being and the angels share the same name. This name is a key to their powers and influence. Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and Information of the divine virtues and the letters

are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others. Franz Bardon's last autobiographical book,

"Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.
