The Angels of Families

Also known as

The Angels of

Adae

Beloved,

**It is well known that children receive deep programming from family interactions,
so we inspire mankind with the importance of family happiness and harmony.**

*Just as children learn from their parents,
parents also learn from their children.*

Members of a family usually have had many previous lifetimes together.

*They come together again to heal previous shortcomings,
to share strengths, with deep divine will-fire and soul-love.*

**Each member of a family is a unique and a sovereign expression of
Divine Being, bringing forth wondrous gifts of manifestation to benefit the entire family,
and at the same time, the entire Web of Life, the Unified Field.**

**We guide parents and caregivers to recognize unique soul gifts within each child,
so that these are encouraged and nourished,
instead of forcing conformity with imperfect or limited views.**

We guard and inspire everything that keeps a family together.

With our assistance, you can deal with any quarrel or discord within the family.

**We inspire you to learn various ways to strengthen the love that bonds
you together
in healthy relationships,
and teach how to resolve all difficulties.**

***We inspire every member of the family in times of stress,
so that the family stays together.***

*We help both parent and child believe in
and follow divine inner guidance,
and exhibit unique gifts
from spirit and soul.*

***When it is time for a child to become a young adult,
we guide parents and child in natural ways to let go of ties
once appropriate for protection and guidance at younger
ages,
in earlier stages of development.***

***Like a arrow that flies surely to its mark,
a child must leave the family bow that releases him to do
so.***

**In the time of the Alpha and the Omega, when happiness blooms,
both children and parents experience natural divine consciousness,
and both are enlightened.**

***We protect child love, motherly love, and
parental love.***

**Enlightenment requires whole brain awareness, which is the use of four
brainwave patterns working together,
in attunement to the unique soul and spiritual qualities found within
each person,
and the original purity of all ideas in Divine Mind.**

**Wisdom and Enlightenment is the divine virtue of the first letter of our
name Adae.**

**This virtue awakens awareness of the original purity of all ideas in
Divine Mind, eloquence, artistic talent, clairvoyance,
clairaudience and other mystical powers, and control over the air
element and beings of the air.**

**The four brainwave patterns of Will, Thought, Emotion, and the Five
senses, logic and memory form during different stages of childhood
development.**

**We encourage education that is appropriate for each stage
of development.**

**Overexposure to artificial environments can limit a child's direct experience of divine being on
earth.**

**Until puberty,
when the logical mind and five senses become dominant,
it is important that children are exposed to nature,
where they intuitively download cosmic non-verbal
information.**

**Delta brainwaves are dominant from birth to approximately four years
old.**

**This is the state of Pure Being that corresponds to the Akasha,
or omnipresence, and to Divine Will and the element of Fire.**

**Theta brainwaves are dominant from approximately four years old to six
or seven.**

This is the state of deep inner thought, of inner imagination that corresponds to the pineal gland, to Divine Mind and the element of Air.

Alpha brainwaves are dominant from approximately six or seven to puberty.

This is the state of strong flowing feelings, emotions, flowing, and the change process, which correspond to Divine Love and the element of Water.

Beta brainwaves are dominant from puberty throughout adulthood.

This is the state of memory, logic, and the five senses, which correspond to heaven manifesting in tangible reality on earth and the element of Earth.

Unique individuality of each person in a family can be understood through the divine virtue of Creativity, The Mysteries of Creation, the mysteries of love to create, which is the virtue of the second letter of our name, the letter D.

By meditating on this virtue the highest wisdom is gained in regard to creation in both the inner and outer worlds, in the personal inner universe and the outer universes.

In the intellect a person attains the profoundest cognition with regard to the ego-consciousness.

In the emotions, the understanding of love in all of its aspects is perfected.

On the material plane the mastery of fertility and everything that has to do with procreation is attained.

Unique individuals of a family have united together for purposes of enlightenment and transformation for all.

Just as the parents learn from the children, the children learn from the example of their parents.

Each family member has access to inner strength and truth to stay in attunement to love, wisdom, and willpower.

Through the divine virtue of the fourth letter of our name, umlaut A, ae, each member of a family learns the necessity of not clinging to any destructive desires, beliefs, feelings or possessions that harms the highest good of all concerned.

Each person learns how to control, through recognition of what is in harmony and what is not.

This is done through letting imperfections go, to release them for change, so that negative passions and negative beings are controlled to protect the family and keep it together in love and wisdom.

The last letter of Adae is the divine virtue of the omnipresence of Divine Consciousness.

This is the letter E.

This letter is the sound of universal consciousness, which represents, as a divine idea and virtue, its omnipresence in everything that has ever been created.

This unites normal consciousness with universal consciousness, with cosmic consciousness, so that you can attain, in the akasha principle, omnipresence yourself.

This is known in oriental wisdom as Nirvi-Kalpa-Samadhi.

You attain the highest form of intuition in your mental world; you transfer your consciousness so that there exists no sense of time and space.

Divinity in His highest form is able to speak through you.

Through this virtue Divine Consciousness expresses Itself through each member of the family and through everything in Creation to nourish and protect the family.

A family is a microcosm of the macrocosm as it expresses Divine Wisdom and Enlightenment in the world.

In a family, a man embodies the archetype of the masculine principle of will and visualization, understanding and thought process.

The masculine or electric energy gives outwardly in order to receive inwardly.

A woman embodies the archetype of the feminine principle of flowing magnetic love and emotions and the change process and physical reality itself.

The feminine or magnetic energy receives outwardly and gives inwardly.

Together they make a home and create children, who are fresh from heaven, and carry the light of purity and promise from the highest realms of light.

A child is the manifestation of Will and Love joined together.

At the point of conception, the electric will and receptive emotions of mother and father make a powerful imprint on the fertilized egg.

As this cell divides trillions of times, each cell carries this imprint.

Therefore, the act of conceiving children is a most holy act.

We inspire parents with high states of consciousness and emotions so that their children bring forth the highest divine blessings of both mother and father.

This is the 238th degree of the zodiac.

$$2+3+8=13.$$

$$1+3=4.$$

NUMBER FOUR is the perfect number of mastery of creation.

It is represented by Jupiter.

It represents the four basic elements of fire, air, water and earth.

It also represents the four directions, the four fundamental features of God, which are omnipotence, wisdom, love - immortality, and perfect consciousness.

It is the number of everything that is created in the visible and the invisible worlds.

It is highest wisdom and the number of length, width, height, and depth.

It is represented by a cross with arms of equal length, or by an equilateral quadrangle.

A-D-A-E

***A* This letter represents the Divine Virtue of Wisdom and complete enlightenment.**

Children receive deep programing from family interactions, and the virtues of meditation and inner attunement are best learned at this time.

This sound [a soft a like a sighahhhhh] and virtue is an initiation into the highest wisdom and the purity of all ideas in existence.

This has as a fundamental feature the enlightened mind.

Reasoning, perception, the cognition of the most profound truths, highest knowledge, high intelligence, and the arousing of all intellectual faculties are expressed.

Musical gifts, eloquence, poetic talent, and clairvoyance, clairaudience, the art of levitation, and the control of the air element and its beings are all aroused by this initiation.

The color of wisdom and enlightenment is light blue, the musical note is G, the element is air so it has the sensation of ease, and the lungs are formed from it.

Umlaut A, a transformation of imperfection.

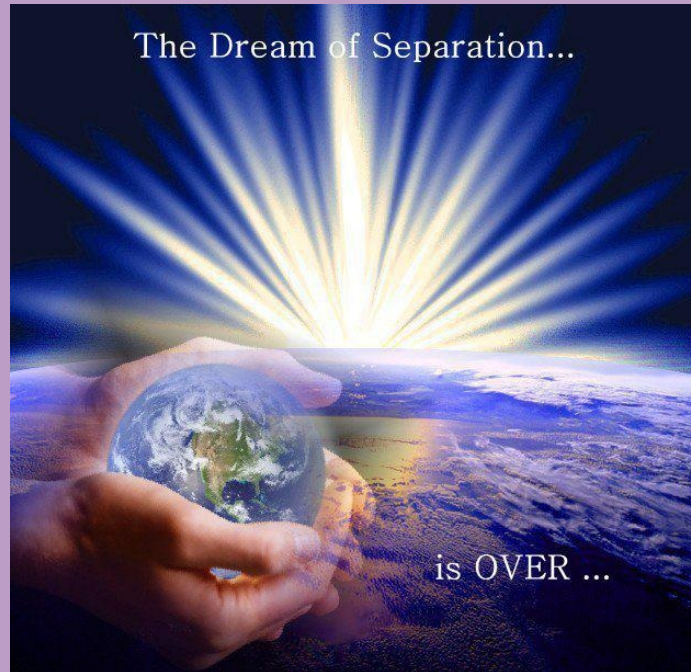

See below.

***D* This letter is the sound of the virtue of the mastery of the mysteries of creation.**

The same laws apply to the microcosm and the macrocosm.

As above, so below.

By meditating on this virtue the highest wisdom is gained in regard to creation in both the inner and outer worlds, in the personal inner universe and the outer universes.

In the intellect a person attains the profoundest cognition with regard to the ego-consciousness.

In the emotions, the understanding of love in all of its aspects is perfected.

On the material plane the mastery of fertility and everything that has to do with procreation is attained.

The color of this virtue is dark blue. The musical note is C. The element is Fire so it has the sensation of warmth and heat. The right ear is created from this virtue.

A wisdom and enlightenment.

See above.

A [long A as in ae] is the sound of the mastery of negative passions, and mastery of the ability to have detachment from rigidity concerning limited and negative thoughts, the ability to transform negative emotions, and to recognize and let go for change imperfect ownership of physical goods.

It is the understanding of life and death, of good and evil, and why Divine Providence uses these for the purpose of transmutation.

With this virtue, any difficulty with strong negative emotions and imperfect attachments is overcome successfully within the family.

The sound of this letter, the long A, in the cosmic language is the virtue of the origin and mystery of life and death regarding their transformation.

By meditating on this virtue, a child of God becomes convinced that in reality death does not exist, for the so-called death is only a transformation from one state into another.

Also will come enlightenment on the cause of this transformation.

With this comes the ability to master all negative spiritual beings in all spheres and planes with regard to their scope of action.

The purpose for which negative beings have been created becomes clear.

Since, in the original principle all beings are alike, each having been created by Divine Providence to fulfill a certain task, there is no dissimulation of negative beings, for from the enlightened persons point of view everything is pure.

Here the saying: to the pure one everything is pure becomes plain.

If there were no negative beings, it would be impossible to distinguish between good and evil; and if there were no negative passions, there would also be no virtues.

This virtue confirms the words contained in the Bible: through night to light, the deep symbolic meaning of which now becomes clear.

In the intellect the ability is gained to see through all thoughts, actions and wishes concerning matter, and of becoming their absolute master.

In the emotions, this virtue represents imperfect desires, passions, and the inclination to self-satisfaction etc.

A person who masters this virtue in their emotions becomes absolute master and ruler of all desires and passions.

Also, a person is able to not cling to imperfect mental, emotional, and material virtues and objects.

This means complete independence and freedom and fulfills the saying bind yourself and you will be free.

On the material level this virtue is one of the most materialized.

No matter whether you evoke it in the mind, the emotions, the akasha, or the material world, the earth is influenced by it to a larger extent.

The ability to infuse matter with divine virtues is heightened.

The color is loamy brown, the musical note is C, and it is the earth element and has the sensation of weight. The anus is formed from this virtue.

E This letter is the sound of universal consciousness, which represents, as a divine idea and virtue, its omnipresence in everything that has ever been created.

This unites normal consciousness with universal consciousness, with cosmic consciousness, so that you can attain, in the akasha principle, omnipresence yourself.

This is known in oriental wisdom as Nirvi-Kalpa-Samadhi.

You attain the highest form of intuition in your mental world; you transfer your consciousness so that there exists no sense of time and space.

Divinity in His highest form is able to speak through you.

Children naturally produce strong Delta brainwaves from birth to approximately four years old.

This brainwave is a state of PURE BEING.

From approximately four to six, children produce strong Theta brainwaves, which is a DEEP INWARD STATE OF THOUGHT, separate from the outer world.

From approximately six to puberty, they produce strong Alpha brainwaves, which is a very sensitive psychic state of emotions.

It is easy for them to experience states of consciousness that attune them to the indwelling Universal Consciousness of Divine Mind.

The color of this virtue is deep violet, the musical note is D, the element is akasha, which has the sensation of God-penetrating-all, and the spine is formed from it.

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions:

Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name. This name is a key to their powers and influence. Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,

and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies.

The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others. Franz Bardon's last autobiographical book, "Frabato the Magician",

gives historical background and was compiled by his German publisher from notes written by Franz Bardon.
