The Angels of Milk

Also known as

**The Angels
of**

Helmis

Beloved,

We make sure that Divine Love and other Divine Virtues

are present in and around the awareness of a nursing Mother,
so that her milk
takes on Eucharistic and sacramental functions
that unite the infant,
whether human or animal,
with the sacredness of indwelling Divinity, the presence of The Holy Spirit.

**Powerful glandular secretions and chemical reactions
occur in response
to loving and harmonious emotional states.**

**These sacred chemicals directly
affect the taste and nutritional value of the milk.**

*Tremendous vitality impregnates such milk,
vitality that enables an infant
to out picture its perfect indwelling Divine Blueprint.*

**At this time, we, along with the Angels of Aglasis,
inspire mankind with the importance of meditating on Divine Virtues in
being, will,
thought, emotions, and sensations
to spiritualize milk
in both the human and animal kingdoms.**

**Milk induces informational download in the infant on chemical and
vibrational levels.**

*Milk absorbs and then emits information about the quality
and essence of life
from the mother and her surroundings.*

Within the developing brain and nervous system,
this influence lays the foundation
for a life of close communion
with Divine Consciousness.

***As the healing effects of love-saturated milk are known and
understood,
the Children of Light allow no other kind to be produced,
whether for nursing by infants or consumption as food.***

In fact, milk will no longer be looked upon as just another type of
food, but will be understood as a special eucharistic substance for
spiritual attunement.

The importance of all of this is so great on health and consciousness,
that the emotional and mental well-being of milk producing mothers,
human and animal,
must always be carefully guided and protected by all,
so that heaven and earth are One.

On earth as it is in Heaven.

Like the Angels of Aglasis of 27 Libra,
through the divine virtues of our name,
we protect milk, and all nurses and all mothers,
human and animal, who suckle their babies.

Our range of competence is very wide.

During the course of time we have taught mankind
to use sacredly blessed milk as divine nutrition.

We have inspired the manufacture of dairy products in the way that is
the highest good of all concerned.

There are certain types of diseases that can be treated with milk that we
have revealed.

There are many things about the working up of milk that will be shown
to mankind in the future.

This is the 239th degree of the zodiac.

$$2+3+9= 14.$$

$$1+4=5.*$$

NUMBER FIVE is the perfect representation of the microcosm, of man in all his phases and forms of existence.

It represents the microcosm in its perfection.

The working of the four elements, ruled by the akasha principle, is represented by five and also expresses the power and the might which is symbolized by Mars.

All active miracles belong to this number and are represented by a pentagon.

H-E-L-M-I-S

H The sound of this letter is the sound of the Divine Virtue of the Power of the Word.

In fourfold whole brain thinking, the WILL of a divine virtue is held in the pure being of Delta brainwaves, the CONCEPT AND MEANING of a divine virtue is held in the deep inward thought of Theta brainwaves, the emotions of a divine virtue is held in emotion of Alpha brainwaves, and the SENSATION, COLOR, MUSICAL NOTE, SOUND, AND RELEVANT BODY PART is held in the five senses, memory, and logic of Beta brainwaves.

By using this technique to utter letters or words, each one of which is made up of letters that have divine virtues associated with them, creativity of the highest order occurs.

A nursing Mother who sings or hums to her child, instinctively or intuitively intones notes that represent flowing emotions of divine virtues as she expresses love and nurturance.

This charges or impregnates everything, including the milk, so that it is spiritualized by divine virtues.

The letter H has a silvery violet color, is the fire element of will and has the sensation of warmth and fire, has the musical note of A, and is the virtue by which the right arm of every child of God is created.

EThis letter is the sound of universal consciousness, which represents, as a divine idea and virtue, its omnipresence in everything that has ever been created.

This unites normal consciousness with universal consciousness, with cosmic consciousness, so that you can attain, in the akasha principle, omnipresence yourself.

This is known in oriental wisdom as Nirvi-Kalpa-Samadhi.

You attain the highest form of intuition in your mental world; you transfer your consciousness so that there exists no sense of time and space.

Divinity in His highest form is able to speak through you.

Children naturally produce strong Delta brainwaves from birth to approximately four years old.

This brainwave is a state of PURE BEING. It is easy for them to attune to the indwelling Universal Consciousness of Divine Mind as it manifests in everything.

The color of this virtue is deep violet, the musical note is D, the element is akasha, which has the sensation of God-penetrating-all, and the spine is formed from it.

L The letter L represents the sum total of all the divine virtues.

These virtues taken together are the splendor and majesty of Divine Consciousness.

Infusing milk with the splendor and majesty of God is necessary for heaven to manifest on earth in the lives of infants.

This vibration infuses them with vitality.

**By mastering the virtue of unity with the divine virtues,
it is possible to create in the Akasha the splendor and majesty of
heaven so
that it manifests in the intellect, in the emotions, and in the reality of
the physical world.**

**This gives morality, mastery of emotions, great courage and endurance,
and the drive for self-preservation in self and others.**

This virtue controls vitality.

**The color of this virtue is olive green, the musical note is F,
the sensation is the air element of ease, and the organ formed by it is
the spleen.**

M The letter M is the sound of the divine virtue of FEELING.

**This virtue is the magnetic force of the Universe that attracts energy
into form on the material plane.**

Everything in nature is formed through the magnetic powers of feelings.

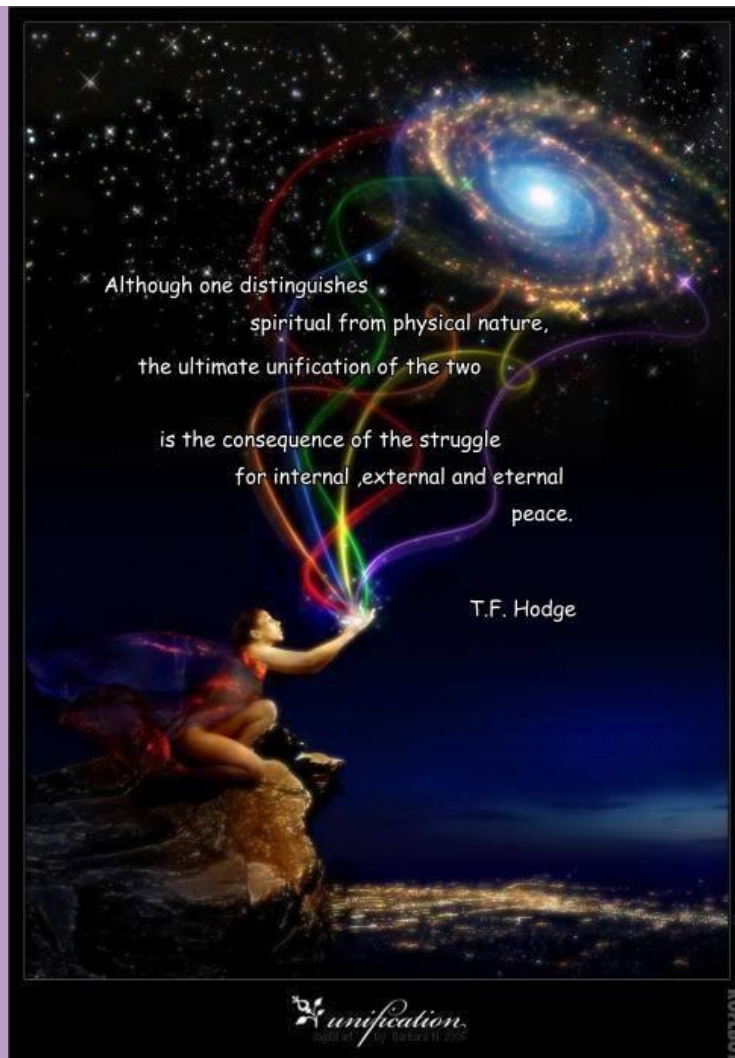

Water is the physical manifestation of feeling.

***Milk is predominantly water, as is the form of Mother and
Infant.***

**Strong emotions of love and other divine virtues attract into form
heaven on earth.**

**The color of this virtue is the most beautiful blue-green
imaginable. The musical note is D. The element is water so it has the
sensation of coolness.**

The abdomen is formed from this virtue.

I The sound of this letter is the virtue of cause and effect, which is the karma law.

O On the mental level, this virtue is analogous to memory, remembrance and conscience.

I In the feeling body, this corresponds to the astral/physical matrix, which is the connection between feeling and physical form, with all of its functions.

O On the material world, everything that has shape, measure, number and weight can be understood and mastered with this virtue.

T The color of this virtue is light opal, the musical note is G, the element is earth so it has the sensation of weight, and the left kidney is created by this oscillation.

S The sound of this letter is initiation into all-penetrating power, all-power.

T This all-power is quantitative in form in comparison to omnipotence, the letter K, which is qualitative in form.

W With all-power, a child of God gets into contact with the most subtle substance of the divine spirit, i.e., with the original divine fire, or divine will, which works as a substantial power in everything that has been created by Divine Providence.

O Oneness with all-power gives mastery over the fire principle of desire and will and brings about a state of clairvoyance in its purest form.

It is the will of Divine Providence for love and joy to permeate all of creation.

The color of this virtue is purple red, its musical note is G-sharp, it is the fire element of will and so it has the sensation of warmth, and the gall bladder is the part of the body that is formed by it.

Footnotes

The names and meaning of angel groups come from Quaballah,

which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth,

and the angels who work with him or her.

The being and the angels share the same name. This name is a key to their powers and influence.

Names, phrases, and sections,

in the angel messages are quoted or paraphrased from the books of Franz Bardón.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,

and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4]. Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardón's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardón.
