**6 degrees Scorpio**

## **The Angels of Ideals**

**Also known as**

**The Angels of**

## **Sarasi**

**Beloved,**

**On all levels, which are the akashic, spiritual, mental, the emotional,  
and the physical worlds,  
all divine ideals are protected and inspired by us.**

**We are original initiators of all divine human ideals.**

**Depending on the maturity and development of mankind,  
we inspire the most diverse ideals of each individual.**

**We cause situations and possibilities for the realization of an ideal, in the spiritual, mental, emotional, and the physical world, to a small or large extent.**

***We, angels of Sarasi, supply the appropriate enthusiasm and endurance for the realization of the ideal in question in accordance with ones maturity and fate.***

**We teach you a great deal, for instance, how various ideals are born in the world and how they decay again.**

**Remember it was written, "You cannot put new wine into old wine skins."**

***Ideals that are appropriate for one stage of development, both individually and collectively, must evolve, like the phoenix, into higher forms, as new heightened evolutionary awareness and information flows through creation.***

**The paradox of the one and the many is now understood in many areas of study, such as mathematical, scientific, psychological, economical, environmental, medical, social, spiritual, agricultural, etc.**

**What affects one affects all.  
No suffering or happiness is done in isolation.**

**Like ripples in a pond, any suffering or joy anywhere affects the entire being of Divine Life everywhere.**

**The quantum field of infinite possibilities**

**is governed and controlled through emotion.**

**Therefore, the survival of all is dependent on emotions of  
flowing harmony  
that reflect the original divine blueprints of creation.**

**In this cycle of time we help historical ideals transform into their  
highest expressions of oneness with Divine Consciousness and all  
creation,  
so that heaven and earth manifest as one.**

**This is the Fiery Will of Divine Providence, manifesting through  
flowing emotions of impeccable inner guidance,  
according to the original purity of all ideas in divine mind.**

**All-penetrating-Divine Will is the virtue of S, the first letter of our name  
Sarasi.**

**This virtue has the color of purple red and the tone of musical note G-  
sharp.  
In each Child of Light, the gall bladder is formed and sustained by this  
virtue.**

**The process of attunement with the original purity of all ideals in Divine  
Mind  
is the virtue of letter A.**

**This enlightenment is a light blue color with the musical note of G.  
The lungs are formed by this virtue.**

**Transformation of any limitation in previously held ideals  
is the divine virtue of the second letter of our name, umlaut A, ae.**

**This virtue has a loamy brown color and vibrates to the tone of musical  
note C.  
The anus is formed and sustained by this virtue.**

**Divine transformation is used by each Child of Light to release any  
attachment or clinging to limited desires, beliefs, emotions, or  
possessions  
that no longer serve the highest good.**

**This virtue gives control over negative beings.**

***Through strong inner guidance, the Children of Light  
release whatever ideals  
and values keep them from creating heaven on earth for  
all.***

**This strong inner guidance is the divine virtue of letter R.**

**It has a beautiful golden light and vibrates to the tone of musical note C.**

**The left side of the nose is formed and sustained by this virtue.**

***Those limited ideals,  
that were appropriate in past times of evolution,  
that now,  
in the present time,  
are no longer capable of embracing evolutionary growth  
into divine perfection and spiritual maturity happening  
now,  
are evolving into even greater and more enlightened  
ideals.***

**Limited ideals transform into unity with all,  
equality,  
oneness with nature  
and restoration of pristine purity of Creation.**

**This unfolds according to the original purity of all ideas in Divine Mind,  
simplicity,  
whole brain thinking,  
attunement to the omnipresence of Divine Being in all,  
listening to inner guidance,  
and all of the other gifts of the enlightened mind.**

**It is natural now  
for mankind to understand that everything is connected to everything  
else,  
and that if any part is damaged,  
the whole is harmed.**

**According to a transformation, like the hundredth-monkey awakening,  
the evolution of mass consciousness is developing the maturity  
to understand, appreciate and value The Law of One  
as the ultimate moral standard to guide ethical behavior.**

***THE LAW OF ONE***

***We are all one.***

***When one is harmed, all are harmed.***

*When one is helped, all are helped.*

*Therefore, in the name of who I AM,*

*and I am one with all there is;*

*I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen.*

*I give thanks that this is done.*

*So be it.*

*So it is.*

**The Children of Light are becoming one with Wisdom and Enlightenment,  
which is the divine virtue of the fourth letter of our name, letter A, soft A.**

**With wisdom and enlightenment,  
each Child of Light creates in each and every moment,  
according to inner guidance,  
whatever is the most beautiful.**

**He or she does this through the mastery of the Law of Cause and Effect,  
which is the last letter I of our name Sarasi.**

**The divine virtue of the Law of Cause and Effect has a light opal color  
and the tone of G.**

**The left kidney is formed and sustained by it.**

***All ideals on earth are undergoing rapid transformation at  
this time.***

**The longing for perfection is bringing all into The Ancient Future,  
the Alpha and the Omega.**

**This is the 240th degree of the zodiac**

$$2+4+0= 6.$$

**NUMBER SIX represents the macrocosm in its perfection.  
It is represented by an equilateral hexagram.**

**This is the number of man when he finally reaches that state of  
enlightenment  
in which he is one with God.**

**Jesus referred to this number when he said,  
*"I and the Father are One."***

**The lower triangle of the hexagram denotes, in the mystical sense, man with his three dimensional aspect of body, soul and spirit.**

**The upper triangle of the hexagram points to the three-dimensional unification and influence of divine power and virtues in the mental, feeling, and physical worlds.**

**Number six represents the sun and all spherical miracles.**

**When you behold a hexagram, Star of David, or any mandala with six spokes, imagine yourself diving through it and coming out the other side into Divine Light.**

**Meditate on the divine virtues of S-A-R-A-S-I, and invoke us for help in merging with the sun and oneness with Divine Consciousness and Life.**

***We fill you with the vibration of Oneness with All.***

**This is very powerful.**

**Looking directly at the sun in a safe way, such as at sunset or sunrise, or briefly through the leaves of a tree, encodes the pineal gland, which is directly connected to the optic nerve, with information contained in the rays of sunlight.**

**These rays of light carry the consciousness frequencies of the central sun that are stepped down by the solar sun to a vibration accessible to the pineal gland through sunlight received in the optic nerves.**

**This gland then secretes appropriate neurotransmitters and other chemicals into the bloodstream, so that higher consciousness reflects the divine consciousness of the macrocosm, in the physical body of a child of light.**

**This also occurs when a person imagines visually the light of divine beingness, since the body has similar reactions to what is seen with the outer eyes, and to what is seen with the inner eye of the imagination.**

***" I and the Father are ONE."***

*"All that I do, ye shall do and more."*

*"The kingdom of heaven is found within."*

**S-A-R-A-S-I**

*S The sound of this letter is initiation into all-penetrating power, all-power.*

*This all-power is quantitative in form in comparison to omnipotence, the letter K, which is qualitative in form.*

*With all-power, a child of God gets into contact with the most subtle substance of the divine spirit, i.e., with the original divine fire, or divine will, which works as a substantial power in everything that has been created by Divine Providence.*

*Oneness with all-power gives mastery over the fire principle of desire and will and brings about a state of clairvoyance in its purest form.*

*It is the will of Divine Providence for love and joy to permeate all of creation.*

*The color of this virtue is purple red, its musical note is G-sharp, it is the fire element of will and so it has the sensation of warmth, and the gall bladder is the part of the body that is formed by it.*

*umlaut A[long A as in ae] is the sound of the mastery of negative passions, giving detachment from rigidity concerning imperfect thoughts, emotions, and ownership of physical goods.*

*This virtue awakens understanding of life and death, of good and evil, and why Divine Providence uses these for the purpose of transmutation.*

*With this virtue, imperfections are recognized easily, and difficulties with strong emotions and attachments to imperfect traditions are overcome successfully.*

*The sound of this letter, the long A, in the cosmic language is the virtue of the origin and mystery of life and death regarding their transformation.*

*By meditating on this virtue, a child of God becomes convinced that in reality death does not exist, for the so-called death is only a transformation from one state into another.*

***Also will come enlightenment on the cause of this transformation.***

***With this comes the ability to master all negative spiritual beings in all spheres and planes with regard to their scope of action.***

***The purpose for which negative beings have been created becomes clear.***

***Since, in the original principle all beings are alike, each having been created by Divine Providence to fulfill a certain task, there is no dissimulation of negative beings, for from the enlightened persons point of view everything is pure.***

***Here the saying: to the pure one everything is pure becomes plain.***

***If there were no negative beings, it would be impossible to distinguish between good and evil; and if there were no imperfections or negative passions, there would also be no virtues.***

***This virtue confirms the words contained in the Bible: through night to light, the deep symbolic meaning of which now becomes clear.***

***In the intellect the ability is gained to see through all thoughts, actions and wishes concerning matter, and of becoming their absolute master.***

***In the emotions, this virtue represents recognition of imperfections in desires, passions, and inclinations to self-satisfaction etc.***

***A person who masters this virtue in their emotions becomes absolute master and ruler of all desires and passions.***

***Also, a person is able to not cling to imperfect mental, emotional, and material virtues and objects.***

***This means complete independence and freedom and fulfills the saying bind yourself and you will be free.***

***On the material level this virtue is one of the most materialized. No matter whether you evoke it in the mind, the feelings, the akasha, or the material world, the earth is influenced by it to a larger extent. The ability to infuse matter with divine virtues is heightened.***

***The color is loamy brown, the musical note is C, and it is the earth element and has the sensation of weight. The anus is formed from this virtue.***

**Pretend there is NO FEAR in your life.  
What would you do different?  
How would it look different?  
Now imagine our world FREE OF  
FEAR.**

**Hold that thought.**

**inelia benz**

***R This is the sound of the divine virtue of INDEPENDENCE AND  
FREEDOM.***

***It is the virtue of following inner guidance and being in tune with Divine  
Providence.***

***Those who study the divine virtues in the order of the alphabet  
reach a state of complete oneness with Divine Providence.***

***After learning all of the virtues associated with all of the  
letters of the alphabet in order starting with A,  
by the time you reach the letter R you have achieved a state of maturity  
by which your feeling  
of independence has been transformed into an absolute state of  
security and unimpeachability.***

***Mentally, you will have an eminent mind and the feeling of freedom of  
will and action.***

***Not only this, but also the state of maturity in which you will never  
violate a law,  
having yourself become a master of all laws.***

***In spite of your freedom of will, you will find yourself  
willing to subject yourself freely to Divine Providence,  
and accept missions to serve Divine Providence with deep humility,  
immense  
gratitude and the highest devotion without losing your feeling of  
absolute freedom of will in any way.***

***Such great ingenuity will proceed from this  
that you will be able to comprehend any knowledge quickly and without  
difficulty.***

***The color of this virtue is gold, the musical note is C, the element is  
earth so it is felt with a sensation of weight, and the left side of the  
nose is formed from it.***

***A This letter represents the Divine Virtue of Wisdom and complete  
enlightenment.***

***This sound[a soft a like a sighahhhhh] and virtue is an initiation into  
the highest wisdom  
and the purity of all ideas in existence.***

***This has as a fundamental feature the enlightened mind.***

***Reasoning, perception, the cognition of the most profound truths,  
highest knowledge, high intelligence, and the arousing of all  
intellectual faculties are expressed.***

***Musical gifts, eloquence, poetic talent, and clairvoyance, clairaudience,  
the art of levitation, and the  
control of the air element and its beings are all aroused by this***

*initiation.*

*The color of wisdom and enlightenment is light blue, the musical note is G, the element is air so it has the sensation of ease, and the lungs are formed from it.*

*SMastering this virtue gives complete control over willpower in the mind, and on the physical plane complete control over all beings of any sphere or plane is gained.*

*IThe sound of this letter is the virtue of cause and effect, which is the karma law.*

*On the mental level, this virtue is analogous to memory, remembrance and conscience.*

*In the emotional body, this corresponds to the astral/physical matrix, which is the connection between emotion and physical form, with all of its functions.*

*On the material world,  
everything that has shape, measure, number and weight can be understood and mastered with this virtue.*

*The color of this virtue is light opal, the musical note is G, the element is earth so it has the sensation of weight, and the left kidney is created by this oscillation.*

**I and the Father are one.**

**All that I do, ye shall do and more.**

**Footnotes**

**The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity. Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.**

**The being and the angels share the same name. This name is a key to their powers and influence. Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.**
