The Angels of Intellect

Also known as

The Angels
of

Ugefor

Beloved,

**All knowledge grasped with the human intellect
is made accessible by us,
the Angels of Ugefor.**

**Much of what we reveal to each person is determined by the commission
that they have been charged to fulfill on the earth.**

**We help awaken high divine intellect,
which is caused when the heart center balances the head.**

***"The longest journey that the spiritual seeker ever takes,
is moving from the head to the heart."***

This combination then becomes the seat of thinking.

**Working together in perfect harmony,
conquering all,
within the self and in the outer worlds,
the intent of will in the brain joined with love of the heart
heals and gives life to all.**

Mind and heart are one.

We control the intellectual development of everyone.

***Depending on each persons state of maturity,
certain facts of knowledge are revealed to them by us.***

***We show you the manner by which human intellect can be
enlightened
and how you can acquire an extraordinary memory.***

*I don't consider myself a
traditional person,
but a universal person.
Instead of abiding by
rigid rules, I want to be
free in my heart.
-Grandmother Flordemayo*

***The human brain is designed to be used holistically,
working both the inner and outer worlds.***

***We help the children of love see that the inner world is like
a movie projector,
causing realities to manifest in the outer worlds.***

***We inspire each child of divine being to master and balance
these realities.***

**Left brain dominant people often limit themselves with linear logic,
rationalization, and memory.**

**Right brain dominant people often limit themselves to spatial, non-
verbal, intuitive awareness.**

**With whole brain awareness, a higher form of intellect shines forth,
and deep trance states are used to understand causes, and to change
these causes,
and thereby change fates.**

**With high intellect joined with the heart,
compassion and caring
of the physical, emotional, mental, and spiritual aspects of self and
others
are understood,
and the functioning of these bodies are enhanced.**

**Holistic cognition sees how to understand any situation
and create new causes to produce new effects.**

**Through grace and mercy, ongoing effects that are loving to self and
others are created.**

**This deep meditation causes glandular systems to produce
chemicals that cause enlightened states of awareness and flowing
divine emotions.**

**Emotions are magnetic and attract unique realities into manifestation
on the physical level.**

This in turn attracts new realities into expression.

**These consciousness determining glandular
chemicals are a thousand times more powerful
and safe than any drugs that are ingested,**

or taken by other means.

There are over 20 thousand different psychoactive chemicals in the pineal gland alone, and they combine in almost infinite ways, to produce almost infinite states of consciousness and manifestation.

However, the electrical field around the heart is five thousand times more powerful than that of the brain.

In high intellect, the heart joins with the head, and this then becomes the seat of thinking, working together in perfect harmony, conquering all, within and in the outer worlds, with divine love.

Mind and heart become one.

God is love.

Love conquers all.

The greatest of these is love.

We show you the manner by which human intellect can be enlightened and how you can acquire an extraordinary memory.

All knowledge that can be grasped with the human intellect is made accessible by us, the Angels of Ugefor.

We reveal that the greatest discoveries of all time are found in inner space.

Once these discoveries are made, they are then found and mirrored in outer space.

Emotions are stored in the body as tension, so we inspire the awareness, acceptance, and healing of wounded emotions.

As this is done, imperfect belief systems and desires also change. As these beliefs and desires change, so do physical manifestations, which means that the body heals.

Because inner and outer space are connected, situations in the outer world also heal.

Because the human intellect is so much more than what has been accepted by society, in the past only enlightened sages have revealed the truth of the human mind.

An enlightened teacher reveals that humans are made in the image of Divine Consciousness and Being.

**In this time of the alpha and the omega,
the Children of Light begin to understand and appreciate the unlimited
power of the human intellect,
so great emphasis is being put into balanced whole-brain-body
cognition.**

**This requires that each person recapitulates and heals wounded
emotions and beliefs from each stage of
growth from conception to birth to childhood, adolescence and
adulthood.**

**Each person literally remembers and becomes one with the inner infant,
child, adolescent and adult together,
processing information through them again in everyday life.**

This is the way to access whole brain functioning.

**By becoming one with these younger selves at the same time that he or
she is an adult, a person naturally accesses Delta, Theta, and Alpha
brainwave patterns
in addition to Beta brainwaves.**

Ye must be as little children to enter the Kingdom of Heaven.

**The four brainwave patterns of being-will, thoughts, emotions, and the
five senses, logic and memory
form during different stages of development.**

**Delta brainwaves are dominant from birth to approximately four years
old.**

**This is the state of Pure Being and unity with Divine Being and all
creation
that becomes Divine Will and the element of Fire.**

**Theta brainwaves are dominant in childhood,
from approximately four years old to approximately six or seven.**

**This is the state of deep inner thought that corresponds to Divine Mind
and the element of Air.**

**Alpha brainwaves are dominant in adolescence from approximately six
or seven to puberty.**

**This is the state of feelings, emotion, flowing, and the change process,
which correspond to Divine Love and the element of Water.**

Beta brainwaves are dominant from puberty throughout adulthood.

**This is the state of memory, logic, and the five senses,
which correspond to Heaven manifest in tangible reality on Earth, and
the element of Earth.**

**We instruct a person to express higher intellect
in all four levels through the divine virtues of the letters of our name.**

**We help do this through meditation,
with aboriginal techniques such as recapitulation,
and modern scientific resources such as biofeedback machines, etc.**

**As our inspiration and techniques are implemented,
education becomes so different as to be almost unrecognizable from
traditional systems.**

This is the 241st degree of the zodiac.

$$2+4+1=7.$$

**NUMBER SEVEN is the number of harmony, fertility, propagation and
growing. It is also the number of love with all its phases,
no matter whether the lowest form of love or the highest cosmic aspect
of love.**

**Mercy, benevolence, virtuousness, and happiness are also aspects of
love.**

**It is the number of beauty, purity, and harmony. It is the number
of Venus, the seven basic notes, the seven states of maturity [chackras],
and is represented by a septangle.**

There are various symbols for seven.

The colors of the rainbow are also the seven vibration.

Mandalas with seven spokes or multiples of seven carry this vibration.

Here is an ancient native American Indian prayer:

Dear Great Spirit,

*You are inside of me, within my very breath,
within each bird, each mighty mountain.*

Your sweet touch reaches everything and I am well protected.

Thank you for this beautiful day before me.

*May joy, love, peace and compassion be part of my life
and all those around me on this day.*

U-G-E-F-O-R

U The letter ***U*** in the cosmic language represents the faculty of comprehending the creative act and its relationship to karma.

It evokes the highest form of intuition and inspiration and makes possible the understanding of ones own karma and its modification.

It also makes possible the transfer of consciousness to any state imaginable and this results in states of highest trance.

This letter is imagined as shining velvet black and is practiced in the solar plexus and then in the legs and feet.

This letter enlivens the pancreas. The musical note is B, and it is the element of Akasha, which has the sensation of God-penetrating-all in meditation.

G The letter ***G*** symbolizes the virtue of divine grace and mercy.

In the intellect, this virtue gives the experience of peacefulness, and the faculty of giving true divine blessing.

In the physical world this virtue represents all phases of riches and wealth, of happiness and satisfaction.

By this virtue Divine Providence has created abundance and, like the Creator, a child of God may also bring about, for him or her self or other people, abundance in everything, should that be desired.

On an emotional level this virtue gives emotions of happiness, of complete satisfaction.

Situations may be created by means of the elements and the will and feelings causing success and wealth in the world that is for the highest good of all concerned.

The color is deep grass green; the musical note is F. The element is water, so it has the sensation of coolness. The left eye is formed from this virtue.

E This sound of this letter in the ancient language is the divine virtue of omnipresence.

Divine Consciousness is omnipresent in all time and space, even in the smallest atom.

By meditating on this virtue, a person attains a state of cosmic consciousness.

In the intellect it arouses the highest form of intuition.

In the emotions, this virtue gives control over the feelings of oneself and others, and the ability to understand the language of all beings, including animals.

We teach how to understand the languages and communication of all levels of beings on earth.

As above, so below.

F The sound of this letter is the divine virtue representing the legality and harmony of all visible worlds in creation in both the microcosm of the human body and the macrocosm.

By using this virtue, a person comes to know legality as the most perfect harmony, and furthermore, to see the operation and the laws of analogy of the macro- and microcosm in their truest form.

In the intellect, this virtue gives complete understanding of the interdependence of will, thought, emotion, and form.

The color of this virtue is light green; it is the earth element so it has the sensation of weight.

It has the musical note of F-sharp and the left hand is formed from it.

Umlaut O, eu,

Akasha: In the principle of consciousness penetrating all, the umlaut O oscillation evokes the most profound cognition which can only be brought about by love divine.

By the help of this a person gets to know all the possibilities of transformation of the spirit, all the systems and ways serving this end, and all knowledge concerning transformation in all other fields.

He/she is informed about everything that, deriving from the act of creation, had to pass through all the mode of transformation to be reunited.

A person must attain all the faculties that are offered by this profound cognition made possible by Love Divine, in the principle of consciousness-penetrating-all, and must make use of all possibilities, in order to get convinced that they cannot be described by words, by must be experienced, lived through.

I have mentioned the letters umlaut A and umlaut O as the last ones in this series of exercises,

because by the help of their virtues one is able to comprehend, from the principle of consciousness-penetrating-all, the crown of all wisdom in the micro- and macrocosms, from the act of creation to the present state of evolution, and even to the final development.

Mental:Evoked in the intellect, the virtue of profound cognition brought about by love divine gives the understanding of the transformation of ideas, virtues, etc. by the quabbalistically pronounced word, which is a very great and comprehensive field.

Astral emotional level:In the emotions, the virtue of profound cognition brought about by love divine develops the faculty of perfect astral projection and the mastery of all occult and magical phenomena that have reference to transformation, so that a person may, for instance, assume any desired vibration in the emotional body without being recognized by other beings and with only Divine Providence seeing through him/her.

Apart from this, a person is able to transform any emotional oscillation into the oscillation he wants and to do the same with any element.

Material: When mastered in the physical body, the profound cognition brought about by love divine leads to perfect knowledge of quabbalistic alchemy in the material world.

A person is taught the true preparation and charging of the philosophers stone in the physical sense.

He/she can influence, at will, any oscillation atomic, oscillation, electronic oscillation- by quabbalah, and he/she is able to transform it into the oscillation desired by him/her.

Therefore he/she perfectly masters the laws of transmutation and is able to transform any metal into gold, any stone into a precious stone, etc. if desired.

By the help of this virtue a person is furnished with many other faculties of which he/she cannot even dream now and which non-initiates would regard as absolutely impossible.

Umlaut O is dark orange, has the musical note of D-sharp, is the element of akashic-earth which has the sensation of weight penetrating everything. The ovaries and testicles are formed from this virtue of the profound cognition brought about by Love Divine. In healing, heal the left ovary first and then the right one.

O The sound of this letter is the original principle of divine justice.

Justice is harmony and harmony is justice.

Mentally you will be able to give expression to the absolute legality of harmony in all four basic qualities of the elements, which are will, intellect, feeling, and form.

You will have a high power of judgement and the ability to comprehend spiritually any legality, any interference by Divine Providence for the sake of justice.

You will never be able to condemn anyone unjustly.

This will bring about the abilities to create any change in the emotional situations that you find yourself in and to have absolute success and happiness on all levels.

This sound is the virtue of divine justice. This virtue has an ultramarine blue color, the musical note of C, and is the earth element so it has the sensation of weight.

It forms the throat and windpipe.

R This is the sound of the divine virtue of INDEPENDENCE AND FREEDOM.

It is the virtue of following inner guidance and being in tune with Divine Providence.

Those who study the divine virtues in the order of the alphabet reach a state of complete oneness with Divine Providence so that by the time they reach the letter

R,

they have achieved a state of maturity by which your feeling of independence has been transformed into an absolute state of security and unimpeachability.

Mentally, you will have an eminent mind and the feeling of freedom of will and action.

Not only this, but also the state of maturity in which you will never violate a law, having yourself become a master of all laws.

In spite of your freedom of will, you will find yourself willing to subject yourself freely to Divine Providence, and accept missions to serve Divine Providence with deep humility, immense gratitude and the highest devotion without losing your feeling of absolute freedom of will in any way.

Such great ingenuity will proceed from this that you will be able to comprehend any knowledge quickly and without difficulty.

The color of this virtue is gold, the musical note is C, the element is earth so it is felt with a sensation of weight, and the left side of the nose is formed from it.

Footnotes

The names and meaning of angel groups come from Quaballah,

which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions:

Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth,

and the angels who work with him or her.

The being and the angels share the same name.

This name is a key to their powers and influence.

Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.
