PDF version

**Today the sun is in the 7th degree of Scorpio,
which was sent yesterday.**

**Tomorrow on October 31st Mercury stations retrograde at 28 Scorpio,
who are the Heavenly Hosts of Hydrotherapy shown below.**

**Mercury represents how we communicate,
within ourselves to ourselves,
and to others in the outer world.**

**When Mercury is retrograde,
our attention is focused on what we are telling ourselves,
what we believe,
how we think.**

**It is time to go within,
and focus on what is working well and creating happiness,
and what is not.**

**We learn to gratefully allow imperfect old desires, thoughts, feelings and
realities to transform.**

***The degree that a planet stations to change direction either forward or
backward
is the ruling energy of the changes that occur.***

**The waters in our bodies, and in the earth,
are being cleansed.**

28 Degrees Scorpio

The Angels of Hydrotherapy

Also known as

The Angels of

Anadi

Beloved,

**There are many methods of hydrotherapy,
which so far have remained unrevealed,
which we entrust to whoever sincerely seeks help.**

**We are specialists in hydrotherapy,
the art of healing with water.**

**The human body on a molecular level is said to be ninety nine percent water.
The earth is said to be eighty percent water.**

**In computer science it has been discovered
that water holds immense amounts of information.**

**Now is the time of the long awaited Alpha and the Omega,
the time of Heaven on Earth.**

**Cosmic particles and waves from space
shower the earth with biological energy,
ancient in origin,
to awaken dna codes of divinity,
and virtues for healings and blessings.**

**In this way the waters of Earth are continually cleansed
and charged with divine beauty.**

**We inspire ongoing flowing and cleansing old emotions,
and thoughts related to them,
so that they transform into the highest good of all
concerned.**

**In this way the human body hums at frequencies of joy and
love.**

**We also inspire wisdom of how to remove the causes of diseases by
thermic stimulants
and create the dispositions of harmony and health in the human body.**

**Like the Angels of Megalogi, 30 degrees Libra,
we are responsible for all methods of water treatment.**

**We teach how to use the electric energy of will-visualization
and the magnetic energy of emotion and sensation,
to charge and enliven water for treating the most various diseases.**

**By meditating on the divine virtues that we represent,
and calling on our help, we join with you in consciousness.**

**Charging water is successfully achieved with strong flowing emotions of
divine virtues,
especially emotions of wisdom, transformation and
supreme happiness.**

**Enlightenment recognizes, then releases any imperfections for
transformation.**

**Enlightenment, and alignment with divine will for the highest good of
all,
combines with flowing divine emotions to manifest any intention to
create a loving reality.**

**Clear thought, transformation and supreme happiness are the divine
virtues of A and umlaut A and N of our name**

**Because emotions contain compressed information,
the original purity of all ideas in Divine Mind
are in this case compressed into emotions of Supreme Happiness,
and then used to create loving new realities.**

Emotions of transmutation, the divine virtue of umlaut A, ae, are emotions of letting go of negative energies for changes into other states that are the highest good of all.

This makes room for creations of the highest perfection to occur.

The letter D is the divine virtue of the mysteries of love to create. This virtue reveals how each person has incarnated to create unique situations of Heaven on Earth.

We, and the heavenly host of Megalogi, have been given the responsibility to inspire and teach how to send divine intentions, thoughts, emotions, and sensations into bodies of water and to the elemental beings of water, the undines.

It is also important to permeate, with divine intentions, visions, and emotions, the waters in your own body temples, as well as with streams, rivers, lakes, springs, oceans, and underground aquifers.

**The earth is approximately 80 percent water,
and so is the human body and the bodies of most mammals.**

Create divine love in these living waters!

**We help people with the divine virtue of Cause and Effect,
the virtue of the last letter of our name, the letter I.**

**When you pray and meditate, we ask you to call forth Divine Virtues to
impregnate waters and bless the animals who live in the waters
and the undines who are the spirits of the waters.**

**As people do this, waters take on miraculous
Divine Healing energies to enliven and bless all life.**

"On Earth as it is in Heaven."

This is the 262nd group of angels overseeing the earth.

$$2+6+2=10.$$

NUMBER ONE is the first number in the universe and represents the highest form, which is God Himself.

The manifested light and everything that was made of it is God in His Oneness.

Whenever the Deity is to be identified, this is done by number one.

One means highest cognition, highest unity, and highest wisdom.

All evolution starts with this number.

It is represented by a dot.

The middle of flowers represents the Oneness of God.

One is represented by the center of the mandala.

NUMBER TEN is the last number. It is the reflection of number one in its roughest form.

Ten is the number of physical matter, the number of realization.

Ten is called "The Kingdom "in Hebrew Quabbalah.

The human body is subject to number ten, and so also is the mineral, vegetable, and animal kingdom, and everything that is perceived by the five senses.

Its symbol is a circle with a cross consisting of eight

arms in its middle, contrary to number one
which is usually symbolized by a dot or a circle as the sign of infinity.
Ten can also be represented by a square with a circle drawn in its
middle.

Ten is the starting point on the way to God.

A-N-A-D-I

AThis is the sound of the divine virtue of highest wisdom and
enlightenment.

**This sound [soft as in a sighahhhhh] and virtue
is an initiation into the highest wisdom and the purity of all ideas.**

This has as a fundamental feature the enlightened mind.

**Reasoning, perception, the cognition of the most profound truths,
highest knowledge,
high intelligence, and the arousing of all intellectual
faculties are expressed.**

**Musical gifts, eloquence, poetic talent, and clairvoyance, clairaudience,
the art of levitation, and the control of
the air element and its beings are all aroused by meditating on this
virtue.**

**On the physical plane the command of the beings of the air,
control over storms, are all made possible by initiation into the highest
wisdom.**

**The color of wisdom and enlightenment is light blue, the musical note
is G, the element is air so it has the sensation of ease, and the lungs are
formed from it.**

Umlaut A, aethe mysteries of life and death and transformation.

**The release of imperfections back to Divine Being for transformation into other states that are the highest good of all concerned.
See below.**

NThis sound is the sound of supreme happiness and fulfillment beyond words to describe.

The purpose of enlivening water is to bless everyone with happiness and perfect health.

This virtue gives control over the mental matrix, which is the spiritual bonding material that connects the emotional body to the mental body, i.e., to the spirit.

The mastery of this virtue reveals to the child of God all the mysteries relating to the mind and the emotions and bestows the ability to comprehend, see, sense and control, the mental matrix with its sphere of action, either in regard of self or others.

On a physical plane, this virtue gives mastery over the principle of cohesion or coherence, gravity and the attractive power of everything material.

The color is dark red, the musical note is A, it is of the water element of feeling so it has a cool sensation. The liver is formed from this virtue.

**A wisdom and enlightenment,
the original purity of all ideas in Divine Mind, mystical faculties and artistic talent.**

Umlaut A, aeThe sound of this letter, the long A, in the cosmic language is the virtue of the origin and mystery of life and death regarding their transformation.

By meditating on this virtue, a child of God becomes convinced that in reality death does not exist, for the so-called death is only a transformation from one state into another.

Also will come enlightenment on the cause of this transformation. With this comes the ability to master all negative spiritual beings in all spheres and planes with regard to their scope of action.

The purpose for which negative beings have been created becomes clear.

Since, in the original principle all beings are alike, each having been created by Divine Providence to fulfill a certain task, there is no dissimulation of negative beings, for from the enlightened persons point of view everything is pure. Here the saying: "to the pure one everything is pure" becomes plain.

**If there were no negative beings,
it would be impossible to distinguish between good and evil;
and if there were no passions, there would also be no virtues.**

**This virtue confirms the words contained in the Bible: "through night to
light",
the deep symbolic meaning of which now becomes clear.**

**In the intellect the ability is gained
to see through all thoughts, actions and wishes concerning matter,
and of becoming their absolute master.**

**In the feelings, this virtue represents
desires, passions, and the inclination to self-satisfaction etc.**

**A person who masters this virtue
in their feelings becomes absolute master and ruler of all desires and
passions.**

**Also, a person is able to not cling to imperfect mental, emotional, and
material virtues and objects.**

**This means complete independence and freedom and fulfills the saying
"bind yourself and you will be free".**

**On the material level this virtue is one of the most materialized.
No matter whether you evoke it in the mind, the feelings, the akasha, or
the material world, the earth is influenced by it to a larger extent.
The ability to infuse matter with divine virtues is heightened.**

**The color of this virtue is loamy brown. The musical note is C. The
element is earth so it has the sensation of weight. The anus is formed
from this virtue.**

**This letter is the sound of the virtue of the mastery of the
mysteries of creation. Mastering this virtue gives the understanding that
the same laws apply
to the microcosm and the macrocosm.**

As above, so below.

**By meditating on this virtue the highest wisdom is gained in regard to
creation in both the inner and outer worlds, in the personal inner
universe and the outer universes.**

**In the intellect a person attains the profoundest cognition with regard
to the ego-consciousness.
I and the Father are One.**

**In the emotions, the understanding of love in all of its aspects is
perfected. Love is the greatest power, and with love all can be healed
and transmuted.**

On the material plane the mastery of fertility and everything that has to do with procreation is attained.

The color of this virtue is dark blue. The musical note is C. The element is Fire so it has the sensation of warmth and heat. The right ear is created from this virtue.

The sound of this letter is the virtue of cause and effect, which is the karma law.

On the mental level, this is analogous to memory, remembrance and conscience.

In the feeling body, this corresponds to the astral/physical matrix, which is the connection between feeling and physical form, with all of its functions.

On the material world, everything that has shape, measure, number and weight can be understood and mastered with this virtue.

The color of this virtue is light opal, the musical note is G, the element is earth so it has the sensation of weight, and the left kidney is created by this oscillation.

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions:

Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name. This name is a key to their powers and influence. Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,

and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others. Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.
