## The Angels of The Philosophers Stone

Also known as

The Angels of

**Eralier**

Beloved,

As each spiritual seeker connects with us  
and the divine virtues of our name,  
we convince him or her that the making of the philosophers stone is no  
allegory  
and no symbolic-esoteric speculation.

We teach that the preparation of the philosophers stone  
has diverse grades for the most various purposes.

We teach methods of transmuting metals,  
especially by the dry procedure,  
which is known to alchemists.

**The preparation and realization of the philosophers stone rests on many methods.**

**To those of you who have the proper degree of maturity,  
who thoroughly understand the scientific reasons behind harmony and  
harmlessness,  
we entrust these methods as you request them.**

**At this time the science of life, vitality and immortality is available to  
the Children of Light.**

***The last enemy to be overcome is death.***

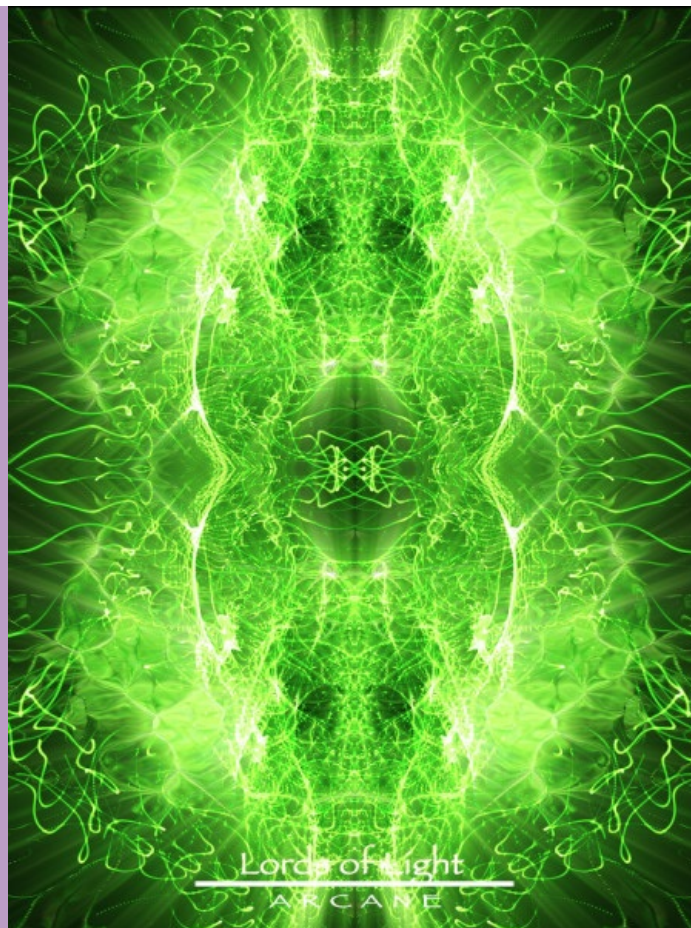

**Re-incarnation has proved its usefulness throughout long cycles of time.**

**More and more it is becoming counter-productive for many,  
now that we approach the time of Alpha and Omega,  
of Heaven on Earth,  
a time when Heaven and Earth are ONE.**

**Divine Consciousness and Life are omnipresent,  
existing in everything, in all time and in all space.**

**There is no place or time that lacks all of the divine virtues.**

**Time and space,  
and everything within them,  
could not exist at all  
if divine life and being were absent in even the least degree.**

**The experience of the omnipresence of Divine Being  
comes naturally in the deep Delta brainwave state.**

**This state is experienced in deep dreamless sleep, and is dominant in  
infancy.**

**Ask your cellular memory to let you re-experience this state within  
during meditation.**

**The heart generates plasma, the substance of life.**

**By recognizing yourself as one with Divine Being  
and recognizing Divine Being as the truth of all creation,  
the heart easily recognizes this divine perfection in everything  
and miracles of renewal occur.**

**Remember that it is during deep dreamless sleep,  
and the experience of unity with all, that our bodies regenerate.**

**This state can be experienced continually through meditation,  
so that aging and death are no longer the only possible outcome.**

**By leaving behind the stress of survival that comes from belief in  
separation,  
and basking in the unity of divine being,  
the body regenerates continually.**

**The body experiences itself as the holy temple of Divine Being  
that is manifesting in four levels of  
creation: the level of fire, or desire and intention, the level of thought,  
the level of emotion, and the level of manifest form.**

Omnipresence is the divine virtue of letter E, the first letter of our name Eralier.

As a Child of Light stays in connection with Omnipresent  
Consciousness,  
through deep experience of pure being and unity with Divine Being and  
all creation, then, through inner guidance, Divine Life automatically  
flows through the heart  
and informs his or her will, thoughts, emotions, and physical form.

The divine virtue of inner guidance is the letter R.

The original perfect divine blueprints of creation in Divine Mind  
awaken in such a person,  
and enlivens mystical faculties and artistic talent.

This is the virtue of A.

Then imperfections are easily seen, recognized as illusion,  
and released for transformation through the alchemy of love in the  
heart.

In this way a person learns the secret of the virtue of transformation,  
life and death.

Learning to release whatever is imperfect gives control over negative  
passions,  
and mastery over attachments  
to limited harmful desires, beliefs, emotions and sensations and  
possessions that are no longer the highest good of all.

In this way a person gains control over all negative beings.

This is the divine virtue of umlaut A, ae.

In the time of Heaven on Earth,  
wisdom that is gained from age and experience is joined with eternal  
youth,  
meditation becomes a way of life,  
and reincarnation is no longer the only way to reap the lessons of past  
mistakes.

*All of the divine virtues take care of everything in creation,  
so that heaven and earth are one.*

*Joy and supreme happiness flow with harmony and  
satisfaction.*

The divine virtue of letter L is the splendor and majesty  
of all the divine virtues taken together.

**It is this virtue which gives vitality, eternal youth and immortality,  
and enlivens true spiritual morality.**

**Then, as an immortal person, the mastery of Cause and Effect  
creates, with every breath, the highest good of all concerned  
on all levels of vibration, including the physical.**

**This is the divine virtue of letter I of Eralier.**

**Finally, through total oneness with Omnipresent Divine Life, a person  
follows inner guidance ever more to create greater and grander  
perfection.**

**All miracles on Earth become possible  
and used to transmute everything into its highest expression,  
just as it is done in Heaven.**

**Now, as the Children of Divine Being gain the experiences of time, their  
continuing strength and youth allow them to serve  
and manifest more and more beauty in Kingdom of Heaven on Earth.**

**This is the original intention of Divine Providence.**

***On Earth as it is in Heaven.***

***E This sound of this letter in the ancient language is the divine virtue of omnipresence.***

***Divine Consciousness is omnipresent in all time and space, even in the smallest atom.***

***By meditating on this virtue, a person attains a state of cosmic consciousness.***

***In the intellect it arouses the highest form of intuition.***

***In the emotions, this virtue gives control over the feelings of oneself and others, and the ability to understand the language of all beings, including animals.***

***In the physical world, mastering this virtue reveals the profoundest mysteries of materialization-condensation-and dematerialization-refinement.***

***A person learns how to intensify any idea, concept, mental or astral form in such a way that they become physically visible.***

***The condensing capacity of this virtue gave existence to everything material to physical matter- and to the mysteries of the opposite procedure, by which everything material may be transferred back into its refined and most subtle form.***

***We teach how to understand the languages and communication of all levels of beings on earth.***

***The letter E has the musical note of D, is of the dark violet color, and is meditated on with the feeling of God-penetrating-all.***

***As above, so below.***

***R This is the sound of the divine virtue of INDEPENDENCE AND FREEDOM.***

***It is the virtue of following inner guidance and being in tune with Divine Providence.***

***Divine Providence prompts each being in each moment.***

***The human body, which is the microcosm, is made up of almost infinite numbers of individual parts, and yet operates as one organism.***

***The outer universe, which is the macrocosm, does so as well.***

***As above, so below.***

***Those who study the divine virtues in the order of the alphabet reach a state of complete oneness with Divine Providence so that by the time they reach the letter R, they have achieved a state of maturity by which your feeling of independence has been transformed into an absolute state of security and unimpeachability.***

***I and the Father are One.***

***All that I do, ye shall do and more.***

***Mentally, you will have an eminent mind and the feeling of freedom of will and action.***

***Not only this, but also the state of maturity in which you will never violate a law, having yourself become a master of all laws.***

***In spite of your freedom of will, you will find yourself willing to subject yourself freely to Divine Providence, and accept missions to serve Divine Providence with deep humility, immense gratitude and the highest devotion without losing your feeling of absolute freedom of will in any way.***

***Such great ingenuity will proceed from this that you will be able to comprehend any knowledge quickly and without difficulty.***

***The color of this virtue is gold, the musical note is C, the element is earth so it is felt with a sensation of weight, and the left side of the nose is formed from it.***

***A Wisdom and enlightenment, mystical faculties,  
the understanding of the original purity of all ideas in Divine Mind.***

***Umlaut A, ae The sound of this letter, the long A, in the cosmic  
language is the virtue of the origin and mystery of life and death  
regarding their transformation.***

***By meditating on this virtue, a child of  
God becomes convinced that in reality death does not exist,  
for the so-called death is only a transformation from one state into  
another.***

***Also will come enlightenment on the cause of this transformation.***

***With this comes the ability to master all negative spiritual beings in all  
spheres and planes  
with regard to their scope of action.***

***The purpose for which negative beings have been created becomes  
clear.***

***Since, in the original principle all beings are alike,  
each having been created by Divine Providence  
to fulfill a certain task, there is no  
dissimulation of negative beings,  
for from the enlightened persons point of view everything is pure.***

***Here the saying: to the pure one everything is pure becomes plain.***

***If there were no negative beings, it would be impossible to distinguish  
between good and evil;  
and if there were no imperfect passions, there would also be no virtues.***

***This virtue confirms the words contained in the Bible: through night to  
light,  
the deep symbolic meaning of which now becomes clear.***

***In the intellect the ability is gained to see through  
all thoughts, actions and wishes concerning matter,  
and of becoming their absolute master.***

***In the emotions, this virtue represents control of powerful desires,  
passions,  
and the inclination to self-satisfaction etc.***

***A person who masters this virtue in their emotions becomes absolute  
master and ruler  
of all desires and passions.***

***Also, a person is able to not cling to mental, emotional, and material  
virtues and objects  
when they become limiting in a destructive way and  
are no longer appropriate, when they become imperfect.***

***This means complete independence and freedom and fulfills the saying  
bind yourself and you will be free.***

***On the material level this virtue is one of the most materialized.***

***No matter whether you evoke it in the mind, the emotions, the akasha,  
or  
the material world, the earth is influenced by it to a larger extent.  
The ability to infuse matter with divine virtues is heightened.***

***The color of this virtue is loamy brown. The musical note is C. The  
element is earth so it has the sensation of weight. The anus is formed  
from this virtue.***

***L This letter represents the highest divine virtues that may be described  
by words,  
irrespective of whatever sort they may be.***

***This letter oscillation is used to comprehend the Divine Majesty  
and the greatness of God in the form of the purest virtues.***

***From this comes the faculty of comprehending true morality  
as seen from the highest point of view.***

***This leads you to the borders of saintliness.***

***On the feeling level true equilibrium of character occurs  
and mastery of flooding the emotions with the highest light is attained.***

***On the physical level you gain perfect health, beauty and harmony  
and you become absolute master of your own vitality.***

***It is to be imagined as the color of olive green. The musical note is  
F; the element is air, so it has the sensation of ease. The spleen is  
formed from this virtue.***

***So great is the effect of the splendor and majesty of The Divine Virtues  
on physical health, beauty, and vitality, that meditating and  
becoming one with this is necessary in order to attract the original  
perfection  
that was spoken of in the saying,***

***The children of God are made in the image and likeness of God.***

***It is this virtue that allows immortality to manifest fully into form.***

***I The sound of this letter is the virtue of cause and effect, which is the  
karma law.***

***On the mental level, this is analogous to memory, remembrance and  
conscience.***

***In the emotions, this corresponds to the astral matrix with all of its  
functions.***

***The astral matrix is the connecting link between the physical body and the emotions.***

***Therefore, the mastery of the virtue of cause and effect controls the connection between the body and the soul.***

***It is a known fact that the astral matrix, and with it the whole body, is kept alive by breathing.***

***With the initiation into karma law, which is the knowledge of cause and effect, you are in the position to get under your perfect control the breath with all of its aspects and ways of application.***

***Mystical abilities are subject to the mastery of breath.***

***On the material world, everything that has shape, measure, number and weight can be understood and mastered with this virtue.***

***The color of this virtue is light opal, the musical note is G, the element is earth so it has the sensation of weight, and the left kidney is created by this oscillation.***

***EBy controlling the emotions of everything, the ability to attract whatever is desired into form is mastered.***

***ROn the physical plane, the virtue of following the inner voice causes a rational widening of the intellect which enables one to comprehend any knowledge quickly and without difficulty and also to express it by words.***

***By doing this a person acquires the abilities need to carry through with any mission.***

***In the emotions, the evocation of the virtue of following inner guidance manifests in a number of abilities.***

***Anything that a person trained in this way will undertake in an equivalent emotional or astral body will be done with a high-grade ingenuity of which a non-initiate cannot have the faintest idea.***

***Because no two people or situations are identical, in performing miracles, the ability to follow inner guidance is required.***

***All that I do ye shall do and more.***

***As people mature and move into harmlessness, harmony and balance, population stabilizes and children are brought into the world only as the conditions for their happiness and well-being are thoroughly provided for in will, intellect, emotion, and form.***

**This is the 245th degree of the zodiac.**

$$2+4+5=11.$$

$$1+1=2.$$

**NUMBER TWO is the number of duality, of polarity, of the positive and the negative principle.**

**In the material world, the two indicates electricity and magnetism, love and hate, light and shadow.**

**It is always a pole and its anti-pole, of which one could not exist without the other.**

**It is God and man.**

**It appertains to those religions which regard God as something separate, whereby the dualistic principle is to be found in all forms of existence.**

**Two can be represented by a horizontal line.**

**MIRACLES**

*We are beginning to experience ourselves as completed divine physical universal beings,  
both individually as microcosms and collectively as a macrocosm.*

*Even though birthing is extremely intense and rigorous, this is a time of  
great joy.*

**It is effective to invoke the following law in all affairs,  
personal and collective, inwardly and outwardly to facilitate this birth.**

***The Law of One is the original law of Creation,  
and is the supreme Law over all laws in all dimensions.***
