## The Angels of Miracles

Also known as

The Angels of

## Sagara

Beloved,

*We initiate spiritual seekers  
to follow in the footsteps of the Masters  
and thereby produce miracles in the physical world.*

*When desires to perform miracles occur,  
these desires awaken inner guidance for pointing the way.*

***Remember that children sense the truth of miracle working, especially while hearing fairy tales and parables of spiritual teachers.***

***When we remember ourselves as children, we enter the mystical deep inner Theta state of imagination.***

***Ye must be as little children to enter the Kingdom of Heaven.***

***Attunement to the inner child awareness is an attunement to states of relaxation and ease.***

***In this state, we are in our imaginations, and connect easily to the Divine Essence of our spirit and soul within.***

***This is one of the reasons why many miracles are happening.***

***It is time that the sons and daughters of divine being live in safe, abundant, and happy vibrations that allow relaxation and ease.***

***Inner knowing is always found within.***

**The Theta brainwave of inner awareness is dominant in childhood.**

**This is a focus on inner awareness, a state of deep inner thought,  
in which the Kingdom of Heaven can be found within.**

**"Seek ye first the kingdom of heaven and all else shall be added."  
"The kingdom of heaven is found within."**

**To enter into Theta brainwave states, a person must experience  
relaxation and ease.**

**Because a small child is close to Heaven,  
he or she knows that this is the time  
Divine Providence has ordained for the quickening of  
Earth,  
so that the world is healed  
and the Kingdom of Heaven is brought forth.**

**In states of relaxation and ease,  
an adult can again enter into this state of trust and innocence,  
this knowingness,  
and experience a peace that passeth the understanding,  
an understanding that is not logical to a mind involved in outer events,  
memory, and linear thought.**

**To those of you studying these angel messages, know that it is by  
relaxing into states of ease that the mind can be quieted enough to hear  
the still small voice within.**

***This still small voice is the source of genius,  
and points the ways to experiencing and directing the  
outworking of  
omnipotent divine will that exists everywhere, in all time  
and space.***

***Visual images created in the imagination of deep inner  
thought  
prompt the pineal gland to  
secrete amazing combinations of chemicals that alter  
consciousness.***

***In these states of awareness,  
visual images are combined with wonderful flowing  
emotions  
of the intended reality already manifested.***

***These emotions attract the new corresponding reality  
out of the quantum field of infinite potential.***

***In this way miracles are manifest.***

***"With the faith of a grain of mustard seed, ye shall say to  
the mountain,  
be ye hence removed to the sea,  
and it shall be done."***

***The deep inner self,  
the divine self within,  
must see that whatever is visualized and intended  
is the highest good of all concerned,  
for the divine self is omnipresent,  
and is one with everything,  
and wishes to bless all and harm none.***

***Therefore we inspire The Law of One to be used with all  
created miracles.***

***The Law of One is the original law of creation, and all other laws come from it,  
both civil and social.  
This law overrides all other laws.***

***The Law of One***

***We are all one.  
When one is harmed, all are harmed.  
When one is helped, all are helped.***

***Therefore, in the name of who I am,  
and I am one with all there is,***

***I ask that the highest good of all concerned happen.***

***And I give thanks that this is done.  
So be it.***

***We also inspire the technology of the cosmic language,  
the use of THE WORD in the science of miracles and theurgy.***

***Words, whose letters are uttered with the following attunements,  
have power to manifest miracles.***

***The proper utterance of each letter or virtue, has to do with  
being-will-visualization, thought, emotions, and sensations focused on  
specific divine states of being and  
awareness, which are accessed in the four brainwaves of Delta, Theta,  
Alpha and Beta.***

***The first letter of our name is S, which is DIVINE WILL.***

***Meditating on this virtue is an initiation into all-penetrating divine  
willpower, all-power.***

***This particular divine virtue is accessed in a state of pure being,  
which is the primary Delta brainwave pattern of infants.***

**It is practiced in the head region with a sensation of warmth and expansion.**

**Remember yourself as a small infant at one with divine will to meditate and produce this brainwave pattern.**

**This all-power is quantitative in form in comparison to omnipotence, the letter K, which is qualitative in form.**

**With all-power, a child of God gets into contact with the most subtle substance of the divine spirit, i.e., with the original divine fire, or divine will, which works as a substantial power in everything that has been created by Divine Providence.**

**Oneness with all-power gives mastery over the fire principle of desire and will and brings about a state of clairvoyance in its purest form.**

**It is the will of Divine Providence for joy to permeate all of creation.**

**The frequency of flowing emotions of divine happiness causes cohesion in creation.**

**It is similar to gravity.**

**Complete control over consciousness results from this.**

**The color of this virtue is purple red, its musical note is G-sharp, it is the fire element of will and so it has the sensation of warmth,**

and the gall bladder is the part of the body that is formed by it.

The second letter, soft A, is DIVINE THOUGHT. This virtue is accessed in a state of deep inner thought, the primary Theta brainwave pattern of childhood.

It is practiced in the lung region with a sensation of ease.

This sound [a soft a like a sighahhhhh] and virtue is an initiation into the highest wisdom and the purity of all ideas in existence.

This has as a fundamental feature the enlightened mind.

Reasoning, perception, the cognition of the most profound truths, highest knowledge, high intelligence, and the arousing of all intellectual faculties are expressed.

Musical gifts, eloquence, poetic talent, and clairvoyance, clairaudience, the art of levitation, and the control of the air element and its beings are all aroused by this initiation.

On the physical plane the command of the beings of the air, control over storms, are all made possible by initiation into the highest wisdom.

The color of wisdom and enlightenment is light blue, the musical note is G, the element is air so it has the sensation of ease, and the lungs are formed from it.

The next letter G, is DIVINE EMOTIONS OF TRUE DIVINE BLESSING.

This virtue is accessed in the Alpha brainwave pattern of emotions, change, and flowing which is the primary awareness and brainwave pattern of adolescence.

Grace and Mercy are practiced with a sense of chill in the abdomen region, seen as a hollow space.

*True miracles, by their very essence, seek grace and mercy for all beings.*

On an emotional level this virtue gives emotions of happiness, of complete satisfaction.

Situations may be created by means of the elements and the will and emotions causing success and wealth in the world that is for the highest good of all concerned.

In the mind, this virtue gives the experience of peacefulness, and the faculty of giving true divine blessing.

*In the physical world this virtue represents all phases of riches and wealth, of happiness and satisfaction.*

By this virtue Divine Providence has created abundance and, like the Creator, a child of God may also bring about, for him or her self or other people, abundance in everything, should that be desired.

*By being one with this virtue, a person can see how much the virtue of divine grace and mercy ameliorates the painful fate of the future that was caused by failure to adhere*

*to the Divine Laws of Justice and Harmony  
in the past.*

The color of this virtue is deep grass green with a feeling of coolness  
because it is the water element of feeling,  
it has the musical note of F, and the left eye is formed from this virtue.

The next letters, A and umlaut A, ae,  
are enlightenment and the mysteries of life and death and  
transformation.

A is wisdom that is accessed in the theta brainwave state of a child.

*You must be as a little child to enter into the Kingdom of Heaven.*

Umlaut A, ae, is accessed in the Beta brainwave of logic, memory, and  
the five senses,  
which is the primary brainwave of adults, from puberty on.

It is practiced in the leg region with a sensation of weight.

*Remember that miracles CHANGE, or transform, physical  
reality.*

Therefore, it is necessary to RELEASE outgoing realities  
through the divine virtue of transformation, umlaut A, ae.

The sound of this letter, the long A, in the cosmic language is the  
virtue of the origin and mystery of life and death regarding their  
transformation.

By meditating on this virtue, a child of God becomes  
convinced that in reality death does not exist, for the so-called death  
is only a transformation from one state into another.

Also will come enlightenment on the cause of this transformation.

With this comes the ability to master all negative spiritual beings in all  
spheres and planes  
with regard to their scope of action.

The purpose for which negative beings have been created becomes  
clear.

Since, in the original principle all beings are alike,  
each having been created by Divine Providence to fulfill a certain task,  
there is no dissimulation of negative beings,  
for from the enlightened persons point of view everything is pure.

Here the saying: to the pure one everything is pure  
becomes plain.

**If there were no negative beings,  
it would be impossible to distinguish between good and evil;  
and if there were no passions, there would also be no virtues.**

**This virtue confirms the words contained in the Bible: through night to  
light,  
the deep symbolic meaning of which now becomes clear.**

**In the intellect the ability is gained to see through all thoughts,  
actions and wishes concerning matter, and of becoming their absolute  
master.**

**In the feelings, this virtue represents desires, passions,  
and the inclination to self-satisfaction etc.**

**A person who masters this virtue in their feelings becomes absolute  
master and ruler  
of all desires and passions.**

**Also, a person is able to release imperfect or limiting  
mental, emotional, and material virtues and objects.**

**This means complete independence and freedom and fulfills the saying  
bind yourself and you will be free.**

**On the material level this virtue is one of the most materialized.**

**No matter whether you evoke it in the mind, the feelings, the akasha,  
or the material world, the earth is influenced by it to a larger extent.**

**The ability to infuse matter with divine virtues is heightened.**

**The color of this virtue is loamy brown. The musical note is C. The  
element is earth so it has the sensation of weight. The anus is formed  
from this virtue.**

**The next letter is R, which is INNER GUIDANCE.**

**On the physical plane, the virtue of following the inner voice  
causes a rational widening of the intellect which enables one to  
comprehend any knowledge quickly and without difficulty and also to  
express it by words.**

**By doing this a person acquires the abilities need to carry through with  
any mission.**

**In the emotions, the evocation of the virtue of following inner guidance manifests in a number of abilities.**

**Anything that a person trained in this way will undertake in an equivalent emotional or astral body will be done with a high-grade ingenuity of which a non-initiate cannot have the faintest idea.**

***In performing miracles, inner guidance joins individual identity and will with omnipotent omnipresent omniscient being and Will of Divine Providence so that they are ONE.***

**The divine virtue of Independence and Freedom, following inner guidance, has a golden light with a feeling of weight, musical note C and is the virtue that forms the left nostril.**

**The final letters A and umlaut A, ae, are the virtues of the highest wisdom and enlightenment that can be lavished upon a human being and the power of transformation.**

**Miracles bestow enlightenment upon the world.**

**Mastering these virtues give all occult faculties such as clairaudience, clairvoyance, artistic talents, eloquence and control over the air and beings of the air, and control over negative beings and all imperfections.\***

***All that I do ye shall do and more.***

**This is the 246th group of the heavenly hosts.**

$$2+4+6=12.$$

$$1+2=3.$$

**NUMBER THREE is symbolized by a triangle.**

**The three is the number of akasha principal, of fate, of cause and effect,**

of Karma, and is attributed to the sphere of Saturn.

All things on all levels originate from the akasha principle,  
the fine pre-matter of all existence, and therefore from the number  
three.

It is the original idea of procreation.

Man and woman and child.

*Also it represents spirit, soul, and body.*

*It is the number of intuition, life and death, and cognition  
in its highest form.*

*Inner guidance prompts a Child of Light to manifest  
miracles  
using whatever Divine Virtues are necessary.*

#### Footnotes

The names and meaning of angel groups come from Quaballah,  
which is a very ancient set of teachings  
which together form a common precursor, or root, of three of the world's religions:  
Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the  
earth,  
and the angels who work with him or her.

The being and the angels share the same name.  
This name is a key to their powers and influence.  
Names, phrases, and sections,

in the angel messages are quoted or paraphrased from the books of Franz Bardon.  
Information of the heavenly hosts of the zone girdling the earth  
is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,

and Information of the divine virtues and the letters  
are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].  
Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician",  
gives historical background and was compiled by his German publisher from notes written by Franz  
Bardon.

To understand Universal Consciousness, and immortality, it is very helpful to read The Life and Teachings of the Masters of The Far East by Baird Spalding

The first three volumes are field notes taken on a scientific expedition to Nepal in the late 1800's.
