The Angels of Bees and Sweeteners

Also known as

The Angels of

Natolisa

Beloved,

Beloved,

We are the heavenly hosts charged with protecting the sense of taste,
with all sorts of various sweetness.

We also protect the sweetness of life itself.

Life is meant to be sweet.

"As above, so below."

"I have not given you the spirit of fear, but of joy, and life everlasting."

*All levels of life, from the world of pure being and oneness with all,
to the worlds of desire and intent,
to the worlds of emotion
and to the worlds of the five senses,
are designed to reflect the splendor and majesty of divine being.*

We inspire qualities of sweetness.

We are the protectors of bees.

"On earth as it is in heaven."

We are the guardians and protectors of all who work with honey and sweeteners in any way.

We teach mankind many things about the production of sugar and sugar-like substances.

We teach you about diseases which are caused by too little, or too much sugar.

We have taught people the art of apiculture and how to use honey.

In the early days, mankind did not use sugar, and honey was the only sweetener.

**Later, when the raising of bees no longer sufficed to cover the need for sweetening material,
we again caused man to win sugar from
other substances and made him find sugar-cane in the orient and sugar-beet
in lands with less favorable climates.**

**All of the virtues of Divine Consciousness manifest in being, will,
intellect, emotion, and form.**

Flowing divine happiness brings cohesion to life, and opens the door to great wisdom.

**Some of the divine qualities that express through sugar are
expansiveness, thanksgiving, lightness, hope, enthusiasm, energy,
love, gaiety, success, security, blessing, relaxation, and delight etc.**

**We help mankind master the corresponding virtues of ALL foods, so
that nourishment and inspiration is obtained
from spiritual, mental, and emotional sources as well as physical.**

We inspire divine vitality that comes from all of the divine virtues taken together, balancing expansiveness, nurturance, love, energy, security, fun and beauty with determination, courage, mastery, patience, discipline, sobriety, and wisdom etc.

As supreme happiness flows, life itself is experienced as sweet.

This is the fulfilling of the original divine blueprints of creation in Divine Mind for the highest good of all.

As a Child of Light heals wounded emotions through empathy and love, and discovers happiness in being will, thought, emotions, and sensations, the psychological and physiological need to consume too many physical sugars will diminish.

Sugar-related diseases of the body are often a psychosomatic effort to treat conditions of isolation, heaviness, loneliness, sorrow, insecurity, fear, over-seriousness, emotional pain, or stress with over consumption of sweets.

Sometimes a lot of sugar is consumed in attempts to feel better.

This is true whether sugar is produced internally from adrenal glands and pancreas as a fear based survival response or if it is taken in forms of food.

***When a Child of Light has sugar related disease, and learns
to heal the
inner child self, and thereby embrace flowing divine
happiness
and the original purity of all ideas in Divine Mind,
the world is seen through the eyes
of love instead of fear.***

***At this point the feeling of the need
to consume too much actual physical sugar diminishes,
so that the body heals.***

For I have given you the spirit of joy.

This is the 250th angel group of the heavenly hosts.

$$2+5+0=7.$$

NUMBER SEVEN is the number of harmony, fertility, propagation and growing.

**It is also the number of love with all its phases, no matter whether the
lowest form of love
or the highest cosmic aspect of love.**

**Mercy, benevolence, virtuousness, and happiness are also aspects of
love.**

It is the number of beauty, purity, and harmony.

**It is the number of Venus, the seven basic notes, the seven states of
maturity [chackras],
and is represented by a septangle.**

There are various symbols for seven.

**The colors of the rainbow are also the seven vibration.
Mandalas with seven spokes or multiples of seven carry this vibration.**

N-A-T-O-L-I-S-A

N***This sound in the ancient language is the virtue of Supreme Happiness.***

In the intellect, this virtue controls the connection between mind and heart, or thought and emotions.

Emotion is magnetic energy, and is the precursor of manifestation on the physical plane.

Mastering this virtue gives control over ones self and of any other being, and enables one to help self or others solve any problem.

On the emotional level, mastery over the drive for self-preservation is gained. On the physical level mastery over cohesion, or the power of coherence or gravity is gained.

This virtue has a deep red color, the musical note of A, is of the water element of emotion and has the sensation of coolness. The liver of all beings was formed by this virtue.

A***wisdom and enlightenment***

A***The sound of this letter, the long A, in the cosmic language is the virtue of the origin and mystery of life and death regarding their transformation.***

By meditating on this virtue, a child of God becomes convinced that in reality death does not exist, for the so-called death is only a transformation from one state into another.

Also will come enlightenment on the cause of this transformation.

*With this comes the ability to master all negative spiritual beings
in all spheres and planes with regard to their scope of action.*

The purpose for which negative beings have been created becomes clear.

*Since, in the original principle all beings are alike,
each having been created by Divine Providence to fulfill a certain task, there is no
dissimulation of negative beings,
for from the enlightened persons point of view everything is pure.*

Here the saying: to the pure one everything is pure becomes plain.

*If there were no negative beings, it
would be impossible to distinguish between good and evil;
and if there were no passions, there would also be no virtues.*

*This virtue confirms the words contained in the Bible:
through night to light, the deep symbolic meaning of which now becomes clear.*

*In the intellect the ability is gained to see through all thoughts,
actions and wishes concerning matter, and of becoming their absolute master.*

*In the feelings, this virtue represents desires, passions,
and the inclination to self-satisfaction etc.*

*A person who masters this virtue in their feelings
becomes absolute master and ruler of all desires and passions.*

Also, a person is able to not cling to mental, emotional, and material virtues and objects.

*This means complete independence and freedom and fulfills the saying
bind yourself and you will be free.*

On the material level this virtue is one of the most materialized.

*No matter whether you evoke it in the mind, the feelings, the akasha, or
the material world, the earth is influenced by it to a larger extent.
The ability to infuse matter with divine virtues is heightened.*

*The color of this virtue is loamy brown. The musical note is C. The
element is earth so it has the sensation of weight. The anus is formed from this virtue.*

T The first divine virtue for attunement to the sun is initiation into high inspiration.

*The letter T in the ancient language represents high inspiration
with all the legal matters of this principle.*

In the intellect, this virtue awakens remarkable inventive faculties and memory.

umlaut O eu

*Akasha: In the principle of consciousness penetrating all, the umlaut
O oscillation evokes the most profound cognition which can only be brought about by love
divine.*

*By the help of this a person gets to know all the possibilities of
transformation of the spirit, all the systems and ways serving this end,
and all knowledge concerning transformation in all other fields.*

*He/she is informed about everything that, deriving from the act of creation,
had to pass through all the mode of transformation to be reunited.*

A person must attain all the faculties that are offered by this profound cognition made possible by Love Divine, in the principle of consciousness-penetrating-all, and must make use of all possibilities, in order to get convinced that they cannot be described by words, by must be experienced, lived through.

I have mentioned the letters umlaut A and umlaut O as the last ones in this series of exercises, because by the help of their virtues one is able to comprehend, from the principle of consciousness-penetrating-all, the crown of all wisdom in the micro- and macrocosms, from the act of creation to the present state of evolution, and even to the final development.

Mental: Evoked in the intellect, the virtue of profound cognition brought about by love divine gives the understanding of the transformation of ideas, virtues, etc. by the quabbalistically pronounced word, which is a very great and comprehensive field.

Astral/ emotional level: In the feelings, the virtue of profound cognition brought about by love divine develops the faculty of perfect astral projection and the mastery of all occult and magical phenomena that have reference to transformation, so that a person may, for instance, assume any desired vibration in the emotional body without being recognized by other beings and with only Divine Providence seeing through him/her.

Apart from this, a person is able to transform any

emotional oscillation into the oscillation he wants and to do the same with any element.

Material: When mastered in the physical body, the profound cognition brought about by love divine leads to perfect knowledge of quabbalistic alchemy in the material world.

A person is taught the true preparation and charging of the philosophers stone in the physical sense.

He/she can influence, at will, any oscillation atomic, oscillation, electronic oscillation- by quabbalah, and he/she is able to transform it into the oscillation desired by him/her.

Therefore he/she perfectly masters the laws of transmutation and is able to transform any metal into gold, any stone into a precious stone, etc. if desired.

By the help of this virtue a person is furnished with many other faculties of which he/she cannot even dream now and which non-initiates would regard as absolutely impossible.

Umlaut O is dark orange, has the musical note of D-sharp, is the element of akashic-earth which has the sensation of weight penetrating everything.

The ovaries and testicles are formed from this virtue of the profound cognition brought about by Love Divine. In healing, heal the left ovary first and then the right one.

O The sound of letter O is the sound of the initiation into the original principle of divine justice.

By meditating upon this virtue, mentally you are able to give expression to the absolute legality of harmony in all four basic qualities of the elements, which are will, intellect, emotion, and sensation.

You have a high power of judgement and the ability to comprehend spiritually any legality, any interference by Divine Providence for the sake of justice.

You will never be able to condemn anyone unjustly.

This will bring about the abilities to create any change in the emotional situations that you find yourself in and to have absolute success and happiness on all levels.

The ability to control emotions is the ability to control and manifest anything on the physical level.

This virtue has an ultramarine blue color, the musical note of C, and is the earth element so it has the sensation of weight. It forms the throat and windpipe.

L The sound of this letter is the sound of all Divine Virtues taken together, therefore, this sound is the sound of the splendor and majesty of Divine Consciousness.

Mastering this virtue gives complete control over vitality, beauty, youth, and health.

Meditate on the majesty and splendor of Divine Being that is omnipresent, omnipotent, and omniscient.

This letter oscillation represents the highest divine virtues that may be described by words.

Intone it to the musical note F. This is an air element, so it has the sensation of ease filling all of space with a dark green glowing olive

color. Intone it with a sound of hissing air. This virtue especially empowers the left hand.

The sound of the letter I is the virtue of Cause and Effect.

The law of cause and effect is the law of evolution of everything.

This law gives the understanding and mastery of the akasha, or subtle pre-matter principle.

The sensation of akasha is Consciousness-penetrating-all.

The understanding of cause and effect also enables the perfection of memory and conscience.

The meditation on the virtue of Cause and Effect enables mastery of the chief components of the material world, which are shape, measure, number and weight.

The letter I with its light opalescent color, representing the law of cause and effect, is the spiritual essence of the left kidney. This virtue is of the earth element, so it has the sensation of weight. The musical note is G.

S The sound of this letter is initiation into all-penetrating power, all-power.

This all-power is quantitative in form in comparison to omnipotence, the letter K, which is qualitative in form.

With all-power, a child of God gets into contact with the most subtle substance of the divine spirit,

i.e., with the original divine fire, or divine will, which works as a substantial power in everything that has been created by Divine Providence.

Oneness with all-power gives mastery over the fire principle of desire and will and brings about a state of clairvoyance in its purest form.

It is the will of Divine Providence for love and joy to permeate all of creation.

The color of this virtue is purple red, its musical note is G-sharp, it is the fire element of will and so it has the sensation of warmth, and the gall bladder is the part of the body that is formed by it.

A This is the sound of the divine virtue of highest wisdom and enlightenment.

This sound [soft as in a sigh h h h h h] and virtue is an initiation into the highest wisdom and the purity of all ideas.

This has as a fundamental feature the enlightened mind.

Reasoning, perception, the cognition of the most profound truths, highest knowledge, high intelligence, and the arousing of all intellectual faculties are expressed.

Musical gifts, eloquence, poetic talent, and clairvoyance, clairaudience, the art of levitation, and the control of the air element and its beings are all aroused by meditating on this virtue.

On the physical plane the command of the beings of the air, control over storms, are all made possible by initiation into the highest wisdom.

The color of wisdom and enlightenment is light blue, the musical note is G, the element is air so it has the sensation of ease, and the lungs are formed from it.

Umlaut A, ae. transformation, release of negativity and imperfection back to Divine Being for change into another state that is the highest good of all.

smallest act of
generosity is a

being made.”

~ Matt Kahn

Suggestion: For healing on all levels, research the taking of Shivambu Shastra, or self urine therapy, which is seen as one of the divine manifestations of cosmic intelligence, and has been used as such in history by Indian yogis to unleash kundalini up to the third eye, and by many healers.

It is often referred to as a supernatural living food.

To read extensive medical research on urine therapy, type urine therapy in your computer's search engine.

If you purchase books on urine therapy at Amazon.com, you have the option of buying used books at a greatly discounted rate.

Note: In the reference book of Franz Bardon [see footnote below], the numerology of the beings of the heavenly hosts in the ancient teachings start with the 24 heads of the elements.

The 360 angels of the zodiac therefore start with number 25.

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions:

Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth,
and the angels who work with him or her.

The being and the angels share the same name. This name is a key to their powers and influence. Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

and Information of the divine virtues and the letters
are referenced from THE KEY TO THE TRUE QUABALLAH,

ISBN 3-921338-12-4]. Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies.

The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician",

gives historical background and was compiled by his German publisher from notes written by Franz Bardon.
