The Angels of Cooking and Baking

Also known as

The Angels of

Butharusch

Beloved,

***We inspire and protect anyone who practices the
art of cooking
in sacredness and love.***

***We inspire people to heal all frequencies and levels of body, emotions, mind, and spirit,
by exposing food to divine love,
flowing love of the heart.***

"Love conquers all."

"God is love."

Through inspiration of the divine virtues of

***Butharusch,
preparing food is a creative act
that transforms consciousness and physical
health
into heavenly states.***

***We inspire flowing emotions of love through
feasting and sustenance.***

***We teach people to charge food with divine
virtues
using conscious intent, thought, emotions and
sensations.***

We first taught mankind to eat fruit in its raw state.

Then we introduced ways to process and tin them.

**During the course of time we
have inspired people to prepare dishes by the help of the
fire element,
by roasting, baking, and stewing.**

**We are the heavenly host who have taught you how to bake
bread,
to make sweets, and to create new dishes.**

**Divine Love transforms all that it touches,
Divine Love brings light into darkness,
transmuting into beauty.**

**We have inspired people to bless food through the love of the heart.
The heart produces plasma in a torroidial shaped field,
that extends approximately ten feet out from the body.**

Anything that is affected by the love of a heart is changed.

"Love conquers all."

This is why we inspire people to create healing on all levels by exposing food to divine love, the love of the heart.

With unconditional all encompassing love and empathy we inspire people to approach their inner selves, to embrace and heal any darkness in the emotional body, and stop being afraid and love and have faith instead.

Love transforms anger and helplessness.

By impregnating food with unconditional love, food becomes a healing energy.

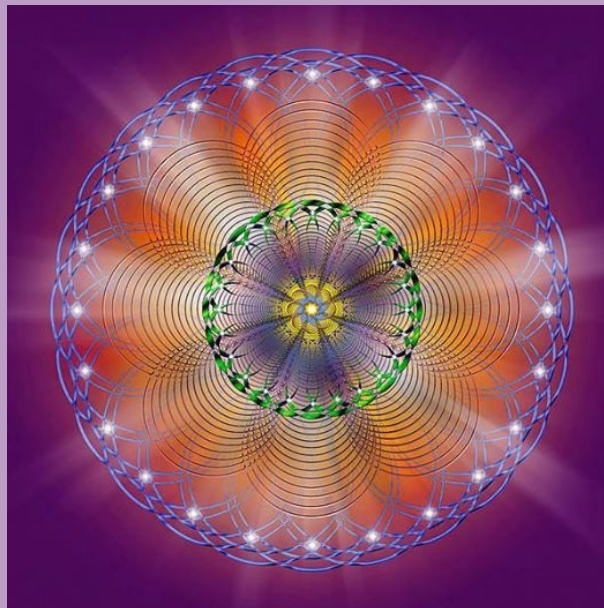

This energy addresses every level of the physical, emotional, mental and spiritual bodies.

We inspire people to realize the wisdom that has been gained, and give deep thanks for lessons learned from the very experiences that originally wounded them. As people finally offer gratitude for the wisdom gained, and the strength and faith discovered in surviving these experiences, maturity and compassion are gained.

Only with maturity and compassion can people fully forgive themselves and also others in the outer world.

"All things work for good. Give thanks for all things , for that is my will concerning you."

"Love conquers all."

We inspire the charging of food with love, with life, by directing will and emotions through the divine virtue of B, which is the virtue of Universal Life and polarity.

In deep creative trance states, entered into through the virtue of the

**creative act
and its ongoing effects, which is the letter U, a person
joyfully creates realities in which food is powerfully transformed with
high energy
to enhance life on an ongoing basis.**

**Everything connected to food; the plant kingdom, the creatures, the
soils, the air, the water,
those who grow the food and those who prepare the food and those who
eat it are blessed.**

**High inspiration, the virtue of letter T, inspires people preparing and
enjoying food, to use The Power of the Word,
the virtue of letter H,
to charge food with whatever divine qualities are most perfect at any
given time, in any given situation.**

**Wisdom and enlightenment reveals the original purity of all ideas in
Divine Mind
concerning food, the virtue of letter A.**

**With this understanding all imperfections are recognized, they are
gladly released back to Divine Being
for changes into other states that are the highest good of all concerned,
umlaut A, ae.**

Inner guidance, the virtue of letter R, awakens genius.

**This inner guidance often inspires deep trance states in those
preparing and eating food,
letter U, in which further creativity is applied to the food for powerful
ongoing benefits.**

**These benefits are sealed into reality on all levels
through the divine virtue of original Omnipotent Divine Will, the letter
Sch.**

**Using these virtues, a person can create nourishment from pranic
forces and light,
as well as physical foods.**

**By doing this, breath is imbued with energies of spirit, mind, emotions,
and sensations
to provide perfect nutrition on every level, including the physical level.**

**To delight the tastes, food is taken as expressions
of love, joy and bliss in celebrations of Heaven on Earth.**

This is the 251st group of the heavenly hosts in the ancient teachings.

$$2+5+1=8.$$

NUMBER EIGHT is the number of the mind, the intellect, and thus the number of knowledge.

It is analogous to the planet Mercury.

The octagon is a symbol of the Native American Medicine wheel in all of its forms.

All knowledge, actual or theoretical, is a part of the eight vibration.

B-U-T-H-A-R-U-Sch

B This is the divine virtue of Universal Life which is the virtue of polarity in all of its many forms.

Understanding polarity leads to the greatest wisdom.

Mastering this virtue through meditation gives control over will and feeling, life and death, and the power to change any fate.

This divine virtue is a light violet color, is the earth element so it has the sensation of weight, vibrates to the musical note of A, and forms the right eyeball.

U The letter *U* in the cosmic language represents the faculty of comprehending the creative act and its relationship to karma.

It evokes the highest form of intuition and inspiration and makes possible the understanding of ones own karma and its modification.

It also makes possible the transfer of consciousness to any state imaginable and this results in states of highest trance.

This letter is imagined as shining velvet black and is practiced in the solar plexus and then in the legs and feet. This letter enlivens the pancreas. The musical note is B, and it is the element of Akasha, which has the sensation of consciousness-

penetrating-all in meditation.

T The sound of the letter T in the ancient language is the divine virtue of high inspiration with all the legal matters of this principle.

In the intellect, this virtue awakens remarkable inventive faculties and memory.

H This letter is The Power of the Word.

Divine Providence inspires each cook and each person eating with divine virtues that are best to enliven for the purpose of blessing food.

The letter H has a silvery violet color, is the fire element of will and has the sensation of warmth and fire, has the musical note of A, and is the virtue by which the right arm of every person is created.

A This is the sound of the divine virtue of highest wisdom and enlightenment.

R The sound of the letter R is the divine virtue of becoming the master and guardian of freedom and independence and is the ability to listen to, hear, and follow the inner voice of guidance.

When preparing and cooking food, the highest attunement to Divine Will is required in order to manifest the greatest perfection, nutrition, and sacredness.

U The mastery of the creative act and attunement to highest consciousness and intuition enables a cook to take whatever food is available and create within it the vibration of divine virtues in a perfect way so that it confers the greatest beauty and blessing.

Sch The S oscillation is the original fire [all penetrating will].

The K oscillation is the original light [omnipotence].

The virtue of Sch connects both original light and original fire, and thus indicates the non-manifestable omnipotence.

The Sch therefore represents the original principle superior to the K and S.

This is the virtue by which Divine Providence creates the first outpouring of divine creation.

It is regarded as the highest virtue.

This is the original masculine force.

This virtue is pure divine will power.

Its color is blazing red, it is the element of fire so it has the sensation of warmth. Its musical note is C and the brain is formed from it.

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name.

This name is a key to their powers and influence. Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,

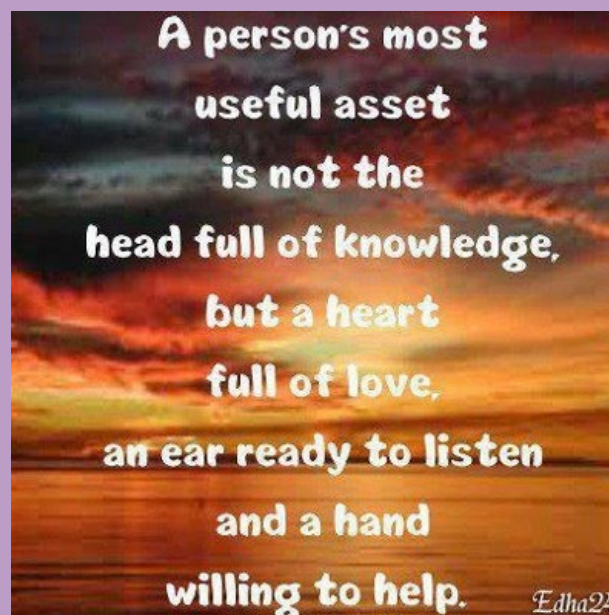

and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

When one is helped, all are helped.
Therefore, in the name of who I AM, and I am one with all there is;
