[PDF version](#)

This morning mercury crossed the sun at 19 Scorpio, which was sent yesterday.

**When mercury crosses the sun,
communication conjoins with the spirit.**

Today's mercury/sun miracles energize transmutation of metals.

The Angels of Metallurgic Chemistry

Also known as

The Angels of

Panari

Beloved,

We are the heavenly host that inspires mankind in the field of metallurgic chemistry.

**We have taught man to gain various metals from ores,
and we have helped him with the recognition of the various metallic elements.**

We have inspired the making of metal amalgams.

**We have various recipes for the working up and amalgamating of
metals, and also the decomposition of metals
into various chemical products, synthetic substances and medicines.**

The things that we can inspire mankind with in this regard are almost limitless.

**Everything in creation is created from electrical impulses of intent and thought,
and attracted into form through magnetic fields of flowing emotions and sensations.**

Atoms are wave fields.

These wave fields correspond to electrical intent, belief, emotions, and sensations.

So specific magnetic fields correspond to specific divine flowing emotions.

**All magnetic divine emotions result from electric omnipotent divine intentions,
visual images, and corresponding thoughts.**

Electric will and magnetic emotions determine reality.

**Because metals are excellent carriers of electro-magnetic energy,
many wonderful qualities of Divine Beingness are embodied by metals.**

**As this concept is integrated into conscious awareness of the
children of light,
mysteries of the philosophers stone are easier to understand.**

**The full moon tomorrow happens early in the morning here in EDT.
Therefore, the sun will be moving into 20 degrees Scorpio later today.**

**As you can see, the full moon sun tomorrow morning concerns metals as
well,**

as metals are charged with healing properties.

The full moon chart is below.

20 degrees Scorpio

The Angels of Synthetic Medicines

Also known as

The Angels
of

Nagar

Beloved,

Remember that all of the heavenly hosts of Scorpio
inspire strong will to produce flowing emotions of deep transmuting
divine love.

Deep cosmic love attracts whatever miracles are necessary for the
highest good of all concerned.

**As you know, in the process of healing,
strong flowing divine will and omnipresence produces beautiful
emotions
that attract healed perfected states into form.**

**We guide and protect everyone involved with developing medicines from synthetic sources,
which are different from those derived from herbs.**

**We are similar to the heavenly host of Panari, in that we also
teach you how to make various medicines
from the most diverse types of metals and their combinations.**

**We inspire the making of colloidal metal solutions,
which deliver medicinal effects of metals without causing heavy metal
poisoning.**

**We inspire all medicines which can be produced by synthetic
procedures.**

**The divine virtue of Supreme Happiness is the essence of the liver,
and is the virtue of letter N of our name Nagar.**

**The liver is in charge of metabolism,
performing more than 400 separate functions in an average day,
all devoted to converting food into nutrients,
storing nutrients for later use,
and sorting out toxins that require elimination.**

Emotions of happiness are necessary for the body to have a strong liver.

Emotions of supreme Happiness are necessary for cohesion.

Emotions of supreme happiness reveal solutions to any problems.

**When there is negativity instead of happiness in being, will, thought,
emotions, and sensations,
physical symptoms of disease, aging and sickness often result.**

**One method of restoring flowing divine emotions of love that attract
health,
happiness, and immortal perfection in the human body
is to use colloidal metals that are charged with divine virtues of Nagar.**

**To understand this, remember that metals can be charged with
frequencies of divine virtues.**

**Remember that Divine Will becoming Divine Love is analogous to
Electricity becoming Magnetism.**

Metals conduct electricity, the element of divine fire and omnipotent will.

**By charging metals with beautiful emotions, which are magnetic,
a colloidal mixture becomes divinely electro-magnetic
and charges the cells of the body
with
such high frequencies that healing occurs.**

**Remember that when a metal is heated to its melting point,
it will flow like the water element, or emotional magnetic energy.**

**Heat is analogous to will, and when will and it's attendant visualization
is applied to emotions and exposed to metal with intent,
this metal becomes a recording instrument,
much like tapes used to record sound.**

**This is why throughout history sacred healing metal objects required
high awareness
and concentration in their making and use.**

**Therefore, when a person wishes to manifest Supreme Happiness
through healing elixirs of a synthetic nature,
he or she first instills flowing emotions of divine happiness into a
colloidal metal elixir.**

**This is done with the understanding of the original purity of all ideas in
divine mind, letter A.**

**It is this virtue that awakens mystical faculties and imprints the
original divine blueprint of perfect health and immortality into a metals
vibration.**

As this is done, metals are cleansed from any frequencies of impurities of being, will, thought, emotions, and sensations, through release, letting them go and change into other states.

This is the divine virtue of the letter umlaut A, ae.

The next step in making synthetic medicine is to attract frequencies of grace and mercy, the divine virtue of letter G, to alleviate harmful effects of previous negative causes of suffering and disease.

This virtue bestows true divine blessings, blessings that uplift a persons vibration so that negative karma is lessened in its harmful effects.

This is necessary for spontaneous remissions and bringing about peacefulness of the spirit.

The virtue of grace and mercy is charged into the metal elixir through the use of the quadrapolar magnet.

The quadrapolar magnet is the use of being- will, thought, emotions, and sensations, otherwise known as Delta, Theta, Alpha and Beta brainwaves which influences the quantum field.

The next step is instilling again into the metal elixir the frequencies of the original purity of all ideas in divine mind, letter A.

This virtue again imprints the original divine blueprints of perfect health and immortality into the metals vibrations.

Imperfections are further released back to divine being for transformation.

When this basic preparation is accomplished, a Child of Light accesses even greater ingenuity through listening to inner guidance, the virtue of letter R.

With this virtue, the final steps of preparation are intuited from guidance.

We inspire understanding through the laws of analogy. We also guide a Child of Light to teachers, books and other sources of information.

Through the laws of analogy, the as above- so below law, there are many ways to cross-reference and document subtle effects of metals on being- will, mind, emotions, and body.

The virtues found in metals correspond to the following planets.

Mercury: The planet of Receptive Divine Wisdom, use brass.

Venus: The planet of Receptive Divine Love, use copper.

Sun: The star of Creative Aspect of Higher Self, use gold.

Moon: The planet of Receptive Aspect of Higher Self, use silver.

**NUMBER TWO is the number of duality, of polarity, of the positive and the negative
principle.**

**In the material world, the two indicates electricity and magnetism, love and hate, light
and shadow.**

It is always a pole and its anti-pole, of which one could not exist without the other.

It is God and man.

**It appertains to those religions which regard God as something separate,
whereby the dualistic principle is to be found in all forms of existence.**

***On a physical plane, this virtue gives mastery over the principle of cohesion or coherence,
gravity and the attractive power of everything material.***

This is necessary for the making of these medicines.

in all spheres and planes with regard to their scope of action.***

The purpose for which negative beings have been created becomes clear.

***Since, in the original principle all beings are alike,
each having been created by Divine Providence to fulfill a certain task,
there is no dissimulation of negative beings,
for from the enlightened persons point of view everything is pure.***

A This is the sound of the divine virtue of highest wisdom and enlightenment.

This virtue reveals the original purity of all ideas in Divine Mind, all of the original blueprints of the perfection of manifest creation.

This sound [soft as in a sighahhhhhh] and virtue is an initiation into the highest wisdom and the purity of all ideas.

This has as a fundamental feature the enlightened mind.

Reasoning, perception, the cognition of the most profound truths, highest knowledge, high intelligence, and the arousing of all intellectual faculties are expressed.

Musical gifts, eloquence, poetic talent, and clairvoyance, clairaudience, the art of levitation, and the control of the air element and its beings are all aroused by meditating on this virtue.

On the physical plane the command of the beings of the air, control over storms, are all made possible by initiation into the highest wisdom.

The color of wisdom and enlightenment is light blue, the musical note is G, the element is air so it has the sensation of ease, and the lungs are formed from it.

Umlaut A, æ The mysteries of life and death and transformation through understanding release of imperfections for change into another state that is the highest good of all.

R To obtain true wisdom for the purpose of creating medicines, the first requirement is the ability to listen to, hear, and follow the inner voice of guidance.

The sound of the letter R is the divine virtue of becoming the master and guardian of freedom and independence.

This virtue brings ingenuity so that anything that is undertaken can be easily accomplished.

In this state there is the feeling of freedom of any pressing burden of the laws, for by the mastery of all the preceding virtues you have achieved a state of maturity by which this feeling of independence has been transformed into an absolute state of security and unimpeachability.

This comes from the realization of the harmony and perfection of all divine laws and the identification and love of them so intensely that they have actually become merged with oneself.

In this case you are the personification and representation of the divine laws and they will serve you, and your sense of freedom will derive from them rather than in spite of them.

The color is golden, the element is earth so it has the sensation of weight, the musical note is C, and the left side of the nose is formed from it.

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions:

Judaism, Islam, and Christianity. Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name.

This name is a key to their powers and influence. Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION,

ISBN 3-921338-02-6, and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH,

ISBN 3-921338-12-4]. Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others. Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.
