The Angels of Answered Prayer

Also known as

The Angels of

Kofan

Beloved,

*One of the most meaningfully poignant impressions
in all of manifestation
is the triumph of hope.*

**Our specialty is to change bad living conditions
into good ones and to procure peoples contentment.**

**We love to participate in the wonderful joy and celebration
in the
Heavens
the exaltation
whenever any negative situation is transformed into a
positive one.**

**Our delight
is in that moment
when "the tide turns"
by the inevitability and glory
of a winning outcome.**

We preside over the impossible becoming possible.

We answer prayers for better living conditions for all sentient beings.

**Each of these reversals
reaffirms the victory of light
as it transforms and transmutes darkness.**

**We become ecstatic
in the process
of helping orchestrate healings
in answer to cries for help.**

***We grow in service and joy each time any thing or situation
that is perceived as ugly
is transformed into something beautiful.***

**This is the basis of all meaningfulness itself: The CONTRAST between
the light and the dark;
the evolution of humanity toward perfection.**

**It is what makes these experiences so impressive, so unmistakable,
and so rich the instant when the dawn breaks out of the darkness, when
the
dismal becomes encouraging,**

and when the depressing dilemma becomes forever positively improved.

***We inform people of ways and means by which they can
better their own
living standard and tell them to what extent their fate is
conditioned by karma
and to what extent Divine Providence allows any
interference.***

At this time Divine Providence is revealing The Law of One
to be widely understood and followed by mankind.

For a very long time, other laws have taken precedence in peoples
thinking,
but The Law of One is The Law of Laws.

This is the original Law, from which all other laws come, and it is this
Law that overrides all lesser laws.

According to The Law of One, when one is harmed, all are harmed.

When one is helped, all are helped.

Whenever a Child of Light invokes this law,
the entire Unified Field of Energy responds.

The Law of One

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM,

and I AM one with all there is,

I ask that only the highest good of all concerned happen.

I give thanks that this is done.

So be it.

We, the heavenly hosts of Kofan, work with this Law.

We know that when living conditions of people are bettered,
their resulting joy and gratitude affects the entire Being of God in
positive ways.

*energy goes out and out, like ripples in a pond, and affect everything
for good.

***It is important that people understand that a remedy
for suffering and hardship always exists within the Divine.***

If you study the Angels of Ysquiron of 17 degrees Cancer, in their message of Love and Mercy, you will see that through the power of Love, lessons can be learned through true divine blessing so that the hardship of karmic return [reaping what you sow] is no longer the only path to wisdom.

This is where Grace and Mercy allow prayers to be answered, even in cases where suffering has been given for the soul to learn the lesson that harmlessness unto self is inseparable from harmlessness unto others.

The realization that self and others are linked in continuums of energy, sometimes referred to as the Unified Field, IS a beginning of wisdom.

It is impossible to affect one part without affecting the whole.

Therefore, we ask for everyone to seek goodness and mercy for all, including self, to promote the well being of The Unified Field, The Web of Life.

If you seek cognition brought about by Love Divine, all things are possible unto you.

This divine loving cognition transmutes into perfection and brings about harmony and justice for all.

This type of love attunes a Child of Light to the divine virtue of Omnipotence, which is the letter K of our name.

This virtue gives the faith that makes miracles.

The Love of which we speak is the same unconditional Love of The Creator, whose love shines equally on the good and bad alike, that operates not on judgement, but on The Law of One, the Highest Good of All Concerned.

This Love brings forth the ability to see behind all appearances underlying Divine Consciousness, Being, and Perfection that upholds all of creation.

This cognition brought about by Love Divine is the virtue of umlaut O, eu, of Kofan.

This Law is applied in the inner worlds and the outer, to oneself and to

others.

We ask you to forgive yourself and others equally, and to love The Divine
within yourself,
just as you love The Divine in others.

The legality of harmony in all visible worlds is the divine virtue of letter
F of Kofan.

It is this virtue that gives true understanding
and mastery of being-will, thought, feelings, and sensations,
so that they are used to manifest the original purity of all ideas in
Divine Mind.

Divine Being and love are omnipresent, omnipotent, and omniscient.

With this Being and love and the cognition and faith inherent within
it, which is your inheritance as Children of Light,
comes wisdom and enlightenment, which is the letter A.

Imperfections are then gladly released back into Divine Being
for changes into other states that are the highest good of all.

The last letter is letter N, which is the divine virtue of Supreme
Happiness.

You may call on our assistance for supreme happiness and the
betterment
of your own living conditions, in being-will, mind, emotions, and
sensation- form,
and for the happiness and betterment of others.

We are The Angels of Answered Prayer,

The Angels of Kofan.

Any planet or point in your astrological chart that falls on 21 degrees
Scorpio shows where you have incarnated to bring answered prayer into
the world.

Be sure to round up degrees of planets and points to their next higher
degree.

This is the 255th group of angels overseeing the earth.

$$2+5+5=12.$$

$$1+2=3.$$

NUMBER THREE is symbolized by a triangle.

The three is the number of akasha principal, of fate, of cause and effect, of Karma,
and is attributed to the sphere of Saturn.

All things on all levels originate from the akasha principle, the fine pre-matter of all
existence,
and therefore from the number three.

is the original idea of procreation. Man and woman and child.

Also it represents spirit, soul, and body. It is the number of intuition, life and death,

and cognition in its highest form.

K-O-F-A-N

K The sound of this letter is the virtue of omnipotence.

In the akasha, the subtle pre-matter,
it is the highest and purest light and is analogous to the original fire, or desire principle.

In the mind, it manifests as the state of faith.

This is the faith that was spoken of in the Bible that moves mountains and does all things.

In the soul, which is also called the astral or feeling body, this
virtue manifests as endurance, toughness, courage, and the ability to remove any emotion
of fear
within yourself or within others.

This virtue gives one courage to face the fear of disease and the unknown and find the
cure.

Since it is the fire and air element, it has the sensation of warmth and ease;
it has the musical note of B, and the color of silvery blue.

Umlaut O, eu,

Akasha: In the principle of consciousness penetrating all, the umlaut
O oscillation evokes the most profound cognition
which can only be brought about by love divine.

By the help of this a person gets to know all the possibilities of
transformation of the spirit, all the systems and ways serving this end,
and all knowledge concerning transformation in all other fields.

He/she is informed about everything that, deriving from the act of creation,
had to pass through all the mode of transformation to be reunited.

A person must attain all the faculties that are offered by this
profound cognition made possible by Love Divine,
in the principle of consciousness-penetrating-all,
and must make use of all possibilities,
in order to get convinced that they cannot be described by words,
by must be experienced, lived through.

I have mentioned the letters umlaut A and umlaut O as the last ones in this series of
exercises,

because by the help of their virtues one is
able to comprehend, from the principle of consciousness-penetrating-all,
the crown of all wisdom in the micro- and macrocosms, from the act of
creation to the present state of evolution, and even to the final development.

Mental: Evoked in the intellect, the virtue of profound cognition brought about by love divine gives the understanding of the transformation of ideas, virtues, etc. by the quabbalistically pronounced word, which is a very great and comprehensive field.

Astral emotional level: In the feelings, the virtue of profound cognition brought about by love divine develops the faculty of perfect astral projection and the mastery of all occult and magical phenomena that have reference to transformation, so that a person may, for instance, assume any desired vibration in the emotional body without being recognized by other beings and with only Divine Providence seeing through him/her.

Apart from this, a person is able to transform any emotional oscillation into the oscillation he wants and to do the same with any element.

Material: When mastered in the physical body, the profound cognition brought about by love divine leads to perfect knowledge of quabbalistic alchemy in the material world.

A person is taught the true preparation and charging of the philosophers stone in the physical sense.

He/she can influence, at will, any oscillation atomic, oscillation, electronic oscillation- by quabbalah, and he/she is able to transform it into the oscillation desired by him/her.

Therefore he/she perfectly masters the laws of transmutation and is able to transform any metal into gold, any stone into a precious stone, etc. if desired.

By the help of this virtue a person is furnished with many other faculties of which he/she cannot even dream now and which non-initiates would regard as absolutely impossible.

Umlaut O is dark orange, has the musical note of D-sharp, is the element of akashic-earth which has the sensation of weight penetrating everything. The ovaries and testicles are formed from this virtue of the profound cognition brought about by Love Divine. In healing, heal the left ovary first and then the right one.

O The sound of this letter is the original principle of divine justice.

Justice is harmony and harmony is justice.

Mentally you will be able to give expression to the absolute legality of harmony in all four basic qualities of the elements, which are will, intellect, feeling, and form.

You will have a high power of judgement and the ability to comprehend spiritually any legality. any interference by Divine Providence for the sake of justice.

You will never be able to condemn anyone unjustly.

This will bring about the abilities to create any change in the emotional situations that you find yourself in and to have absolute success and happiness on all levels.

This sound is the virtue of divine justice. This virtue has an ultramarine blue color, the musical note of C, and is the earth element so it has the sensation of weight. It forms the throat and windpipe.

The sound of this letter is the divine virtue representing the legality and harmony of all visible worlds in creation in both the microcosm of the human body and the macrocosm.

By using this virtue, a person comes to know legality as the most perfect harmony, and furthermore, to see the operation and the laws of analogy of the macro- and microcosm in their truest form.

In the intellect, this virtue gives complete understanding of the interdependence of will, thought, emotion, and form.

The color of this virtue is light green; it is the earth element so it has the sensation of weight.

AWisdom and enlightenment, mystical faculties, the understanding of the original purity of all ideas in Divine Mind.

Umlaut A, aeThe sound of this letter, the long A, in the cosmic language is the virtue of the origin and mystery of life and death regarding their transformation.

By meditating on this virtue, a child of God becomes convinced that in reality death does not exist, for the so-called death is only a transformation from one state into another.

Also will come enlightenment on the cause of this transformation.

With this comes the ability to master all negative spiritual beings in all spheres and planes with regard to their scope of action.

The purpose for which negative beings have been created becomes clear.

Since, in the original principle all beings are alike, each having been created by Divine Providence to fulfill a certain task, there is no dissimulation of negative beings, for from the enlightened persons point of view everything is pure.

Here the saying: to the pure one everything is pure becomes plain.

If there were no negative beings, it would be impossible to distinguish between good and evil; and if there were no passions, there would also be no virtues.

This virtue confirms the words contained in the Bible: through night to light, the deep symbolic meaning of which now becomes clear.

In the intellect the ability is gained to see through all thoughts, actions and wishes concerning matter, and of becoming their absolute master.

In the emotions, this virtue represents desires, passions, and the inclination to self-satisfaction etc.

A person who masters this virtue in their feelings becomes absolute master and ruler of all desires and passions.

Also, a person is able to not cling to mental, emotional, and material virtues and objects.

This means complete independence and freedom and fulfills the saying bind yourself and you will be free.

On the material level this virtue is one of the most materialized.

No matter whether you evoke it in the mind, the feelings, the akasha, or the material world, the earth is influenced by it to a larger extent. The ability to infuse matter with divine virtues is heightened.

The color of this virtue is loamy brown. The musical note is C. The element is earth so it has the sensation of weight. The anus is formed from this virtue.

N This sound is the sound of supreme happiness and fulfillment.

The purpose of creating beauty and plenty is to bless everyone with happiness.

This virtue gives control over the mental matrix, which is the spiritual bonding material that connects the emotional body to the mental body, i.e., to the spirit.

The mastery of this virtue reveals to the child of God all the mysteries relating to the mind and the emotions and bestows the ability to comprehend, see, sense and control, the mental matrix with its sphere of action, either in regard of self or others.

On a physical plane, this virtue gives mastery over the principle of cohesion or coherence, gravity and the attractive power of everything material.

The color is dark red, the musical note is A, it is of the water element of feeling so it has a cool sensation.
The liver is formed from this virtue.

MIRACLES

Note: Many hidden emotions are now coming up to be healed.

Negative emotions and difficulties experienced by the inner self at an earlier time in previous emotional traumas, often come up over and over again in life in order to be healed.

Take these opportunities as golden doorways for healing the wounded inner child within.

These emotions can be healed permanently by taking the time to flow with the emotions with attitudes of empathy, to go through their healing natural change process.

Clearing a trauma follows very definite step by step process.

Here is a step by step outline,

of the procedure of facilitating a trauma clearing:

This is called "*The 23 steps.*"

23 steps a person needs to take

to permanently clear a trauma in one session.

[This is a clinically verified process developed by Paul Michael Schlosser Ph.D during the 1990's when he ran the PTSD clinic

at the VA Medical Center PTSD Clinic in Tuskegee Alabama.

This process was designed to empower ordinary people to clear a trauma.

Since there are millions of people who have suffered emotional trauma,

and there are not enough therapist to treat them all, he felt this process must be made available.

Thorough follow up assessments of veterans and civilians who used this process over many years showed that flashbacks and nightmares did not return.

Dr. Schlosser died in 2005, and he would be grateful for you to share with others.

Please feel free to share.]

Print out and make copies to have on hand whenever a trauma clearing is needed for yourself or others.

The session usually lasts from 2 to 3 hours.

Use this when you or another person are triggered into painful feelings.

You may need extra paper to write down the answers.

Hand these notes over to the person clearing the trauma when you are finished.

If you are doing this alone for yourself, take plenty of time with each step.

It's also very helpful to play soft emotionally healing music, such as Enya, while doing the trauma clearing.

A facilitator asks a triggered person the following questions.

These are very important.

At the beginning, when facilitating someone who wishes to heal feelings;
or whenever a person is doing their own feeling work without a facilitator,
follow this process.

Write down the answers to each question for reference.

1. What are your suds (subjective units of distress)? On a scale of 0 to 10, where 0 is no distress and 10 is maximum emotional distress, what is your distress level?

2.. If you were to really get into this upset, how high would your suds go?

3. What are you feeling now? List approximately twenty feeling words, taking plenty of time to be silent, go within, check feelings.

Don't interrupt silent times when most important inner work is being done.

Continue until twenty descriptive words are noted.

4. Read back the feeling word list. Ask, When have you (I) felt this combination of feelings before?

Then list approximately five memories of when this has been felt before.

5. 5. Start with the first memory, then repeat with each one in the list, asking, If you had a magic wand

6. and could magically heal all the feelings associated with this memory, what would it do to your overall suds?

7. Write this number next to each memory the one with the greatest lowering effect of overall suds is the one you want to clear.

6.

6. Ask the TP [triggered person] to give this memory a name or title.

Write it down.

Now ask, "How long will it take you to tell me this memory from start to finish?" Write down the number of minutes. _____

7. Ask, When you went through this emotional trauma, what negative ideas about life did you start believing?

[Typical examples: The people I trust most betray me most. I cannot trust anyone. I am not loved. I am not safe.]

8. Read back the list of negative ideas.

Now ask, What positive ideas about reality did you get from going through this trauma?

[Usually they will say there isnt any positive ideas.

Ask them to go within and find at least three, such as, Well, I survived.

I was strong and got through it. Somehow I learned to depend on myself.]

9. Now ask them to pretend that they have a scrapbook of their life.

Ask them to describe the photograph of this trauma.

Describe where, what time of day, lighting, furniture or room or place, who was there, etc.

Be sure they write down the description of the scene, but do not let them start telling the trauma yet.

10. Ask them to tell you out loud the entire memory from beginning to end.

As they tell you, write it down and do not interrupt or offer advice.

The healing process is within them, and their attention must stay within.

Any interruptions, no matter how well intentioned, will break the process and concentration.

11. Now ask them to remember the entire memory again silently. Wait patiently while they do so.

Remember that any upset, crying, anger, or such, is good.

Have Kleenex on hand for tears, and a pillow to muffle screams of anger and rage.

When they are finished, ask what their suds is now.

12. Suggest they go through the entire memory out loud again from beginning to end.

It is not necessary for them to repeat anything;

they can just say out loud new stuff they are now remembering as they go through the memory.

Write it down as they talk.

13. Then, have them remember the entire memory again silently, and afterward write down their new suds.

14. Again, go through the entire memory out loud from beginning to end,

simply stating the new things they are remembering.

15. Now ask them to remember the entire memory again silently, then ask what their suds are now.

16. Go through the entire memory out loud again from beginning to end. About this time, they may be getting new insights

into why the trauma happened in the first place, as well as what was going on with other people in the trauma.

Compassion and understanding for self and others will begin to appear. Be sure to write these healing images.

17. Ask them to remember it silently again, then ask, What is your suds?

Keep repeating this process, silently and aloud, over and over,
until suds get to 0. Be careful to write any insights and healing images.

If at any point they get stuck at 1 or 2, ask what is keeping their suds there. If they don't know, ask them to scan their body for any tension,

to go within the body wherever they find tension and ask what the tension is saying to them.

Have them put their hands over this area and say continuously, Soften and flow, soften and flow, soften and flow."

If the energy moves to another part of the body, repeat this process.

This should take care of it and bring the suds down to 0.

If not, have them find whatever other tension is in the body and pretend that area has a mouth and can talk,

and dialogue back and forth until tension is resolved.

("My gut says that I must learn to depend on myself.")

18. Now, ask them to take the final healing image and push it into the original still photo; in other words, take the two images,

the original still photo and the final healing image, and merge them together.

Give plenty of time to do this without interruption. When they look to you for prompting,

ask that they describe what happened to the two images when merged together.

This final image is called the resolution image, and this is the image they will recall of this memory in the future.

19. Ask, What words go with this memory now?

20. Ask, What ideas go with this memory now?

21. Ask, How will this change the way you see yourself now?

22. Ask, "How will this change the way you live your life now?"

Take care to write each answer until the interaction is complete.

23. Instruct the person to be very careful and private for a few days, remaining in a 'healing bubble' while the psyche integrates the change.

Explain that change in the subconscious is like scar tissue in the body;
it is very delicate and tender at first and will take a while to firm up.
Instruct them to *not* get involved in other peoples' problems or issues, and to protect themselves,
as it is very easy to become retriggered during this time.
They are vulnerable, and must promise to protect themselves for as long as it takes to integrate,
which could be anywhere from a day or two to several weeks.

The following is recommended reading for in-depth understanding of emotional healing:

The Primal Revolution and *The New Primal Scream*, by Dr. Arthur Janov.
Remembering Our Home by Sheila Fabricant Linn, William Emerson, Dennis Linn and Mathew Linn
(as well as other books by these authors).
Birth Trauma: The Psychological Effects of Obstetrical Interventions and *Collected Works I and II*,

The Pre-and Perinatal Treatment of Children and Adults, by William R. Emerson PhD.
[As of this printing, books by Dr. Emerson are in pre-publication stage and must be ordered from
Emerson Training Seminars, 4940 Bodega Ave. Petaluma CA. 94939]
Books by Raphael Cushnir, David Deida, Dr. Joe Dispenza, and many others are also helpful.

*For those of you busy healing emotions,
remember that when a person has flowed with all the painful emotions associated with an
emotional trauma
and has reached zero on the SUDS scale
[a scale from one to ten where 0 is no emotional distress and 10 is the worst possible
distress],
it is important to merge the final healing image with the original visual image
of the emotional trauma to create a Resolution Image.*

This is the healed visual image that the memory will retain from now on.

The final healing image is a visual insight or image that spontaneously arises
as painful emotions are remembered and flow and change to positive.

Note: Negative emotions change polarity from negative to positive
through compassionate unconditional love and understanding of how emotions work.

Emotions change and purify through flowing in an
atmosphere of empathy and validation, just as water purifies by flowing freely.

When the resolution image has just been formed, the person who is
clearing will be basking in a wonderful glow of healing and relief and self discovery.

After an appropriate time of silence,
the facilitator should ask him or her to list any positive emotions that he or she is feeling
now.

[If you are clearing emotions by yourself, you must fill the role of facilitator for yourself.]

Write these wonderful new emotions down.

Then ask him or her to list the positive beliefs about reality and life that are the result of this clearing.

Write these down.

Then ask the person how clearing this trauma will change the way he or she lives his or her life from now on.

Also write this down.

Finally, the facilitator should carefully explain to the newly cleared person that they must be careful to protect themselves in a healing bubble for several days or weeks, however long it takes, for the psyche to integrate the new emotions, thoughts, and images.

During this time the psyche is very vulnerable and open, like new scar tissue that has just formed.

Give the paper on which you have written down the entire clearing to him or her for future reference.

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings

which together form a common precursor, or root, of three of the world's religions:
Judaism, Islam, and Christianity.
Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name.
This name is a key to their powers and influence.
Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.
