The Angels of Medical Diagnosis

Also known as

The Angels of

Tedea

Beloved,

We are excellent experts in diagnosis as well as in analysis of disease.

Remember that the Children of Light and Love are made in the image and likeness of Divine Being.

The spiritual, mental, emotional, and physical body temples, all four, of a Child of Light, are vibrational microcosms of the macrocosms.

These four temples form a continuum of energy, just as steam, water vapor, water and ice are an energy continuum of

water.

We teach that harmony must exist between all levels of this continuum in a body for health and even immortality to manifest.

The last enemy to be overcome is death.

Disharmony on this continuum of being/will/spirit, mind, emotions, and sensations causes disease.

We teach you all causes of diseases in the spiritual [desire], mental, astral [emotional], and physical body.

We can, at the same time, make you acquainted with means which remove the causes of disease and disharmony.

Anyone interested in medicine can acquire such a great deal of knowledge from us, that they can become an expert in diagnosis and medical treatment.

We guide a person to healing modalities, many that may be very ancient, and many that are new, that address some or all of the continuums of being/will, thought, emotions and sensations.

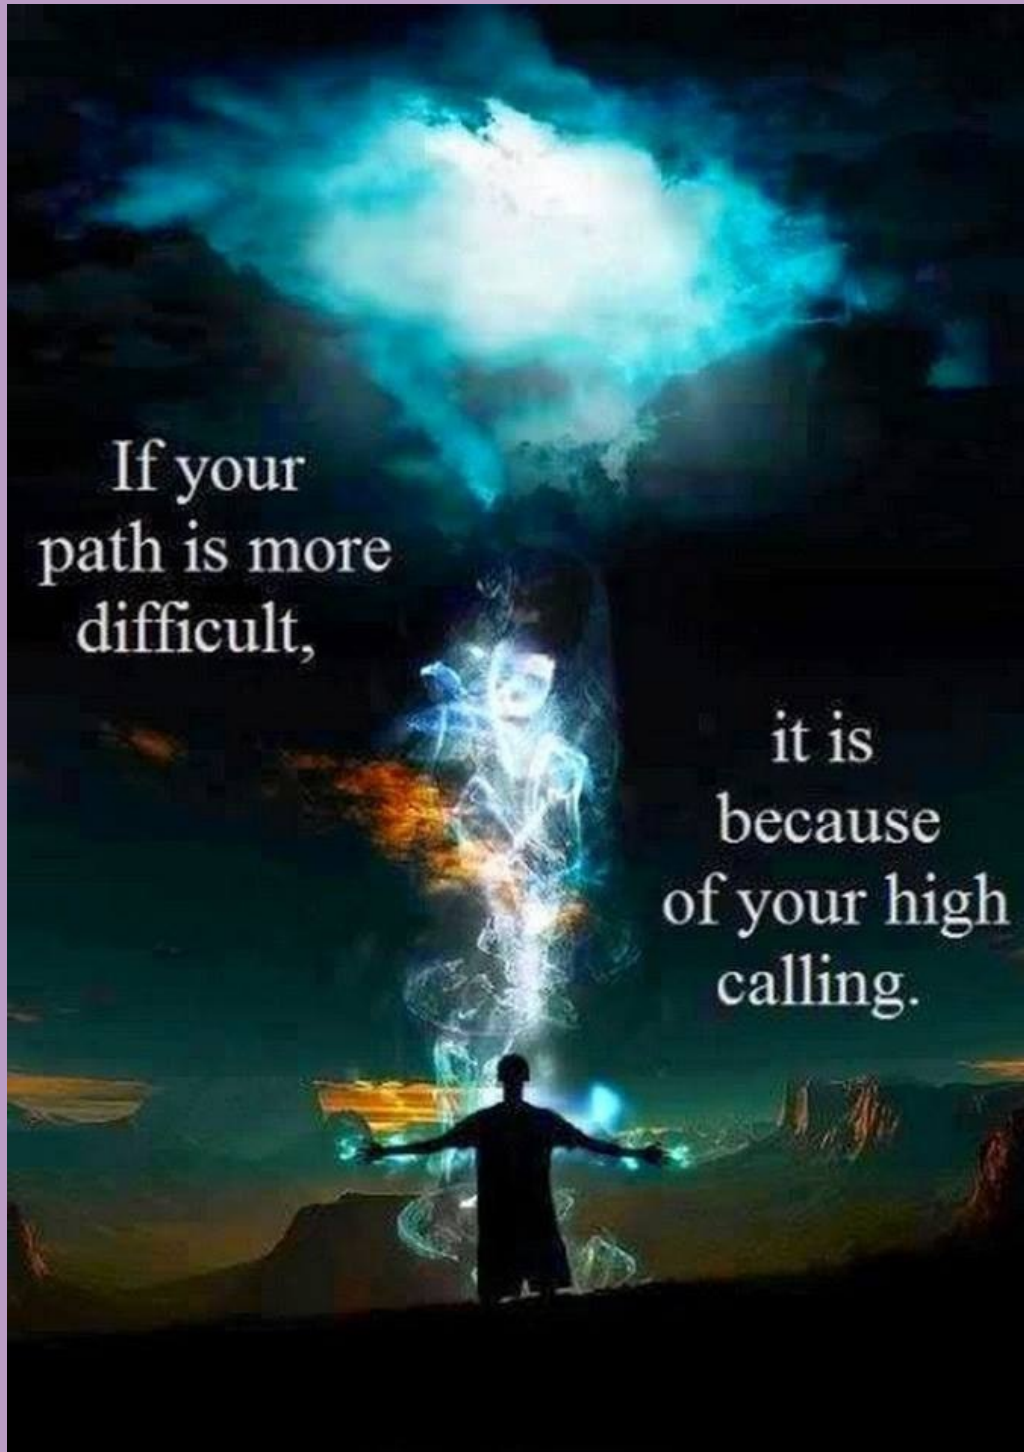

We inspire understanding of Ayurveda, herbs, acupuncture, allopathic medicine, chiropractic, shamanic healing, yoga and many others.

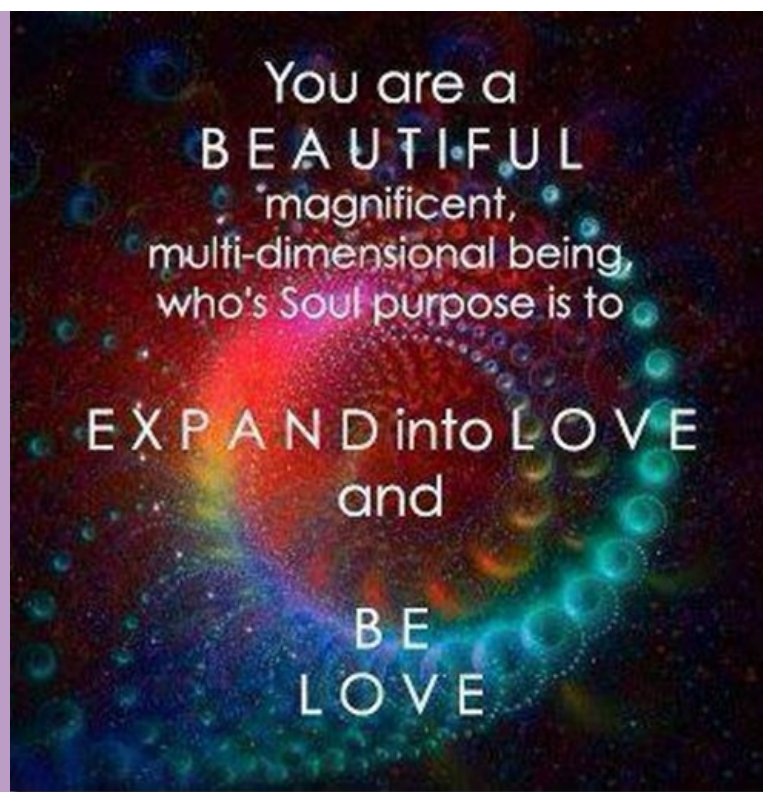

If the spiritual, mental, and emotional causes are not corrected at the same time as the physical, disease will reappear at another time, or in another form.

Divine Harmony on all levels is the greatest preventative

and cure for all diseases.

When diagnosing any illness, the first thing to identify are areas of disharmony in the energy continuum of being/will/spirit, intellect, emotions, and sensations.

Through high inspiration, the divine virtue of letter T, the first letter of our name, Tedeia, a person receives ingenious knowledge about anything that they desire to know about, and this inspiration helps him or her determine not only what is out of balance, but what to do about it.

If there is disharmony in being/will, which is spirit, then this must be addressed and corrected.

Disharmony in being//will means that a Child of Light experiences self as less than divine and desires imperfect manifestations that are not in harmony with the highest good of self and others.

It means that the omnipresence of Divine Being is not experienced as the inner truth of self, that creation is seen as separate from the self.

It also often means that a person is not creating a beautiful and loving reality for self and/or others.

This is corrected for health to manifest.

Often this type of inharmony means that a person has been cut off from remembering the unity of all life, and is not following divine inner guidance, but is attempting to follow other influences.

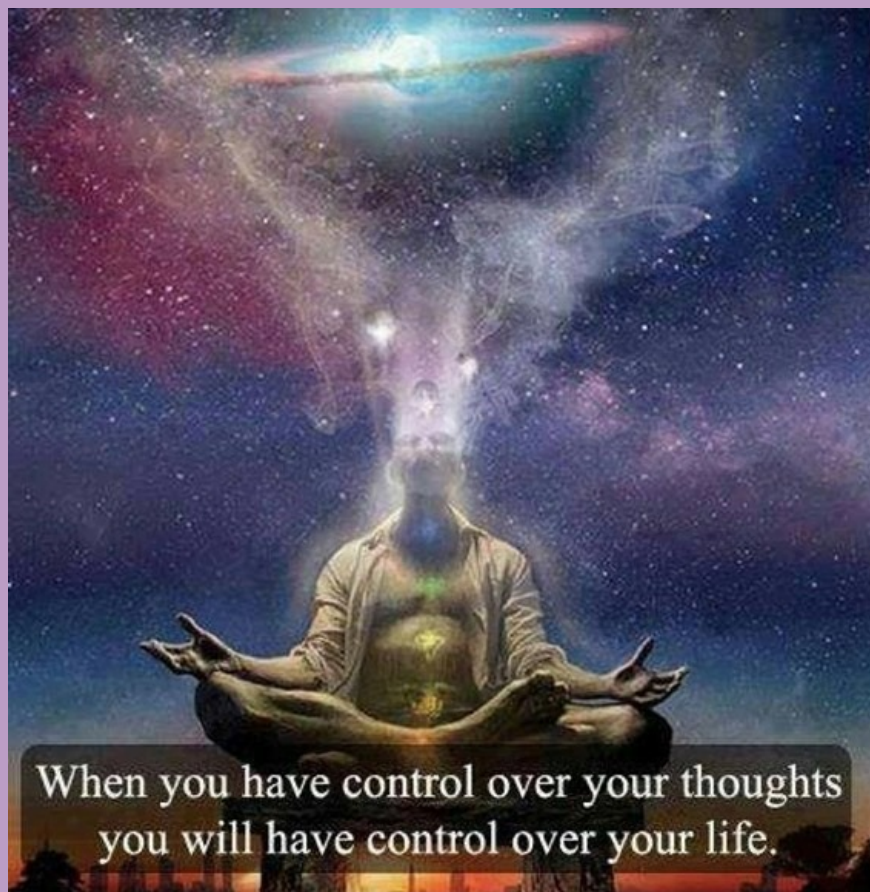

An enlightened healer, parent, or teacher encourages a Child of Light to listen, know and follow inner guidance above all else, to meditate and remember the experience of unity with all life.

"Life is a school,
where you learn
how to remember
what your soul
already knows."

**In this way a person listens to their own body,
and responds in love and understanding to all levels of awareness.**

**If there is disharmony in beliefs, visualizations, thoughts and ideas,
then these are addressed and corrected.**

Disharmony in belief is a reflection of disharmony in spirit or will.

**When you have control over your thoughts
you will have control over your life.**

**A Child of Light goes deep within and reacquaints the self with Divine
Being
and remembers and understands the original
purity of all ideas in Divine Mind, releasing all imperfect ideas and
situations
for changes into other states that are the highest good.**

He or she determines what beliefs about truth and life are really in line

**with his or her own unique highest good as well as the highest good of others,
and experiences deep inner knowing and inspirations.**

If there is disharmony in emotions, then this is corrected.

Emotions reflect beliefs and attract new realities into physical expression.

**Of all levels, the level of tangible feelings and emotions
is most important
for the body's immune system response.**

**Healing painful emotions affects the glands to produce chemicals that
are life affirming,
and life is experienced as beautiful and desirable.**

**Happy emotions signal the immune system that a person wants to live,
and the body responds accordingly.**

**When beliefs are corrected, old toxic emotions of frustration,
betrayal, anger, confusion, guilt, shame, etc., that are
related to old disharmonious beliefs, will naturally flow out to be healed
and released.**

**It is important that a person does not react in fear
or shame of these familiar old wounded painful emotions,
but rather heals them through the power of self validation, faith,
empathy and unconditional love.**

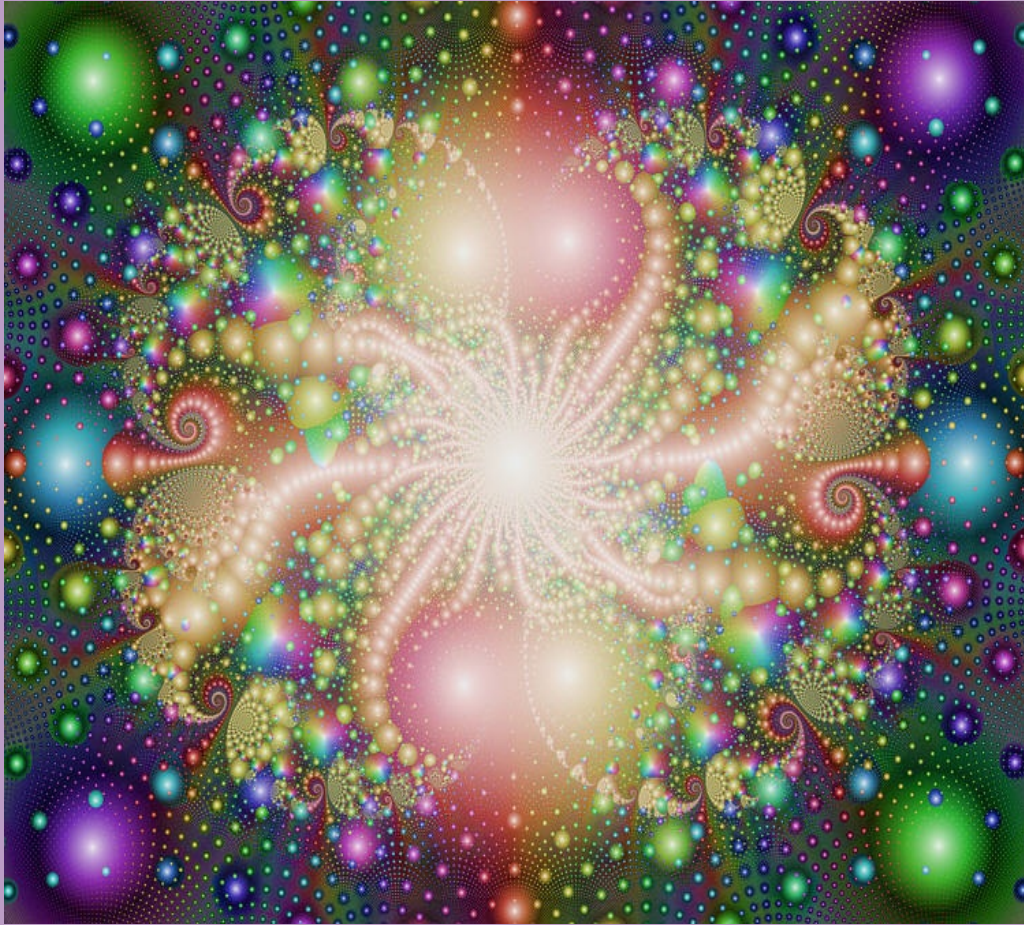

**If they are allowed to flow in a safe and non-destructive way with
empathy, they will surely heal.**

**Safely flowing with emotions releases insights from the psyche,
amazing insights about life,
and this information download allows them to change.**

**Emotions are the change process,
they are the water element and must flow freely to be healed and regain**

purity.

**Negative emotions should
not be feared, resisted, acted out in a harmful way, bottled up, denied,
or bypassed.**

**If they are allowed to flow safely to resolution in an
atmosphere of validation, unconditional love and compassion,
their nature is to heal and bring enlightenment.**

Ask any negative emotion what it has to teach you.

**There is a reason your higher self allowed negative experiences
and emotions to happen to you in the first place.**

**When you ask an emotion what it has to teach you, what wisdom it has
to impart,
why your higher self allowed you to experience it,**

listen carefully in a state of relaxation and ease.

The answers come naturally in deep insights, in a still small voice.

**In this way, even the most hardened criminal experiences pricks of
conscience,
and acknowledges the seriousness of both receiving and giving harm on
any level.**

**Then the purpose for the creation of suffering has been fulfilled for
much wisdom has been gained,
and these emotions release and change into beautiful emotions
naturally.**

Finally, the physical body itself is brought into balance and harmony.

**The body is capable of healing itself
as being/will, mind, and emotions are brought into harmony.**

**Through high inspiration a Child of
Light is guided to interventions, such as certain foods, herbs,
treatments, etc.
which are for the highest good in any situation.**

**Through the divine virtue of omnipresence, the virtue of letter E of
Tedeia,
a person unites his or her normal consciousness with
universal and cosmic consciousness,
so that a person attains the highest form of intuition in the mental
world; he or she
transfers consciousness so that there exists no sense of time and space.**

Divinity in His highest form is able to speak through him or her.

**With the divine virtue of creativity, the virtue of letter D, the
highest wisdom is gained in regard to creation in both the inner and
outer worlds,
in the personal inner universe and the outer universes.
With this virtue, a person creates a loving and divine reality within and
also in the outer world.**

**In the intellect a person attains the profoundest cognition with regard
to the ego-consciousness.**

**In the emotions, the understanding of love in all of its aspects is
perfected.**

**Love is the greatest power, and with love all can be healed and
transmuted.**

**The divine virtue of omnipresence is repeated, and finally the virtue
of wisdom and enlightenment reveals the blueprint**

of original perfection of health and harmony on all levels.

This virtue is letter A.

At this point all imperfections are gladly released back into Divine Being for transformation into other states that are the highest good of all.

This means release of imperfections on every level; in being, desire, in thought, in feelings, and in sensations. This virtue, umlaut A, ae, strongly affects changes in the physical body.

Remember, we guide a person to healing modalities, many that may be very ancient, and many that are new, that address some or all of the continuums of being/will, thought, emotions and sensations.

We inspire understanding of Ayurveda, herbs, acupuncture, allopathic medicine, chiropractic, shamanic healing, yoga and many others.

Once the spiritual, mental, and emotional levels are in harmony, the physical body knows how to heal itself.

When help is needed beyond this, other healing systems are successful as long as the fate of the person allows it.

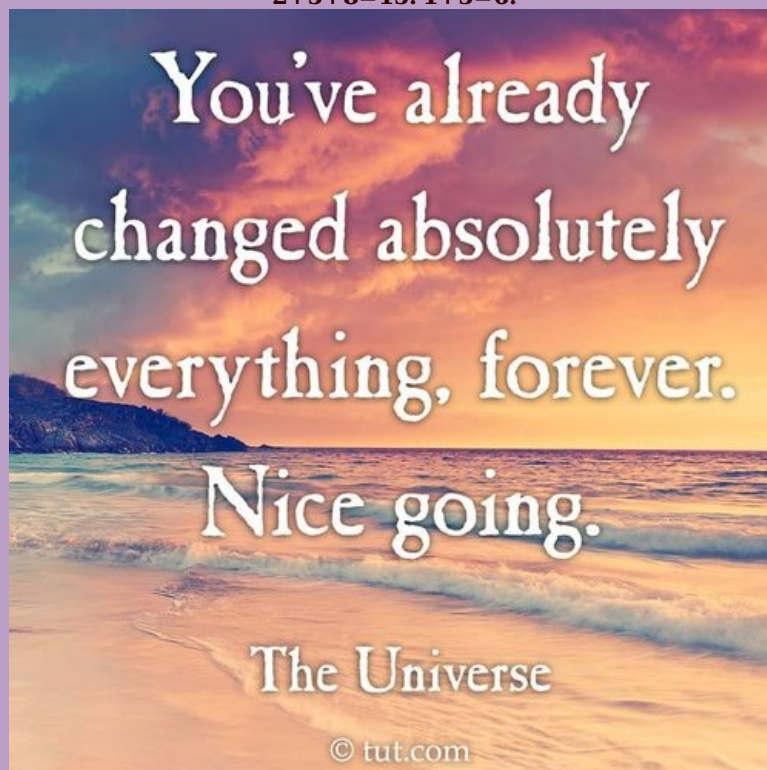

We help people heal their own health with the understanding of what is out of harmony and how to restore balance, health, and joy.

According to the ancient teachings, the first 24 groups of angels overseeing the earth govern the elements.

The next groups govern the 360 degrees of the zodiac.

This is the 258th group of angels overseeing the earth.

$2+5+8=15$. $1+5=6$.

NUMBER SIX represents the macrocosm in its perfection.

It is represented by an equilateral hexagram.

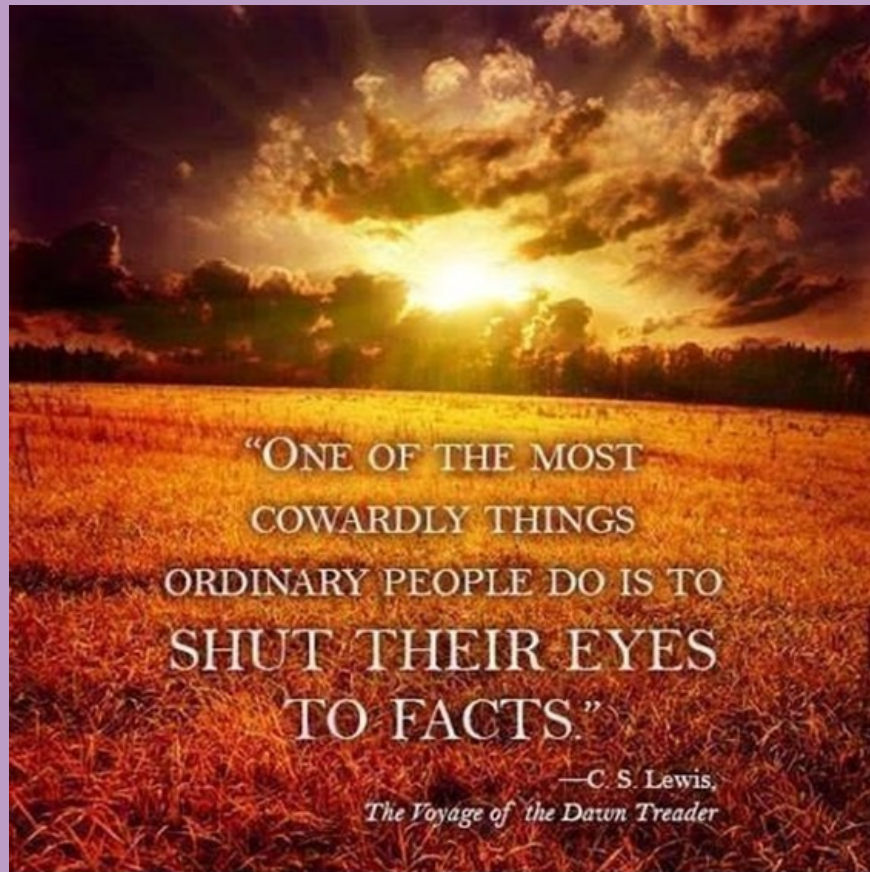

This is the number of man when he finally reaches that state of enlightenment in which he is one with God.

Jesus referred to this number when he said, "I and the Father are One."

The lower triangle of the hexagram denotes, in the mystical sense, man with his three dimensional aspect of body, soul and spirit.

The upper triangle of the hexagram points to the three-dimensional unification and influence of divine power and virtues in the mental, feeling, and physical worlds.

Number six represents the sun and all miracles from angels of other planets.

MIRACLES

The names and meaning of angel groups come from Quaballah,
which is a very ancient set of teachings
which together form a common precursor, or root, of three of the world's religions:
Judism, Islam, and Christianity. Each degree of the zodiac is ruled by a high being of the heavenly
host in the zone girdling the earth,
and the angels who work with him or her.

The being and the angels share the same name.

This name is a key to their powers and influence.

Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of
Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth

and Information of the divine virtues and the letters
are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].
Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books have very important
information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.
Franz Bardon's last autobiographical book, "Frabato the Magician",
gives historical background and was compiled by his German publisher from notes written by Franz
Bardon.
