## **The Angels of Theurgic Healing**

Also known as

**The Angels  
of**

**Radina**

Beloved,

**We inspire people to understand that learning divine virtues,  
such as supreme divine happiness, mercy, faith, or love  
etc.,**

**and successfully mastering the experiential imagination or  
meditation of them,  
which is imagined desire, mental, emotional and sensual  
experiences of them,  
can bring about miraculous cures.**

**We are special experts in healing through theurgy, that is, quabbalah,  
the cosmic language which you are studying in these angel messages.**

**We can show you how the severest diseases can be cured by the cosmic  
language.**

**The cosmic language is not mysterious.**

**It is simply desiring, visualizing, understanding, feeling and sensing  
the reality that your soul longs for, manifesting now,  
by the power of who you really are as a divine being.**

**Whenever anything; any state of being, desire, any belief or idea,  
any emotion, or any sensation or physical possession no longer serves  
the  
highest good, inner guidance tells a Child of Light that it is time to let it  
go,  
to let it transform, to let it change from its present form.**

***Remember that the energy of Scorpio is OMNIPOTENT,  
omnipresent,  
omniscient flowing emotions of WILL TO LOVE.***

***These emotions of Love Divine attract transformation,  
transmutation and rebirth.***

***In each moment, inner guidance enables each persons  
attunement  
to original divine blueprints of perfection.***

***This attunement is enlightenment.***

**Inner guidance is the letter R of our name, enlightenment is letter A,  
and transformation is umlaut A, ae.**

**Once something that is imperfect is recognized and released or let go to  
change,  
love creates new realities to replace it,  
and this is the meaning of the divine virtue of letter D.**

**Through the law of Cause and Effect, the virtue of letter I, a specific new reality can be created to enliven flowing emotions of delight and supreme happiness, the virtue of letter N.**

**All of this leads to ever greater enlightenment and wisdom, and further changes of imperfections into new states that are the highest good, the final letters A and umlaut A, ae.**

**We entrust you with many quabbablistic formulae, or letter combinations, for the curing of severe diseases, so that you could compile a whole book of formulae for your personal use.**

**Similar to combined powers revealed in the names of heavenly host, the divine virtues are combined together for healing purposes. This is done**

**by meditating on two, three, or even more letters one after the other, with special emphasis on each virtue in a different brainwave state. The first letter or virtue will be activated in Delta, or pure being and visualization.**

**The second will be activated in Theta, or deep inner thought. The third virtue in Alpha, or flowing emotions, and perhaps a fourth in Beta, which is sensation, memory and logic .**

**We help inner guidance direct each person to whichever virtues will heal any situation.**

**Remember that each virtue is meditated on, one after the other, in being, will, thoughts, emotions and sensations, with special emphasis on an element or brainwave state for each one. The first letter will be meditated on in pure being and visualization. The second in deep inner thought, the third in emotions, and the fourth letter in sensations.**

**Each combination of virtues creates unique results in the different worlds, the spirit world, the mental world, the astral world and the physical world.**

**When one virtue is used, the akashic level of unity with Divine Being and all creation is emphasized with corresponding visualization.**

**With two, the mental world of deep inner thought is emphasized, and with three, the astral or emotional world is enlivened.**

**For instance, by combining the letters D and C, a radical purification of the mental body is achieved.**

**C...The eucharist in all its forms and self-spiritualization, vermilion with warmth and a sense of ease, musical note D, this virtue forms the stomach  
[from list in Scorpio 12 message].**

**Everything relating to the influences of all divine ideas, virtues and qualities.  
[From list in Scorpio 20 message].**

**D...Mysteries of the art of creation, dark blue with sensations of warmth, musical note C, this virtue forms the right ear.**

**Everything that is connected to the consciousness and the mental matrix,  
which is the connecting link between the mind and the emotions.  
Futhermore, the D everywhere enlarges the ego-consciousness and leads to wisdom. "I and the Father are One."**

**Quabbalah initiates call this formula ,C-D, "the quabbalistic mental broom".**

**Wherever a quick purification of thoughts or negative mental qualities**

is in question, as,  
for instance, is the case before various mystical operations  
requiring an absolute purity of the spirit furthermore,  
also when for the purpose of mental wandering into  
other spheres absolute harmony and poise are needed  
this letter combination may be used with surprising success.

When applied repeatedly, this formula brings about an increased faculty  
of intuition.

When transferred into the emotional body, this formula will purify the  
emotions.

In short: wherever a sudden equalization of the elements in  
the emotional body is needed, this is an excellent letter combination.  
Inspiration is achieved and the strength of emotion is also enhanced.

When applied in a quabbalistic sense in the material world, this letter  
combination enlivens any substance, no matter whether it is a thing,  
a human body or any other living body.

If you specialize in this formulae,  
you are able to change the electronic oscillation that spins round every  
substance at will,  
either speeding it up or slowing it down.

Study carefully the virtues as they have been given in previous  
messages. Ask us to inspire various combinations  
whenever you wish to bring about healings on any level, for self or for  
another.

This is the time in the cycles and rhythms of life that many are  
learning of this cosmic language to activate divine faculties,  
to bring about Heaven-on-Earth in personal inner worlds and in the  
outer world.

As divine virtues of this language are applied to situations, miraculous  
results are easily obtained, depending on degrees of concentration and  
mastery of virtues.

All great teachers, in whatever religion and time,  
have said that all the things that they did are available for others to do.

The help that we can offer in this respect is unlimited.

According to the ancient teachings, the first 24 groups of angels  
overseeing the earth govern the elements. The next groups govern the  
360 degrees of the zodiac.

This is the 260th group of angels overseeing the earth.

$$2+6+0=8.$$

NUMBER EIGHT is the number of the mind, the intellect, and thus the  
number of knowledge.

It is analogous to the planet Mercury.

The octagon

is a symbol of the Native American Medicine wheel in all of its forms.  
All knowledge, actual or theoretical, is a part of the eight vibration.

The Law of One is the original law of Creation,  
and is the supreme Law over all laws in all dimensions.

#### THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

**When one is helped, all are helped.**

**Therefore, in the name of who I AM,**

**and I AM one with all there is;**

**I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen.**

**I give thanks that this is done.**

**SO BE IT!**

**So it is.**

**R-A-D-I-N-A**

**R**

*The sound of the letter R is the divine virtue of becoming the master and guardian of freedom and independence.*

*In this state there is the feeling of freedom of any pressing burden of the laws, for by the mastery of all the preceding virtues you have achieved a state of maturity by which this feeling of independence has been transformed into an absolute state of security and unimpeachability. This comes from the realization of the harmony and perfection of all divine laws and the identification and love of them so intensely that they have actually become merged with oneself.*

*In this case you are the personification and representation of the divine laws and they will serve you, and your sense of freedom will derive from them rather than in spite of them.*

*This is a very high state of consciousness, but it is the state that every human being is destined to accomplish.*

*It is for this reason that your teachers have told you that "the truth is written within your heart".*

*The color of this virtue is golden, the musical note is C. The element is earth with a sensation of weight. The left side of the nose is formed from it.*

**A**

*Wisdom and enlightenment, the original purity of all ideas in Divine Mind. Awakening of mystical faculties such as clairvoyance and clairaudience, and artistic talent.*

*umlaut A, ae*

*The sound of this letter, the long A, in the cosmic language is the virtue of the origin and mystery of life and death regarding their transformation.*

*By meditating on this virtue, a child of God becomes convinced that in reality death does not exist,  
for the so-called death is only a transformation from one state into another.*

*Also will come enlightenment on the cause of this transformation. With this comes the ability to master all negative spiritual beings in all spheres and planes with regard to their scope of action.*

*The purpose for which negative beings have been created becomes clear.*

*Since, in the original principle all beings are alike, each having been created by Divine Providence to fulfill a certain task, there is no dissimulation of negative beings, for from the enlightened persons point of view everything is pure.*

*Here the saying: "to the pure one everything is pure" becomes plain. If there were no negative beings, it would be impossible to distinguish between good and evil;  
and if there were no passions, there would also be no virtues.*

*This virtue confirms the words contained in the Bible: "through night to light", the deep symbolic meaning of which now becomes clear.*

*In the intellect the ability is gained to see through all thoughts, actions and wishes concerning matter, and of becoming their absolute master.*

*In the emotions, this virtue represents desires, passions, and the inclination to self-satisfaction etc.*

*A person who masters this virtue in their emotions becomes absolute master and ruler of all desires and passions.*

*Also, a person is able to not cling to imperfect mental, emotional, and material virtues and objects when they no longer serve the highest good of all concerned.*

*This means complete independence and freedom and fulfills the saying "bind yourself and you will be free".*

*On the material level this virtue is one of the most materialized. matter whether you evoke it in the mind, the feelings, the akasha, or the material world, the earth is influenced by it to a larger extent.*

*The ability to infuse matter with divine virtues is heightened.*

*The color of this virtue is loamy brown. The musical note is C. The element is earth so it has the sensation of weight. The anus is formed from this virtue.*

*D*

*This letter is the sound of the virtue of the mastery of the mysteries of creation.*

*Mastering this virtue gives the understanding that the same laws apply to the microcosm and the macrocosm.*

*As above, so below.*

*By meditating on this virtue the highest wisdom is gained in regard to creation in both the inner and outer worlds, in the personal inner universe and the outer universes.*

*In the intellect a person attains the profoundest cognition with regard to the ego-consciousness.*

*In the emotions, the understanding of love in all of its aspects is perfected. Love is the greatest force, and with love all can be healed and transmuted.*

*On the material plane the mastery of fertility and everything that has to do with procreation is attained.*

*The color of this virtue is dark blue. The musical note is C. The element is Fire so it has the sensation of warmth and heat. The right ear is created from this virtue.*

**I**

*The sound of this letter is the virtue of cause and effect, which is the karma law.*

*On the mental level, this is analogous to memory, remembrance and conscience.*

*In the feeling body, this corresponds to the astral/physical matrix, which is the connection between feeling and physical form, with all of its functions.*

*On the material world, everything that has shape, measure, number and weight can be understood and mastered with this virtue.*

*The color of this virtue is light opal, the musical note is G, the element is earth so it has the sensation of weight, and the left kidney is created by this oscillation,*

**N**

*This sound is the sound of supreme happiness and fulfillment. The purpose theurgic healing is to bless everyone with happiness.*

*This virtue gives control over the mental matrix, which is the spiritual bonding material that connects the emotional body to the mental body, i.e., to the spirit.*

*The mastery of this virtue reveals to the child of God all the mysteries relating to the mind and the emotions*

*and bestows the ability to comprehend, see, sense and control, the mental matrix with its sphere of action, either in regard of self or others.*

*On a physical plane, this virtue gives mastery over the principle of cohesion or coherence, gravity and the attractive power of everything material.*

*The color is dark red, the musical note is A, it is of the water element of feeling so it has a cool sensation.*

*The liver is formed from this virtue.*

**A**

*This is the sound of the divine virtue of highest wisdom and enlightenment.*

*This sound [soft as in a sigh] <sup>a</sup>ahhhhh] and virtue is an initiation into the highest wisdom and the purity of all ideas.*

*This has as a fundamental feature the enlightened mind. Reasoning, perception, the cognition of the most profound truths, highest knowledge, high intelligence,*

*and the arousing of all intellectual faculties are expressed. Musical gifts, eloquence, poetic talent, and clairvoyance, clairaudience, the art of levitation, and the control of the air element and its beings are all aroused by meditating on this virtue.*

*On the physical plane the command of the beings of the air,*

*control over storms, are all made possible by initiation into the highest wisdom.*

*The color of wisdom and enlightenment is light blue, the musical note is G, the element is air so it has the sensation of ease, and the lungs are formed from it.*

*Umlaut A, ae*

*The mysteries of life and death and transformation.*

*Through releasing imperfection back to Divine Being, a person causes negative states of being, desires, thoughts, feelings, and sensations to change into another state that is the highest good of all concerned.*
