## **The Angels of Astronomical Orientation**

**Also known as**

**The Angels of**

**Hachamel**

**Beloved,**

**In this time of the alpha and the omega,  
veils that have hidden truths are being removed on every level,  
in the micro-and macrocosm.**

**The Instruments inspired by us,  
for measuring vast reaches of outer space,  
help reveal mysteries and greatness of creation.**

**We taught the sailors of old to navigate by the stars.**

**We are the original initiators of the compass and the magnetic  
needle.**

**All measuring devices for measuring the depth of the sea and  
pressure of water  
also fall under our range of competence.**

**All astronomical measuring devices,  
from the most ancient to the most modern, are inspired  
by us.**

**We are experts in astronomical orientation.**

**We have taught mankind to look up to the stars  
and to fix the cardinal directions by their constellations.**

***Ancient scriptures refer to physical activities  
of the heavens as living ciphers.***

**The heavens out picture cycles and rhythms of ever expanding Divine Lights,  
information packets and waves of Being, will, mind, and emotions.**

**The astronomical heavens also reflect Heavenly Hosts that are parts of Divine Being.**

**The universe holds many secrets that are becoming known.**

**For example, the time of the recent discovery of Eta Carina,  
an exploding star whose behavior baffles known theories, is spoken  
of in  
scripture as the time of the coming of information  
that awakens memories of mankind's divine birthrights as sons and  
daughters of Divine Being.**

**Rays of light from the heavens change from waves to particles when  
entering a human eye.**

**Waves of light travel along the optic nerve and enter the pineal  
gland,  
and there the light waves become light particles,  
which are packets of information that require unpacking through  
meditation.**

**The pineal gland contains over 20,000 psychoactive chemicals  
that are activated in infinite combinations by the information  
encoded in light particles.**

**These chemical combinations then enter the bloodstream,  
and upload new instructions of reality to each of the trillions of  
cells in the body.**

**Also, according to scientist Dr Grahame Blackwell,  
a large number of small crystals have been found  
in the gland called calcite micro-crystals.**

**They bear a striking resemblance to the calcite crystals in the inner  
ear,  
that have been shown to exhibit the qualities of an electric field  
known as piezoelectric.**

**He demonstrates that since the pineal gland crystals exhibit the  
same qualities,  
this would provide a means whereby an external electromagnetic  
field  
might directly influence the brain.**

**At close magnification the Calcite Micro-Crystals are visible on the  
actual gland.**

**Therefore, it is probably not surprising why over centuries of  
human history,  
esoteric groups consider the pineal gland  
(or All Seeing Eye) to be our built-in wireless transmitter and  
receiver,**

enabling us to connect to higher frequencies and spiritual worlds. "

The information that the stars reveal,  
through the divine virtue of emotional purity and perfect clarity,  
the virtue of Ch of our name  
Hachamel, surpasses the wildest fantasies of imagination.

Emotions are affected by this light, and emotions contain  
compressed information,  
much like a zip file.

As the light waves from the sun and stars enter the eye either  
naturally  
or through optical devices, new combinations of desires,  
thoughts and beautiful emotions occur.

These wonderful energies give zest to life and enthusiasm,  
and awaken such marvelous experiences of divine wonder and glory  
that mere words cannot describe.

Meditating on these amazing new emotions creates new  
frequencies of magnetism,  
which attract heights of wisdom, power, love, and joy previously  
undreamed of in common hours.

*The languages of the stars are beautiful  
and paint in broad strokes the magnificence and majesty  
of Divine Being.*

All of the divine qualities express through the created universes.

The rhythms of Divine Consciousness and Love  
that uphold them awaken the greatest enlightenment.

By meditating on the divine virtues that form the letters of our  
name,  
and calling on our help, the secrets of the heavens can be felt and  
revealed.

The letter Ch is fully discussed below.

This is the 261st group of angels overseeing the earth.

$2+6+1=9$ .

**NUMBER NINE is symbolized by three equilateral triangles interlacing one another.**

**It represents the original idea of the astral or feeling world. It is the number of motion, of rhythm and thus, of life in its most subtle form.**

**It is the number which prepares every situation in the astral or feeling world for the material world. It represents the moon. It is the highest number.**

**The human eye emits light through the whites of the eyes, in addition to receiving light through the pupil.**

**Through the power of delta, theta, alpha and beta brainwaves, four part messages can be sent to the stars in addition to receiving information from them.**

**Delta is as state of pure divine being.  
Theta is visualization and imagination.  
Alpha is emotion.  
Beta is the five senses, memory, and logic.**

### ***H-A-Ch-A-M-E-L***

***H This letter symbolizes the Power of the Word. We inspire each person who searches the heavens with the divine virtues upon which to meditate to fulfill their purpose.***

***In fourfold whole brain thinking, the WILL of a divine virtue flashes forth  
in the pure being of Delta brainwaves,  
the CONCEPT AND MEANING of a divine virtue is understood and contemplated  
in the deep inward thought of Theta brainwaves, the FEELINGS of a divine virtue flow in  
emotions of Alpha brainwaves,  
and the SENSATIONS are held in the five senses, memory, and logic of Beta brainwaves.***

***In the imagination a person becomes a tiny dot in the solar plexus, which corresponds to the akashic element of consciousness-penetrating-all.***

*Then a person proceeds to imagine a virtue as a tiny sun  
located in the region of the body that corresponds  
to the element of the virtue.  
The sun fills this region and also enlivens the part of the body that is  
formed from the virtue.*

*Through the use of breath, a person follows inner guidance in filling  
the entire body or the organ  
that is associated with each virtue and  
then uses the out breath, directing it through the pores of the skin  
over the body part associated with it.  
Following inner guidance, a  
person fills an object, a place, a situation, a person, or even the whole  
universe with the virtue,  
so that the highest alchemy is achieved  
in the way that was intended in the beginning when mankind was  
created.*

*KEEP THE RHYTHM OF THE BREATH NATURAL AT ALL TIMES.  
When the meditation  
is finished, dissolve the light in the body  
so that the body is not overstimulated and balance of elements is  
maintained for perfect health.*

*By using this technique to utter a letter, and several letters one after  
the other making words,  
creativity of the highest order occurs.*

*The letter H has a silvery violet color, is the fire element of will  
and has the sensation of warmth and fire, has the musical note of A,  
and is the virtue by which the right arm of every child of God is created.*

*AWisdom and enlightenment.*

*Umlaut A, ae The sound of this letter, the long A, ae, in the cosmic  
language is the virtue of the origin and mystery of life and death  
regarding their transformation.  
By meditating on this virtue, a child of  
God becomes convinced that in reality death does not exist,  
for the so-called death is only a transformation from one state into  
another.*

*Also will come enlightenment on the cause of this transformation. With  
this comes the ability to master all negative spiritual beings in all  
spheres and planes  
with regard to their scope of action.*

*The purpose for which negative beings have been created becomes  
clear.  
Since, in the original principle all beings are alike, each having been  
created by Divine Providence to fulfill a certain task,  
there is no dissimulation of negative beings, for from the enlightened  
persons  
point of view everything is pure.*

*Here the saying: "to the pure one everything is pure" becomes plain.  
If there were no negative beings, it would be impossible to distinguish  
between good and evil;  
and if there were no passions, there would also be no virtues.*

*This virtue confirms the words contained in the Bible:*

*"through night to light", the deep symbolic meaning of which now becomes clear.*

*In the intellect the ability is gained to see through all thoughts, actions and wishes concerning matter, and of becoming their absolute master.*

*In the emotions, this virtue represents desires, passions, and the inclination to self-satisfaction etc.*

*A person who masters this virtue in their feelings becomes absolute master and ruler of all desires and passions.*

*Also, a person is able to not cling to imperfect mental, emotional, and material virtues and objects.*

*This means complete independence and freedom and fulfills the saying "bind yourself and you will be free".*

*On the material level this virtue is one of the most materialized. No matter whether you evoke it in the mind, the feelings, the akasha, or the material world, the earth is influenced by it to a larger extent. The ability to infuse matter with divine virtues is heightened.*

*The color of this virtue is loamy brown. The musical note is C. The element is earth so it has the sensation of weight. The anus is formed from this virtue.*

**Ch**

*In the akasha, the principle of consciousness-penetrating-all, this is the virtue of clarity and perfect purity of divine emotions. A Child of Light who masters this virtue will achieve the faculty of differentiating the clear from the unclear, to eliminate any obscurities and to perceive and understand everything in its purest form. All that is meant by the word the purity of all ideas is expressed by this letter oscillation.*

*Mental: By the help of this oscillation, the spirit-mental body- will learn to consciously perceive and understand ALL THE LANGUAGES OF THE UNIVERSE, i.e., all the languages of the spheres and planes in their utmost clarity, and gain the faculty not only of understanding all spiritual beings, men and animals, but also of being understood by them all. That is will thereby be easy to understand all the symbols existing in the universe, goes without saying.*

*Astral-emotional: Astrally, a Child of Light will attain, by the help of this letter oscillation, the faculty of understanding and practically applying rhythm in the macro-and microcosm, the large and the small*

*universes of being, in all its phases.*

*By this he or she achieves the power over life and death of every being  
in all spheres and planes.*

*If it is desirable, a Child of Light may awake the dead to life again or  
revive any decayed plant  
since he or she has been revealed, by this letter oscillation, the secret of  
rhythm, i.e., the secret of life.*

*Applying the same letter oscillation, her or she may, of course, also  
make use of the opposite rhythm and cause immediate decay;  
for instance, to make a fully blooming tree wither within a few minutes,  
a.s.o. Even*

*the Bible mentions such an event as a miracle  
by which Christ made a tree wither within a few moments to  
demonstrate his power.*

*A Child of Light knows that such a miracle can only be caused by the  
power of the word.[letter H]*

*Material: In the material world, this divine virtue is analogous to the  
WATER ELEMENT,*

*which is the physical manifestation of EMOTION.*

*It bestows on a Child of Light the faculty of solving all the mysteries of  
the water element  
and the magnetic fluids in all analogies and of  
mastering them at his or her will.*

*By this letter oscillation, a person will get the water element on our  
earth under his or her will,  
at his or her own discretion.*

*If he or she so wishes, he can have water everywhere; he or she can  
calm the waves of the sea,  
walk over the water, make rain showers cease, or vice versa, cause rain;  
he or she can become master of all the water spirits and can achieve  
many other things.*

*The color of Ch is light violet, the musical note is D-sharp, and it has  
the sensation of coolness because it is the water element of feeling.  
The left leg is formed by this virtue.*

*A person becomes one with this divine virtue in order to penetrate and  
understand  
the language of the vast reaches of the heavens.*

*A This is the sound of the divine virtue of highest wisdom and  
enlightenment.*

*This sound [soft as in a sighahhhhh] and virtue is an initiation into the highest wisdom and the purity of all ideas.*

*This has as a fundamental feature the enlightened mind. Reasoning, perception, the cognition of the most profound truths, highest knowledge, high intelligence, and the arousing of all intellectual faculties are expressed. Musical gifts, eloquence, poetic talent, and clairvoyance, clairaudience, the art of levitation, and the control of the air element and its beings are all aroused by meditating on this virtue.*

*On the physical plane the command of the beings of the air, control over storms, are all made possible by initiation into the highest wisdom.*

*The color of wisdom and enlightenment is light blue, the musical note is G, the element is air so it has the sensation of ease, and the lungs are formed from it.*

*Umlaut A, a transformation through releasing imperfections back to Divine Being for change into another state that is the highest good of all concerned.*

*M The letter M is the sound of the divine virtue of EMOTION. Emotions are the magnetic power of the Universe that attracts energy into form on the material plane.*

*Everything in nature is formed on the material plane through the magnetic force of emotion.*

*The color of this virtue is the most beautiful blue-green imaginable. The musical note is D. The element is water so it has the sensation of coolness.*

*The abdomen is formed from this virtue.*

*E This letter is the sound of universal consciousness, which represents, as a divine idea and virtue, its omnipresence in everything that has ever been created.*

*This unites your normal consciousness with the universal consciousness, with the cosmic consciousness, so that you can attain, in the akasha principal, omnipresence yourself. This is known in oriental wisdom as Nirvi-Kalpa-Samadhi.*

*You attain the highest form of intuition in your mental world; you transfer your consciousness so that there exists no sense of time and space.*

*Divinity in His highest form is able to speak through you. The most profound mysteries of materialization and dematerialization become obvious to you as you master this, everything that is material may be transferred back into its refined and most subtle form and any idea can be intensified in such a way that it becomes physically visible.*

*The color of this virtue is deep violet, the musical note is D, the element is akasha, which has the sensation of God-penetrating-all, and the spine is formed from it.*

*L The sound of this letter is the sound of the Divine Virtues all taken together.*

*This letter represents the highest divine virtues that may be described  
by words,  
irrespective of whatever sort they may be.  
This letter oscillation is used to comprehend the Divine Majesty  
and the greatness of God in the form of the purest virtues.*

*From this virtue comes the faculty of comprehending true morality  
as seen from the highest point of view.  
This leads to the borders of saintliness.  
On the feeling level true equilibrium of character occurs  
and mastery of flooding the emotions with the highest light is attained.*

*On the physical level you gain perfect health, beauty and harmony  
and you become absolute master of your own vitality.*

*It is to be imagined as the color of olive green. The musical note is  
F; the element is air, so it has the sensation of ease. The spleen is  
formed from this virtue.*

Footnotes:

The names and meaning of angel groups come from Quaballah,  
which is a very ancient set of teachings which together form a common precursor, or root,  
of three of the world's religions:

Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the  
earth,  
and the angels who work with him or her.

The being and the angels share the same name.

This name is a key to their powers and influence.  
Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of  
Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth

and Information of the divine virtues and the letters

are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].  
Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books have very important  
information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.  
Franz Bardon's last autobiographical book, "Frabato the Magician",  
gives historical background and was compiled by his German publisher from notes written by Franz  
Bardon.
