The Angels of Water Regulation

Also known as

The Angels of

Horasul

Beloved,

**Pure health giving flowing waters,
in settings of beauty,
are physical embodiments
of unconditional divine flowing love.**

"As above, so below".

**The real work of humanity is the work of manifesting spiritual
perfection,
and filling all souls with joy and love,
of creating beauty
so that Earth is at one with Heaven.**

Therefore, when water regulation becomes useful,

***we are the heavenly host that inspire engineers with the
divine virtues of Horasul,
to create lovely and environmentally
healthy and sustainable water systems.***

***These new systems purify waters through sacred natural
spin dynamics.***

***Remember that manifestation goes through different densities of
manifestation.***

Everything in creation starts out as intention, which is fire.

Then it becomes concepts, which is air.

Next it becomes emotional states, which is water.

***Then, out of the infinite field of quantum possibilities, it becomes
matter, which is earth.***

Fire and air are electric.

Water and earth are magnetic.

So dances male and female principles in creation.

The male impregnates the feminine, giving birth to physical reality.

**EMOTIONS of divine virtues are magnetic, they are the divine
feminine consciousness flowing in
Omnipresent Divine Being.**

**Flowing emotions create magnetism that attracts new realities on
the physical plane.**

**In the time of Heaven on Earth, people attune flowing emotions to
divine states of awareness.**

**In this way waters are blessed, to be ever more health and life
giving.**

**Emotions that embody Divine Consciousness
and Life
and Love
attract heaven on earth.**

**As the magnetism of the feminine divine principle of emotion-water
and the electric masculine
divine principle of will-desire-light-electricity-fire both purify and
balance on all levels,
the waters of Earth increasingly bless and nourish
all life to manifest The Garden of Eden.**

This follows the original purity of Earths divine blueprints.

**Placid peaceful lakes, deep strong rivers, breathtaking waterfalls,
meandering creeks, springs, underground waters, rain and storm,
are all charged with flowing emotions of love, of life, with all the
divine virtues taken together.**

This is the birthright of all sentient beings.

**Therefore, when water regulation becomes useful,
we are the heavenly host that inspire engineers with the divine
virtues of Horasul,
to create lovely and environmentally
healthy and sustainable water systems.**

**These new systems purify waters through sacred natural spin
dynamics.**

**It is evident that even the most simple organism is crucial to the
fabric of life as everything is linked together.**

**All previously built water systems, especially those that are
unpleasing to the eye,
those that do not utilize curving spin flow dynamics,
or that compromise the matrix of life in any way,
are being corrected during this time of Alpha and Omega,
Heaven on Earth.**

Divine Providence inspires that artificial water regulation, like everything else, is accomplished according to The Law of One, the highest good of all concerned.

**A water molecule with proper spin is pure.
Spin creates surface tension that keeps it from absorbing impurities.**

**So waters, to be healthy, must flow in undulating patterns, not straight lines,
as curves create spin on the water molecules
and this allows waters to be free and purify from toxins.**

We are inspiring water regulations to reverse desertification and nourish habitats.

Beauty is essential for nourishing the spirit and soul.

We inspire beautiful water systems that work according to universal laws of maximum efficiency and minimum effort, using natural principles that require minimum maintenance.

We teach ways of treating waste water that create park lands and wetlands for wildlife.

Blessings that result from harmonious water regulations are astounding.

Cities become ever greater havens of beauty and cleanliness, wildlife thrives everywhere, and life on Earth blooms as gardens of Eden for all sentient beings.

As wetland and forest habitats are restored and perfected, weather patterns provide perfect rainfall everywhere.

The real work of humanity is the work of manifesting spiritual perfection and filling all souls with joy and love, of creating beauty so that Earth is at one with Heaven.

It is only with relaxation, ease, peace, plenty and contemplation, that the voice of Divine Being is heard loudly enough and often enough to heal wounds of the past and fill all consciousness with light, love, and empathy.

Because time must be available for meditation, basic needs such as food, water, energy, clothes, and shelter become freely abundant in a World of Peace for all.

As people turn every resource to inner and outer beauty, wisdom, creativity, love, harmony, and peace, Heaven is indeed restored to Earth.

We control all artificial water regulations on the earth.

We inspire people to make use of the powers of water.

Beautiful irrigation, canals, and all ways of controlling and directing water fall under our range of competence.

We inspire everything from simple water mills to the most complex hydroelectric power stations.

*According to the ancient teachings,
the first 24 groups of angels overseeing the earth govern the elements.
The next groups govern the 360 degrees of the zodiac.
This is the 263rd group of angels overseeing the earth.*

*NUMBER TWO is the number of duality, of polarity, of the positive and the negative principle.
In the material world, the two indicates electricity and magnetism, love and hate, light and shadow.
It is always a pole and its anti-pole, of which one could not exist without the other. It is God and man. It appertains to those religions which regard God as something separate, whereby the dualistic principle is to be found in all forms of existence. Two can be represented by a horizontal line.*

*H*This letter is The Power of the Word.

We inspire each person who works with water regulation with certain divine virtues upon which to meditate to fulfill their responsibilities in ways that are the highest good of all concerned.

In fourfold whole brain thinking, the experience of pure being and unity with Divine Being and all creation comes first in deep Delta brainwave states.

Then the WILL of a divine virtue is held in Delta brainwaves, the CONCEPT AND MEANING of a divine virtue is focused on in the deep inward thought of Theta brainwaves, flowing EMOTIONS of a divine virtue flow in Alpha brainwaves, and the SENSATIONS, are held in the five senses, memory, and logic of Beta brainwaves.

A Child of Light imagines him or her self to be a tiny dot in their body's solar plexus, the midriff, which corresponds to the akashic element of consciousness-penetrating-all.

Through the use of will, imagination, emotion, sensation, and breath, divine virtues are seen as tiny suns in the microcosm of the human body, radiating whichever color and musical note that correspond to the divine virtue being enlivened.

The meaning, emotions, and sensations are breathed out and in through the pores of the skin, filling the entire body and especially the organ that is associated with

*each virtue, and then filling whatever inner guidance directs, up to and including the whole outer universe.
The highest alchemy is achieved in the way that was intended in the beginning when mankind was created.
More detailed explanations of this technique are available in other messages.*

Be sure to keep the rhythm of the breath natural, and to dissolve the light in the body after the meditation is over in order to keep the elements of the body in balance and not overstimulate any part of it.

By using this technique to utter letters and words, each one that has divine virtues associated with them, creativity of the highest order occurs.

The letter H has a silvery violet color, is the fire element of will and has the sensation of warmth and fire, has the musical note of A, and is the virtue by which the right arm of every child of God is created.

Umlaut O, eu

Akasha:In the principle of consciousness penetrating all, the umlaut O oscillation evokes the most profound cognition which can only be brought about by love divine.

*By the help of this a person gets to know all the possibilities of transformation of the spirit, all the systems and ways serving this end, and all knowledge concerning transformation in all other fields.
He/she is informed about everything that, deriving from the act of creation, had to pass through all the mode of transformation to be reunited.*

A person must attain all the faculties that are offered by this profound cognition made possible by Love Divine, in the principle of consciousness-penetrating-all, and must make use of all possibilities, in order to get convinced that they cannot be described by words, by must be experienced, lived through.

I have mentioned the letters umlaut A and umlaut O as the last ones in this series of exercises, because by the help of their virtues one is able to comprehend, from the principle of consciousness-penetrating-all, the crown of all wisdom in the micro- and macrocosms, from the act of creation to the present state of evolution, and even to the final development.

Mental:Evoked in the intellect, the virtue of profound cognition brought about by love divine gives the understanding of the transformation of ideas, virtues, etc. by the quabbalistically pronounced word, which is a very great and comprehensive field.

*Astral/ emotional level:In the feelings, the virtue of profound cognition brought about by love divine develops the faculty of perfect astral projection and the mastery of all occult and magical phenomena that have reference to transformation, so that a person may, for instance, assume any desired vibration in the emotional body without being recognized by other beings and with only Divine Providence seeing through him/her.
Apart from this, a person is able to transform any emotional oscillation into the oscillation he wants and to do the same with any element.*

Material: When mastered in the physical body, the profound cognition brought about by love divine leads to perfect knowledge of quabbalistic alchemy in the material world.

A person is taught the true preparation and charging of the philosophers stone in the physical sense. He/she can influence, at will, any oscillation atomic, oscillation, electronic oscillation- by quabbalah, and he/she is able to transform it into the oscillation desired by him/her.

Therefore he/she perfectly masters the laws of transmutation and is able to transform any metal into gold, any stone into a precious stone, etc. if desired.

By the help of this virtue a person is furnished with many other faculties of which he/she cannot even dream now and which non-initiates would regard as absolutely impossible.

Umlaut O is dark orange, has the musical note of D-sharp, is the element of akashic-earth which has the sensation of weight penetrating everything.

**The ovaries and testicles are formed from this virtue of the profound cognition brought about by Love Divine.
In healing, heal the left ovary first and then the right one.**

O The sound of letter O is the sound of the initiation into the original principle of divine justice.

**Justice is Harmony and Harmony is Justice.
Maintaining harmony in the water systems of earth for all life brings success and happiness.**

You will have a high power of judgement and the ability to comprehend spiritually any legality,

any interference by Divine Providence for the sake of justice.

You will never be able to condemn anyone unjustly.

This will bring about the abilities to create any change in the emotional situations that you find yourself in and to have absolute success and happiness on all levels.

This virtue has an ultramarine blue color, the musical note of C, and is the earth element so it has the sensation of weight. It forms the throat and windpipe.

R The sound of the letter R is the divine virtue of becoming the master and guardian of freedom and independence.

In this state there is the feeling of freedom of any pressing burden of the laws,

for by the mastery of all the preceding virtues you have achieved a state of maturity by which this feeling of independence has been transformed

into an absolute state of security and unimpeachability.

This comes from the realization of the harmony and perfection of all divine laws

and the identification and love of them so intensely that they have actually become merged with oneself.

In this case you are the personification and representation of the divine laws and they will serve you, and your sense of freedom will derive from them rather than in spite of them.

The color of this virtue is golden, the musical note is C. The element is earth so it has the sensation of weight. The left side of the nose is formed from it.

A This is the sound of the divine virtue of highest wisdom and enlightenment.

This sound [soft as in a sighahhhhh] and virtue is an initiation into the highest wisdom and the purity of all ideas.

This has as a fundamental feature the enlightened mind.

Reasoning, perception, the cognition of the most profound truths, highest knowledge, high intelligence, and the arousing of all intellectual faculties are expressed.

Musical gifts, eloquence, poetic talent, and clairvoyance, clairaudience,

*the art of levitation, and the control of the air element and its beings
are all aroused by meditating on this virtue.*

*On the physical plane the command of the beings of the air,
control over storms, are all made possible by initiation into the highest
wisdom.*

*The color of wisdom and enlightenment is light blue, the musical note
is G, the element is air so it has the sensation of ease, and the lungs are
formed from it.*

*Umlaut A, aettransformation, the mysteries of life and death and
control over imperfection through release and change of state.*

*This virtue reveals that in truth there is no true death,
only transformation into another state that is the highest good of all
concerned.*

Imperfections on every level are released back to Divine Being.

*S This sound is the sound of all-penetrating-power.
This is the most subtle substance of the divine spirit, i.e., with the original
divine will or fire
which works as a substantial power in everything that has been created by
Divine Providence.*

*A child of God using this divine virtue attains the spiritual gift of
perfect mastery over the electrical fluid, which is the use of will,
and is able to control everything analogous to will.*

*A state of clairvoyance in its purest form and perfect control over other beings
is gained by this virtue in the emotional nature.*

*This power is used to completely align all water systems with the energy of
divine virtues.*

*The color of this virtue is purple red, its musical note is G-sharp, it
is the fire element of will and so it has the sensation of warmth,
and the gall bladder is the part of the body that is formed by it.*

*U The letter U in the cosmic language represents the faculty
of comprehending the creative act and its relationship to karma.*

*It evokes the highest form of intuition and inspiration
and makes possible the understanding of ones own karma and its
modification.*

*It also makes possible the transfer of consciousness to any state imaginable
and this results in states of highest trance.*

*This letter is imagined as shining velvet black and is practiced in the solar
plexus and then in the legs and feet.*

This letter enlivens the pancreas.

*The musical note is B, and it is the element of Akasha,
which has the sensation of God-penetrating-all in meditation.*

L*The sound of this letter is the sound of the Divine Virtues all taken together.*

This letter represents the highest divine virtues that may be described by words,

irrespective of whatever sort they may be.

This letter oscillation is used to comprehend the Divine Majesty and the greatness of God in the form of the purest virtues.

From this virtue comes the faculty of comprehending true morality as seen from the highest point of view.

This leads to the borders of saintliness.

On the feeling level true equilibrium of character occurs and mastery of flooding the emotions with the highest light is attained.

On the physical level you gain perfect health, beauty and harmony and you become absolute master of your own vitality.

It is to be imagined as the color of olive green. The musical note is F... the element is air, so it has the sensation of ease. The spleen is formed from this virtue.

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name. This name is a key to their powers and influence. Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4]. Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

THE LAW OF ONE

**We are all one.
When one is harmed, all are harmed.
When one is helped, all are helped.
Therefore, in the name of who I AM, and I am one with all there is;
I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen .
