## The Angels

of

*Peace  
on  
Earth*

Also known as

The Angels  
of

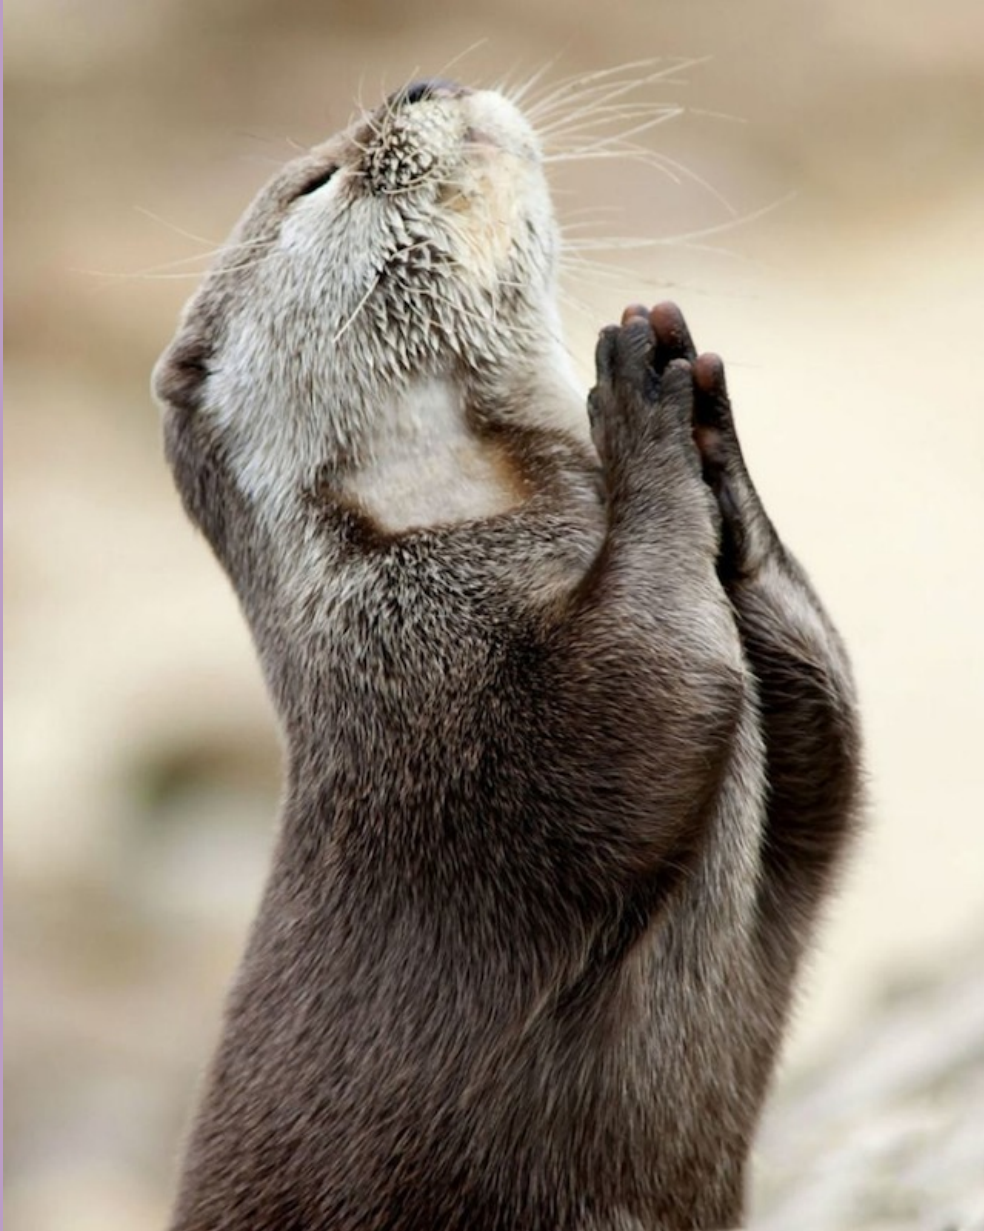

*Erimites*

Beloved,

*We inspire peace amongst the peoples and  
beings of earth.*

**THIS is our mission.**

**Ideals which aim at the true peace of mankind are led and strengthened by us.**

**We awaken memories of miracles in the past,  
miracles of awakening peace on Earth!**

**We are always pleased to entrust you with the ways  
in which good influences can be produced by the Akasha-principle,  
which is consciousness-penetrating-all, to awaken peaceful ideas.**

**The Akasha principal is deep Delta brainwave consciousness,  
similar to that produced in infancy and in deep dreamless sleep  
each night.**

**Let us walk you through a typical meditation  
of peace on earth in the Akasha principal.**

**Your cells remember a divine state of complete pure being  
and unity with divine being  
and all creation,  
for this is the state that is experienced in infancy,  
and in deep dreamless sleep each night.**

**This cellular experience,  
this memory within your very cells,  
awakens upon your request in meditation.**

**In deep meditation,  
request your cellular memory to awaken this awareness,  
of oneness with divine being and all creation,  
within you.**

**Because this state is experienced each night in deep dreamless  
sleep,  
it will be easy to experience this state when you become receptive,  
asking your cells to let you remember,  
in quiet deep meditation.**

**Now your consciousness in meditation  
experiences itself as omnipresent  
and one with Divine Being  
and all creation  
on every level.**

**As it was written:  
"I and the Father are ONE."**

**"What you do unto the least of these, you do unto me."**

**That is why Omnipresence is the divine virtue of letter E of our name Erimites.**

**As you experience this ground of oneness,  
then peace becomes the strongest desire of the will  
and love of the heart.**

**This deep Delta state of Pure Being  
is a state of 0 to 4 *Oscillations Per Second*, or *ops*, of brainwave  
activity.**

**Delta is a precursor of deep inner imagination and thought, or  
*Theta*,  
which is 4 to 7 ops, which becomes dominant in childhood.**

**"Ye must be as little children,  
to enter the kingdom of heaven."**

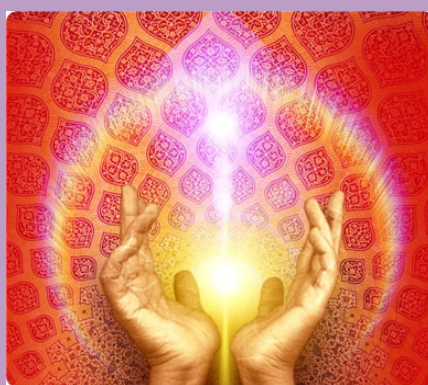

**This state of pure being is the state of Akasha.**

**Here the Akasha is experienced first hand.  
Akasha is the energy of oneness with all.**

**Because this deep Delta brainwave state  
is the dominant consciousness pattern of infants, it was written:  
*"Ye must be as little children to enter the Kingdom of Heaven".***

**The key is to still the mind, relax, breathe deeply,  
and ask cellular memory to help you go into this original level of  
pure being.**

**Ask your self, your subconscious mind, to remember deep  
dreamless sleep,  
and also how it was like when you were born,  
and when you were an infant.**

**Close your eyes, relax.**

**In a deeply relaxed, almost asleep state,  
remember yourself as very very young.**

**Spend a lot of time in this remembering.**

**It is in this state of being very young  
in which your Delta brainwaves are naturally dominant.**

**In this state of remembering this experience,  
your brainwaves of Delta,  
or akasha,**

**flow consciously and strongly again.**

**Once remembered,  
this deeply relaxed state of being becomes natural  
even in waking everyday life.**

**Now your everyday consciousness identifies with Divine Being and  
all creation,  
and with all divine virtues that manifest through and within all  
creation.**

**Flow with divine emotions of this unity  
and with awareness that these virtues  
are everywhere present.**

**It is easy now to be one with divine omnipotent will,  
willing to bless all with harmony and perfection.**

**Follow inner guidance on which virtues to focus on in any given  
moment.**

**Inner guidance is the divine virtue of letter R of Erimites.**

**As you are in this state of being very very young,  
of pure being,  
you enter into original divine WILL,  
*[the fire principle of the Delta state].***

**Now IDENTIFY  
*[ the air principle or Theta state of brainwave activity 4-7 ops]*  
a virtue,  
for example, *divine happiness*,  
and flow with powerful and beautiful emotions of divine happiness.  
*[the water emotional principle- Alpha state of brainwave activity-7-12 ops].***

**Experience this Divine Happiness everywhere,  
in meditation sense it penetrating all.**

**Now emotions, sensations and manifestations of supreme divine  
happiness,  
*[earth principle Beta state, 12-and up ops],*  
are easy to experience in meditation.**

**Let's look at this again.**

**Remember that the divine virtue of flowing emotions,  
which is the magnetic principle of attraction,  
is the virtue of letter M of Erimites.**

**Go deeply into the akasha, the awareness of unity with all.**

**Imagine divine emotions of the most wonderful virtues  
everywhere present.**

**Now create corresponding divine thoughts,  
and with your imagination,  
experience corresponding divine emotions flowing into creation.**

**Now remember that Theta brainwaves of deep inner thought  
are dominant in childhood.**

**Theta brainwaves, of imagination and deep inner thought,  
can only be experienced in states of relaxation and ease of a safe  
and happy child.**

**Remember yourself at the age of innocent childhood,  
remember times when you were free to imagine beautiful  
visualizations and emotions.**

**If your childhood was one of deep stress,  
then imagine what it would have been like if you had been happy  
and free.**

**Relax and produce beautiful deep inner thoughts,  
contemplate the rapture and ecstasy of divine happiness,  
until you imagine yourself flowing emotions of divine love  
everywhere.**

**Meditations of emotions of this virtue attract new physical realities  
into form.**

**Just as Air produces water,  
analogous to water vapor becoming rain,  
so do flowing emotions produce material situations.**

**Alpha brainwaves are activated by being aware of flowing emotions,  
this state of awareness is dominant in adolescence.**

**Spend plenty of time remembering yourself when you were this age,  
when your powerful emotional states  
produced strong Alpha brainwaves.**

**Now flow with emotions of divine happiness  
everywhere within you and around you,  
because you are one with all creation.**

**These flowing emotions produce magnetism that attracts and  
causes physical  
realities to manifest,**

**corresponding to frequencies of divine happiness that you are  
flowing with.**

**Imagine a world of powerful emotional happiness of great intensity,  
a world where the emotional frequencies of happiness everywhere  
are joyful,  
loving,  
harmonious.**

**Now we look at the fourth and last brainwave state.**

**This is the state of Beta brainwaves; memory, logic, and the five  
senses,  
dominant from puberty onward through adulthood.**

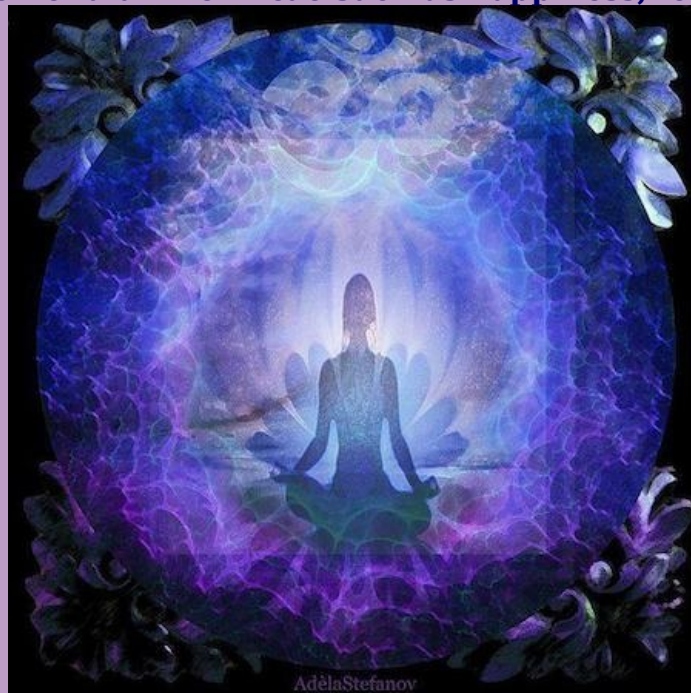

**This is already strong within you.**

**Use these brainwave patterns to experience  
in vivid meditation and imagination corresponding sensations  
of wonderful emotional worlds of divine happiness manifesting in  
physical reality.**

**Sense the beautiful sights, sounds, smells and touch of loving  
realities  
of supreme happiness everywhere,  
like cool flowing waters of life.**

**Remember that fire or will virtues are sensed as heat and expansion,  
air or thought virtues are sensed as lightness and relaxation and  
ease,  
flowing water or emotional virtues are experienced as having chill,  
and earth virtues are experienced as having weight.**

**The strength and quickness of manifestation depends entirely on  
the  
strength and purity of being, will, contemplation, emotions, and  
sensations in imagination,  
in meditation of a divine virtue such as happiness, love, faith etc..**

**Bringing divine virtues into manifestation is an example of the law  
of cause and effect,  
the divine virtue of letter I of Erimites.**

**Using the four brainwaves in this way with divine virtues is the  
fourfold key,**

the quadripolar magnet,  
the magical process  
by which  
mystics and miracle workers of all times  
bring about changes in the conditions of the earth.

Each human being is capable of this type of manifestation,  
which is why it was spoken:

*All that I do ye shall do and more.*

Use this knowledge with highest divine inspiration.

High inspiration is the divine virtue of letter T.

Do it with all penetrating will power,  
which is the virtue of letter S.

Whenever you work in the akasha,  
which is a deep state of meditation  
and awareness of omnipresent consciousness-penetrating-all,  
invoke the original law of creation,  
The Law of One,  
which clearly  
states that We are All One,  
and that when one is harmed, all are harmed,  
and that when one is helped, all are helped.

By using this law, any action that you take becomes impeccable  
and the highest reaping results from the sowing.

There is no being of any polarity who will take exception to this Law,  
which is The Law of Laws.

Call forth this primordial Law that is the Prime origin of all other  
laws.

This law overrides all lessor laws,  
on any plane or dimension,  
and is used with confidence to create the Highest Good of All  
Concerned.

The importance and power of this law cannot be overstated.

THE LAW OF ONE

WE ARE ALL ONE.

WHEN ONE IS HARMED, ALL ARE HARMED.

WHEN ONE IS HELPED, ALL ARE HELPED.

THEREFORE, IN THE NAME OF WHO I AM,

AND I AM ONE WITH ALL THERE IS,  
WITH ALL POLARITIES AND ALL LIFE,

OMNIPOTENT, OMNIPRESENT, OMNISCIENT,

I ASK THAT ONLY THE HIGHEST GOOD OF ALL CONCERNED

HAPPEN .

**I GIVE THANKS THAT THIS IS DONE.**

**SO BE IT.**

**We are the Angels of Peace on Earth,**

**The Angels of Erimites.**

It's not our job to toughen  
our children up to face a  
cruel and heartless world. It's  
our job to raise children  
who will make the world a  
little less cruel and heartless."

*The first 24 groups of angels overseeing the earth govern the elements.*

*Thenext groups govern the 360 degrees of the zodiac.  
This is the 268th group of angels overseeing the earth.*

*2+6+8=16.*

*1+6=7.*

**NUMBER SEVEN is the number of harmony, fertility, propagation and growing.**

*It is also the number of love with all its phases, no matter  
whether the lowest form of love or the highest cosmic aspect of love.  
Mercy, benevolence, virtuousness, and happiness are also aspects of love.*

*It is the number of beauty, purity, and harmony.*

*It is the number of Venus, the seven basic notes,  
the seven states of maturity [chackras],  
and is represented by a septangle.*

*There are various symbols for seven.*

*The colors of the rainbow are also the seven vibration.  
Mandalas with seven spokes or multiples of seven carry this vibration.*

*Meditate on the divine virtues of our name.*

**E-R-I-M-I-T-E-S**

*E This is the divine virtue of omnipresence,  
the Divine Consciousness which permeates everything.*

*In the emotional body, the oscillation of letter "E"  
represents the control of the feeling consciousness  
of oneself and of other people.  
Especially easy is it to achieve special clairaudience by meditating on this  
virtue.*

*By "special clairaudience" not only the hearing of beings,  
etc., is meant, but also the understanding of the language of all animals  
and the perception of the remotest past, the present, and even  
the future, indiscriminately of distance or kingdom, i.e., human kingdom or  
animal kingdom.*

*The color of this virtue is deep violet, the musical note is D, the  
element is akasha, which has the sensation of God-penetrating-all, and the  
spine is formed from it.*

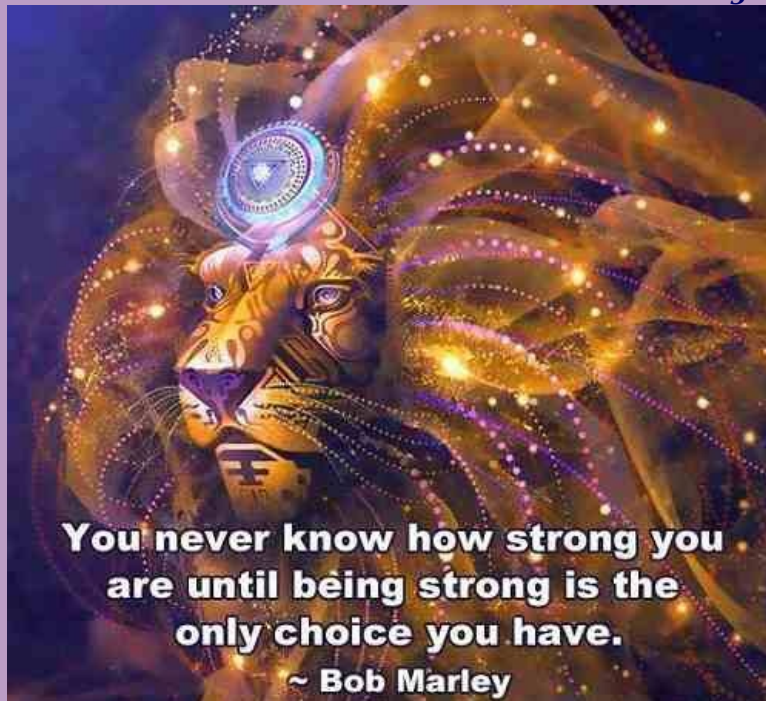

*R The sound of the letter R is the divine virtue of becoming the  
master and guardian of freedom and independence. It is this virtue that is  
used by each  
child of God who listens to and follow their own inner voice of guidance.  
This inner guidance is a person's unmistakable link with the Universal Mind  
of Divine Providence that lives and moves in all space and time and beyond.*

*In this state of freedom and independence  
there is the feeling of freedom of any pressing burden of the laws,  
for by the mastery of all the preceding virtues  
you have achieved a state of maturity  
by which this feeling of independence has been transformed  
into an absolute state of security and  
unimpeachability.*

*This comes from the realization of the harmony and perfection of all divine  
laws  
and the identification and love of them so intensely  
that they have actually become merged with oneself.*

*In this case you are the personification and representation of the divine laws  
and they  
will serve you, and your sense of freedom will derive from them rather than in  
spite of them.*

*The color of this virtue is golden; the musical note is C.  
The left side of the nose is formed from it.  
The element is earth and has the sensation of weight.*

**You never know how strong you  
are until being strong is the  
only choice you have.**

**~ Bob Marley**

*I The sound of this letter is the virtue of cause and effect, which is the karma  
law.*

*On the mental level, this is analogous to memory, remembrance and conscience.*

*In the feeling body, this corresponds to the astral/physical matrix, which is the connection between feeling and physical form, with all of its functions.*

*On the material world, everything that has shape, measure, number and weight can be understood and mastered with this virtue.*

*The color of this virtue is light opal, the musical note is G, the element is earth so it has the sensation of weight, and the left kidney is created by this oscillation.*

*M The sound of the letter M is the sound of the divine virtue of flowing emotions or FEELINGS.*

*This virtue is the magnetic power of the Universe that attracts energy into form on the material plane.*

*Everything in nature is formed through the magnetism of emotions. Emotions are analogous to the element of water.*

*Water is the material manifestation of emotion.*

*In the material world the oscillation of letter M bestows on a child of God the power of controlling the fluid principle in the whole world, i.e., in the micro-as well as the macrocosm.*

*Not only is a person able to comprehend, with his/her consciousness, everything fluid in its original principle, but he/she is also made absolute master of it.*

*This faculty, when acquired by meditating on this oscillation, also makes him/her master of magnetism, emotion, and everything that is connected with it.*

*Thus, for instance, he/she may control the laws of gravitation, and many other things.*

*The color of this virtue is the most beautiful blue-green imaginable. The musical note is D. The element is water so it has the sensation of coolness. The abdomen is formed from this virtue.*

*I By meditating on the law of cause and effect, all laws of analogies between the micro- and the macrocosm are understood and mastered.*

*Everything that has shape, measure, number and weight has been created by the help of this letter oscillation.*

*If a child of God can master this meditation, he/she will be able to evoke the greatest miracles in the material world by using the respective analogies to shape, measure, number and weight.*

*As one can see, shape, measure, number and weight are the chief components of the material world, and by getting this letter oscillation under control, a person becomes their absolute master.*

*It stands to reason that he/she will also be able to become a perfect metaphysician, too and, furthermore, to comprehend all laws presently still unknown to our physical world and to apply them in all fields.*

*T The sound of the letter T in the ancient language is the divine virtue of high inspiration with all the legal matters of this principle.*

*In the intellect, this virtue awakens remarkable inventive faculties and memory.*

*When a person chooses the path of healing and diagnosis of disharmony, the heavenly hosts awaken high levels of inspiration, so that ingeniousness removes all obstacles.*

*"I and the Father are One."*

*"All that I do, ye shall do and more."*

*EThis letter is the sound of universal consciousness, which represents, as a divine idea and virtue, its omnipresence in everything that has ever been created.*

*Meditating on this virtue unites your normal consciousness with the universal consciousness, with the cosmic consciousness, so that you can attain, in the akasha principal, omnipresence yourself.*

*This is known in oriental wisdom as Nirvi-Kalpa-Samadhi.*

*You attain the highest form of intuition in your mental world; you transfer your consciousness so that there exists no sense of time and space.*

*Divinity in His highest form is able to speak through you.*

*The most profound mysteries of materialization and dematerialization become obvious to you as you master this, everything that is material may be transferred back into its refined and most subtle form and any idea can be intensified in such a way that it becomes physically visible.*

*S This sound is the sound of all-penetrating-power.*

*This is the most subtle substance of the divine spirit, i.e., with the original divine will or fire which works as a substantial power in everything that has been created by Divine Providence.*

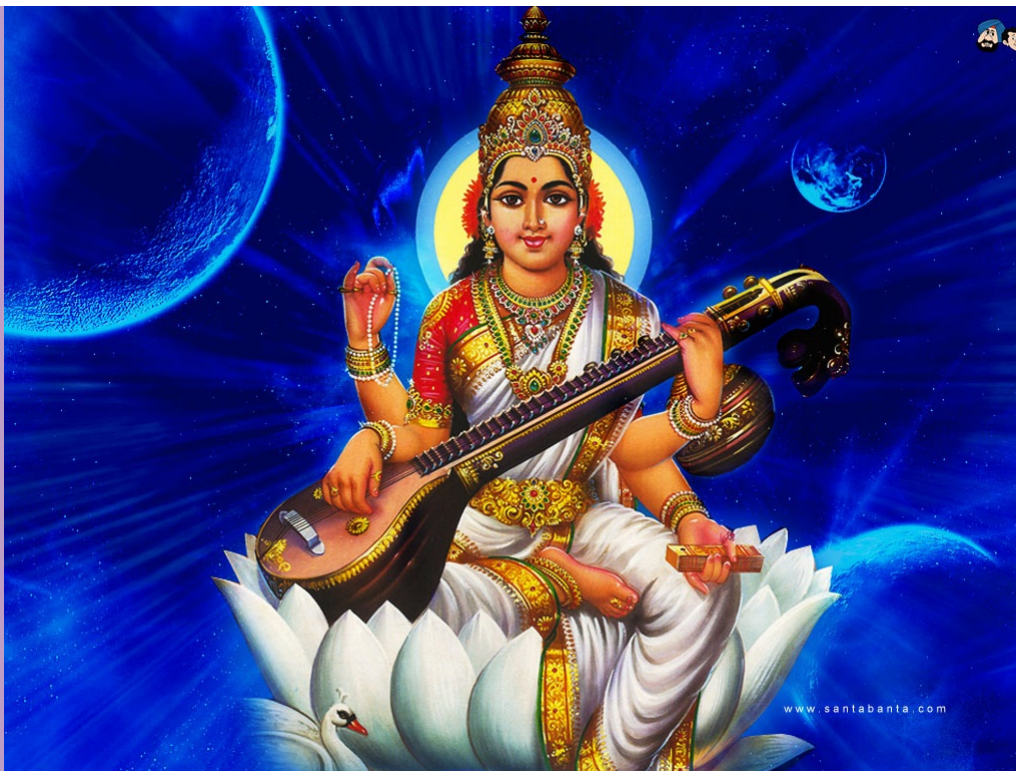

*A child of God using this divine virtue attains the spiritual gift of perfect mastery over the electrical fluid, which is the use of will, and is able to control everything analogous to will.*

*A state of clairvoyance in its purest form and perfect control over other beings is gained by this virtue in the feeling nature.*

*The color of this virtue is purple red, its musical note is G-sharp, it is the fire element of will and so it has the sensation of warmth, and the gall bladder is the part of the body that is formed by it.*
