The Angels of Morality and Introspection

Also known as

**The Angels of
*Geriola***

Beloved,

**To do unto others as you would have them do unto you
is advice based on the literal truth of energy flow:
*that what you do unto others
is exactly what you ARE doing to yourself,
and what you do for yourself is what you are doing for others.***

We are special experts in all the virtues of morality on earth.

***We reveal to you the genuine secrets of mystical
equilibrium.***

***Whether you harm yourself, even for the purpose of helping others,
or harm others, even for the purpose of helping self,
harm affects everyone and everything,
through ripple effects on the quantum field.***

**We help you as we have helped all who have gone before you,
and all who will follow.**

We inspire and safeguard your success.

**As you love, forgive, and discover divinity in yourself, automatically you
love, forgive, and discover divinity in others.**

Others are a part of yourself in the interconnected web of life.

**When Spiritual Masters of old admonished their followers to harm none,
and to help all,
it was from this profound level of understanding
that they themselves had reached
through deep and prolonged introspection.**

Therefore, through deep introspection, a person opens up awareness.

**He or she notices emotions of bliss and happiness
whenever something helpful has been created,
and emotions of sadness and pain
whenever something harmful has been created,
whether or not this harm or helpfulness
is created for self or others.**

**We teach you the correct use of introspection
and draw your attention to faculties and powers which are the result of
introspection.**

**When you have carried out introspection through divine inspiration
you acquire great power of intuition and the genuine recognition
of the Akasha-principle, which is the principle of consciousness-
penetrating-all.**

**The Akasha principle is experienced as pure being and unity
with Divine Life omnipresent in all.**

Ask your cellular memory to let you re-experience yourself as an infant.

**The Akasha is experienced as self at that age.
In the deep Delta
brainwave state of pure being, experience yourself as being limitless
and everywhere present and one with all life.**

Go deep within through introspection.

**In your natural infant state the Delta brainwaves of PURE BEING were dominant,
and they will be again as you remember yourself at that time.**

This memory lies deep within your cellular nature and your subconscious.

**Each night in deep dreamless sleep you automatically enter this state.
In this state the body heals itself.**

If you ask for this cellular memory to come to you in conscious meditation, it will.

Pay attention in the silence of deep introspection.

**In this deep place of inner divine beingness the experience of unity unfolds
and remembrance of omnipotent will for the highest good of all unfolds as well.**

***In deep introspection,
understanding of unity and kinship with all life unfolds
naturally and easily.***

**In this pure silent state, experience of
unity and oneness exists without effort or thought, and it is in this awareness
and identification with unity and oneness that true morality rests.**

***Absolute harmlessness and good will
springs from this place of identification with all life.***

***Helping others becomes natural,
and allowing others to help you occurs as well.***

REMEMBER yourself growing into childhood.

**In the state of a small child, the Theta brainwave state of deep inner thought is dominant,
and will be again as you remember yourself at that age.**

Ye must be as little children to enter the Kingdom of Heaven.

**In this state contemplate the relationship of one person to the whole
so that you can see that it is similar
to the relationship of one cell to another in a human body.
We are all one!**

As above, so below.

**Whether you love a place, an animal, a person, or a spirit-being, all
of these are part of unified Divine Life and as a result,**

the entire web of life is blessed by this love.

**Cognition brought about by love divine transmutes
everything that is touched by it.**

**Seeing through the eyes of love is the
basis of divine miracles and true morality.**

**It is the place where the polarities of selfishness and selflessness
are seen united in one continuum of love.**

**The peace that comes from loving behavior both received and given,
based on self identity of Oneness,
opens experience of the true mystical equilibrium
of the Masters of Wisdom and Love and Power.**

**This mystical equilibrium and morality are your inheritance,
as children of the Most High.**

**As this inheritance is claimed by all, Heaven indeed is manifest on
Earth,
and the Alpha and the Omega meet.**

**Please call on us for heavenly assistance whenever you desire to embark
on inward journeys of introspection for purposes of morality
and true divine equilibrium.**

**We serve you through the Omnipotence and Omnipresence of Divine
Providence.**

We are the Angels of Geriola.

**The first letter of our name, the letter G,
is the sound of the divine virtue of Grace and Mercy.**

**True understanding seeks grace and mercy for all beings.
This is a major purpose of morality.**

**In the mind, this virtue gives the experience of peacefulness,
and the faculty of giving true divine blessing.**

**On an emotional level this virtue gives emotions of happiness,
of complete satisfaction.**

**In the physical world this virtue represents all phases of riches
and wealth, of happiness and satisfaction.
By this virtue Divine Providence has created abundance and, like the
Creator, a child of God
may also bring about, for him or her self or other people,**

abundance in everything, should that be desired.

Situations may be created by means of the elements and the will and emotions causing success and wealth in the world that is for the highest good of all concerned.

The color of this virtue is deep grass green with a feeling of coolness, musical note F, and the left eye is formed from this virtue.

The second letter, letter E, is the divine virtue of OMNIPRESENCE, which gives a Child of Light the ability to experience the consciousness of being one with all.

This virtue is a deep violet color and forms the whole spine.

It is the akashic element and has the sensation of consciousness-penetrating-all.

The third letter, R, is inner guidance.

It is a shining golden color and is the element of earth with a sensation of weight.

The left side of the nose is formed from it.

The fourth is I, which is Cause and Effect.

It is a light opal color and forms the left kidney.

Because it is the earth element, it has a sensation of weight.

Next is umlaut O, eu, which is cognition brought about by love divine. This cognition transmutes everything that is touched by it into original divine purity.

It is the basis of miracles.

This virtue is a dark orange color and forms the testicles and ovaries.

It is the akashic-earth element and has the sensation of earth penetrating all.

This brings about justice and harmony for all, the virtue of O.

The next letter is L, which is the sum total of all divine virtues taken together. This virtue is the most lovely translucent olive green.

It informs the spleen which receives chi or life energy from the splendor and majesty of Divine Consciousness and transmits vitality to the entire body temple.

With this virtue youth and immortality are claimed as a birthright by every Child of Light. True spiritual morality is awakened. It is the air element of ease.

Next is A, which is the virtue of wisdom and enlightenment, the understanding of the original purity of all ideas in Divine Consciousness.

A lovely light blue, it also is the air element and fills the chest area with a sensation of ease.

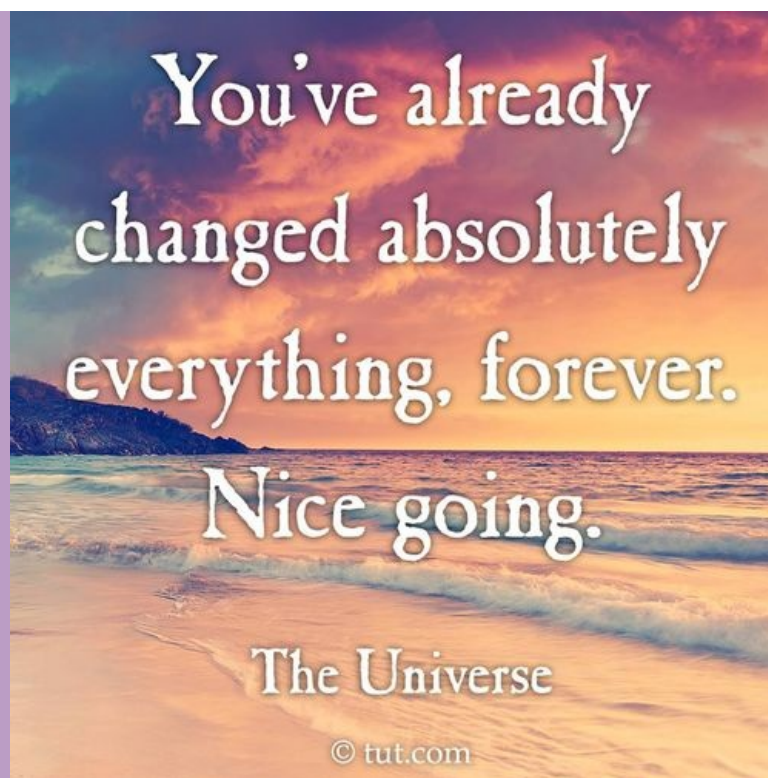

As the original purity of all ideas in Divine Mind are comprehended, all imperfections are released back to Divine Being for change into another state that is the highest good.

This is the virtue of umlaut A, ae.

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions:

Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her. The being and the angels share the same name.

This name is a key to their powers and influence.

Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon. Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books have very important information for these studies.

The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others. Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

Love brings miracles of happiness.

The Law of One is the original law of Creation, and is the supreme Law over all laws in all dimensions.

THE LAW OF ONE

*We are all one.
When one is harmed, all are harmed.
When one is helped, all are helped.
Therefore, in the name of who I AM, and I am one with all there is;
I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen .
I give thanks that this is done.*

SO BE IT!
