The Angels of Picture-Making

Also known as

The Angels of

Asoreg

Beloved,

Yantra yoga is the path of enlightenment through visual images.

**Mandalas are symbols of the wholeness of divine being,
of akasha, fire, air, water and earth,
of pure being, will, thought, emotion and sensation,
and have been used to affect awareness since the beginning.**

**We inspire the awareness of
expressing divine transformation and transmutation**

through the making of pictures.

Pictures,
wisely made,
are conduits of grace and mercy,
of true divine blessing.

*The art of making pictorial impressions in a manifold
manner, whether
by engraving, inscribing, sewing, drawing, movies, or
painting etc.
has been given to the people of earth by the heavenly hosts
of Asoreg.*

*We are the heavenly host in charge of all painting,
photography, cinema and film
that is used for the highest good of all.*

*By listening to inner guidance,
an artist humbly puts on a regal mantle of DIVINE
SERVICE,
as Divine Providence expresses through him or her
to bring pictures into being that attune Earth to Heaven
and Heaven to Earth.*

*Enlightenment results from an artist attuning to the
original Divine Will for the highest good,
that pervades all of creation,
when expressing this attunement in visual images,
through clear inner guidance and intentions and emotions
of grace and love.*

*These pictures then serve as paths of enlightenment for all
who see them.*

*This is the basis of yantra yoga,
an ancient science of enlightenment through the optic
nerve.*

There is an ancient saying of great truth,
"As above, so below.

The reverse is also true,
As below, so above.

The subconscious mind does not distinguish between
an actual happening and an imagined happening.

The mind speaks in symbols and visual images.

Whether or not an image is seen through the optic nerve,
or in the inner imagination,
the pineal gland, known also as the third eye,

is affected by it to some extent.

**Therefore, as a person is looking at an inspiring picture:
the imagination and therefore the
pineal gland is stimulated to produce different chemicals
into the bloodstream
and body sensations, emotions, concepts, and will are
uplifted accordingly.**

**The autobiography of transpersonal psychologist Carl G. Jung
mentions amazing psychological healing through drawing mandalas,
especially mandalas with 4 or multiples of 4,
which symbolize the four brainwave states among other things.
He wrote that those diagnosed as incurably insane
were able to recover within six months of drawing a series of pictures
which became mandalas as they recovered.**

**Television, video, and all other technologies involved in picture
imagining are under our range of competence,
and everyone involved with these for the highest good of all are
protected and guided by us.**

Picture imaging powerfully influences self and others.

**Tremendous karma is created either for good or bad in picture making,
depending on whether the pictures uplift or harm others.**

Remember that eyes are the only exposed nerves in the body temple.

**Light images go through the optic nerve
and directly connect to the pineal, pituitary, and hypothalamus glands.**

**Pictures influence and choreograph production of consciousness
and health regulating chemicals.**

**Those who wield this power reap results
of influencing all who gaze upon their works forever after.**

**Pictures remain and continue to influence people
long after an artist has finished with the making of them.**

**Because the subconscious mind,
which processes trillions of bits of information a second,
does not distinguish between an actual happening and an imagined
happening,
visual images guided by love and grace
have power to awaken superconscious attunement to enlightenment.**

**The superconscious areas of the brain also processes trillions of bits of
information a second.**

**The conscious areas of the brain process 4 to 40 bits of information a
second.**

Picture making is the language of all three.

**Even if a person looks at a picture for a fraction of a second, the
power of impressions continues to effect the subconsciousness
and superconsciousness after the initial exposure or impact.**

The virtues of Asoreg are as follows.

**ENLIGHTENMENT, the original purity of all ideas in Divine Mind, is the
first letter A of our name.**

**As the original purity of all ideas are embraced and understood,
Imperfections are then recognized,
let go,
released,
back to Divine Being for changes into other states,
umlaut A, ae.**

**This gives control over negative beings.
It is so important that imperfections are 'let go', that they be given
back to Divine Being for
transformation into higher states.**

This is imperative for Heaven to manifest on Earth.

**We inspire picture makers to let any imperfection be released back to
Divine Being
for transformation into whatever is the highest good of all concerned.
We initiate understanding of the original purity of all ideas in Divine
mind,**

**so that picture makers do not hold on to
anything that does not serve the highest good of all concerned,
whether it appears within the self or in the outer world,
on the physical plane,
the emotional, the mental, or in the desire body-the spiritual plane.**

**In this way, picture making becomes pure and clear,
and leads to enlightenment.**

This releases the energy involved in imperfection to evolve and change.

**As you do this, give thanks to this imperfect energy for the lessons that
it has provided,
and WITH LOVE, release it for divine transformation.**

**OMNIPOTENT DIVINE WILL for the highest good of all
pervades all creation-- the divine virtue of letter S.**

**By aligning individual will with omnipotent divine will for the highest
good,
control is heightened
so that all are blessed as faith removes all barriers,
and divine wisdom brings through states of grace,
of true divine blessing.**

**Enlightenment shines with a beautiful light blue color and has
sensations of ease,
because it is a virtue of the Theta brainwave state
of the inner child self.**

**Theta can only be experienced in states of relaxation and ease.
This is why meditation is so important.**

**This virtue enlivens artistic talents as well as mystical gifts of
clairvoyance and clairaudience.**

**Learn to be relaxed and in deep meditation even when you are active in
the world.**

Follow your inner guidance.

**Transformation of imperfection shines with loamy brown light, with
sensations of weight, because it is a virtue of the earth element
corresponding to Beta brainwave of the five senses, memory, and logic.**

**All-penetrating-Divine-Will shines with purple red light.
It has sensations of warmth and powerful expansion.**

**Attunement with all-penetrating-Divine-Will for the highest good of all
gives complete control of consciousness over oneself and others.**

**We bless each Child of Light who makes divine pictures
with Cognition brought about by Love Divine.**

**The ability to see through the eyes of love reveals indwelling divine
perfection in anything in creation.**

**This is the divine virtue of umlaut O, eu.
This virtue, along with the virtue of umlaut a, ae,
the virtue of transformation and release of imperfections,
are the basis of all transformation and transmutation,
of all miracles.**

Umlaut O shines with dark orange light and has sensations of earth penetrating all.

Once an artist awakens cognition brought about by Love Divine, justice and harmony manifest, bringing success and satisfaction to all.

**O is justice and harmony,
and shines with the most lovely ultramarine blue light with sensations of weight.**

**Inner guidance attunes an artist to Omnipresent Divine Mind,
and in each act of creation, an artist is guided from within.**

**Inner guidance is the virtue of letter R.
This shines with beautiful golden light with sensations of weight.**

**By listening to inner guidance,
an artist humbly puts on a regal mantle of DIVINE SERVICE,
as Divine Providence expresses through him or her
to bring pictures into being that attune Earth to Heaven and Heaven to Earth.**

**Divine Being is omnipresent in everything.
By going deep within and experiencing original pure being
that is one with Divine Being and all creation,
an artist awakens flowing emotions of true divine blessings
for all. Omnipresence is the virtue of letter E, and True Divine Blessing
is letter G.**

**E shines with deep purple light and sensations of consciousness-
penetrating-all.**

**By attuning to omnipresent Divine Consciousness,
an artist becomes cosmic conscious
and assumes control over flowing emotions of self and others.**

**Any idea, any virtue, any thought or feeling can be intensified
and brought into physical expression.**

**In a picture, the symbol of Divinity is Light,
and the expression of this,
the omnipresence of Divine Consciousness in a picture,
is symbolized by LIGHT IN THE CENTER of the painting or picture.**

**This light can be a faint glow,
or it can be represented by a sun or moon or other form of light.**

**The last virtue of Asoreg GRACE AND MERCY,
is the magnetism of flowing feelings of TRUE DIVINE BLESSINGS
that result in peacefulness of the spirit and abundance.**

**Grace and mercy uplifts awareness
and does much to help people learn higher consciousness,
and therefore helps protect people from having to learn lessons from
much suffering
resulting from previous mistakes.**

Instead they learn from true divine blessings.

Grace and Mercy shines with deep grass green light, like shimmering emerald with sensations of coolness.

**This is a virtue of Alpha brainwave states
of flowing emotions, magnetism and the change process.**

**A person who looks upon pictures
that have been created through the divine virtues of
Enlightenment,
Transformation,
Divine Will,
Cognition brought about by Love Divine,
Harmony,
Inner Guidance,
Omnipresence,
and Grace and Mercy
is uplifted in consciousness.**

**Remember, this upliftment in consciousness increases the vibratory
levels of being.**

**Returning negative karmas from past mistakes glance off heightened
energies of higher consciousness
and therefore manifest in weakened symbolic ways instead of through
suffering.**

This is true dynamics of Grace and Mercy, of blessings.

**Divine picture making BLESSES both the artist and all who
see.**

**The most important symbol is a light in the middle, which represents
the ONE BEING.**

**The four brainwave levels of
Delta-Pure Being,
Theta-deep inner thought,
Alpha-feelings,
and Beta-memory- logic- the five senses**

are represented in a picture as one or the other of the four quadrants.

**The upper right hand quadrant [looking at the picture] is Delta,
the upper left hand quadrant is Theta,
the lower right hand quadrant is Alpha
and the lower left hand quadrant is Beta.**

**Symbols appearing in these quadrants correspond to their respective
brainwave levels.**

*Original oil on Belgian Linen
by Cynthia Rose Young*

**For example, a phoenix appearing in the upper right hand quadrant
represents rebirth of will and being,
whereas a phoenix in the lower right hand quadrant
represents rebirth of feelings flowing through an open heart.**

**These four brainwave patterns are also represented in a picture
according to density.**

**Delta brainwaves are represented by light,
Theta is represented by pastel colors,
Alpha by more intense colors,
and Beta by solid forms.**

**Therefore, if the phoenix in the example above
is painted as a pale translucent glowing bird in the upper right
quadrant,
then the phoenix represents rebirth of will and being through thought.**

**If, on the other hand, the phoenix were painted as a solid form in this
same quadrant,
it would represent rebirth of will and being through the actions of a
physical person or experience.**

**We ask all of you who work with picture making in any medium
to meditate on the divine virtues of Asoreg and ask for our aid.**

Ask to be aware of the heavenly hosts of picture making around you.

Our guidance protects you and safeguards the purity of your work.

**We inspire each Artist of Light to seek and express only the very
highest,
the very best,
of all.**

**This is not only possible,
but is easy and exciting as Divine Light and Love pours through to
bless the world.**

We guide both the creation and the destination of pictures.

**We have ways of making sure that pictures reach anyone
who is meant to see them at the proper time and the proper place.**

For this reason we inspire inventions for dispersal of pictures.

**Technology for displaying pictures is more amazing as the Alpha and
the Omega manifest on Earth.**

This is an important part of the Divine Plan.

**The call of Earth, of humanity, for healing and enlightenment, for grace
and mercy is great.**

Ask and ye shall receive.

Footnotes

**The names and meaning of angel groups come from Quaballah,
which is a very ancient set of teachings**

**which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and
Christianity.**

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth,

**and the angels who work with him or her.
The being and the angels share the same name.
This name is a key to their powers and influence.**

**Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Love brings miracles of happiness.

The Law of One is the original law of Creation,
and is the supreme Law over all laws in all dimensions.

THE LAW OF ONE

We are all one.
When one is harmed, all are harmed.
When one is helped, all are helped.
Therefore, in the name of who I AM, and I am one with all there is;
I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen .
I give thanks that this is done.

SO BE IT!
