**12 degrees Sagittarius**

## **The Angels of High Magic**

**Also known as**

**The Angels of**

# **Ugali**

**Beloved,**

**WE ARE ALL ONE.**

Here, at the 12th degree,  
a Child of Light acknowledges  
GREAT MYSTICAL  
POWERS.

We initiate people into highest wisdom.  
This wisdom is the joining of divine will for the highest  
good of all,  
and divine love,  
and this awakens abilities to perform the greatest miracles.

*"All that I do, ye shall do and more."*

We inspire the realization that miracles are both possible  
and practical,  
for purposes of grace and mercy and true spiritual majesty  
and glory of divine being.

*"On earth as it is in heaven."*

Divine Love combined with omnipotent divine will for the  
highest good of all,  
gives birth to this wisdom  
which is the essence of high miracles.

These powers are used to *CHANGE* conditions on Earth,  
whenever it is necessary,  
for The Highest Good of All Concerned,  
according to The Law of One, the original law of creation.

#### *THE LAW OF ONE*

*We are all one.*

*When one is harmed, all are harmed.*

*When one is helped, all are helped.*

*Therefore, in the name of who I AM,*

*and I am ONE with all there is,*

*I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen.*

*I give thanks that this is done.*

*So be it!*

Now we ask you,  
"Was it not the Masters wisdom  
that said that you must become as little children,  
to enter the Kingdom of Heaven?"

Little children produce dominant theta brainwaves,  
which are necessary to enter deep trance states  
of imagination and inner awareness,  
which leads to deeper delta brainwave states

**of pure being and unity with divine being.**

**Therefore, in highest Divine Wisdom, we inspire remembrance of  
childhood,  
and reawaken the ability to enter and master deep trance states in  
meditation,  
in imagination,  
and inspire awareness of the original causes of every thing in creation.**

**In these deep states merge with Divine Being and all creation,  
recognizing the original divine blueprints of creation.**

**Now, recognizing and seeing whatever is imperfect,  
in this deep state of unity with Divine Being within,  
we inspire letting go of these imperfections for transformation,  
and seeing through the eyes of divine love,  
and thereby creating new causes  
to change fate  
for self and others  
in ways that are the highest good of all.**

**We join with you in creating states which outpicture the splendor and  
majesty of divine being,  
the highest good of all.**

***This is done to manifest grace and mercy,  
with TRUE DOMINION over all that has been created  
to establish Heaven on Earth,  
according to the original purity of all ideas in Divine Mind.***

***On Earth as it is in Heaven.***

**This is the time of The Alpha and The Omega,  
when highest miracles are accomplished as part of the unfolding Divine  
Plan.**

**We initiate only those who are very advanced on the spiritual path to  
perfection.**

**Remember that SAGITTARIUS OPENS INITIATIONS  
OF OMNIPOTENT FLOWING WILL FOR OMNISCIENCE,  
so that the splendor and the majesty of Divine Being revitalizes  
creation,  
and manifests true spiritual morality.**

***All that I do, ye shall do and MORE.***

**Since only a virtually enlightened person who embraces The Law of One  
will succeed in getting into direct contact with us,  
we inspire divine grace through many downpourings of divine light  
from other enlightened beings,  
so that many more achieve enlightenment  
and then receive our guidance.**

**More and more seekers are experiencing greater levels of divine  
wisdom,  
and enlightenment is becoming more and more accessible.**

**Like the 100th monkey phenomena,  
the great masters who have walked the earth  
have created a morphogenetic field of energy  
which successfully transfers high consciousness and emotion to others  
on superconscious and subconscious levels.**

***"One good man can save a city of ten thousand,  
and ten can save the world."***

**As a person succeeds in attaining higher enlightenment,  
we initiate into the highest miracles,  
especially spheric miracles.**

**It is we who can initiate you into the most secret sciences  
that reveal the highest wisdom.**

***Spheric mysticism activates transformational processes  
with heavenly hosts of planets and spheres  
in the solar system and beyond.***

**According to The Law of One,  
what happens ANYWHERE in the web of life  
affects THE ENTIRE WEB.**

***For this reason, THE HEAVENLY HOSTS OF ALL SPHERES AND  
PLANES are eager  
to help with establishing the highest good of any situation or being  
ANYWHERE.***

***Their powers are so great,  
however,***

***that most people would not be able to believe that they even exist.***

**At this time ever increasing numbers of people  
ARE advancing to higher degrees of consciousness.**

***"All that I do ye shall do and more."***

***It is not the Fathers will that any be lost.***

**At this time every aid is being provided  
so that the Children of Light mature to high levels of  
consciousness.**

**This is possible, if they so desire and if they dedicate themselves to the  
task.**

**This journey to enlightenment is the Heros journey of myths and  
legends, and it is the truth of every soul to fulfill.**

**It is in the blueprint of every soul that is born.**

**Therefore, if a person so sincerely and deeply desires our  
help  
with great love to be of service  
in manifesting the highest Divine Love,**

**Wisdom,  
and Will on Earth,  
be assured that we send helpers in this regard.**

**Then, as a person follows the inspiration of these that we send,  
eventually they reach that point of perfection  
that allows them to receive our direct help and access the Highest  
Mysteries.**

**The first key is to become one with The Law of One  
in being, will, thought, emotions, and sensations.**

**Embrace the meditations on each virtue of each  
letter of Ugali especially, and the virtues of all the letters in general.**

**Expect to spend enough time, enough repetitions, with each of the  
divine  
qualities of the letters  
so merging consciousness and emotion with them is easy and  
spontaneous.**

**This allows consciousness to ground itself in the  
level of pure being,  
with the source of these same virtues.**

**All is part of one unified field, and therefor all are one with  
spirit and truth.**

**Thus a person begins to out picture divine truth in their  
own being,  
and proves the ancient saying,  
that man is created in the image and likeness of God.**

**Each Child of Light is destined to be consciously attuned  
with The ONE BEING of Omnipresent Divinity in All Creation.**

**This attunement automatically brings unification with ALL BEINGS who  
make up the ONE,  
with their powers and attributes.**

**Because light waves become light particles in the cave of Brahman in  
the center of the brain,  
it is an ancient practice, in deep meditation,  
to allow the light of the suns rays to safely and directly enter the optic  
nerve through the eyes.**

**While also gazing at light from stars and moon,  
these light waves change into light particles  
in the cave of brahmin in the center of the brain  
in meditation.**

**Looking at the sun at sunset and sunrise, or through a tree canopy, or light on the wavelets in the water, is often safe.**

**Light encoded software from higher consciousness, corresponding to the degree of the zodiac that the sun is in, downloads into the pineal, pituitary, and hypothalamus through the optic nerve in this way.**

**Light waves become light particles in the center of the brain through meditation, the area called by the ancients the cave of Brahmin.**

**The center of the brain contains the pineal, the pituitary, and the hypothalamus glands.**

**The pineal is often referred to as 'the third eye' in ancient teachings.**

**It contains over twenty thousand psychoactive chemicals that are a thousand times more powerful than psychoactive chemicals from other sources.**

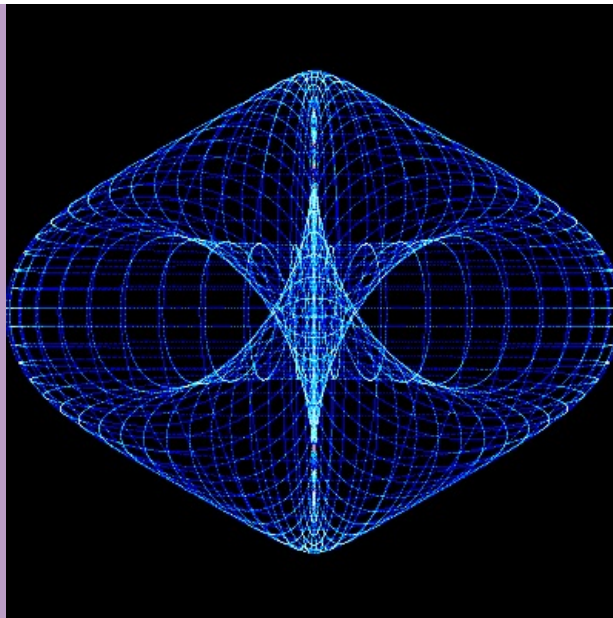

**It is activated by both external lights from the heavens, and internal lights in the imagination in deep inward meditation.**

**The sun is a step down transformer of Divine Consciousness from the Central Sun in the physical realm.**

**Light waves entering the optic nerve and stimulating these glands are helpful.**

**The Sun sometimes emits powerful mass coronal ejections which are physical photonic streams of rapture and bliss of Divine Consciousness as Perfection manifests in Creation.**

**As the sun reaches this degree of Sagittarius, even our consciousness is carried on the rays of the sun.**

**Anyone who safely allows direct Suns rays into their eyes during the next 24-48 hours gets direct biochemical access to this consciousness on rays of light in deep states of meditation.**

**We say 48 hours because tomorrows sun is emitting similar coded messages from the Angels of Elason, who also work with High Miracles.**

**We reveal everything to those who have reached a high degree of perfection.**

**Remember the last time that you gazed into the eyes of a peaceful and happy infant?**

**Do you remember?**

**Was this a form of Darshan, the gaze of the master, flowing from the eyes of such perfection?**

**This deep state is entered into each night in deep dreamless sleep.**

**Inside all people dwells the divine infant self, ever young, ever beautiful, ever perfect.**

**Close your eyes and remember.  
Do so now.**

**Now we ask you,  
"Was it not the Masters wisdom that told you that you must become as little children,  
to enter the Kingdom of Heaven?"**

**Know that it is not only those who are small in body who are infants.**

**The aspect of the Divine Infant, ever young, ever beautiful, ever perfect, dwells within each child of God in immortality.**

**The divine infant state within manifests as the deep delta brainwave of pure consciousness.**

**The brainwave state of Delta, 0 to 4 oscillations per second, is naturally dominant during the first four years of life and in deep dreamless sleep each night.**

**It is in deep dreamless sleep that the body heals.**

**This brainwave state corresponds to Pure Being,  
the level that precedes deep inward thought.**

**Delta is the brainwave state that corresponds to spirit,  
to unity with Divine Being and all creation.**

**We inspire this deep brainwave even in waking states.**

**Delta corresponds to omnipotent divine will, to intention, and is the  
beginning of the  
continuum of energy that manifests next through mind, then emotions,  
and finally the body.**

**These are the Theta, Alpha, and Beta brainwave states.**

**At any age it is possible to ask cellular memory  
to help you remember the state of being one to four years old  
and in this way DWELL continuously and consciously within this Delta  
state,  
this state of pure being.**

**Ye must be born again.**

**Ask your cellular memory to let you experience yourself  
as you were when you were an infant.  
In this state of pure being and oneness with Divine Being,  
ask for the downpouring of divine light and divine love.**

**The divine blueprints of creation are clear.**

**Within the consciousness of pure being in spirit,  
always the Divine Infant,  
this state of Pure Being,  
even at the same time  
as being the child,  
the adolescent,  
and the adult.**

**It is when identifying with Pure Being,  
at the same time as contemplating this state in thought, emotions, and  
form,  
that a person experiences the Kingdom of Heaven within and outside at  
the same time,  
in the whole brain manner that was always intended in the divine plan.**

**This Infant Self within is the perfection that is necessary to solve the  
mysteries of life,  
for it is the part that is one with Divine Consciousness-penetrating all.**

**This consciousness never harms anything,  
for it experiences itself as one with all life and is in love with all.**

**The gift of High Miracles is the inheritance of The Children of Divine  
Being.**

**When the children of divine being claim and dwell in this state of pure  
being,  
NOTHING is impossible,  
and all things are possible.**

*The letters of our name, Ugali, point in the direction of the light that we represent.*

*U The sound of this letter is the divine virtue in which the essence  
of consciousness-that-penetrates-all [Akasha-principle ]  
becomes understandable from the point of view of the creative act.*

*It is at the point of meditating on this virtue that karma is understood.*

*The original source of everything that exists, in all its forms, is revealed  
so that a person fully comprehends it and has it close at hand in consciousness.*

*This evokes the highest form of intuition and inspiration in the mental body.*

*The ability to transfer consciousness wherever it is desired  
or evoke states of trance is available.*

*The ability to create new causes, and see the ongoing effects of these causes, arises.*

*G*The sound of this letter is the divine virtue of Grace and Mercy.  
The profundity of Divine Grace and Mercy in all aspects in the akasha principle is experienced.

*Divine peace of the spirit and the ability to give true divine blessing is attained.  
Happiness in emotions,  
satisfaction, and the ability to have success and wealth in the material world manifests.*

*A*This divine virtue is the attainment in the akasha principle of the highest wisdom and the highest illumination that may ever be lavished on a human being.

*This brings about an enlightened mind with all its  
fundamental features of reasoning, the cognition of the most profound truths,  
highest knowledge, and high intelligence.*

*On the emotional level,  
all talents such as musical ability, eloquence, and poetic talent are made available.*

*Also clairvoyance, clairaudience, the art of levitation  
and the control of the air element and its beings are attained.*

*The mastery of languages is also given.*

*On the material level the control of  
air spirits, storms, and the ability to heal any diseases of the lungs is mastered.*

*umlaut A, ae, this virtue gives power of transformation.  
This virtue gives control over negative beings and control of passion.*

*This very important virtue, along with umlaut O, OE, is necessary for miracles to occur.*

*WITH THIS VIRTUE, A CHILD OF LIGHT IS ABLE TO LET GO OF ANY  
DESIRE, IDEA, EMOTION, OR PHYSICAL SITUATION which no longer serves the highest  
good.*

*The sound of this letter, the long A, ae, toned to the musical note  
C, is the virtue of the origin and mystery of life and death regarding their transformation.*

*By meditating on this virtue, a Child of Light  
becomes convinced that in reality death does not exist,  
for the so-called death is only a transformation from one state into another.*

*Also will come enlightenment on the cause of this transformation.  
With this comes the ability to master all negative spiritual beings  
in all spheres and planes with regard to their scope of action.*

*The purpose for which negative beings have been created becomes clear.*

*Since, in the original principle all beings are alike, each  
having been created by Divine Providence to fulfill a certain task,*

*there is no dissimulation of negative beings, for from the enlightened persons point of view everything is pure.*

*Here the saying: "to the pure one everything is pure" becomes plain.*

*If there were no negative beings,  
it would be impossible to distinguish between good and evil;  
and if there were no passions, there would also be no virtues.*

*This virtue confirms the words contained in the Bible: "through night to light",  
the deep symbolic meaning of which now becomes clear.*

*In the intellect the ability is gained to see through  
all thoughts, actions and wishes concerning matter, and of becoming their absolute  
master.*

*In the emotions, this virtue represents desires, passions, and the inclination to self-  
satisfaction etc.*

*A person who masters this virtue  
in their feelings becomes absolute master and ruler of all desires and passions.*

*Also, a person is able to not cling to mental, emotional, and  
material virtues and objects when they are no longer the highest good of all.*

*This means complete independence and freedom  
and fulfills the saying "bind yourself and you will be free".*

*On the material level this virtue is one of the most materialized.*

*No matter whether you evoke it in the mind, the emotions, the akasha, or  
the material world, the earth is influenced by it to a larger extent.*

*The ability to infuse matter with divine virtues is heightened.*

*The color of this virtue is loamy brown. The musical note is C. The  
element is earth so it has the sensation of weight. The anus is formed from this virtue.*

*L...In the akasha principle this letter  
represents the highest divine virtues that may be described by words.*

*The Divine Majesty and Greatness of God  
in the form of the purest virtues  
can be understood when contemplating the meaning of this letter.*

*On a mental level, the faculty  
of comprehending true morality from a mystical point of view is attained.*

*On an emotional level, you become one with Divine Virtues.*

*On a material level you gain perfect health, beauty, harmony, and become the master of  
vitality.*

*In the akasha principle, which is the principle of consciousness-penetrating-all,  
this letter refers to fate, that is to say  
the karma law, which is the law of cause and effect.*

*All doings and all actions, all life, come under this law.*

*The law of evolution is expressed by it.*

*On the mental level this is analogous to memory, remembrance and conscience.*

*On the emotional level, the astral matrix,  
which is the connecting link between the material body and the soul, or emotions,  
is controlled by the principle and laws of cause and effect.*

*On the material level the laws of analogy between the microcosm and the macrocosm is*

*understood.*
