The Angels of Sacred Hunting

Also known as

The Angels

of

Petuno

Beloved,

*From the beginning of time it is we who have inspired all hunters,
human and animal and others,
to follow guidance with permission from God
and from the spirit of the animal,
or any sentient being,*

before they act.

**The responsibility to protect and love animals,
and all sentient life,
is one of the most beautiful assignments given by Divine
Providence.**

**Because mankind is given dominion over all that is
created,**

**we, along with other heavenly hosts,
teach people to recognize all creation as one connected
being.**

**The ancients say that minerals are divine consciousness
sleeping,
plants are divine consciousness dreaming,
animals are divine consciousness awakening,
people are divine consciousness awake.**

***Katakamuna* is an ancient word in Japan
that translates as the following wisdom:**

***KATA* I stand in the visible world,
KAMA facing the invisible essence from which it comes,
NA naming which manifestation is to arise next in the
visible world
that is the highest good of all concerned.**

**A sacred act of hunting is done through highest inspiration
for fulfilling an animal's desire for union with divine light.**

**When an animal has lived it's life,
and is ready for a change of state,
perhaps because of old age,
starvation,
or sickness,
we are the heavenly host who guide and protect hunters
human or animal or an act of fate,
to fulfill this longing in a way that is the highest good of
all.**

***Loving and protecting animals as younger brothers and
sisters inspires
amazing insights into the splendor and majesty of divine
awareness
awakening within the animal kingdom.***

**All animals embody unique qualities of divine being that
inspire the children of light.**

The ancient people see them as divine teachers in this way.

**Qualities of courage, beauty, gracefulness, loyalty, love, the
instinct for survival,
resourcefulness, and others are embodied in the animal
kingdom.**

**When an animal has evolved as far as it can in it's current incarnation,
and is ready to move further into spiritual perfection in another form,
we oversee the process of death and change for the highest good of all.**

***We instruct the children of light to understand that
in the state of heaven on earth,
the transformation called death occurs whenever it is the***

highest good.

We inspire the awareness that in reality, there is no true death, only transformation into other states.

**In the original blueprints of perfection, hunting,
by a human or by another animal,
is designed as an act of compassion and mercy,
for helping an animal experience a quick and painless
transition
when its time has come,
instead of prolonged suffering
due to infirmities of old age, sickness, accidents
or other causes such as overpopulation.**

**As Heaven manifests on Earth,
all sentient beings,
including animals,
enjoy a healthy birth,
a happy and loving life,
and,
when the time is best for their evolutionary
transformation,
a loving and blessed death.**

**Remember that the uniting of Omnipotent Divine Will and flowing
emotions of Divine Love
results in Divine Wisdom,
which works through The Law of One,
the highest good for all.**

*From the beginning of time it is we who have inspired all hunters,
human and animal and others,
to follow guidance with permission from God
and from the spirit of the animal,
or any sentient being,
before they act.*

**We are the heavenly host that overshadow a hunted animals
consciousness.**

**We put it in a state of trance that protects it from suffering.
In trance, the animals brain stimulates chemicals**

that make it oblivious to pain
and puts it into an elevated state of awareness.

**It is we, along with other angels,
who guide the arrow safely to its mark.**

**It is we who guide the animals spirit into the
light,
and protect it under the loving care of special
angels
and beings who are assigned for this purpose.**

**Longing for spiritual perfection and unity with Divine Light
is the virtue of letter P of Petuno.**

**The Omnipresence of Divine Consciousness is the virtue of letter E.
This virtue allows communication with the Creator,
with all of creation, and with all creatures.**

**By the *compassionate guidance of Divine Providence
through this divine virtue,
either another animal or a person is often guided to quickly
kill an animal who would otherwise face prolonged
suffering
from the infirmities of old age, overpopulation, accident or
starvation.***

**Through high inspiration, the virtue of letter T, a Child of Light or
another animal
is inspired to know when it is time for an animal to receive assistance in
the act of changing state, of dying,
to avoid unnecessary suffering and to make this transition ecstatic and
wonderful.**

**We, along with other angels, inspire certain Children of Light with the
guidance,
skills, knowledge and technology
to guarantee a compassionate and loving death,**

free of suffering, to such creatures through hunting.

Even though animals evolve within the consciousness of a group soul, when an animal has gained all that it can from this level and is ready to evolve beyond the animal kingdom, it chooses an animal incarnation in which it has a close and loving relationship to a human being.

All life progresses upward through the path of love toward union in consciousness with Source.

In developing deep love with a human companion, an animal transcends the group instinct for survival and develops a unique elementary soul and free will.

This is made possible through its love for its human master.

In such a case, an animal will often risk its life for its beloved master if necessary, overcoming the instincts for its own survival.

As above, so below.

In the ancient teachings of the Upanishads, it is said that when a Child of Light bonds in relationship to an animal, the relationship is that of master and disciple.

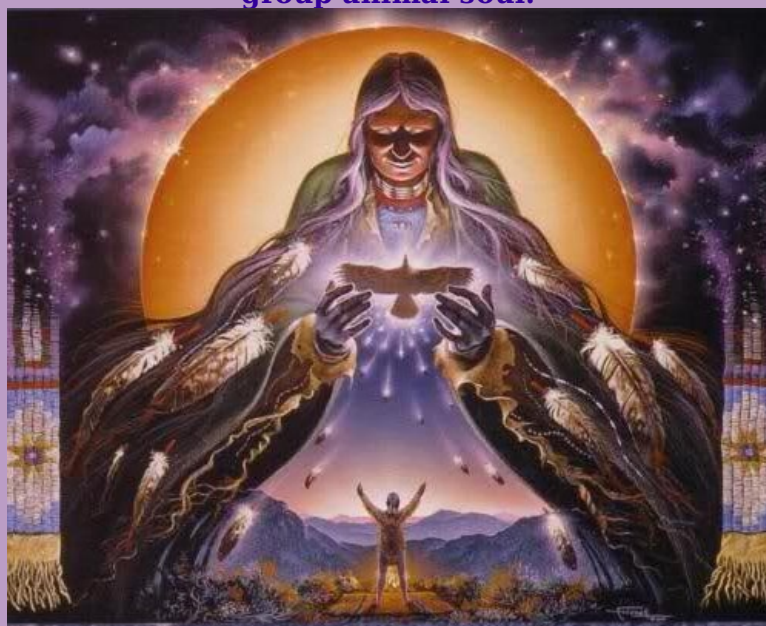

**The master, through the divine virtue of letter U,
which is the act of creation and its on-going effects,
carefully guides the consciousness of the animal disciple through love,
will, and wisdom.**

**The love between a master and an animal disciple is sacred and holy,
it is the love of the Divine Awakened for the Divine Becoming Awake.**

**Remember, as love grows between master and disciple,
the animals love for the master overcomes even the instinct for life
itself,
for survival.**

**At this point the animal has developed an individual soul apart from the
group animal soul.**

**Remember the tales of animals willing to sacrifice their lives out of love
for their masters**

that are in stories and myths from all times.

When love for the master is the ruling force of consciousness,
and an animal has risen through love above group animal instincts of
survival,
the beginning of a causal mental body of true self volition has also
begun.

When people and animals develop a bond in love,
besides the obvious benefit to the human of expanding the heart
and learning from the animal how better to love unconditionally,
a field of loving energy is generated by the animal
which encompasses and continues to nourish the human.

An animals emotional body is very powerful.

When an animal is loving, healthy and happy,
a cohesive magnetic energy field is created and sustained that attracts
satisfaction to all.

For this reason, it is important that all animals be loved,
loving and happy,
and to this end creation has been designed.

What you do

The magnetic flowing field of love energy is maintained in animal
consciousness
in a way that is somewhat analogous to the way that a crystal stores
emotional energy.

According to the ancient teachings of all times,
the myths in the Upanishads and other aboriginal wisdom teachings,
it is at this stage of evolution in loving a human and being loved,
that the life force of an animal is ready for a unique spirit spark
from Divine Consciousness that it will have when it incarnates into it in
its next life,
making it a true individual with spirit and soul.

As a master and his or her animal disciple attain this stage,
supreme happiness floods the emotional bodies of both.

The virtue of letter U, the creative act and its ongoing effects, comes in
to play in divine hunting.

A person or animal who is following inner guidance will often enter a
state of trance
in which the act of hunting and its ongoing effects through time are
seen in each case.

In this way, the act is carried out impeccably and the results through
time bless all.

Through the divine virtue of cognition brought about by Love Divine,
the virtue of letter O of our name Petuno, umlaut O, eu,
a Child of Light recognizes the Divine Consciousness in all creatures
striving for greater expression and awareness.

This is the virtue that enables people to see animals as beloved
younger brothers and sisters
who are here to fulfill the original intent of Heavenly love upon the
Earth.

This brings about justice and harmony, success and satisfaction to all
concerned.
This is the virtue of O.

As a person becomes enlightened,
the vision of the ancient future becomes reality.

The ancient future is the original divine blueprint,
the Alpha,
manifested as the completion,
the Omega,
HEAVEN ON EARTH.

*In this state of awareness the desire to live on foods such
as eggs and grains,
or mostly raw fruits, vegetables and other plants,
comes naturally
and the ability to live on light
and obtain nutrients from pranic forces
is rediscovered.*

*Such an enlightened person often feels no need to create a
reality in which eating animals
or animal products is a necessity of survival.*

*Instead it is done as an act of inner guidance and
sacredness.
It becomes an act of Love and Wisdom.*

The body is blessed by such food.

When such food is blessed according to Divine Guidance

*and Wisdom,
the life force of the animal's body or its product has been
made a sacrament
of higher consciousness through Love.*

*The law of transformation through Love Divine applies to
all beings
at all levels of evolution towards conscious unity with the
Divine Light.*

All that I do ye shall do and more.

Footnotes

The names and meaning of angel groups come from Quaballah,
which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name.
This name is a key to their powers and influence.

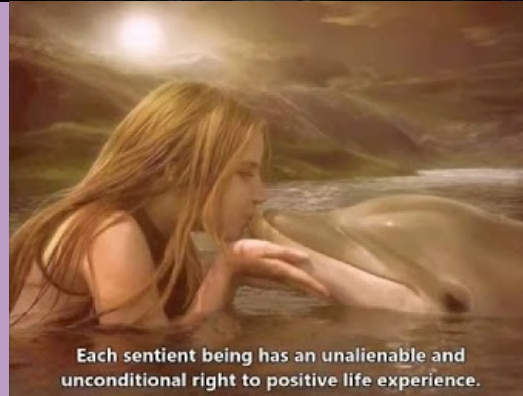

Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon. Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,

and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

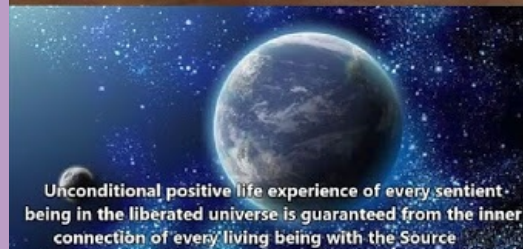

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books have very important information for these studies.

The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

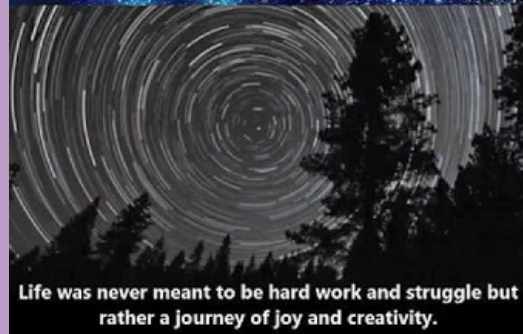

Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

Each sentient being has an unalienable and unconditional right to positive life experience.

Unconditional positive life experience of every sentient-being in the liberated universe is guaranteed from the inner connection of every living being with the Source

Life was never meant to be hard work and struggle but rather a journey of joy and creativity.

Love brings miracles of happiness.

The Law of One is the original law of Creation, and is the supreme Law over all laws in all dimensions.

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM, and I am one with all there is;

I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen .

I give thanks that this is done.

SO BE IT!

So it is.
