The Angels of Color Science

Also known as

The Angels of

Ergomion

The Cosmic language
IS THE LANGUAGE OF LIGHT.

THE UNIVERSAL EXPRESSION OF A LETTER, OF A DIVINE
VIRTUE,
IS NOT A FORM,
BUT A COLOR,
or to be more exact,
a color oscillation.

Colors are visual divine frequencies of divine qualities in creation.

**Color and sight, smell, sound, touch, and taste are pathways to
Divine Bliss,
as people entrain,
in sympathetic resonance,
on four levels of awareness,
visualization,
mind,
emotion,
and sensation,
with Heavenly realms.**

**The creative use of the cosmic language requires that a Child of Light
enliven the letters, with their divine meanings,
in meditation on their colors, meaning, musical note, sensations, and
purpose.**

**Going deep within,
meditate first in pure beingness in unity with Divine Being,
then visualize the color, meditate on the concept,
and next flow with the emotions,
enlivening them by sound in an acoustical way,
and finally meditate with sensations,
to pronounce a divine virtue of a letter
in a fully conscious way.**

**We are the heavenly host that inspires using the language of color to heal and
inspire on all levels;
the physical, emotional, mental, and spiritual.**

**It is possible attain mastery of color science through the divine virtues
associated with the letters of our name.**

Divine Consciousness and Life are Omnipresent.

Omnipresence is the meaning of letter E of our name Ergomion.

**This virtue awakens communication with all beings.
It comes from the experience of pure being and unity with Divine Being and
all creation.**

E shines with dark violet light and the musical note of D.

Remember that color is a key for communication in the spiritual, mental, and emotional realms as well as the physical.

Spiritual colors are very light, pastel, ethereal and refined but take on stronger and more intense hues in the mental realm, and getting more intense and strong in the emotional and physical realms.

The first step is therefore the visionary practice of pronouncing a letter in the imagination with colors.

The visionary aspect of a letter refers to its light, its color, i.e., to the eye, and is analogous to the principle of VOLITION, or will.

Thus the student again starts with the FIRST characteristic of the spirit, the principle of VOLITION with the use of color.

By visualizing and using colors on every level, the most amazing results in creation can be obtained.

I should like to premise once more that I do not ascribe to any religion of the world the right of claiming to be the original source of this high science.

The student of the practical quabbalah need not have any knowledge of Hebrew or any other language.

We help on the path of spiritual perfection of wisdom with attunement to inner guidance in the use of color.

Inner guidance is the divine virtue of letter R of Ergomion.

The virtue of inner guidance shines with a golden color while flowing feelings of inner guidance vibrate to the tone of the musical note of C.

Colors activate higher consciousness, and are the essence of true divine

blessing, or Grace and Mercy.

Grace and Mercy are letter G.

Grace shines with an emerald green light
and flowing feelings of true divine blessing vibrate to the musical
note of F.

To the degree that a person experiences upliftment of overall vibratory rate,
to that degree
returning negative karmas glance off his or her energy field to manifest in
mostly symbolic ways.

Cognition brought about by Love Divine stimulates the Divine Fire of colors to
work healing effects.

Loving cognition activates indwelling divine perfection.

The eyes are exposed ends of the optic nerve.

*The optic nerve is connected to and affects the pineal, pituitary,
and hypothalamus glands.*

*To gaze upon a beautiful color excites a response of neuro-
chemicals that
change the chemical composition and consciousness in the human
body temple.*

Cognition brought about by Love Divine is the virtue of umlaut O, eu, of
Ergomion.

Its color shines dark orange and its musical note is D sharp.

O is the virtue of harmony and justice.

This virtue gives a high power of judgement which causes harmony, success
and satisfaction in the choices of color.

This virtue is an ultramarine blue and has the musical note of C.

EMOTIONS, flowing emotions, change and fluidity are the divine virtue of
letter M.

Emotions are magnetic and attract realities into form.

COLORS CREATE EMOTIONS, and cause changes on the physical level.

M shines with a lovely blue-green color and has the musical note of D.

The Law of Cause and Effect is the letter I.

This virtue gives a Child of Light the ability to know what colors do and enliven
colors
and give them the power to profoundly effect those who look at them.

This virtue shines with a light opal color and the musical note of G.

Umlaut O, eu and O are again activated, bringing through transmutation and
harmony.

Supreme Happiness is the result of being united with the Divine Virtues
through color.

Supreme Happiness is the virtue of letter N, shining with a deep red color to
the musical note of A.

*We inspire the use of color and the creating of all types of pigments
and mediums
for painting and color reproduction .*

We give you unsurpassable recipes for mixing oils, paints, and inks.

We help you with their production as well as their practical application.

We are experts in synthetic inorganic chemistry.

Everyone who works with color, especially artists and healers, come under our protection and guidance.

The use of color in every type of imaginable medium and media comes from our inspiration.

We guide to the right colors to create the most beautiful effects for the purpose at hand.

Divine Providence has ordained that all shall be on Earth as it is in Heaven.

"As above, so below."

Remember that colors that are visualized but are invisible to the sight create beneficial changes in the world of causes.

Remember that through colors the sense of sight is nourished with feelings of the heavenly realms.

Anyone using color for healing or enlightenment, can call on us for guidance in choosing which colors and shades to use.

As the children of light understand the language and power of color, supreme happiness blesses all.

Supreme Happiness is the virtue of the last letter of our name, the letter N.

Supreme Happiness shines with a deep red light.

As this science is used according to inner guidance attuned to Divine Providence and the highest good of all concerned, the wise use of colors in everything create feelings of Heaven on Earth.

Creating mandalas using color is one of the ancient-future processes for accessing, healing, reorganizing, balancing, and developing the psyche.

E-R-G-O-M-I-O-N

E...This letter is the sound of universal consciousness, which represents, as a divine idea and virtue, its omnipresence in everything that has ever been created.

Meditating on this virtue unites your normal consciousness with the universal consciousness, with the cosmic consciousness, so that you can attain, in the akasha principal, omnipresence yourself.

This is known in oriental wisdom as Nirvi-Kalpa-Samadhi.

You attain the highest form of intuition in your mental world; you transfer your consciousness so that there exists no sense of time and space.

Divinity in His highest form is able to speak through you. The most profound mysteries of materialization and dematerialization become obvious to you as you master this, everything that is material may be transferred back into its refined and most subtle form and any idea can be intensified in such a way that it becomes physically visible.

In the emotional body, the oscillation of letter E represents the control of the feeling consciousness of oneself and of other people. Especially easy is it to achieve special clairaudience by meditating on this virtue.

By "special clairaudience" not only the hearing of beings, etc., is meant, but also the understanding of the language of all animals and the perception of the remotest past, the present, and even the future, indiscriminately of distance or kingdom, i.e., human kingdom or animal kingdom.

The color of this virtue is deep violet, the musical note is D, the element is akasha, which has the sensation of God-penetrating-all, and the spine is formed from it.

R...The sound of the letter R is the divine virtue of becoming the master and guardian of freedom and independence.

It is this virtue that is used by each child of God who listens to and follows their own inner voice of guidance.

This inner guidance is a person's unmistakable link with the Universal Mind of Divine Providence that lives and moves in all space and time and beyond.

*In this state of freedom and independence there is the feeling of freedom of any pressing burden of the laws,
for by the mastery of all the preceding virtues
you have achieved a state of maturity by which this feeling of independence
has been transformed into an absolute state of security and
unimpeachability.*

*This comes from the realization of the harmony
and perfection of all divine laws and the identification and love of them so
intensely that they have actually become merged with oneself.*

*In this case you are the personification and representation of the divine laws and they
will serve you, and your sense of freedom will derive from them rather than in spite of them.*

*This is a very high state of consciousness, but it is the state that every
human being is destined to accomplish.*

It is for this reason that your teachers have told you that "the truth is written within your heart".

*The color of this virtue is golden; the musical note is C.
The left side of the nose is formed from it.*

G...This is the profundity of Divine Grace and Mercy in all its infinite expressions.

*The virtue of divine peace of the mind and the
ability to give true divine blessing is attained by meditating on this virtue.*

*In the emotions there is the feeling of complete happiness and
satisfaction. In the material world, this virtue represents all phases of riches and wealth,
of happiness and satisfaction.*

Musical tone F. Deep grass green color. A feeling of chill. Enlivens the left eye.

*umlaut O, eu, when toned to the musical note of D-sharp,
is COGNITION brought about by Love Divine. It, along with umlaut A, ae,
is the miracle worker of all virtues.*

Akasha:

*In the principle of consciousness penetrating all, the umlaut
O oscillation evokes the most profound cognition which can only be brought about by love divine.*

*By the help of this a person gets to know all the possibilities of
transformation of the spirit, all the systems and ways serving this end,
and all knowledge concerning transformation in all other fields. He/she*

*is informed about everything that, deriving from the act of creation,
had to pass through all the mode of transformation to be reunited.*

*A person must attain all the faculties that are offered by this
profound cognition made possible by Love Divine,
in the principle of consciousness-penetrating-all, and must make use of all possibilities,
in order to get convinced that they cannot be described by words, by must be experienced, lived
through.*

*I have mentioned the letters umlaut A and umlaut O as the last ones in this series of exercises,
because by the help of their virtues one is
able to comprehend, from the principle of consciousness-penetrating-all,
the crown of all wisdom in the micro- and macrocosms, from the act of
creation to the present state of evolution, and even to the final development.*

Mental:

*Evoked in the intellect, the virtue of profound cognition brought about by love divine gives the
understanding of the
transformation of ideas, virtues, etc. by the quabbalistically pronounced word,
which is a very great and comprehensive field.*

Astral/ emotional level:

*In the emotions, the virtue of profound
cognition brought about by love divine develops the faculty of perfect astral projection
and the mastery of all occult and magical phenomena
that have reference to transformation,
so that a person may, for instance, assume any desired vibration in the emotional body without
being recognized by other beings and with only Divine Providence seeing through him/her.*

*Apart from this, a person is able to transform any
emotional oscillation into the oscillation he wants and to do the same with any element.*

Material:

*When mastered in the physical body, the profound cognition
brought about by love divine leads to perfect knowledge of quabbalistic alchemy in the material
world.*

*A person is taught the true preparation and charging of the
philosopher's stone in the physical sense. He/she can influence, at will,
any oscillation—atomic, oscillation, electronic oscillation—
by quabbalah, and he/she is able to transform it into the oscillation desired by him/her.*

*Therefore he/she perfectly masters the laws of transmutation and is
able to transform any metal into gold, any stone into a precious stone, etc. if desired.*

*By the help of this virtue a person is furnished with
many other faculties of which he/she cannot even dream now
and which non-initiates would regard as absolutely impossible.*

*Umlaut O is dark orange, has the musical note of D-sharp, is the
element of akashic-earth which has the sensation of weight penetrating everything.
The ovaries and testicles are formed from this virtue.*

O...justice and harmony, success and satisfaction

*M... This letter is the sound of the divine virtue of EMOTION
which is the magnetic feminine force. Magnetism attracts reality in the physical world.*

*Whatever EMOTIONS are appropriate for the highest good of all concerned
at any given time and circumstance determine which colors are to be used.
Inner guidance will inspire these colors with great genius.*

*The divine virtue of emotion has a lovely blue-green color, and is the
water element so it has the sensation of coolness. It vibrates to the musical note of D, and the
abdomen is formed from it.*

*L... The sound of this letter is the virtue of cause and effect, which is the karma law.
On the mental level, this is analogous to memory, remembrance and conscience.*

*In the feeling body, this corresponds to the astral/physical matrix,
which is the connection between emotion and physical form,
with all of its functions.*

*On the material world, everything that has shape, measure, number and weight
can be understood and mastered with this virtue.*

*The color of this virtue is light opal, the musical note is G,
the element is earth so it has the sensation of weight,
and the left kidney is created by this oscillation.*

*This is a short version of the same meditation as the meditation for
all the letters and their virtues.*

We repeat it again with this letter.

*Once the meditation is learned with one letter it is easy to
adapt it to all since the same skills are used with each one.
Keep this explanation at hand for use with all of the letters.*

Go deep within and experience yourself as pure being, one with Divine Being and all creation.

*Now, locate yourself in time and space by seeing yourself as a tiny dot in your solar plexus
with the rest of the body as an infinite
swirling universe all around you.*

*Visualize the color of a divine virtue shining from a tiny sun in the region of the element of the
virtue.*

Meditate on the meaning of the virtue with your intellect, in a Theta brainwave state of deep inward thought.

In this case, the letter I, meditate on the virtue of cause and effect.

*Hear the musical note, in this case G,
while flowing with emotions of yourself having mastery over the law of cause and effect.*

*Do this with a sensation of the element, in this case a sensation of weight.
See the color shining forth from the area of the body that is formed by the virtue.
In this case, see light opal shining from the left kidney.*

*When you breathe out, see all of this radiating through the pores of the
skin over the body part, in this case the left kidney, and filling whatever inner guidance directs.*

*When you breathe in,
see this radiating in through these same pores of the skin
and filling the part of the body that inner guidance directs.*

*Keep the rhythm of the breath natural and dissolve the light in the body
when you are finished to protect the natural balance of elements in the body.*

"I and the Father are one."

Umlaut O, eu...transmutation through cognition brought about by love divine.

O..... The sound of letter O is the sound of the initiation into the original principle of divine justice.

*Mentally you will be able to give expression to the absolute legality of harmony in all four basic
qualities of the elements. You will have a
high power of judgement and the ability to comprehend spiritually any legality, any interference by
Divine Providence for the sake of
justice. You will never be able to condemn anyone unjustly. This will bring about the abilities to
create any change in the emotional
situations that you find yourself in and to have absolute success and happiness on all levels.*

The ability to control emotions is the ability to control magnetism, which is the ability to attract.

It is also the ability to manifest anything on the physical level.

*This virtue has an ultramarine blue color, the musical note of C, and
is the earth element so it has the sensation of weight. It forms the throat and windpipe.*

N... This sound is the sound of supreme happiness and fulfillment.

The purpose of creating beauty and plenty is to bless everyone with happiness.

*This virtue gives control over the mental matrix, which is the
spiritual bonding material that connects the emotional body to the mental body, i.e., to the spirit.
The mastery of this virtue reveals to
the child of God all the mysteries relating to the mind and the emotions and bestows the ability to
comprehend,
see, sense and control, the
mental matrix with its sphere of action, either in regard of self or others.*

*On a physical plane, this virtue gives mastery over the principle of cohesion or coherence, gravity
and
the attractive power of everything material.*

*The color is dark red, the musical note is A, it is of the water
element of feeling so it has a cool sensation. The liver is formed from this virtue.*

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions:

**Judaism, Islam, and Christianity.
Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.**

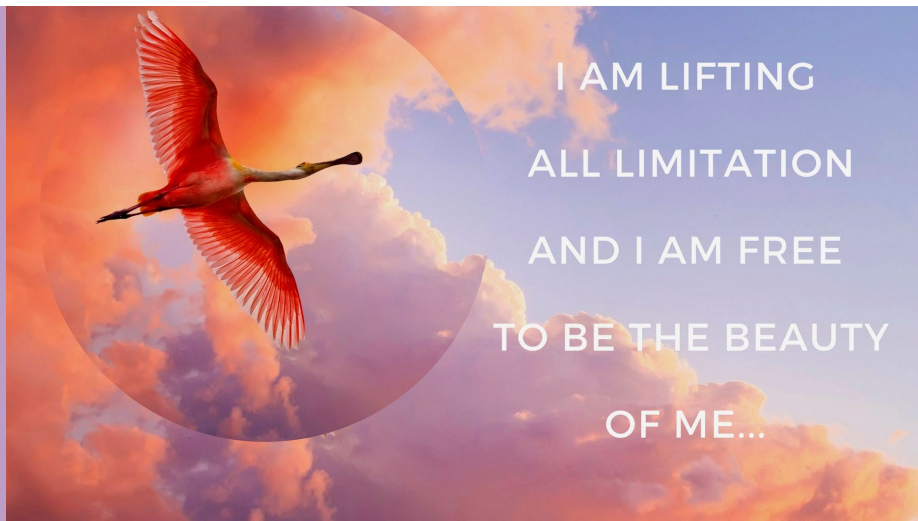

**The being and the angels share the same name.
This name is a key to their powers and influence.**

Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

And in your stillness hear

The whispers of a wise, sweet voice

Who cares for you, my dear.

Please, laugh and sing out every day.

Your joy expressed in sound

Can fill the hearts of those you love.

They're blessed when you're around.

Remember, every word and thought

Creates the world you'll see.

And say 'I Love You' every day....

And say it joyfully!
