## **The Angels of Sacredness in Matter**

**Also known as**

**The Angels  
of**

# Saris

Beloved,

We inspire understanding of powers  
of creative sacred being, will and intent,  
visualizations, thought, emotions and sensations  
in meditation,  
in transforming physical matter into holders of divine  
frequencies.

Omnipotent original divine will is all penetrating,  
shining with purple red lights,  
and this is the virtue of the first letter of our name.

All penetrating divine will endows everything in creation  
with divine spiritual meaning and beauty.

The original blueprints of everything in creation,  
express the purity of all ideas in divine mind.

Oneness with divine mind is enlightenment,  
and is the virtue of the second letter of our name,  
omniscience, shining with light blue lights.

By aligning individual will with all penetrating divine  
will  
for manifesting spiritual beauty in creation,  
control over creation occurs with clear inner guidance.

Divine inner guidance is the third virtue of our name,  
the letter R, shining with golden lights.

"I and my Father are ONE."

Understanding of cause and effect,  
which is the principle that controls matter,  
arises.

This is the virtue of letter I of our name,  
shining with light opalescent lights.

The last letter, again the first letter, is all penetrating  
divine will  
to manifest spiritual perfection in all creation.

Children of light,  
made in the image and likeness of the creator,  
have dominion over creation.

**Matter, like a hard drive in a computer,  
stores information.**

**By constantly storing accurate divine information,  
charging all matter with divine qualities,  
Divine Will manifests on Earth as it is in Heaven.**

**Relating to matter with gratitude and love,  
as infinite holders of divine spiritual beauty,  
even the least stone becomes sacred and holy.**

**"In the end times, even the stones will cry out."**

**Matter is mostly space.**

**We inspire, in meditation,  
filling vast spaces between the nucleus of atoms  
and orbiting electrons etc.  
with flowing feelings of supreme happiness,  
shining with rosy red lights.**

**Emotions are compressed magnetic information codes  
that attract out of the quantum field  
corresponding realities into form.**

**Emotions of divine supreme happiness cause joyful  
realities  
to be drawn into manifestation.**

**Happiness attracts cohesion in matter,  
and is similar to gravity.**

**Matter holds energy.**

**Individual will aligns  
with all penetrating divine will for spiritual beauty to  
manifest,  
and all energies of imperfection are released for  
transformation.**

**Inward visualizations of original divine blueprints of  
perfection  
are then reinstalled in matter.**

**In this way,  
children of light take on their original roles of dominion  
over creation,  
and charge matter with divine beauty.**

**Heaven manifests on Earth.**

**All manifestations are beloved expressions of Divinity.**

***The destiny for all matter;  
from the most subtle fiery and airy matter of desires and  
thought forms,  
through more dense astral matter of flowing emotions,  
to the most dense matter of the physical world,  
is the out picturing of Divine Perfection.***

**All matter are living ciphers  
destined to reveal the splendor and the majesty  
of Divine Being.**

***Omnipotent omnipresent highest Divine Love,  
Wisdom and Will Power exist throughout all creation.***

**In the beginning, all matter,  
from the most subtle to the most dense,  
was created and imbued with divine virtues.**

**The Children of Light, made in the image of Divine Being  
and given dominion over all creation,  
are destined to flow with consciousness and feelings of Divine  
Being.**

**The Alpha and The Omega,  
as it was in the beginning, is now and ever shall be,  
forever and ever.**

**Omniscience, the virtue of letter A or our name,  
reveals the original blueprints of creation, and shines with light  
blue lights.**

**God so loves the world, that even through his children,  
spiritualizing matter is ongoing  
in sacredness.**

**Divine Will and Divine Love,**

and all of the divine qualities,  
penetrate matter.

*This process is the Alpha and the Omega,  
the perfection of original blueprints of creation  
manifesting as the destiny of Heaven on Earth.*

*Whether it is blessing a purpose, a journey, food,  
clothing, jewelry,  
a place, a person, a thought, a creature,  
an act, or a desire, or an emotion, or a feeling,  
we teach the importance, the necessity of charging  
everything in creation  
with sacred intent and emotion .*

Through the divine virtues of Saris,  
we help the Children of Light consecrate Creation.

Matter and consciousness are a feedback loop.

As above, so below.

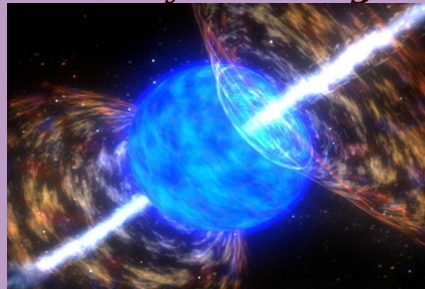

***Physical matter so transformed by sacredness in being  
and will and intent,  
consciousness and emotion,  
in turn transforms will, consciousness and emotion and  
results even in transformation of other matter!***

...when you know choosing the light is the  
theme of completing “the final battle”, a  
deep heartfelt surrender is given  
permission to awaken within and transform  
our reality from the inside out.

**Matter is similar to a computer disk, recording and holding the four  
part information codes  
of sensations, emotions, information, visualizations and states of  
being.**

***By charging matter with powerful divine virtues,  
matter becomes doorways into higher consciousness.***

**Look upon everything  
with new eyes, with eyes of Love.**

**Touch everything,  
even the most simple desires,  
imaginations,  
thoughts**

emotions  
or sensations,  
all forms,  
even the most simple rocks,  
in unity with Divine Mind and divine purpose.

*Transform the commonplace and ordinary  
into the extra-ordinary,  
into Divine Perfection.*

It is in this way that Earth indeed becomes Heaven.

All that I do ye shall do and more.

This is one of our stories:

## THE AMBER BEADS

Once upon a time a kindly old woman named Aramathea paused  
as she was leaving an ancient stone temple in her humble village.

She was one of the faithful  
that quietly traveled every evening at sunset  
into the silence of the temple,  
crossing the bridge of consciousness connecting the seen with the  
unseen.

She noticed that the moonlight was turning the ancient cobbled  
pathway to silver!

She looked down at the beautiful strand of amber prayer beads  
glowing softly in her hand.

**All was hushed.**

**A Great and Holy Presence shimmered around her.**

**Angels, glowing as faint auras,  
profoundly poured blessings,  
as she prayed for Divine Love to transmute discord  
and manifest spiritual beauty  
in the world around her.**

**She had always known in her heart that All is ONE.**

**Flowing feelings of adoration of The Presence of Oneness filled her  
body.**

**In It, she felt flowing emotions of Divine Love healing and  
transforming every part of creation,  
making it whole.**

**As she continued praying, visualizing heaven on earth,  
her fingers paused with each amber bead.**

**Memories of her mother telling her as a child  
that each precious amber bead  
was a drop of ancient blood from the sacred forests  
sent her into reverie.**

**She saw beautiful towering forests in her minds eye, feeling that she  
was there.**

**She walked softly amongst the whispering boughs,  
giving thanks to the Creator for the splendor and majesty of Earth.**

**As her mother had shared with her,  
with each touch,  
she knew that she was blessing the beads,  
and charging them with her prayers.**

**She remembered soft nights while her mother prayed holding them,  
lighting a candle for each member of the family.**

**Her heart filled with flowing feelings of an ancient divine rapture.**

**In the presence of The Beloved, her spirit was renewed.**

**The angels of Saris hovered over her.**

**They had protected and guided the spiritualization  
of these prayer beads for generations.**

**She remembered.**

**Many years before,  
Aramathea had sensed these angels as  
faint glowing lights around her Mothers head  
as she softly sang her morning prayers.**

**When her mother lay peacefully dying,  
lights got blindingly white  
and she handed these beads to her  
as a final gift.**

**In her minds eye she saw these same angels standing watch  
over her mother when she was a young girl,  
and before that  
with her great aunt when crossing the great dark sea.**

**They had always infused this strand of beads,  
and other sacred objects in the family,  
with the divine virtues of Saris,  
the virtues of all-penetrating- Divine Will for the highest good of all,  
enlightenment  
and transformation of imperfection,  
inner guidance,  
and understanding of cause and effect.**

**She had noticed that the beautiful dark golden amber color of the  
beads began to glow  
when her mother's eyes were closed in prayer,  
when they were being touched.**

**She rejoiced as powers inherent within them moved her mother  
into deepest prayer and communion.**

**She saw, as children do,  
that the true significance of the beads was best,  
when her mother's heart opened in floods of Cosmic Love.**

**The timeless space between moments would open,  
and feelings of the divine virtues from ages upon ages flowed.**

**The prayer beads had become gateways to high and timeless  
realities.**

**They shifted paradigms within all who desired to enter the arms of  
The Beloved,  
The Divine, in deep and sacred communion.**

**Touching her beads in the moonlight,  
Aramatheas concentration deepened as her heart opened more and  
more.**

**Timeless space and Love embraced her.**

**In that moment, her ideas of herself, her experience of everyday  
reality,  
her usual orientation,  
were completely vaporized  
into awe and wonder,  
of the majesty and splendor of Divine Presence.**

**These tangible flowing feelings were so delicately precious.**

**She flowed more strongly with deep blissful gratitude,  
in the presence of such holiness  
releasing consciousness of who she had been,  
experiencing rebirth.**

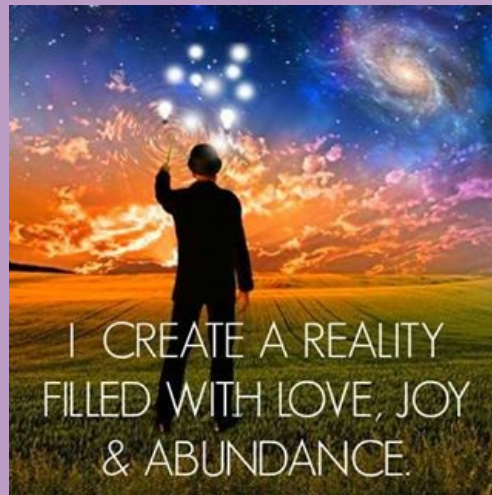

**For hours afterward,  
even as she fed the animals,**

**and prepared the morning food,  
acute sensations of the meaningfulness of all life  
in every moment  
kept her entranced,  
totally immersed in blessed unity.**

**Soft tears of love and happiness fell from her eyes.**

**The angels and the glorious hosts of Heaven had merged within her  
heart  
as all became one with Flowing Divine Being,  
blessing the very stones of the village with bliss.**

## **MIRACLES**

***Meditate on the divine virtues of our name  
and impregnate all matter with Divine Consciousness and Love.***

## **S-A-R-I-S**

***S This sound is the sound of all-penetrating-power.  
It has to do with everything regarding enthusiasm and the absolute mastery of  
will.***

***This is the most subtle substance of the divine spirit, i.e., with  
the original divine will or fire which works as a substantial power in  
everything  
that has been created by Divine Providence.***

***A child of God using this divine virtue attains the spiritual gift of  
perfect mastery over the electrical fluid, which is the use of will,  
and is able to control everything analogous to will.***

***A state of clairvoyance in its purest form and perfect control over other beings  
is gained by this virtue in the feeling nature.***

***The color of this virtue is purple red, its musical note is G-sharp,  
it is the fire element of will and so it has the sensation of warmth,  
and the gall bladder is the part of the body that is formed by it.***

***A The sound of this letter, the soft A,  
is the divine virtue that is analogous to the enlightened intellect, faculty of  
judgment,  
comprehension of profoundest truths, knowledge and faculty of perception  
and development of all intellectual faculties.***

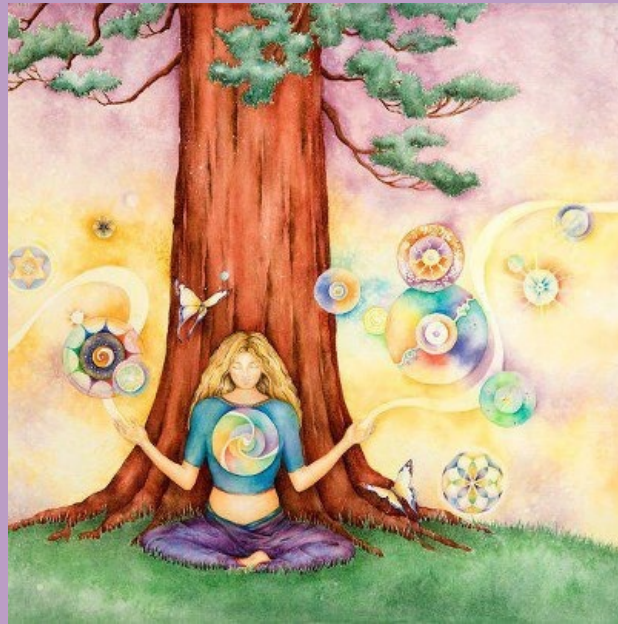

***This sound[a soft a like a sighahhhhh] and virtue is an initiation  
into the highest wisdom  
and the purity of all ideas in existence.***

***This has as a fundamental feature the enlightened mind.***

***Reasoning, perception, the cognition of the most profound truths  
, highest knowledge, high intelligence, and the arousing of all***

*intellectual faculties are expressed. Musical gifts, eloquence, poetic talent, and clairvoyance, clairaudience, the art of levitation, and the control of the air element and its beings are all aroused by this initiation.*

*Wisdom and enlightenment shines light blue, the musical note is G, the element is air so it has the sensation of ease, and the lungs are formed from it.*

*umlaut A, aeThe realization of wishes regarding physical matter is subjected to this virtue.*

*The sound of this letter, the long A, ae, in the cosmic language is the virtue of the origin and mystery of life and death regarding their transformation.*

*By meditating on this virtue, a child of God becomes convinced that in reality death does not exist, for the so-called death is only a transformation from one state into another.*

*Also will come enlightenment on the cause of this transformation. With this comes the ability to master all negative spiritual beings in all spheres and planes with regard to their scope of action.*

*The purpose for which negative beings have been created becomes clear.*

*Since, in the original principle all beings are alike, each having been created by Divine Providence to fulfill a certain task, there is no dissimulation of negative beings, for from the enlightened persons point of view everything is pure.*

*Here the saying: "to the pure one everything is pure" becomes plain.*

*If there were no negative beings, it would be impossible to distinguish between good and evil; and if there were no passions, there would also be no virtues.*

*This virtue confirms the words contained in the Bible: "through night to light", the deep symbolic meaning of which now becomes clear.*

*In the intellect the ability is gained to see through all thoughts, actions and wishes concerning matter, and of becoming their absolute master.*

*In the feelings, this virtue represents desires, passions, and the inclination to self-satisfaction etc.*

*A person who masters this virtue in their feelings becomes absolute master and ruler of all desires and passions.*

*Also, a person is able to not cling to mental, emotional, and material virtues and objects.*

*This means complete independence and freedom*

*and fulfills the saying "bind yourself and you will be free".*

*On the material level this virtue is one of the most materialized.  
No matter whether you evoke it in the mind, the feelings, the akasha, or  
the material world, the earth is influenced by it to a larger extent.  
The ability to infuse matter with divine virtues is heightened.*

*This virtue shines loamy brown. The musical note is C.  
The element is earth so it has the sensation of weight.  
The anus is formed from this virtue.*

*R The sound of this letter is the divine virtue that concerns everything  
about freedom of will, freedom of action, and intellectuality.*

*This is the sound of the divine virtue of INDEPENDENCE AND FREEDOM.  
It is the virtue of following inner guidance and being in tune with Divine  
Providence.*

*Those who study the divine virtues in the order of the alphabet reach a  
state of complete oneness with Divine Providence  
so that by the time they reach the letter R,  
they have achieved a state of maturity by  
which your feeling of independence  
has been transformed into an absolute state of security and unimpeachability.*

*Mentally, you will have an eminent mind and the feeling of freedom of will and  
action.*

*Not only this, but also the state of maturity in which you will never violate a  
law,  
having yourself become a master of all laws.*

*In spite of your freedom of will, you will find yourself  
willing to subject yourself freely to Divine Providence,  
and accept missions to serve Divine Providence with deep humility,  
immense gratitude and the highest devotion  
without losing your feeling of absolute freedom of will in any way.*

*Such great ingenuity will proceed from this  
that you will be able to comprehend any knowledge quickly and without  
difficulty.*

*This virtue shines golden lights, the musical note is C, the primary  
element is earth so it is felt with sensations of weight,  
and the left side of the nose is formed from it.*

*The sound of this letter is the virtue of cause and effect, which is the karma  
law.*

*On the mental level, this is analogous to memory, remembrance and  
conscience.*

*In the feeling body, this corresponds to the astral/physical matrix,  
which is the connection between feeling and physical form, with all of its  
functions.*

*On the material world, everything that has shape, measure, number and  
weight  
can be understood and mastered with this virtue.*

*The color of this virtue is light opal, the musical note is G, the element  
is earth so it has the sensation of weight,  
and the left kidney is created by this oscillation.*

*Use the same meditation with all the letters and their virtues.*

*Once the meditation is learned with one letter it is easy to adapt it to all  
since the same skills are used with each one.*

*Keep this explanation at hand.*

*Go deeply into a state of pure being and unity with divine mind and all  
creation.*

*Then see yourself in time and space  
as a tiny dot in your solar plexus with the rest of the body  
as an infinite swirling universe all around you.*

*Imagine the color shining forth from a  
tiny sun in the area of the body that is formed by the virtue.*

*In this case, see light opal shining from the leg region.*

*Now see this light informing the part of the body that is formed from the  
virtue,  
in this case the left kidney.*

*Meditate on the meaning of the virtue with your intellect,  
in a Theta brainwave state of deep inward thought.*

*In this case, the letter I, meditate on the virtue of cause and effect.*

*Spend plenty of time with this.*

*Now take the time to magnetize this virtue into form,  
to FEEL, to flow with emotions of the law of cause and effect.*

*Now inwardly tone the letter to the musical note,  
in this case the letter I to the note of G, also filling the entire body.*

*Now add the imagined sensation of the element  
in the area of the body that is formed from it,  
in this case a sensation of weight,  
filling the leg region.*

*When you breathe out, see all of this together;  
will, concept, sensation, sound, emotion, and color  
radiating through the pores of the skin that are over the body part,  
in this case the left kidney, and  
going out and filling whatever your inner guidance directs, even all of outer  
space.*

*When you breathe in, see all of this radiating in through the pores of  
the skin over the body part, in this case the left kidney, and filling your entire  
body.*

*Repeat this as you breathe until it becomes second nature to do this  
meditation whenever you wish to invoke this divine virtue.*

**KEEP THE BREATHING NATURAL.**

**THE RHYTHM OF THE BREATHING SHOULD BE NORMAL.**

**BE SURE TO DISSOLVE THE LIGHT AND ALL PARTS OF THIS MEDITATION  
AFTER YOU ARE FINISHED  
IN ORDER TO NOT DISTURB THE BALANCE OF ELEMENTS IN THE BODY**

*By performing this meditation with a vivid imagination, such a strong  
connection is made between universal mind and individual mind, that they  
become one.*

*"I and the Father are one."*

*SAll penetrating will.*

**MIRACLES**

#### Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings

which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth,

and the angels who work with him or her.

The being and the angels share the same name.  
This name is a key to their powers and influence.

Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,

and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].  
Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician",  
gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

---

**The Law of One is the original law of Creation,  
and is the supreme Law over all laws in all dimensions.**

**THE LAW OF ONE**

**We are all one.  
When one is harmed, all are harmed.  
When one is helped, all are helped.  
Therefore, in the name of who I AM, and I am one with all there is;**

I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen .  
I give thanks that this is done.

SO BE IT!  
So it is.
