The Angels of Anointing

Also known as

The Angels of

Porphora

Beloved,

**Molecules of liquids are similar to computer memory boards,
the molecules of liquid can be charged and loaded with intent and
specific emotions.**

**Emotions are condensed information that attract new realities out of
the quantum field of infinite possibilities.**

**Remember that emotions are magnetic,
and this magnetism attracts new realities into form on the
physical plane.**

**We have blessed the children of light throughout the ages
with the knowledge
of infusing liquids with magnetic emotions of divine beauty
and virtues to attract beauty
and perfection into form.**

**This process transforms liquids so that they have the power
to attract transformation of consciousness and matter.**

***We have inspired ancient ceremonies throughout
time for the sacred use of liquids in anointing.***

**The two virtues, umlaut A and umlaut O, which are the
release of imperfection and seeing through the eyes of love,
are the basis of what most people refer to as miracles.**

**[Umlaut A, ae, is the virtue of transformation,
the recognition of imperfection and the release of it
to change into other states that are the highest good of all.**

Umlaut O, oe, works with umlaut A, ae, to accomplish this.

**Umlaut O, oe, seeing through the eyes of love,
determines what new state the released energy will morph in to.**

**When powerful intentions, visualizations, and emotions of
Divine Virtues are projected into liquids,
[after having first released all vibrations of imperfection],
with intentions of the highest good of all and emotions of
Love,**

**liquids take on the specific magnetic ability to attract
divine situations into physical manifestation.**

**In this way we inspire sanctification of any liquid, especially liquids
such as water and oils.**

**Remember that the human body and earth,
are water worlds,
approximately 80% water.**

**When a blessed liquid or oil is applied to a human body or to the earth,
information is transferred through the skin to the liquids within the
body.**

We bring forth the ancient science of anointing.

***Anointing with oils, or holy waters,
is a way of creating new realities, protection, healing, and
consecration.***

**In this time of Heaven on Earth, we inspire people to impregnate oils
and waters in meditation
with intent, visualization, thought, flowing emotions, and sensations,
following inner guidance to
anoint other people, friends and family members as well as sacred
objects and places for consecration.**

**Anointing with oils and waters, blessed with magnetic emotions of
divine virtues, consecrates, protects, and heals.**

**Both emotions and liquids contain compressed information.
By anointing people with information of the divine virtues, miracles can
happen.**

***Liquids impregnated with divine virtues are interfaces
between heavenly consciousness and matter.***

"On Earth as it is in Heaven."

***All of creation seeks unity with Divine Light and
spiritual
perfection.***

**This is the divine virtue of letter P of Porphora.
This virtue shines with a dark grey light and musical notes of B. The
longing
for spiritual perfection has sensations of weight because it is a virtue of
the earth element.
The right side of the nose is formed from this virtue.**

***By seeing liquids and oils through the eyes of love divine,
it is possible to transmute them into their original divine
perfect states.***

***By seeing people through the eyes of love, emotions are
generated
and put into liquids and oils that awaken their original
divine blueprints.***

This is transmutation. This is the virtue of umlaut O, oe, shining with deep orange light.

As this is done, divine harmony is restored and brings about success and satisfaction to all concerned.

Divine Justice and Harmony is the virtue of letter O. This virtue has an ultramarine blue light and musical notes of C. It has sensations of weight.

The windpipe and throat area are formed from this virtue. The impregnating of liquids requires the toning of divine virtues along with the visualizations of color and feelings.

It is by following inner guidance that a Child of Light knows which Divine Virtues to use in which liquids.

Following inner guidance is the divine virtue of letter R, which has musical notes of C and a beautiful golden light. It has sensations of weight and the left side of the nose is formed from it.

The longing for spiritual perfection and the desire for survival are embedded in all beings of creation on every level, letter P.

Through The Power of The Word, a Child of Light impregnates liquids using being, will and visualization of colors, thoughts, feelings and tones, and sensations.

The Power of the Word is the divine virtue of letter H, which has a silvery violet light and musical notes of A.

It has sensations of warmth and expansion because it is a virtue of the fire element. The right arm is formed from it.

Remember that cognition brought about by powerful flowing visions and emotions of Love Divine GIVE A CHILD OF LIGHT THE POWER TO TRANSMUTE ANYTHING into its perfect divine expression.

This is the divine virtue of umlaut O, eu, of Porphora. This virtue shines dark orange light with musical notes of D sharp. It has the sensations of earth penetrating everything, because it is the virtue of etheric earth.

The testicles and ovaries are formed from this virtue.

Following inner guidance, a Child of Light always knows exactly what divine qualities to use, and how to create rituals for making and anointing with sacred oils and waters.

This is the divine virtue of letter R.

Enlightenment can be awakened and mystical faculties gained in this manner.

This is the divine virtue of letter A, which has a light blue light and musical notes of G. It has sensations of relaxation and ease, because it is a virtue of the air element. The lungs are formed from this virtue.

Then this A is pronounced umlaut A, ae, and ***the transformation of liquids or matter is accomplished through release of any imperfections on any level for changes into other states that are the highest good of all concerned.***

This virtue gives a Child of Light the ability to control negative situations and negative beings, and gives the highest enlightenment concerning death and transformation.

It is seen that in truth there is no real death, only changes into other states.

This virtue gives freedom from clinging to outworn desires, ideas, emotions, and possessions. It has a loamy brown light and musical notes of C. It has sensations of weight and the anus is formed from it.

Always, through intention, visualization and emotions, a Child of Light embeds emotional frequencies into molecules of liquids.

Emotions are magnetic, and attract new realities into form.

**Visions and emotions of divine consciousness, of peace, of love, of bliss,
of
strength, of divine qualities and life are generated
through meditation, and enter waters and oils held in consciousness by
the meditator,
who directs such visualizations and emotions and intentions for this
purpose
using breath and The Power of The Word.**

**For Heaven to come to Earth, each person who walks upon Her must
learn
how to lovingly heal and direct the inner kingdom of emotions,
for emotions are the water and liquid element. They are magnetic and
attract
new realities into form.
Remember always that emotions are the essence of liquids.**

**Because emotions and liquids embody the magnetic
Feminine Power of attraction
and determination of form,
the best thing you can do for yourself or for others is to be happy,
to be emotions of love, to be emotions of faith.**

**Wounded emotions should be healed through acceptance.
They need to be thanked for
all the lessons they have made possible.**

**They should be healed in visualization and love,
not bottled up, resisted, denied, bypassed, acted out destructively or
medicated away.**

**Just like water, remember the laws are the same, the more emotions are
allowed to flow in a safe and
non-destructive way, in the presence of divine empathy, the more they
become and stay pure.**

Even though wounded emotions of sorrow, anger, hate, or fear often

seem to be permanent,
even though they seem, at the time, to be so strong and infinite that they
will never change,
if they are allowed to flow naturally, safely, and completely in an
empathetic and nondestructive manner
they ultimately purify themselves, bringing great insights into the whys
and
hows that caused the emotional traumas and situations that originally
caused them.

As emotions heal and clear, so do all the visions,
thoughts and ideas about reality that go along with them.

*It takes great courage to face and love wounded painful emotions and
let them flow safely
and nondestructively to healing and transformation.*

This is the doorway that a Child of Light must pass
through to master living on the Earthly Plane in a state of
Bliss.

As once-wounded emotions clear themselves through
flowing and empathy,
they once again become life-giving emotions of Divine
Heart and Bliss.

As people accomplish this great initiation, the waters and
liquids of
Earth become ever more impregnated with flowing visions
and emotions of Divine Love and Ecstasy.

Remember the effect of visualization and emotion
on water and oils to manifest Heaven on Earth!

Anointing with oils and waters that are impregnated with divine virtues
is a powerful blessing.

When thus properly charged and applied in the context of an
appropriate
ceremony like a divine blessing, the process becomes a Holy Anointing
which powerfully uplifts the consciousness of the anointed one.

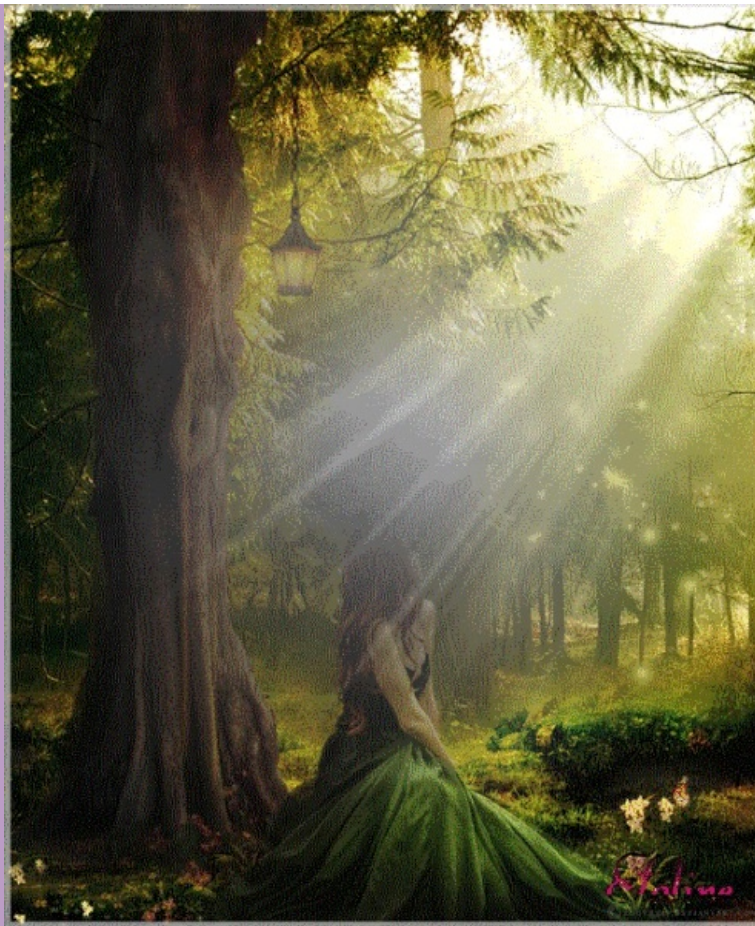

This magnetically attracts divine qualities into the water and oil within
The Human Body Temple.

Here is one of our stories:

This is a true story.

DROPS OF HEAVENLY BLESSING

Once upon a time, there was a very beautiful young lady who had felt
sadness for a very long time.

**Her father had passed away many months ago,
and nothing would shake this emotion of sadness that had come over
her.**

She was sitting by a small lake watching swans and ducks.

**Everything was beautiful and peaceful.
She silently wished to feel their peace.
She wanted to remember what it felt like to flow with emotions of joy.**

She was weary of feeling emotions of sadness.

She wanted so deeply to feel good feelings again.

How could she make her sadness go away?

How could she make her joy and bliss return?

**As she unsuccessfully willed for her sadness to go away,
she realized that trying only made her feel helpless and frustrated in
addition to feeling sad.**

**The more she tried to make her emotions change by force of will or go
away,
the more unhappy she became.**

**Her feelings demanded to be accepted,
to be allowed to be what they were,
otherwise they just would not co-operate.**

**She wondered if this gaping wound in her heart left by her beloved
Fathers passing would ever heal?**

**Thoroughly exhausted, for the first time in months, she decided that
she had no more strength to fight;
she prayed deeply for help,
and with that prayer, all of a sudden she realized that she no longer had
to keep a happy face for her father,
and finally, for the first time in her whole life, she could just be herself.**

No longer having to put up a front to protect others from her inner turmoil, she finally could just relax.

No one was watching, no one had to come first.

Now finally, she could just be with her own inward heart.

**With wonder at her freedom,
gratefully she allowed herself to cry.**

For the first time in her memory, she realized that she could release her outward demeanor.

Releasing control, she sank limply down to the ground.

**Her heart breaking with unspeakable emotions of sadness, love,
overwhelm, and fear, she prayed for help.**

**At that moment, she felt divine presence glowing from all around,
shining as a living fire, a flowing ocean of love.**

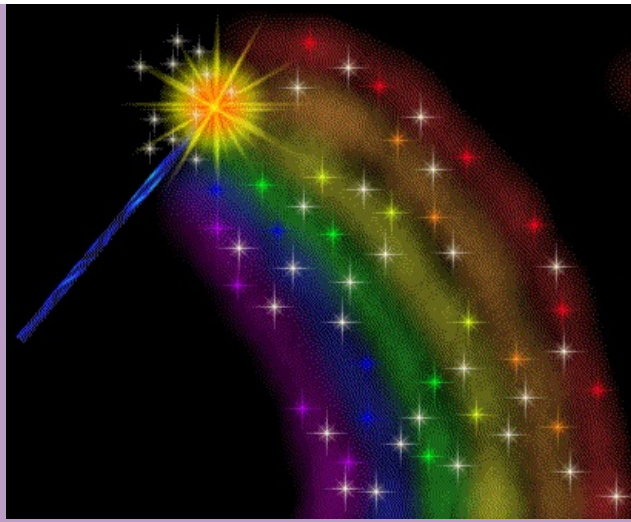

Even the living presence of the earth beneath her responded with love.

**As she lay there in complete surrender,
a faint shimmering light became stronger and stronger, beautiful
music seemed to surround her.**

**The angels of Porphora looked down upon her and commanded rain to
come.**

**Impregnating each raindrop with omnipotent will, with divine visions
and flowing emotions of sacredness, love and happiness,
they anointed and blessed her.**

As the power of their will, visualizations and emotions grew, a roll of thunder echoed across the sky.

A flock of geese flew honking loudly overhead.

With the power of the blessed raindrops upon her skin, her body relaxed even more deeply in grace.

**Months of self-control left,
deep sobs began welling up from the depths of her being.**

**Shaking with tears while the raindrops fell, the woman became one with
the angels and sky**

...for what seemed like a long long time.

**Her emotions, like a river no longer pent up and dammed and
bottled up inside her, finally flowed free,
and brought with them wondrous relief.**

**Insight after insight surprised her from the depths of her ,
as tears fell and mixed with the raindrops.**

**New insights grew,
bringing with them wondrous emotions of peace and beauty,
and more and more lovely visions and thoughts begin to form in her
awareness:**

"Wow, my fathers bad knee will never ever hurt him again."

She had remembered how he had suffered.

**He and she had always known that she had put him first,
that her own life had been on hold as she cared for him.**

**Lowering her eyes, she remembered his well worn prayer book,
the endless evenings she had watched him by the fire in deep
communion.**

**In deep reverence, she accepted the wondrous truth,
*"He is reunited with God "***

**She realized that he had always wanted her to feel joy,
that he had always wanted her life to expand,
that he wanted her to move forward with her life now.**

Now she was free.

A beautiful vision of a new life suddenly dawned and filled her with joy.

*With crystal clarity, she saw a vision of her Father and that
fine
young man, the handsome youth,
who had often lovingly watched her whenever she passed
by,
standing before her!*

*Together they were standing there in her vision,
radiant, surrounded in brilliant beautiful light!*

*At that moment, in her mind's eye,
her Father reached out and touched her forehead with a
drop of golden oil.*

This is when she knew deep in her heart,
that he wanted her to transform from being a companion to a frail old
man,
to being the spouse of a beautiful loving, fine young man!

*As emotions and insights became divinely more free and beautiful,
the clouds broke and rays of sunlight came streaming through.*

*She was amazed to realize that the flood of tears and rain had washed
away her sadness.*

The vision continued, her father looking at her with infinite tenderness,
and then at the youth with gratitude, love and respect.

Her father anointed the young man's forehead with the same oil,
and gave his blessing to them both.

Then her father turned and walked away,
upon beams of sunlight.

*She felt that the strength of this blessing filled them and
the whole earth with bliss.*

When she returned to the village,
she found the young man waiting for her at the gate of her cottage.

She could tell by looking at his expression, and his body language, that
he already knew.

Smiling, he took her hand.

A million emotions passed silently between them as they looked deeply in each others eyes.

They lived happily ever after.

MIRACLES

By studying the divine virtues that are represented by the letters of our name, a Child of Light becomes one with the divine consciousness of anointing.

P-O-R-P-H-O-R-A

P This sound is the virtue of the longing for perfection and the highest spiritual realization. By meditating on this virtue, a child of God awakens increased longing for unification with the original light, and with the divine virtues.

The desire for perfection is the cause behind learning how to create effects in the akasha, which is the element of consciousness-penetrating-all, through will, intellect, feeling, and action.

The deeper and the more frequent the seeker is penetrated by this virtue, the deeper will be the feeling of humility, and it is in this state that is found the greatest and most powerful proximity of divine majesty, of Divine Providence.

In the emotions, this virtue evokes the longing for purification, for transformation, of ones character and the longing for equilibrium in will, intellect, feeling, and form. It evokes the ability to perceive beauty from the universal standpoint as the outcome of perfect harmony.

This virtue is dark grey, and has the musical note of B. Since it is the earth element, it has the sensation of weight. The right side of the nose was formed from this virtue.

Umlaut O, eu.transmutation through divine cognition and love. See explanation below.

O The sound of letter O is the sound of the initiation into the original principle of divine justice.

Mentally you will be able to give expression to the absolute legality of harmony in all four basic qualities of the elements.You will have a high power of judgement and the ability to comprehend spiritually any legality, any interference by Divine Providence for the sake of justice.You will never be able to condemn anyone unjustly.This will bring about the abilities to create any change in the emotional situations that you find yourself in and to have absolute success and happiness on all levels.

The ability to control emotions is the ability to control the element of water and magnetism, which is the ability to attract.It is also the ability to manifest anything on the physical level.

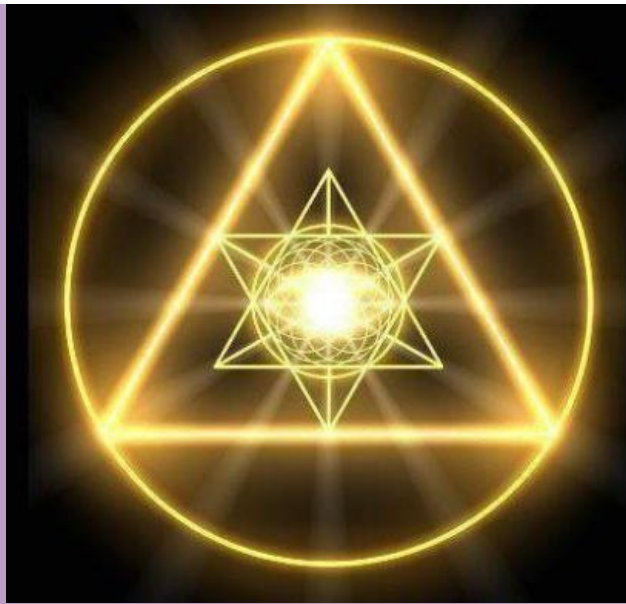

This virtue has an ultramarine blue color, the musical note of C, and is the earth element so it has the sensation of weight. It forms the throat and windpipe.

R The sound of the letter R is the divine virtue of becoming the master and guardian of freedom and independence. It is this virtue that is used by each child of God who listens to and follows their own inner voice of guidance. This inner guidance is a person's unmistakable link with the Universal Mind of Divine Providence that lives and moves in all space and time and beyond.

In this state of freedom and independence there is the feeling of freedom of any pressing burden of the laws, for by the mastery of all the preceding virtues you have achieved a state of maturity by which this feeling of independence has been transformed into an absolute state of security and unimpeachability. This comes from the realization of the harmony and perfection of all divine laws and the identification and love of them so intensely that they have actually become merged with oneself. In this case you are the personification and representation of the divine laws and they will serve you, and your sense of freedom will derive from them rather than in spite of them.

This is a very high state of consciousness, but it is the state that every human being is destined to accomplish. It is for this reason that your teachers have told you that "the truth is written within your heart". The color of this virtue is golden; the musical note is C. The left side of the nose is formed from it.

PThe longing for perfection and unity with Divine Consciousness.

H This letter symbolizes the Power of the Word. We inspire each person who works with liquids for anointing to meditate on divine virtues in will, thought, feeling and sensation order to impregnate liquids with the POWER to heal, consecrate, and bless.

This skill is the divine virtue of the POWER OF THE WORD, which is the divine virtue of letter H. This group of messages, taken together, help explain the technology of the cosmic language, the use of THE WORD in the science of miracles and theurgy.

The letters of the alphabet have sounds, colors, tones, feelings, and sensations that correspond to the divine virtues, with their corresponding meanings on the four levels of will, thought, emotion, and form. Words, whose letters are uttered with these atunements while using the meditation technique explained below, have great power to manifest miracles.

The proper utterance of each letter, has to do with will-intent, imagination-thought, feeling, and sensation. To meditate on a virtue, see yourself as a tiny dot in your solar plexus. The solar plexus, or midriff area, corresponds with the element of Akasha, which is consciousness-penetrating-all.

Once you imagine yourself as a tiny dot in the akasha, see the rest of the body as infinite swirling universes all around you. In a deep Delta State of pure being, WILL for a divine virtue to manifest within you by seeing it as a tiny sun shining out the appropriate color, located in the region of its element. Fire element is in the head region, air is in the lung region, water is in the abdomen region, and earth is in the leg region.

Meditate on the meaning of the virtue with your intellect, in a Theta brainwave state of deep inward thought.

Flow passionately with the feelings of the virtue, with your dreamy Alpha wave brainwave state.

Then with your Betawave State of the five senses, logic, and memory, imagine the sensation of the element. Akasha is consciousness-penetrating-all. Fire is heat and expansion. Air is ease. Water is coolness turning into chill. Earth is weight.

Chant inwardly the sound of the letter to the musical note. If you chant inwardly, you empower the astral plane, if you chant outwardly, you empower the physical plane.

When you breathe out; will, see, feel, and sense this virtue radiating out through the pores of your skin over the area of the body formed by the virtue and filling the entire outer universe. When you breathe in; will, see, feel, and sense this coming in through the pores of your skin around this same area and filling you completely from the outer universe. Learn how to breathe this virtue in and out effortlessly in this way so that anytime you wish to manifest it, this meditation comes easily to you.

BE SURE TO KEEP THE NORMAL RHYTHM OF YOUR BREATH AS YOU DO THIS. Do not hold or prolong the breath. When you are finished, dissolve the light and

other sensations so that you keep the body balanced and do not overstimulate any area of the body.

By using this technique to utter words, each one of which is made up of letters that have divine virtues associated with them, creativity of the highest order occurs.

The letter H has a silvery violet color, is the fire element of will and has the sensation of warmth and fire, has the musical note of A, and is the virtue by which the right arm of every child of God is created.

umlaut O, eu The sound of this letter is the divine virtue that concerns everything analogous to enlivening matter in all levels of will, thought, feeling, and form.

umlaut O, eu, when toned to the musical note of D-sharp, is COGNITION brought about by Love Divine. It has to do with enlivening the material plane. It is the miracle worker of all virtues.

Akasha: In the principle of consciousness penetrating all, the umlaut O oscillation evokes the most profound cognition which can only be brought about by love divine.

By the help of this a person gets to know all the possibilities of transformation of the spirit, all the systems and ways serving this end, and all knowledge concerning transformation in all other fields. He/she is informed about everything that, deriving from the act of creation, had to pass through all the mode of transformation to be reunited.

A person must attain all the faculties that are offered by this profound cognition made possible by Love Divine, in the principle of consciousness-penetrating-all, and must make use of all possibilities, in order to get convinced that they cannot be described by words, by must be experienced, lived through.

I have mentioned the letters umlaut A and umlaut O as the last ones in this series of exercises, because by the help of their virtues one is able to comprehend, from the principle of consciousness-penetrating-all, the crown of all wisdom in the micro- and macrocosms, from the act of creation to the present state of evolution, and even to the final development.

Mental: Evoked in the intellect, the virtue of profound cognition brought about by love divine gives the understanding of the transformation of ideas, virtues, etc. by the quabbalistically pronounced word, which is a very great and comprehensive field.

Astral/ emotional level: In the feelings, the virtue of profound cognition brought about by love divine develops the faculty of perfect astral projection and the mastery of all occult and magical phenomena that have reference to transformation, so that a person may, for instance, assume any desired vibration in the emotional body without being recognized by other beings and with only Divine Providence seeing through him/her. Apart from this, a person is able to transform any emotional oscillation into the oscillation he wants and to do the same with any element.

Material: When mastered in the physical body, the profound cognition brought about by love divine leads to perfect knowledge of quabbalistic alchemy in the material world.

A person is taught the true preparation and charging of the philosophers stone in the physical sense. He/she can influence, at will, any

oscillationatomic, oscillation, electronic oscillation- by quabbalah, and he/she is able to transform it into the oscillation desired by him/her.

Therefore he/she perfectly masters the laws of transmutation and is able to transform any metal into gold, any stone into a precious stone, etc. if desired. By the help of this virtue a person is furnished with many other faculties of which he/she cannot even dream now and which non-initiates would regard as absolutely impossible.

Umlaut O is dark orange, has the musical note of D-sharp, is the element of akashic-earth which has the sensation of weight penetrating everything. The ovaries and testicles are formed from this virtue.

O justice and harmony. See above.

R Following inner guidance.

A This is the sound of the divine virtue of highest wisdom and enlightenment.

This sound [soft as in a sighahhhhhh] and virtue is an initiation into the highest wisdom and the purity of all ideas.

This has as a fundamental feature the enlightened mind. Reasoning, perception, the cognition of the most profound truths, highest knowledge, high intelligence, and the arousing of all intellectual faculties are expressed. Musical gifts, eloquence, poetic talent, and clairvoyance, clairaudience, the art of levitation, and the control of the air element and its beings are all aroused by meditating on this virtue. On the physical plane the command of the beings of the air, control over storms, are all made possible by initiation into the highest wisdom.

The color of wisdom and enlightenment is light blue, the musical note is G, the element is air so it has the sensation of ease, and the lungs are formed from it.

umlaut A The realization of wishes regarding physical matter is subjected to this virtue.

The sound of this letter, the long A, ae, in the cosmic language is the virtue of the origin and mystery of life and death regarding their transformation. By meditating on this virtue, a child of God becomes convinced that in reality death does not exist, for the so-called death is only a transformation from one state into another.

Also will come enlightenment on the cause of this transformation. With this comes the ability to master all negative spiritual beings in all spheres and planes with regard to their scope of action.

The purpose for which negative beings have been created becomes clear. Since, in the original principle all beings are alike, each having been created by Divine Providence to fulfill a certain task, there is no dissimulation of negative beings, for from the enlightened persons point of view everything is pure. Here the saying: "to the pure one everything is pure" becomes plain. If there were no negative beings, it would be impossible to distinguish between good and evil; and if there were no passions, there would also be no virtues.

This virtue confirms the words contained in the Bible: "through night to light", the deep symbolic meaning of which now becomes clear.

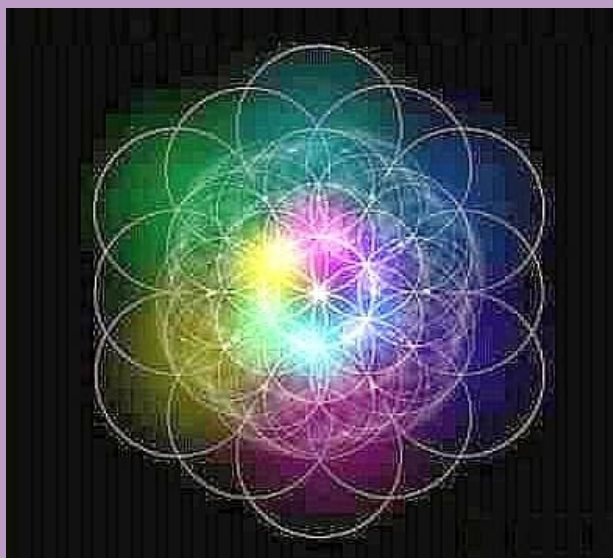

In the intellect the ability is gained to see through all thoughts, actions and wishes concerning matter, and of becoming their absolute master.

In the feelings, this virtue represents desires, passions, and the inclination to self-satisfaction etc. A person who masters this virtue in their feelings becomes absolute master and ruler of all desires and passions. Also, a person is able to not cling to mental, emotional, and material virtues and objects. This means complete independence and freedom and fulfills the saying "bind yourself and you will be free".

On the material level this virtue is one of the most materialized. No matter whether you evoke it in the mind, the feelings, the akasha, or the material world, the earth is influenced by it to a larger extent. The ability to infuse matter with divine virtues is heightened.

The color of this virtue is loamy brown. The musical note is C. The element is earth so it has the sensation of weight. The anus is formed from this virtue.
